

LOCAL BUSINESS THE PAST WEEK

No Marked Change Shown in
General Run of Commercial
Events.

RIGHT DEMAND FOR MONEY.

Real Estate Situation Satisfactory—
Bankers Had Plenty To Do
Retail Trade Has Been Fair.

The business situation for the week has not shown any marked change in the general run of commercial events, but the indications showed an advance all along the line. The banking situation has not shown any special features, except that the clearing house transactions were for the most of the week behind those of the corresponding dates of the previous year. However, banking men say there is no particular significance in this slight aberration. The business of the banks for the week has been very good and steady, with rates about the same, and a rather light demand for money. Deposits are holding their own, and showing an increase over the deposits of one year ago.

REAL ESTATE SOLID.

The real estate men report business steadily good, though without any marked or spectacular features. The demand for residence properties continues steady, and while there are good houses of three and four rooms, there is a scarcity of the happy medium residences. Dealers report the prospects of half a dozen additional apartment houses the coming spring, as there is quite a demand for sites for such purposes. The success of the apartment houses already built is a guarantee of success of future efforts of a similar nature, and Mr. Bransford may build his great series of flats on the Eighteenth ward square as soon as he can get ready, with the certainty of their becoming profitable property as soon as occupied. It is said that such property returns an income of 20 per cent on the investment. The great Over flats will be occupied immediately on their completion.

PLANS FOR RESIDENCES.

Architects are having plenty to do at present with plans for residences to be erected some now, in hopes of getting them under roof before the long spell of wet, snow weather comes on, and excavations will be made for others till fall and winter, with expectations of putting up the superstructures as soon as pleasant weather opens again and mild skies are to be seen once more in the spring. There is a good deal of building going on now, with the present stress of fine weather, and the situation is made more agreeable by the increase in the supply of brick. The smelters are decreasing their demands, although the Garfield smelters and settlement will be calling for steady supplies for the next two years, if not longer. The brick makers report creeping up at a good rate on the orders, and claim that with the opening of spring they will be found with plenty of material on hand for the early calls.

BOOM IN HARDWARE.

The hardware trade reports business strictly on the boom. In fact their ability to deliver goods is gauged by their ability to secure teams. One manager spent yesterday afternoon chasing about town trying to find teams, but was unsuccessful. They were all engaged, and at good wages. The trade reports the demand particularly good in

Run Down From Grip.

DR. WILLIAMS' PINK PILLS CURE
THIS FORM OF DEBILITY.

After-Effects of Grip Responsible for
Much Severe Suffering That This
Remedy Will Relieve.

"Four years ago," says Mrs. F. Morrison, of No. 1222 Carson street, South side, Pittsburg, Pa., "I took a cold which turned into the grip. This trouble left me all run down. I was thin, had backache much of the time, my stomach was out of order and I felt nervous and unstrung. "While I had the grip I had a doctor, but I really suffered more from the condition in which the influenza left me than I did from the disease itself. I felt generally wretched and miserable and the least exposure to cold would make me worse. I couldn't seem to get any better until I began to take Dr. Williams' Pink Pills. I very quickly noticed a benefit after I began taking them and they restored me to good health and strength. Dr. Williams' Pink Pills are a wonderfully good medicine. Thanks to them I am now in fine health and have had no return of my former trouble. I recommend the pills to everyone who is ailing and take every opportunity to let people know how good they are."

Dr. Williams' Pink Pills cured Mrs. Morrison because they actually make good, red blood. When the blood is red and healthy there can be no debility. The relation between the blood and nervous system is such that the pills have a very decided action upon the nerves and they have cured many severe nervous disorders, such as partial paralysis, locomotor ataxia and St. Vitus' dance, that have not yielded to ordinary treatment. Their double action, on the blood and on the nerves, makes them an ideal tonic.

\$5,000 REWARD—The Dr. Williams' Medicine Co. has authorized the cashiers of the Union National Bank, Schenectady, N. Y., to pay the sum of \$5,000 upon proof of fraud on the part of the company in the publication of the foregoing testimonial, or any others using in making known the merits of Dr. Williams' Pink Pills.

All druggists sell Dr. Williams' Pink Pills, or they will be sent by mail postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

harnesses, horse blankets, collar pads, carriage robes, sleigh shoe steel, pipe of all kinds, general mining supplies, tin and granite ware, all kinds of sporting goods, stoves, chafin dishes, shelf and builder's hardware, etc. The long standing trouble is still experienced in securing anything like prompt attention to orders back east. Dealers report inability to supply the demand for roller skates, as this form of amusement has apparently become epidemic. People from one end of the state to the other have caught the infection, and in fact the whole country seems to have gone roller skating crazy.

SHORTAGE IN LUMBER.

