If Women Only Knew.

What a Heap of Happiness It Would Bring to Salt Lake City Homes.

Hard to do housework with an aching back. Hours of misery at leisure or at work.

If women only knew the cause. Backache pains come from sick kidneys. Doan's Kidney Pills will cure them. Salt Lake City people endorse this.

Mrs. H. Haynes, H. Haynes, retired, residence 2224 south State street, says: "For twelve or thirteen years I knew that my kidneys were not in the best of shape and after an attack of the grip in the winter of 1901 my aching back and the sharp pain across my loins became so pronounced that I could neither stoop nor straighten after stooping without suffering. I noticed that when in the 'violent' stage of my ailment I was unable to do anything in my power to check the cause and spent lots of money for physicians' treatment, but all my endeavors were futile. I was induced to try Doan's Kidney Pills and went to the F. J. Hill Drug Co.'s store for a box. To say that the treatment surprised me is putting it very mildly. Relief came in a few days and a short time afterwards the last attack stopped."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

The Genuine vs. Counterfeits.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Leabetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured my hemorrhoids. Blind, bleeding, itching and protruding piles no remedy is equal to DeWitt's Witch Hazel Salve. Sold by all druggists."

PROVO.

CITY ENGINEER RESIGNS.

Council Session - District Court - Wedding - News Briefs.

Special Correspondence.

Provo, Utah Co., Sept. 22.—There has been some dissatisfaction in the minds of the employment of Frank C. Kelsey as consulting engineer in connection with the proposed extension of the waterworks system in Provo canyon. Mayor Taylor, Engineer Tanner and Councilman Silver have not approved of it and as a result Engineer Tanner has resigned his position before the council at its meeting last evening. The resignation was accepted.

Mayor Taylor approved the resolution employing Mr. Kelsey and sent the following explanatory statement:

Provo City, Utah, Sept. 14, 1933.—Gentlemen of the City Council—There is in my hand a resolution passed by your honorable body which is a contract between the municipality of Provo City and Mr. Kelsey of Salt Lake City. I must say that I disapprove of the methods that have been employed in securing this contract. It is a question of the city's water system.

It was only the plain statement made by the committee having this matter in charge that Mr. Tanner had no intention of being associated with the work that I gave my endorsement to the formation of this contract.

In justice to myself I feel it proper to say what I have to the council. Further, I do not wish to complicate the matter by saying that I do not wish to retard in the least the improvements of our water supply, the responsibility for which lies largely with the committee on waterworks, for the reasons alone on waterworks, for the reasons alone on waterworks, for the reasons alone on waterworks.

THOS. N. TAYLOR, Mayor.

The motion adopted at the former meeting in relation to the material to be used in the way of paving was amended so that cement other than Allen's Portland cement, if equally good, may be used.

The bid of S. H. Belmont for paving the sidewalk on the court house block was accepted.

Howland, of Hialeah, Fla., says: "No better pill can be used than Little Early Risers for constipation, sick headache, etc." Sold by all druggists.

A NEW ENTERPRISE FOR SALT LAKE CITY.

THE AMERICAN SHOE REPAIRING CO.

Salt Laker may now enjoy the convenience of an up to date repairing establishment in the United States. This establishment will have the facility to do that class of work known as Welt sewed, McKay sewed and screwed work. Shoes soled and heeled can be done in so skillful a manner that they have the appearance of new shoes. The superiority over the old method is that ladies' medium priced shoes can be made as flexible as when new instead of being made stiff and hard by nailing them. Another and perhaps the greatest advantage is the price. Mr. Arthur Roby, who is launching his enterprise at 758 east Fourth South, when seen at his downtown office No. 124 Main street, says he can take a shoe, sole and heel them (sewed) in
