New Edition

OF THE

DOCTRINE AND COVENANTS

JUST PUBLISHED!

A New, Revised, Enlarged, and Improved Edition of the Doctrine and Covenants of the Church of Jesus Christ of Latter-day Saints, containing the Revelations given to Joseph Smith, Jun., to the present time, including the building up of the Kingdom of God in the last days.

Printed on fine paper, from new, large clear type, and containing nearly 300 pages.

To the revelations there have been added a number of additional revelations never before published, making the matter contained in the present edition about one-third more than in any former edition, and a full and complete Table of Contents has been added.

Orders from abroad must state how they will be filled in regard to the kind of binding.

Mailed to any part of the Territories on receipt of price.

BY TELEGRAPH.

FOR WESTERN UNION TELEGRAPH LINE.

CONGRESSIONAL.

HOUSE.

WASHINGTON, 20.—During the consideration of the postoffice appropriation bill, the appropriation for post route maps was increased from $25,000 to $40,000.

Blount offered a substitute regarding the pay of fourth-class postmasters, giving them all of the box rent, the commission on unpaid postage collected, receipts from wrapping paper and postage stamps and cards cancelled in matter actually mailed at their offices, provided that they do not receive over $250 from any one quarter, exclusive of money-order commissions.

Hewitt (Ala.) moved to make the compensation the same as now.

Cannon favored Blount's amendment as a check on the dishonesty now practiced, by which the government loses a million dollars annually.

Blount's amendment was agreed to.

The provision for special mail agents was stricken out and the committee then rose.

Tucker, from the ways and means committee, reported a bill taxing tobacco, incomes, etc., but White objected to making a special order, and it was referred to the committee of the whole.

Glover made a personal explanation, denying the statement of the New York *Tribune* that his investigating committee had found that $5,000 had been loaned out of the funds belonging to the House, to a member of Congress. No such thing had ever been heard of.

Conger attempted to show that the charge was against a member of Congress, but Glover said it was against the sergeant-at-arms, and so far as his committee was concerned, the story was wholly unfounded. Adjourned.

EASTERN.

Panama Railroad Dividend.

NEW YORK, 20.—The Panama Railroad Company has declared the usual quarterly dividend of 3 per cent.

Stock Market.

Stocks were considerably excited and fluctuated widely. Northwestern common declined from 53½ at the opening to 48, and went back to 52, and fluctuating in the meantime, closed at 52½. The general belief was that the whole movement was a scoop.

Failures in the United States.

Dun & Company's mercantile agency reports the number of failures in the United States during the first quarter of the year at 3,355, with $82,000,000 liabilities, as compared with 2,559 failures and $54,500,000 liabilities during the same period last year. The agency explains, however, that the last was an exceptional winter, the worst for 20 years in its effects on the general retail trade. The results anticipated from abundant crops had not been realized. The stocks purchased to supply wants had been unsaleable and necessarily sacrificed. The shrinkage of resources have also been enormous. The extension of mercantile agencies' operations has also brought into classification a multitude of smaller dealers, which has swollen the number of failures reported. Despite these discouraging figures, there are abundant evidences of a solid, healthy business revival in the west, the influence of which is felt here to a considerable extent. The western movement is stimulated partly by emigration to Kansas, Nebraska, Minnesota and Texas, which is more active now than during several years past.

Another Walking Feat.

BUFFALO, N. Y., 20.—John Ennis, the Chicago pedestrian, accomplished the feat of walking 400 miles in 128 hours, having nine minutes to spare.

A Seaman Murdered by his Captain.

PHILADELPHIA, 20. — Upon the arrival a few days ago of the British bark *Chili* from Havre, it was reported by Captain Oliver that the first mate, C. A. Kriuz, had been killed by a fall on a ring bolt, and was buried at sea. To-day, one of the seamen made an affidavit at the British consulate that Kriuz was killed by the captain, who struck him on the head with an iron brace pin.

Horrible Murder.

