## A TRAINLOAD OF DEPORTED MINERS.

Were Dumped Down on the Plains Of Kansas and Told to Hike To the East.

TROOPS THEN FIRED A VOLLEY

The Men, Practically Destitute, Were Left to Make Their Way as Best They Could.

GOV. BAILEY OF KANSAS TALKS.

If They Come to Kansas as Peaceful And Law Abiding Citizens Looking For Work, They Will be Welcome,

Denver, Colo., June 11 .- A special to the Post from Holly, Colo., says:

With a parting volley of rifle bullets fired over their heads by the militia and deputies to warn them to "hike" eastward as fast as their legs could earry them, and never again set foot on Colorado soil, 91 union miners from the Cripple Creek district were unloaded from a special Santa Fe train on the prairie this morning, one half mile from the Colorado-Kansas state line, and left to shift for themselves. The exiles were disembarked in hiaste and without ceremony. The guards and deputies were tired out and in ill humor from their long, tedious trip from the Telier county gold camp, and were in no mood to extend any special courtesies or kindness to their unfortunate charges. "HURY UP THERE!"

Hurry up there, you fellows," cried Lieut, Cole, when the train stopped in the midst of the alkali sand dunes that dot the prairie in the vicinity of the eastern part of Prowers county, near

le Kansas line.

"We haven't got time to waste out

pre," and no time was wasted. The
secial which consisted of an engine, a special, which consisted of an engine, a combination baggagecur and smoker, and two day coaches, had no sooner come to a standstill than the car doors were unfocked and thrown open and the order given by Lieut, Cole for the exiles to leave the train.

STEP LIVELY, YOU FELLOWS."

"Step lively, you fellows, step lively!" admonished Deputy Benton, who was in command of the civil force of the expedition, and in less time than it takes to tell it, the three cars were emptied of their unfortunate and units way back to La Junta,

DUMPED ON PRAIRIE.

The men were dumped on the cheer-less prairie without food or water, for the soldlers and deputies, in their haste to get home, had forgotten to unload the small stock of commissary supplies the train carried when it left Victor yesterday afternoon. The exiles were a cheerless lot, indeed.

the Santa Fe track and discussed their

MEN'S SPIRIT BROKEN.

Warned to move eastward on pain of being re-arrested and severely handled. and notified by the Kansas authorities that they would not be allowed to seek refuge in that state, the spirit of the men broke. Many of them walked back estward on the railroad to Holly, the Salvation Army settlement in Colorado, where the charitable inhabitants provided breakfast for them. Some of them later started to walk to Lamar,

MET BY SHERIFF.

A special from Coolidge, Kan., the first station east of the state line, says: Ninety-one miners were unloaded about three miles west of Coolidge at 4.30 this morning. They were accom-panied by 55 militia men. Sheriff Jack Brady and 40 deputies of Hamilton county ounty were at the state line to pre-ent the deported men from entering sansas. When the train stopped, the militia lined up on each side, ordered the miners to keep walking up the track and fired their guns off. The miners and fred their guns off. The miners say that they were driven into the cars like cattle. They are expecting transportation from Denver so that they may return tonight. They seemed to be well supplied with money, and peaceble. Most of the men have families They say that their wives and children wished to come with them, but the militia heat them off with their guns. The miners here say that there are to be more miners deported from Colorado to Coolidge. The sheriff has called on the governor of Kansas for protection.

TROOPS FIRE A VOLLEY.

Junta, Colo., June 11.-A special La Junta, Colo., June 11.—A special from Holly, Colo., a town near, the Colorado-Kansas boundary, says that the train load of deported Cripple Creek miners stopped half a mile west of the state line and that the prisoners were unloaded from the cars and ordered by Col. I. W. Kennedy, the officer in command of the guard, to "hike" to the east and remain outside the borders of this state. A yolley of shots, it is said. east and remain outside the borders of this state. A volley of shots, it is said, was fired in the air by the troops, who later boarded their train and returned to the west. The deported men were met at the state line by Shriff Jack Brady, of Hamilton county, Kansas, and 10 deputies, and were turned back. Since early morning the unhappy miners have been straggling into Holly, where breakfast was furnished them by the residents. Many of them are now walking to Lamar, Colorado.

DESERTED ON THE PRAIRIE. Kansas City, June 11.—A special to the Star from Syracuse, Kansas, says: A special train carrying 76 deported miners from Victor, Colorado, in charge of 56 Colorado militia men, reached a point on the main line of the Santa Fe road a few rods over the Colorado state line today, and were deserted upon the foad a few rods over the Colorado state line today, and were deserted upon the prairie, the train hearing the troops then returning westward. The deported men were left on the prairie to make their way east as best they could. At the point where they were set down, there is no eating house nor railway station, and the men were practically destitute.