The lumbermen still tell the story of car shortage, with poor outlook for relief. However, some shipments are being received from Oregon when comes all of the general run of lumber, the Californian being used for finish work. Dealers report prices as steadily rising owing to the scarcity and the demand. As crops can not be moved until the middle of December, there will not be hopes of enough cars to move the lumber until that date. The local trade is very good, and one dealer reports having moved more stock during October than he has now in his yards.

CHRISTMAS TRADE.

Jobs in Christmas novelties report a very heavy trade, with re-orders being received, and an increasing number of customers. Some rural stores have already sold out their stocks and are ordering larger consignments than ever. This will evidently be the heaviest season in local experience. Mechanical toys and dolls are as usual having the preference in the retail demand.

ORDERS NOT FILLED.

Wholesale grocers are busy shipping

out Thanksgiving supplies, including currants, raisins, citrons, canned goods, etc. There is much complaint about the scarcity of boxes for canned goods, and it is reported that some orders for boxes given last May, have not yet been filled.

WHOLESALE DRY GOODS.

The wholesale dry goods trade reports an active season opening for wash goods, with bleached cottons stronger than a week ago, and heavy buying of fine goods, a rise in napped goods, print goods scarce, and a steady call for gingham. There is also a stronger demand for cotton dress goods, and linen prices are again advancing. The wholesale trade locally is quiet, with prices stiff, and the difficulty being still experienced of getting orders of even long standing filled. Jobbers report the largest dry goods business in the history of the trade, and, owing to the shortage on primary stocks, they have been unable to duplicate orders on many lines of domestic goods, including hosiery, underwear and dress goods. The retail trade reports an excellent business in skirts, suits, waists, dress goods of all kinds, fine needle work, cloaks, jackets, and millinery, while trade is slow in underwear and bed clothing because of the mild weather. The market continues short on long gloves, with prices advancing, as manufacturers can not secure materials twice as much of which is now required as formerly, when gauntlets were not used. The fashion set in suddenly, and manufacturers found themselves short in short order of material, most of which is imported.

CLOTHING AND SHOES.

The clothing trade is only fair this week, the mild weather being responsible for its being rather lax. Then the election had its effect, though this does not seem to have operated on the other trades so much.

The shoe trade is very good. Traveling men report a good spring business, and retail dealers report that the next spring will see a big revival in the white canvas shoe business. In fact, manufacturers are laying in big supplies for this class of goods, and making heavy drafts on sea island cotton fabrics for the manufacture, so that when steady weather returns in May next, white shoes will be seen everywhere on the streets.

BUSINESS NOTES.

Brokers report that the market has been exceptionally quiet during the week. Very few transactions have been recorded, and very few changes are noted in the local list, the advances having been confined to Deseret National and Deseret Savings bank stocks.

BANK CLEARINGS.

New York, Nov. 9.—The following table compiled by Bradstreet shows the bank clearings at the principal cities for the week ended Nov. 8, 1906, with the percentage of increase and decrease as compared with the corresponding week last year:	
New York	\$1,899,901,781 2.9
Chicago	214,047,499 4.3
Boston	157,990,233 3.1
Philadelphia	149,486,984 2.1
St. Louis	55,836,581 5.9
Pittsburg	46,096,058 1.9
San Francisco	47,071,148 20.4
Kansas City	28,553,529 3.9
Los Angeles	11,711,539 23.1
Omaha	9,992,719 9.9
Milwaukee	10,559,614 8.6
Denver	9,719,434 40.6
Seattle	11,219,136 53.1
Portland, Or.	11,145,875 27.6
SALT LAKE	5,740,640
Total U. S.	\$2,002,455,844 3.2
Outside N. Y. C.	1,092,554,063 3.5
Total Canada	\$ 96,818,863 16.9

NIGHT AND DAY BANK.

Will Have Automobile With Safe in It
To Collect Deposits.

New York, Nov. 10.—The Night and Day bank of this city, has started an innovation which it is expected will please business men who make late deposits. To make late collections and to avoid the risk of sending deposits to the bank by messenger, the bank officials have had built a specially designed automobile, containing a huge safe, which will call on all regular depositors.

Each depositor who desires to have his money taken to the bank by the collectors receives a metal dispatch box, numbered and inclosed in a leather case. In this he puts his currency and checks, and when the machine comes around he turns the box, locked over to the messenger, who gives him a receipt for the box "contents, unknown." On the stub of the duplicate receipt which the messenger is to take back to the bank is a memorandum of the box's contents. When the messenger gets the box he drops it into a slit in the automobile safe, and as the safe is built like a letter box, the deposit boxes cannot be removed save by someone knowing the combination of the safe. At the bank the boxes are taken out and the receipts checked off with the deposit slip that has been locked in the box. The new system last night.

