

APPROPRIATIONS SIMPLY ENORMOUS

Prospects Are That Those of
Present Session of Congress
Will Break the Record.

VERY MUCH LEFT UNDONE.

Roosevelt's General Policies Secretly
Touched Upon—Important Matters
Will Have to Go Over.

Washington, Feb. 28.—Now that 50-
tion dollar sessions of Congress are the
rule, little other appropriation legis-
lation can be enacted during the session,
and the one to end this year is
no exception to the rule. The appropria-
tion probably will be the largest on
record, even exceeding the \$1,000,000,000
provided for at the first session. As
only one of the 12 general appropriation
bills has been sent to the president
for his signature, an accurate statement
of the amount to be appropriated is
impossible.

GENERAL POLICIES UNTOUCHED.

Secretly one of the general policies
of the country were touched upon this
session. The discussion of the great
service, the Panama canal, the Brooklyn
viaduct and the Tennessee coal and
iron company purchase has brought
the Roosevelt administration prominently
into view. The vote of the senate
bill, because the committee for the taking
of the due diligence returns were
not to be placed under civil service
regulations, was a feature of another
interesting chapter. This bill goes over
to the special session.

The appropriation of \$500,000 for the
relief of the Italian earthquake sufferers
has been spoken of as the most
significant enactment of the session. A
companion piece of legislation was en-
acted in the first session, when the re-
mission of the remainder of the Chinese
indemnity was authorized.

Appeals from many sections of the
country were successful in obtaining a
law for the preservation of the Califor-
nia big game in California. An act
of great importance to western home-
owners authorized the enlarged home-
stead entries in the arid region. In the
closing hours of the session the fate
of many highly important measures
will be determined.

It remains only for the two houses
to approve the agreement already
reached by the conference of the two
bodies. As a result of this legislation
the government will, through a "rider,"
enter the field of regulating the inter-
state shipment of intoxicating liquor.
An amendment to the code prohibits
interstate "c. o. d." shipments of in-
toxicating liquors, and provides for the
marking of the packages of such
liquors in interstate commerce with
the name of the consignee and the na-
ture of the contents.

"STATEHOOD BILL CAN'T PASS."
The statehood bill, admitting Arizona
and New Mexico, is still in committee
in the senate. It is conceded it can-
not pass this session.

The fate of the Billinger ocean mail
subsidy bill rests with the house. It
has been reported out of committee, but
its passage through the house is prob-
lematical. It provides for subsidizing

mail lines to South America, Japan,
Asia, Philippines and Australasia.

Many important measures are
expected to be introduced. Among these
are the Burke wireless telegraph bill,
the Weeks forest reserve bill, the
\$25,000,000 bond issue for improve-
ment of waterways, changes in the
government of the Isthmian canal zone,
federal inspection of naval stores and
crude oil, and suppression of gambling in
certain states.

A movement to amend the rules of
both the senate and house has attracted
much attention. In the house there
has been an organized open opposi-
tion, but in the senate the opposition
did not go beyond some sharp criti-
cisms by new senators. In the house
the movement will cause the establish-
ment of a "sabbath day" for the call
of bills every Wednesday.

About 28,000 bills and 1,500 resolutions
were presented in both houses.

Of these about 773 public bills will
be introduced. There will be about 173
private bills enacted. About 39 resolu-
tions were agreed to.

ROOSEVELT'S POLICIES.

Early in the Congress the president
outlined his policies as follows:
A national child labor law, an em-
ployer's liability law, anti-trust legisla-
tion, amendments to the Sherman
act, and for labor unions, financial
legislation, postal savings banks, re-
vision of the tariff, water ways com-
mission, regulation of water rights on
navigable streams.

When the session ends there will be
no national child labor law, no postal
savings bank, and no additional regu-
lation of water rights. An employer's
liability law has replaced the one
declared unconstitutional. A commer-
cial currency law was enacted and a
monetary commission is investigating
the subject of further financial legisla-
tion. Active steps looking to a revision
of the tariff have been taken. All
through the session the house com-
mittee on ways and means has been en-
gaged in securing a tariff bill. A waterways
commission is now in existence, and an
investigation has been made looking to-
ward the better regulation of water
rights on navigable streams.