Topeka, Kan., June II.—General Paa-lenger Agent Black, of the Santa Fe foad, said at II. o'clock toggy. "We have just received a sispatch"

from Coolidge to the effect that our special train from Victor, Colo., containing deported miners, ran to the state line two miles west of Coolidge and unloaded the men. The train then departed for the west. Three of the miners went to Coolidge, the others passing over the state line afoot into Colorado."

Asked if there was any place where the miners could get food, Mr. Black There is no eating house there, but

presume they can get plenty from the arm houses thereabouts." It was later learned that the miners who started west temporarily located at Holly, Colo., the big Salvation Army station

ABNER MCKINLEY DEAD. He Was Found Sitting in His

Chair Lifeless. Somerset, Pa., June 11.—Abner Mc-Kinley, brother of the late president, was found dead in a chair at his home at 8 o'clock this morning. His death came without warning to his family. His colored servant, who slept in his room, was up with him at 2 o'clock, and it is not known at what time Mr. McKinley got up again, as he did not waken his servant. Mrs. McKinley walked into his room at 8 o'clock and found him sitting in a chair cold and apparently dead. A physician was sumapparently dead. A physician was sum moned, who said death had probably oc curred two or three hours before.

ATTACKED BY HOODLUMS. Stoned an Automobile and Dan-

gerously Hurt a Lady in It. New York, June 11 .- From an ambush in the shrubbery along Eastern Park-way, Brooklyn, a gang of hoodlums has attacked a passing automobile driven by Dr. H. L. Miller, The doctor's wife and Mrs. Gundercht, who occupied the seat at her side, were badly hurt and it is feared Mrs. Gundercht will not re-

Stones, bricks and tin cans were showered on the party as they passed the ambush. Dr. Miller's arm was par-alyzed by a blow, and the machine collided with the curb. Both women were thrown into the diveway, adding to the hurts they had already sustained. Several firemen who happened nearby has-tened to the rescue, but the hoodlums

TRAIN ROBBERS SURROUNDED Sheriff Adams Says it is Im-

possible for Them to Escape. Glenwood Springs, Colo., June 11 .-- heriff Adams returned here late last sheriff Adams returned here late last night and reported that the Denver & Rio Grande train robbers were com-pletely surrounded in a paten of brush at the east side of the junction of Di-vide Creek and the Grand river. A posse of 100 deputies were picketed about the place and he expressed the belief that it was impossible for the men to escape except by swimming the Gran-river. At attempt to do that, he said seemed almost certain death, as the river at that point is nearly half a mile wide and has a tremendous current. The hunted men have not been able to obtain food anywhere during the

past 36 hours and must be almost at the cint of starvation.
Up to noon today the two bandits had not been found by the posse, numbering over 100, who are beating the brush in search of the fugitives. The thick undergrowth in the locality makes the pursuit dangerous.

PEACE COMING TO CRIPPLE CREEK

Provided General Bell Can Accomplish All That He Has Planned to Do.

WOMAN SIDE OF SITUATION.

Surest Ticket a Man Can Have for Deportation is a Wife With a Loose And Virulent Tongue,

Cripple Creek, Colo., June 11 .- Peace is coming to Cripple Creek if Gen. Sherman M. Bell, military commander of Teller county, can accomplish all that ne has planned to do. It will come through the forcible expulsion of all persons who owe allegiance to the Western Fede tion of miners or who express sympathy with the Miners' Unons. With the exception of the Portland Gold Mining company all the large companies and nearly all the operators, who are organized as the Cripple Creek District Mine Owners' association, require miners to surrender their cards as members of the Western Federation of Mines and take out cards from the Mine Owner's association before giving them employment. Union miners who renounce their federation will be permitted to remain in the camp if they have satisfactory records.

MEN ASK FOR CARDS.

Several hundred men applied at the Mine Owners' headquarters for cards yesterday and today but few were issued as the rule to investigate thoroughly the record of each applicant will be enforced. The mines are rapidly resuming work and by next Monday all except the Portland will be in full typeration, employing only non-union men. No radical steps have yet been taken to enforce the agreement of the business men in general to employ no members of unions connected with the local Trades Assembly, the American Labor union or kindred organizations.