COLUMBUS, Ga., 20.—Harry Love, of Lexington, Ky., aged 35, was murdered by Dowdell Adams, and thrown from a bridge window, 30 feet high, into the Chattahoochie River. The body was brought by the murderer 27 miles. Adams has been arrested. Robbery was the motive.

Guilty of Murder.

MAUCH CHUNK, Pa., 20.—Chas. Sharpe, charged with complicity in the murder of George K. Smith, on November 15, 1863, has been found guilty. This is the same murder for which McDonnell was convicted on the 15th inst.. Thomas Dakin is now to be tried for participation.

The Champion Rifle shot.

OMAHA, 20.—This afternoon, Dr. W. F. Carver, of San Francisco, the champion rifle shot of the world, broke 86 out of 100 glass balls, using a Winchester rifle. Carver is *en route* to the eastern cities and Europe.

Wool Market

BOSTON, 20.—There was an increased demand for wool the past week, but prices of fine fleeces settled down about 2 cents per pound, while in other grades no material change has taken place. It is believed that prices have touched the lowest point. The transactions in Ohio and Pennsylvania fleeces were the largest for several weeks, comprising 223,000 lbs. principally at 38 @ 39 for X and XX. The outside price for the best XX fleeces is now 40, and it would be difficult to force any considerable quantity off at this figure. Sales of Michigan fleeces at 36 @ 39, the latter for fancy lots, and medium Wisconsin at 36. Combing and delaine wools are quiet, the only sale comprising 10,000 lbs. at 45. Pulled wools are in fair demand; sales of 140,000 lbs. at 30 @ 44 for super and X, but mostly in the range of 32 @ 40. Small lots of choice super sold at 41 @ 44, but 40 may be considered the outside price for desirable super. The sales of California wool the past week amounted to 424,000 lbs. at 16 @ 25 for spring, and 15 @ 19 for fall. The total sales of domestic for the week was 1,165,100 pounds.

Wood's Tariff Bill.

WASHINGTON, 20.—From another correspondent: The undercurrent of opinion here now is that the Wood Tariff Bill cannot pass at the present session. There is a growing disposition not to touch the subject, except after careful deliberation, to avoid mistakes that might prove greater evils than the present crude tariff. The real pressure for the revival of the income tax comes from the south, which threatens to defeat Wood's bill, unless northern thrift is thus plundred and punished. But the scheme is unlikely to succed, such is the general detestation of the inquisitorial process by which alone the tax can be collected.

Sherman's Successful Negotiations.

Secretary Sherman is flooded with congratulations upon his recent successful negotiation with the New York syndicate for placing 50,000,000 of 4½ per cents. It is accepted generally by financiers as making resumption sure. Hence the fact that many banks throughout the country are paying out gold as readily as currency, and that the outflow of specie to Europe has ceased as well as the inflow thence of United States securities. Practical resumption is asserted to have already turned the great hoards circulating medium, thus producing inflation. Another good sign is reported in the marked rise in stocks, from the purchases for investment rather than speculation, by conservative men, who now feel that the bottom has been reached at last. In the light of these events, the last hope for further legislation to embarrass resumption has fled.

TEXAS.

Indian Raiders.

SAN ANTONIO, 20.—Reports reach here that the Indian raiders who crossed from Mexico one week ago, have reached the Fort Ewell sheep settlements and are sweeping the flocks before them and several persons are already reported killed. The troops and citizens are in pursuit, but not likely to overtake them. The river is fordable at all points near Laredo. These raids are not to be confounded with those raiding on the north-western frontier.

WESTERN.

Treasure List.

SAN FRANCISCO, 20. — Treasure list of the *Belgic* to Hong Kong: Trade dollars, 165,467; Mexican dollars, 75,653; silver bars, $32,018; Peruvian dollars, 1,800; gold coin, $5,960. To Calcutta—silver bars, $52,350.

An Absconding Clerk.