The adoption of a greater naval pro-
gram marked the Congress. In each
session two giant battleships were
authorized. Aerial navigation, however,
was not recognized in the appropriation
bill. The salary increase of those in
the government service was another
feature. This included men and officers
in the army and navy and kindred
branches of the government, the salar-
ies of the president, the vice-presi-
dent, the speaker, members of the su-
preme court, cabinet officers, senators
and members.

ETHEL ROOSEVELT'S ENGAGEMENT DENIED

Washington, Feb. 28.—An emphatic
denial of the report that Miss Ethel
Roosevelt is engaged to marry Third
Asst. Secy. of State William Phillips
was given out from the White House
tonight. Secy. Loeb said:

"The report of Miss Roosevelt's en-
gagement is pure invention. There is
absolutely no truth in it."

UNEMPLOYED DEMAND WORK.

Chicago, Feb. 28.—A committee to
wait on Mayor Duane and ask for work
was appointed today at a meeting of 80
unemployed at Hull house. The Chi-
cago Association of the Unemployed
was formed.

SPEAKER CANNON IS MUCH INCENSED

Because of An Attack Upon Him
And the Rules of the House
Of Representatives.

DEFENDS THEM VIGOROUSLY.

While Not Ideal They Have Stood the
Test Among Those Who Know
And Use Them.

Washington, Feb. 28.—Incensed by an
attack alleged to have been made upon
himself and the rules of the house
by Edward J. Higgins, president of
Success Magazine, Speaker Cannon to-
night made public a letter vigorously
defending the rules.

"The rules may not be ideal," he
writes, "but they have stood the test
among those who know them, in spite
of half a century of denunciation such
as Mr. Higgins puts forth. The founda-
tion principles were laid down more
than a century ago under the leader-
ship of Jefferson and Madison. They
have been perfected from year to year
to meet the needs of a growing repub-
lic."

"I receive letters from men who de-
sire the legislative, the executive,
the judiciary, the law, the church and
the rules of the house. One publisher
makes it a point to denounce the nar-
rowing influence of religion on our
civilization, and demands legislation
that will destroy this influence; and
denounces the fundamental law of the
land, and would destroy the Constitu-
tion and the statutes; a clever stock
broker sends out bulletins attacking
the executive, and another advertiser
attacks on business. Mr. Higgins
attacks the same methods to attack
the speaker and the rules of the house."

"He attacks the present speaker as
representing the interests—whatever
that may mean. I confess I do not
know, but I have noticed the use of
the expression by those who, while
ready to attack men, in public, still
have a regard for the liberal laws and
seek to discredit without assuming the
responsibility for simple and direct ac-
cusations which they might have to
prove or suffer the consequences. Mr.
Higgins has this same respect for the
law while he apparently makes free to
insult unworthiness against law-
makers."

"As to the criticisms Mr. Higgins
makes of the rules and the administra-
tion of them by the speaker, I need not
say, his letter shows he knows nothing
of what he writes. That will be
evident to anyone who has ever studied
the rules or observed carefully and
honestly their administration. A man
who, without having studied the law
or practiced in the courts, should criti-
cize and denounce indiscriminately the
law and the courts, simply because he
had heard the complaints of lawyers
who had lost their cases, would re-
ceive from the community the attention
to which his ignorance and his pre-
sumption fairly entitle. But it seems
that anyone, after having sat at the
feet of persons disaffected with legis-
lation or prejudiced in the courts, should
propose legislation, may be-
come a patriot and a model of opinion
by denouncing the rules which adjust

AUSTRIAN MURDERED FOR HIS MONEY

Missoula, Mont., Feb. 28.—Late Sat-
urday night the dead body of Angelo
Steniff, an Austrian laborer, was found
in dark recesses near the west end of
the St. Paul passenger depot. A deep
hole in his head, evidently made by a
sharp instrument, presumably a pick.