DEPUTIES REDUCED. Order having been restored, Sheriff Edward Bell today largely reduced his force of special deputies. Since the re-cent deportations following the hegita of many strikers to avoid arrest and incarceration there remains in the coun-ty jall between 100 and 125 prisoners against whom criminal charges will be filed, it is said. About 100 in the Victor armory and Cripple Creek Mining Exchange hall many of whom are marked for deportation.

THE WOMAN SIDE.

The woman side of the situation has been one of the most troublesome to the military authorities and the citithe military authorities and the citi-zen's committee. Non-union working-men have been accustomed to receiv-ing insults and gibes from women in sympathy with the strikers but none of these has been arrested or driven out. However, the surest ticket a man can have for deportation is a wife with a loose and virulent tongue. Some men are sent away only that their wives

A PATHETIC CASE.

Striking Coincidence of Time in Death Of Two Clawton Children.

There is an unsuaully sad coincidence attached to the death and funeral of Louise, the 15-month-old daughter of Mr. and Mrs. Fred Clawson, which occurred yesterday afternoon at the family residence, 20 North State street. Almost within an hour of the same day and time two years ago Florence, another 2-year-old daughter of Mr. and Mrs. Clawson passed away from the effects of an abscess of the ear; meningitis was responsible for the death of baby Louise. The funeral occurred in the same room, when the same speak-er. Bishop O. F. Whitney delivered an address of consolation. The Whitney-Pyper quartet provided the music on both occasions, while the interment took place at almost the same time in the same lot at the City cemetery as

two years ago, The many friends of Mr. and Mrs Clawson sympathize with them in their sad bercayement. Louise was an exceptionally pretty and bright child, and never failed to attract attention as she toddled along the street beside her mother. The little one was out at the lake on Monday, where her winsome-ness, as usual, was in evidence. Upon arriving home she exhibited signs of sickness. Despite the fact that a doctor was summoned almost at once and loving hands tended her to the last, she passed away at 5:30 on Thursday morn-

UTAH PEOPLE AT FAIR.

Nearly 400 Had Registered Early This Week in St. Louis.

District Passenger Agent E. Drake of the Rock Island who returned yesterday from a visit to the world's fair says that the Utah exhibit is attracting considerable attention especially the display in the Agricultural building. This, which takes the form of a panorama view of Utah valley, he says is one of the neatest things in the building. Over at the State building Utah visitors are being well looked after and received with open arms. Up to noon on June 6, Mr. Drake says that \$96 visitors from Utah had registered, glanced over the papers on file from home and generally made themselves comfortable He reports that one can live as cheaply in St. Louis right now as he can in Utah and none need pay more than \$2 a day for a comfortable private room and fair board, providing they use disand fair board, providing they use discretion and are determined to economise. He also states that grafting, as operated at Chicago, is conspicuous by its absence. Now, he insists, is the time to visit St. Louis, as the crowds have not yet commenced to take possession, the fair is spick and span in its newness and everything is in place. Mr. Drake returned with his wife and family and spent a most enjoyable vacation in the east. The Rock island which is running into the new Island which is running into the new Wabash station at the fair gates, is carrying a big percentage of the Utah

Mayor Morris Issues Proclamation Asking for Its Observance.

IT IS A PATRIOTIC DUTY.

National Association is Making Similar Request from the American People Everywhere.

Mayor Richard P. Morris today issued the following proclamation concerning the observance of Flag day in this city on next Tuesday, June 14:

Whereas, June 14, 1904, will be the 127th anniversary of the adoption of the Stars and Stripes as the flag of the United States, and Whereas, Said day should and is to be generally observed and celebrated throughout the domain of our glorious country in commemoration of the

Therefore, I, Richard P. Morris, may-or of Salt Lake City, do request that the people of Salt Lake City on said day display the national emblem, so fai as it lies within their convenience, in order to express their approval of the sentiments awakened by such celebra-tion. And I further request that the Stars and Stripes be flung to the breeze from every church edifice, school and building, public and private, however humble, throughout the entire city on

such day, RICHARD P. MORRIS, Mayor.

A GENERAL APPEAL.

June 14 is the anniversary of the adoption of the Stars and Stripes as the American flag, and the American Flag association wants that day celebrated as it has never been before.

An appeal for the general observance of Flag day has been issued. It urges that every citizen, in one way or another, display a flag on that day. Mayors are requested to have flags displayed on public buildings in all parts of the state and to urge their citizens to decorate their houses with the national emblem. Editors are requested to advertise the day and to publish historical coments on the day. School officers and teachers are asked to arrange patriotic services. Finally, American patriotic societies and all American patriotic societies and all American citizens are earnestly re-quested to make June 14, the 127th an-niversary, a day of days.

