Sheba Made Defendant in Two Actions Filed in the District Court.

ONE IS TO RECOVER MONEY.

The Other Seeks to Foreclose Mortgage and to Collect \$7,000 With Interest.

The Sheba Mining company was made defendant in two suits filed in the district court today, one of which is to recover on a promissory note and 10? money loaned to the company and the to other is to foreclose a mortgage on the morning. property of the company. L. C. Lawton is plaintiff in the first action, and he asks judgment for \$13,700.68, alleged to be due on a note executed by the company on May 14, 1994, and also for the sum of \$5.598 for money loaned to defendant between April 6, 1903, and May 15, 1905.

In the other action Eleck F. Hail, president of the company, is plaintiff and asks that his mortgage be fore-closed and that he have jugment for \$7,000 with interest, and also \$700 attorney's fees. In this action Owen Sheridan is made defendant with the company.

DR. LA MOTTE WINS

Gets Judgment for \$400 Against Mahoney Bros., Contractors.

Judgment in favor of plaintiff for \$400 with interest and costs, has been renwith interest and costs, has been ren-dered by Judge Lewis in the case of Dr. Henry La. Motie against Maloney Brothers, contractors. The action was brought to recover for medical services rendered to James Sullivan, who was injured by a blast while working for defendants about a year ago. Defend-ants agreed to pay for the services renfered by plaintiff and gave Sullivan \$200 to pay the doctor, but it appears that the man spent the money other-wise and the doctor never received it.

Some of the telephone wires broken by the wind fell across the heavily charged electric wires, and for the time were a source of much danger. William Westcott drove his hack into such a wire at Troub South and State streets and drove his hack into such a wire at Tenth South and State streets, and the horses were electrocuted, remaining alive perhaps a minute after the con-tact. Dr. J. S. Richards was in the hack being driven by Westcott, but neither were injured. As the horses became tangled up in the wire, flames shot up into the air, and for an instant they were enveloped in them. Up in town, signs were blown down, awnings blown into the street, and

awnings blown into the street, and walking was anything but agreeable. Toward morning, there was quite a display of thunder and lightning, and in the southern part of the city a heavy hail storm, which further north became daylight came. Towards night, the air became frosty and the walking easier became frosty and the walking casher as the stush began to freeze up; and to-day, it is considerably colder, with every prospect of more snow before to-morrow morning. CONTRACTS FOR CUCUMBERS.

Freight Rate on Flour to Los Angeles Cut in Two---What Manufacturers Are Doing.

Within a month Utah dinners may be eaten with Utah pickles as a side dish, and Utah millers can ship Utah flour to Los Angeles after tomorrow for lers than half the sum now charged in freight. These two events have been secured through the action of the Manufacturers and Merchants' association and as its membership is growing until prospective manufacturers, and the railroads, are coming to realize that it is not a factional organization, but represents a movement behind which is

the moral force of the community, its suggistions and requests are meeting with more consideration. The preliminary work looking to the stabilshment of a pickie factory was carried on without any announcements being mode, as the leading mover was an employe of a large Denver pickie

an employe of a large pervet pickle factory, and did not wish to be known in the matter, until pians were per-fected. Now, he states, the factory will be operating by Feb. 16, and will make contracts for at least 300 acres of cucumbers for next season, if the tarm-ers are willing to produce the land. The contracts will be similar to those of the sugar company, giving the fac-tory's experts the right to choose the picking time and the seed time. Pickle tanks will be built in Davis county where the product can be stored until the factory needs it, and until the Utah crop macures pickie naterial will be imported. The machinery is now on the way here, and will be set up in a rented building until a permanent structure can be erected.

WHAT MANAGER SAYS.

C. W. Mount, who is at the head of the new company, comes here from Denver. Mr. Mount states that his factory will employ obout 35 persons to start with, and the wage list will be increased as the business grows. He is an expert plokle man, and knows the local field through his operations in it as agent of the Denver house. Hs brings with him a foreman of experi-ence, who will have control of the fac-H

RATE CUT IN TWO.

The freight rate on flour to Los An-geles was secured by Secy. Cleaveland on a trip to Los Angeles, from which he has just returned. The old rate was 62 cents a hundred, and the new rate is 30 cents, a reduction of over haif. Utab ships a large part of her flour Utah ships a large part of her flour away, and us destination is often the orient. Shipments direct to Los An-geles at this rate, for loading there on

orient bound steamers, will effect a big saving, and allow the business to be conducted on a much more general plan.

Samuel Newhouse returned from the east last night, and he was about the busiest man in Sait Lake today. During the greater part of the forenoon he was closeted with Manager Lafayette Hanchett and several members of the staff of experts in the employ of the companies controlled by the Guggenhelms.

Although the Salt Lake public has been anxious to know what the result of the conferences had in New York between Mr. Newhouse and the GugsenhelmAmerican Smelting interests, Mr. Newnouse indicated to the newspaper men that he had nothing to say. "But," said a "News" representative to the mining magnate, "as you probabiy know, the public has been treated to an assortment of rumors about the progress being made with the negotia-tions between yourself and representa-tives of the American Smelting company for the taking over of the Boston Con. and Cactus and some kind of a

statement is expected from you." "I know, that is very true", replied Mr. Newhouse," but all these stories have been built up entirely on antici-pation and nothing in fact. While there have been some meetings held in New York in which Utah mining matters were discussed, there is absolutely nothing that I can give out now."