STRANGE CAUSES RETARD TRADE

Traffic Delays Have Severely
Handicapped Many In-
dustries.

THERE IS ALSO LACK OF HANDS

Cannot be Secured Despite High Wages
Offered—Several Strikes
Threatened.

New York, Nov. 9.—R. G. Dun's Weekly Review of Trade tomorrow will say:

Business experienced the customary interruption during election week, but a more permanent retarding influence was the inadequate supply of freight cars and many industries are severely handicapped by traffic delays.

In other cases there is idle machinery because hands cannot be secured, despite the high wages offered. This difficulty threatens to reduce the output materially. Several strikes are threatened, and one railway system alone has advanced wages to the extent of \$1,000,000 monthly. Retail trade is well maintained by lower temperatures in some sections of the country and the full employment of labor at all points, while wholesale business in household goods is very heavy.

Interrupted movement of grain to primary markets and the consequent restrictions of foreign business, as well as activity in northwestern flour mills, checked the upward tendency of quotations and caused some reaction. Western receipts of 6,339,673 bushels of wheat for the week compared with 6,644,123 bushels in the corresponding week last year, while exports from all parts of the United States, flour included, amounted to 2,885,573 bushels, against 1,900,062 bushels a year ago.

Liabilities of commercial failures thus far reported for November amounted to \$1,221,312, of which \$637,789 was in manufacturing, \$472,537 in trading, and \$10,815 in other commercial lines.

SILVER AT 80 PREDICTED.

Denver, Nov. 4.—"Silver is going to reach a price of 76 or better within two years and it is going to hold that price," said George W. Roberts, director of the U. S. mints, in an interview here today. "I believe that hundreds of silver mines throughout the west which have been shut down for more than 10 years because of the fall in price will be opening again within a year, simply because the price of the metal will make it worth while." Mr. Roberts continued: "And, further, let me state, this is no speculative or boom market. The price of 71 today will be better next month and it will steadily and naturally advance point at a time until a high mark, possibly near 80, will be touched."

SILVER PURCHASES.

Washington, Nov. 9.—The director of the mint today purchased 100,000 ounces of silver for delivery at Denver at \$1.827 cents per fine ounce.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result; and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.

OUR POLICY

Doing the square thing by our customers is a policy strictly followed by us. We assure them full Lumber satisfaction at every point spent. We want your trade, large or small.

BULLFROG RUSH MINING COMPANY.

TO STOCKHOLDERS:

Recent developments on the Bullfrog Rush property are such that we do not feel justified in further disposing of treasury stock at the original promotion price.

The values reported in the wine, on which the early great hopes of this splendidly located property were based, have not held out at depth, and at the present workings the assays obtained were so unsatisfactory that we cannot at this time further recommend the purchase of the stock.

To all who have purchased Bullfrog Rush Mining Company shares from the L. M. Sullivan Trust Company we make the following proposition:

Return the stock to us and we will refund you the amount you paid for it or you may select from our new promotions any other stock you like before it is listed.

THIS OFFER IS GOOD UNTIL JANUARY 1.

L. M. SULLIVAN TRUST COMPANY, Goldfield, Nevada.

Bullfrog Rush Mining Co.

GOLDFIELD' NEVADA, NOV. 6, 1906

TO THE PUBLIC

We desire to state that the use of our names in the advertisement of the so-called Union Securities Company of Nevada as directors of the Bullfrog Rush Mining Company, in which it is stated that six million dollars' worth of ore is already blocked out in this property, is unauthorized, and that according to our best information the statement is absolutely and UNQUALIFIEDLY FALSE.

The property is unquestionably a splendid prospect, and during the course of its early development held out great hopes of becoming a great mine, but at this time the best average assays obtained in the lower workings are from sixty cents to one dollar per ton. There is a large quantity of ore that has been opened up in the mine and upper tunnels which gives assays of from fifteen to thirty-five dollars per ton, but this, in itself, after deducting the cost of mining and milling does not establish for this property a valuation of \$25,000, which on a capitalization of 1,500,000 shares at the par value of one dollar, offered at fifty-five cents per share, would be the case.

We retain our positions on the directorate of the Bullfrog Rush Mining Company for the present in order to protect important interests, but we want anybody who intends investing in the stock of the Bullfrog Rush Mining Company that if he does so it is at his own risk, nor do we in any way endorse any other venture of the Union Securities Company of Nevada, of whose responsibility we know nothing. (Signed)

JOHN SPARKS, Governor of Nev.

Director of the Bullfrog Rush Mining Company.

L. M. SULLIVAN

President of the L. M. Sullivan Trust Co., Treasurer and Director of the Bullfrog Rush Mining Company.

JOHN D. CAMPBELL

Consulting Engineer; Director of the Bullfrog Rush Mining Company.