A Valparaiso correspondent of the *Call* writes that Chas. H. Barth, formerly clerk in the United States Quartermaster's office in this city, and who absconded some time the latter part of 1876, a defaulter to the amount of about $50,000, arrived at Valparaiso in January, 1877, from Tahiti on the bark *Talweya*, remained there a few days and left for a German settlement near Mendoza.

Best Time on Record.

At the Bay district track, to-day, "Controller" was backed to trot 20 miles within an hour, to wagon, for $500 a side. The track was in fine condition. The odds were in favor of the horse about four to three. The horse ran in 58.57, coming in fresh. Best time on record. Officers of the Society for Prevention of Cruelty to animals were present, but found no ground for interference.

FOREIGN.

GREAT BRITAIN.

The Eastern Question as Viewed by a Correspondent.

LONDON, 20.—Your correspondent has always based his confidence that England and Russia would not go to war on the eastern question upon the conviction that England could not afford to demand more than Russia would concede, as war's alternative. That situation remains unchanged. Russia will eventually recede in some form from her refusal to submit the whole treaty of San Stefano to European arbitration. This will save the British honor without depriving Russia of the practical fruits of her victory over the Turk, as these will have been already garnered by continental diplomacy. It will restrict Russia's power for further acquisitions, without wresting from her grasp what she had already seized with the intent to maintain it. It seems quite clear that Austria and Germany will not uphold Roumania's objection to Russia's reacquirement of Bessarabia. They will insist on the freedom of the Danube, but they sympathize with the Czar's desire to recover the territory at its mouth, of which he was formerly despoiled. In Asiatic Turkey, Russia cares for little beyond a port and one stronghold to protect it. The rest she will easily abandon, if necessary.

The recent change in the Turkish ministry has slight significance for either England or Russia. The latter doubtless gains much by the dismissal of Ahmed Vefyk, her most active and able opponent. But this was accompanied by the retirement also of Reouf and Osman Pashas, who were pro-Russian in sympathies. In any event, it is now apparent that the armies will not be disbanded in time to participate in this year's agriculture pursuits. They will combine to be consumers and not producers for months to come. California grain growers, accordingly, may reasonably anticipate another good European market for their crops, at fair prices.

The Military Situation at the Turkish Capital.

A Pera correspondent, writing on the military situation at the Turkish capital says: Although many things warrant the supposition that the Turks would fight to keep the Russians out of Constantinople, they have not distinctly made up their minds to do so; but, admitting the intention on the part of the Turks to resist Russian occupation, it does not appear that the 90,000 Ottoman soldiers around the capital are an insuperable barrier to surprise. The Russians know very well that if they wait to make a *coup de main* until war is declared, the chances against them will be much heavier than if they make it before hand. They have everything at their command, force, money, diplomacy and intrigue. It does not require very lively imagination to conceive how, when Russia has made up her mind that it is necessary to come into Constantinople she will secure her prize. Restlessness in the Russian camp is increasing every day. The temper of the whole camp is one of almost irresponsible fretfulness. Anything is better than to sit still, rotting in filth, dreaming vainly of home and watching death—sowing and reaping, and, according to reports which I believe to be true, the peaceful spirit has fled from the camp and the idea of war is again welcome. With this spirit abroad, and as far as I can learn, it is not confined to the less reflective or irresponsible ranks of the army it must not be overlooked that the temptations to a *coup de main* are very great.

RUSSIA.

Germany's Negotiations.

ST. PETERSBURG, 20.—The *Agence Russe* says: If the news that the withdrawal of Russians and British from the vicinity of Constantinople is authentic, it shows the important phase of negotiations reached under Germany's powerful influence.

ITALY.

Strength and Vitality of the Pontificate.

ROME, 20.—At the Easter reception of cardinals, to-day, Pope Leo dwelt upon the strength and vitality of the pontificate. He said the war which had been declared against the papacy from the earliest times continues with undiminished fierceness. Trusting in God, we are ready to carry on the warfare and to uphold the rights of the church. The pontiff concluded by expressing the hope that the erring children would finally submit.