It was learned during the day that several of the Guggenheim experts had pulled out last night for Beaver county to conduct an exhaustive examina-tion of the Cactus property, which is while there is no longer any secret about their late visitation to the Bos-ton Consolidated in Bingham. That the proposed amalgamation will

take place there is no longer very much doubt, expressed in mining circles; but it will probably take several weeks yet to bring negotiations to a focus. In the meantime, the public must be conwith more guesses on what tenf likely to happen.

ABOUT NEWSPAPERS.

Striking Things That Great Men Some Have Said About Them.

A correspondent requests that we print some of the striking things great men have said about newspapers-that is, sayings that embody the purpose and

doings of the press. With pleasure. Bryant said: "The press is good or evil, according to the character of those who direct it. It is a mill that grinds all that is put into its hopper. Fill the hopper with poisoned grain, and it will wind it to meal but there is death in grind it to meal, but there is death in the bread."

ALEX GILLESPIE DEAD.

Man Hurt in Cactus Mine Succumbs To His Injuries.

After suffering for two weeks from the results of an accident received at the Cactus mine, Alexander Gillespie, Jr., died

Cactus mine, Alexander Gillespie, Jr., died Sunday morning at the Holy Cross hospi-tal. Mr. Gillespie was a resident of Provo, and the remains were taken to his home today for interment. The accident occurred Jan. 2 at the Cac-tus mine at Nowhouse, where Gillespie was employed as a miner. While he was at work a timber fell from a loaded cage, striking him on the head, and fracturing it hadly. He was brought to the Holy Cross hospital, where an operation was performed in which part of the skull was removed. The patient seemed to be recov-ering until Friday, when his condition he-came worse, and continued so until his death Sunday. Mr. Gillespie was in the Salt Lake in-ternal revenue office until Dec. I, when he went to work at the Cactus mine. He was is years of age, and was married, his wire and one child surviving him. The funeral services will be held from the Fifth ward meetinghouse in Provo Tues-day afternoon at Locka.

SCRIBES AND PHARISEES.

Subject of Lecture Delivered Sunday By Dr. Talmage. The subject of yesterday's locture at Barratt Hall was "Scribes and Pharfsees." Dr. Talmage began his discourse by describing the characteristics of the Fincipal sectarian divisions among the Jews at the time of Christ's mortal probaion amongst them, and dwelt particuon Pharisees. Sadducees and Scribes, with briefer mention of Essenes Rerodians and Gallleans.

The Pharisees were separatists; they manifested so extreme a care for exter nal observances, as to utterly ignore many of the more important requirements. Not content with the law as given through content with the law as given through Moses, they added a lengthy code found-ed on tradition; and has come to regard the traditions as of greater import than the law. The Sadducees rejected all addi-tions to the law, and ridicuid certain doc-trines of immortality of the soul, and the eventual resurrection of the body. While Pharisees and Sadducees were generally bostile to each ether, they joined forces,

past bad blood has existed between H J. Robinson, editor of the Bingham Bulletin, and Atha T. Williams, form-erly town marshal but now deputy sheriff at that place. It is said that the strained relations grew out of the publication in the Bulletin of certain acticles in which Williams and the articles in which Williams and the town officials were denounced in most vigorous terms. Saturday morning about 10 o'clock, Robinson, acting as attorney for a certain party, stepped into Williams' office to leave some papers, when the deputy sheriff warned him to keep out. This the latter paid no attention to, and as he proceeded in-side the door, Williams, it is said, pulled out his revolver and held it by his side, awaiting developments. Robinson made no attempt to reciprocate, and on the county attorney giving both men a little sound advice, the incident closed, with no blood shed on either side.

DEBATES WITH COLORADO.

Enties for the debate between the University of Utah and Boulder were made today, Karl Hopkins and Dale Park entering for the preliminary of the affirmative, and J. E. Moss and Mr. Ray entering for the negative. The preliminaries will occur the third Wed-nesday after the half-year, which is Feb. 4 and the debate will take place here April 15. One week from to-morrow night the Utah students will debate with Denver, at the Salt Lake theater.

ECHO OF HOLD-UP.

Boys at University of Utah Reprimanded by the Faculty.

There will be an entire change at the orpheum tonight and the management promises a treat. For the headliner the Four Juzgilng Normans, a quartet of boys, have been secured. Their act is something out of the ordinary run of club-swinging. The sketch is in the hands of the Horsky, Bergess company. The boys who participated in the recent amateur holdup at the University of Utah, were today roundly reprimanded by the faculty, who admininstered a sound rebuke and told hands of the Horsky-Bergere company, the discipline of the school demanded that they respect each other's rights. Those lectured were "Cuddy" Russel, E. S. Jones, W. T. Nuttall, F. W. Deming an H. E. Havenor,

The freshmen who were found guilty of stealing the sophomore's punch were also handled, these consisting of "Tub" Hennessy, Archie McAllister, F. B. Talmage and Frank King.

Dunn is out for the sprints, and Hyde is expected to do well with the pole vault and 220-yard events. At the hammer, Critchlow will get into trim, while Harris will prepare for the mile run, and Stenhouse, also a new man, will likewise try for the running events. Morris, of the football team, is expected to develop into a wonder at the high jump and pole, and will train for these positions exclusively. It is expected that after the squad is