Early this morning Pete Bradovich,
also an Austrian, was arrested in
Tart, Mont., while attempting to pass
checks amounting to between \$200 and
\$500, drawn in favor of Angelo Steniff.
Immediately after the discovery of
the body of Steniff the Idaho officials
started an investigation, which led
them to Tart. In search of the man
supposed to have committed the deed,
Steniff was known as a steady work-
man, and had in his possession when
last seen alive pay checks for over \$500.
Bradovich and Steniff had been room-
mates and suspicious points toward
him. When the Idaho authorities
learned of the arrest of Bradovich for
attempting to pass the checks, to which
he had forged Steniff's name, they were
convinced that the former had some
connection with Steniff's murder, and
demanded that the Montana officials
surrender him. The deputy sheriff at
Tart, however, refused to do so, and
Bradovich will be charged with forgery.

SALOON IN COLORADO POLITICS.

Denver, Colo., Feb. 28.—At a meeting
of the Anti-Saloon league held today
State Senator Skinner charged that
the saloon element is spending large
sums of money in influencing legislation
in Colorado. The object of the meeting
was to protest against the modification
of the local option law which provides
for a local option ruling by precincts
instead of by wards.

EX-CONVICT'S REVENGE.

Missoula, Mont., Feb. 28.—To avenge
himself on the husband of the woman
for whose wronging he had just com-
pleted a five-year term in the peniten-
tiary, Joseph Brown today shot and
killed Robert Gilruth while the latter,
accompanied by his brother, was walk-
ing along the road near Chickerman's
mill, six miles west of Lolo, Mont.
Brown was arrested in Missoula a few
hours later and a brother of the slain
man is held in custody as a witness.

When arrested for the crime, Brown
declared that he had been attacked by
the Gilruth brothers with an ax and
other weapons, and that he shot in self-
defense. He was wounded in several
places, and it was while having these
injuries dressed here that he was cap-
tured. The brother of the dead man
flatly denies Brown's statement, and
declares that he and his brother were
deliberately ambushed by Brown.

APPEAL TO ASTRONOMERS FOR CO-OPERATION

Cambridge, Mass., Feb. 28.—An ap-
pel to astronomers to co-operate in
following the movement of newly-dis-
covered asteroids of outer planets has
been issued by Prof. Edward C. Pick-
ering of the Harvard observatory and
Rev. Joel H. Moulton, the eminent
astronomer.

Rev. Mr. Moulton says:
"I now have about 15 new asteroids
which have been discovered sufficient-
ly long to assume gene orbits. It was
found by the astronomers of the
naval observatory at Washington. But
a recent letter from the acting
superintendent shows such is not their
intention."

Prof. Pickering says:
"The discovery of the asteroid Eros
of the group, whose mean distance is
approximately that of Jupiter, and of
the variation in light of several astero-
ids, has given a value to this depart-
ment of astronomical research which it
did not have previously. For two or
three years much useful work was done
by the naval observatory in following
the asteroids found by Mr. Moulton,
and it is hoped its abandonment by the
naval observatory is only temporary.
It is eminently fitting that such work
should be carried on by the government,
as is done in Germany, since it cannot
be maintained at private observatories.
Meanwhile, some of the asteroids men-
tioned above will soon come to opposi-
tion. These ephemerides for their use
computed, they cannot be found, and
there is danger that they will be per-
manently lost."

ENGLISHMAN ARRESTED FOR CRUELTY TO CHILDREN

Paris, Feb. 28.—Intense interest has
been aroused in Paris by the arrest at
Amiens, a suburb, of an Englishman
named Sargent and his wife, who is
said to be an American belonging to a
wealthy family, on the charge of
gross ill-treatment of four children
whom they adopted.

The police state that the couple have
been in the habit of advertising in
English and Belgian newspapers, offer-
ing to adopt children for a money
consideration. The servants employed
by Sargent and his wife allege that the
woman was guilty of great cruelty.

