San Francisco, 22.—The Republican State Convention nominated Lorenzo Sawyer and O. C. Pratt, for Judges of the Supreme Court. They adopted resolutions, the first of which pledges the support of the party to, and endorses the acts of, Grant's administration; the second says the negro question has ceased to be an element in American politics, and the ratification of the Fifteenth Amendment should be followed by an act of universal amnesty, and the enfranchisement of the Southern people. The first regards with satisfaction the increasing immigration to this State from the Atlantic States and Europe; but while giving preference to people of our own race, holds that inoffensive emigrants from China are entitled to the full protection of the law, but opposes Chinese suffrage in any form, and any change in the naturalization laws of the nation. The fourth recognizes the power of the General Government to restrict or prevent Chinese immigration by terminating our commercial relations with China, and believes the closing of our ports, at present, against the Chinese would be injurious to the material interests of the coast and a reproach upon the intelligence of the American people, and contrary to the spirit of the age. The fifth approves the eight-hour law; the sixth endorses the action of Congress in rejecting the *Alabama* treaty, and considers it to be the duty of the General Government to demand full reparation for injuries inflicted by the British Government and people upon our commerce during the late rebellion. Charleston, Michigan.—Great excitement prevails among the two wings of the Republican party here. D. Mackey, late collector, leads the native wing, which includes the mass of colored voters; while Senator Sawyer, Congressman Bowen, and Geo. W. Clark, the newly appointed collector in place of Mackey, head the northern element. The removal of Mackey has intensified the bitterness between the two factions. On Thursday last Clark called on Mackey, presenting his commission and demanding instant possession of the collector's office; Mackey refused to vacate until he had taken inventories of the public property and had received a receipt from Clark, but promised to make the transfer on the 31st inst. Clark insisted on immediate surrender, which being refused, he entered Mackey's office and attempted to act as collector, whereupon he was forcibly ejected by Mackey's subordinates. Yesterday Mackey and other custom house officers were arrested on a charge of assault and obstructing an officer of the Revenue, they were bound over to answer before the U. S. Court on Monday. During the hearing of the case, Clark with a posse of 30 men forced his way into the custom house and took possession, which he still retains. The same correspondent charges the recent outrages to the speeches of Representative Clarke, who advised the people to stand united as one man and no railroad could be built without their consent. Said he "Suppose the prairie grass should take fire and burn the ties, tents, wagons, engineers' instruments &c., could that be charged to you? I don't advise force to prevent this most damnable railroad swindle, but these accidents will happen in the best regulated communities. Now gentlemen," he concluded, "if any such thing should happen you must all be a-bed and asleep when it happens, or as soon thereafter as possible."

Chicago, 24.—Washington specials say that dispatches from Minister McMahon were received yesterday. He had received his letter of recall. His dispatches give little information not already published in the newspapers; he does not believe, however, that Lopez is near the end of his career. He is on cordial terms with Lopez and thinks favorably of him as a man and an official. There is a story afloat that McMahon will go to Europe in the interest of Lopez. Outside talk is not flattering to Secretary Washburne for taking advantage of his brief occupancy of the State Department to recall McMahon, who has rendered the United States far better service than Washburne's brother.