## UTAH SMELTERS WILL HAVE TO PAY FARMERS BIG MONEY.

That is Result of Judge Marshall's Opinion in Famous Smoke Nuisance Cases Reported In Last Night's Deseret News-May Have to Buy Land From the People Who Live in Vicinity.

dispute between the farmers of this valley and the owners of the smelters as set forth in last evening's "News" has attracted attention among the farmers residing in the southern end of the Salt Lake valley. The controversy was settled by the opinion of Judge Marshall in the federal court in the case of David McCleery et al. against the Highland Boy, the plaintiff seeking to compel the smelters to condemn and purchase all the farms that are alleged to be ruined by the fumes emitted by the smoke stacks of the smelters, or that a perpetual in-

junction be granted restraining them from operating the plants.

The firm of Pierce, Critchlow & Barrette, who represent a number of plain-tiffs in the case, estimate that there will be 100 farmers interested in the

opinion means simply this." said Atty. Frank Pierce, "The smelter company will have to pay the farmers for the damage that has been done and for all that may be done in the future. In other words, it is in the nature of a condemnation suit, and institute the discharge of fumes and dust on the complainant's land be assessed in one action in lieu of an injunction."

The outcome of the long drawn out land within an extensive radius of the land within an extensive radius of the smelter, the value of the property, or the extent of the damage, past and future, to be estimated by a master in chancery, who will have to take evidence on the subject." dence on the subject

In his opinion Judge Marshall says:
"In a state of society the rights of
the individual must, to some extent, be
sacrificed to the social body; but this
does not warrant the forcible taking of property from a man of small means to give it to the wealthy man, on the ground that the public will be indirectly advantaged by the greater activity of the capitalist. Public policy, I think, is more concerned in the pro-tection of individual rights than in the profits to inure to individuals by the invasion of those rights.'
Commenting on the argument of the

plaintiffs, the court finds:
"The injury so inflicted does not deprive the plaintiff's land of all value
for farming, and, perhaps, does not extend to the entire tracts of land. The offer to submit to condemnation must then be considered as a consent that full damage for a perpetual easement to continue the discharge of tumes and dust on the complainant's land be as-

The opinion concludes: "The complainants, Andrew Swensen and wife, have no right to an injunction, for they have released the defendant from any Hability by reason of the operation of the smelter prior to Jan. 1, 1904. As to them the bill is dismissed. With respect to the other complainant the case will be referred to the matter (in chancery), to ascertain and report to the court the damage heretofore suffered by the respective complainants by reason of the operation of the smelter and for which they have not been heretofore compensated or re-ceived judgment, and the damage they will in future so suffer by a perpetual operation of the smelter to the capacity of its operation at now contemplated; that is the amount the right to continue the operation will decrease the present market value of the complain

"If within 30 days after the final assessment of this damage, and upon tender to the defendant of proper in-struments on the part of the complainstruments on the part of the complain-ants granting the right to continue the operation of the smelter, the defendant shall fall to pay the damage so ascer-tained, an injunction will issue. If, how-ever, the defendant makes such pay-ment the bill will be dismissed."

Gen. Kuropatkin is much interested

in the Red Cross work, visits the hospitals and speaks encouragingly to the patients. He never misses going to the station at time of the trains bringing wounded men and out of the funds sent from St. Petersburg gives them money according to their rank, one dollar and a half to an unmarried, two dollars and half to a married man, and as much is \$250 to officers. He also distirbutes medals to the

wounded who have performed acts of special bravery. JAPANESE STRENGTH.

St. Petersburg, June 11 (2:15 p. m.).— The view of the general staff is that if the Japanese column which reached Siu Yuen was not followed by either of the main armies in southern Manchuria, the Japanese have no present intention of advancing on Hai Cheng, but have sent forward a force as a feint, to menace and discourage as much as possible the dispatch of a heavy Russian force down the Liao Tung Peninsula. Neither does the general staff believe that the enemy's column at Saimatsza, even should it go so tar north as Djiand-jian, is of a serious character, the imjian, is of a serious character, the impression being that Gen. Kuroki continues to dangle before Kuroputkin's eyes a double objective; but that he is not yet strong enough to risk a real advance. This belief, is based on calculations that the enemy has not more than 130,000 men all told in Southern Manchuria and that only in the event of the Lagueres, attaining strength greatly in Japanese attaining strength greatly in excess of these figures was they be capable of a genuine forward movement. No fresh news has been received in regard to the situation around Port Ar-

Private advices from Liao Yang indi-cate that the Russian force at Fafan-dian is prepared to retire southward if seriously threatened.