The English and American colonies
are particularly wrought up over the
affair. It is stated that the last child
adopted by the couple was a blind baby
of a maid servant, born in Holy Trinity
lodge, a well known institution in the
Latin quarter. It was handed over to
Mrs. Sargent by the directress of the
lodge after careful inquiries to an ad-
vertisement, which, appearing in an
English paper, seemed to establish the
good repute of the Sargents.

CARNEGIE FOUNDATION.

Third Annual Report of That for Ad-
vancement of Teaching.

New York, Feb. 28.—The third annual
report of the president and treasurer
of the Carnegie foundation for the ad-
vancement of teaching was made pub-
licly in the city of New York on Sat-
urday, Feb. 27. Seventy-eight names
were added to the retiring allowance
at a total cost of \$115,765. The dis-
tribution of the allowances ranged
from Maine to California. The maxi-
mum amount of a retiring allowance
was increased from \$3,000 to \$4,000 and
the pension will be granted to the
widow of a professor in an accepted
institution who has for 10 years been
married to the professor.

President Henry Smith Pritchett of
the foundation says much has been
done to end political interference in
state colleges and universities. He cites
the trying experiences at the Univer-
sity of Wyoming during the past year,
where, in the former case, the presi-
dent was dismissed and in the latter
the president and several professors
expelled because of political interference.
These experiences are not likely to
happen again in any part of the coun-
try, he says.

The present assets of the foundation
are \$1,762,612. The total income for
the fiscal year ending Sept. 30, 1908,
was \$530,805, and total expenditures
\$287,072, leaving \$243,733.

SHOOTING OF R. J. H. FINK.

Chicago Tragedy Develops Into a
Double Mystery.

Chicago, March 1.—The shooting of
Richard J. H. Fink, who was killed
while he was a half-block from home
early Sunday, has developed into a
double mystery. The police discovered
that another man, after being shot at
the same place and at the same time,
also died early in the day.

Morris Fitzgerald, a walking delegate
for the Bartenders' union staggered
into his residence shortly after mid-
night and within a few minutes of the
time of the shooting. He was shot in
the abdomen. He died six hours later
at a hospital.

SOLDIERS WARNED AGAINST WOOD ALCOHOL

New York, Feb. 28.—Maj.-Gen. Leon-
ard Wood, commanding the department
of the east, has issued a general order
to the officers in the department, com-
manding them to impress upon the
enlisted men the deadly effects that
follow the drinking of wood or dena-

Cured of Bronchitis BY CHAMBERLAIN'S COUGH REMEDY

W. E. WHEELER

I take a few doses, and I have not been bothered any more. I have much cause to be grateful to the manufacturers of this remedy."

Chamberlain's Cough Remedy

This remedy is especially suited to the treatment of bronchitis, as it causes the expulsion of mucus from the bronchial tubes, making breathing easier, and minimizing the danger of contracting pneumonia. This remedy has a world wide reputation for its cures and can always be depended upon. It contains no opium or other narcotic, and may be given as confidently to a child as to an adult. Price per bottle twenty-five cents, large size fifty cents.

Bronchitis is a much more serious
disease than an ordinary cold, and much
more likely to result in pneumonia. It
is commonly spoken of as a cold on
the lungs. There is little if any dan-
ger, however, when Chamberlain's
Cough Remedy is judiciously used.

Only Few Doses Required

"Before I learned of Chamberlain's
Cough Remedy I suffered with an attack
of bronchitis two or three times a year,
and each attack seemed to be worse,"
says W. E. Wheeler, 423 W. Ninth St.,
Los Angeles, Cal. "The medicine the
doctor prescribed seemed to give me
relief, but did not afford a cure. My
daughter used Chamberlain's Cough
Remedy in her family, and one day
when I was visiting her she advised
me to try it. I felt so wretched that I
was willing to try almost anything, and
so took part of a bottle she had on
hand, and then bought a large bottle
and one more, and that cured me.
