

## UNIVERSITY OF UTAH.

Prof. G. M. Marshall went to Provo today to speak before the Utah County Teachers' association.

Instructor R. L. McGhee's little daughter died from the effects of scarlet fever and was buried Wednesday evening.

The Wood Grocery company presented the university with a large barn door skate. This fish was recently caught on the Pacific coast near San Francisco. It is interesting on account of its size. Its two large fins measure four feet each. The fish is five feet long. Dr. Howard has mounted it for the university museum.

On Tuesday, Le Roy Mulliner, W. M. Worthington and Delbert Stayner, the L. D. S. U. James H. Steele, of the L. Y. A., and J. S. Munger, of Idaho Falls, were shown through the university buildings by David P. Howells.

Next Friday evening April 17, the fourth year normals will give a ball at Christensen's. The chaperones are Mrs. J. T. Kingsbury, Mrs. R. E. Little, Mrs. G. M. Marshall, Mrs. William M. Stewart and Miss Maud May Babcock. The committee in charge are D. P. Howells, J. O. Carter, R. S. Gardner, Ethel Bruce, Anna Wilcken, and Ethel Sutton.

The student body met on Wednesday to hear the report of the committee appointed to formulate rules governing the management of athletics. The old athletic association has been dissolved and the student body and it was decided to form an athletic council consisting of five members. Three are to be elected from the student body one to be a professor chosen by the faculty, and the other member to be the athletic instructor.

Next Friday afternoon there will be an inter-class athletic meet on the campus. A pennant will be given to the class winning the greatest number of points. All track men who have won any points on any previous meet will be barred.

The first year, second year, third year and fourth year normal classes and the sophomores have each organized a baseball nine.

As next Wednesday is Arbor day, all class work will be suspended. Early in the morning the University band will play on the campus until the students assemble, when they will be addressed by some prominent citizen of the state, after which all will engage in planting trees.

The university training school was not in session this week.

On Thursday the fourth year normals appointed Ernest Bailey manager of their track team. They also decided to go out on Arbor day and replace all the dead trees in their grove.

Last Tuesday Miss Laura Christensen was married to Mr. David S. McCurdy. Mrs. McCurdy is a prominent member of the University Dramatic club.

After paying all expenses connected with the Chronicle "last coat" and "hooded" last Friday night, the Chronicle management have \$50 left to put into its treasury.

Instructors Raymond and Brown, of the Salt Lake City High school, visited the University on Wednesday.

Mrs. Harvey Holmes is sick with scarlet fever and the family is quarantined. Richard Phoenix is conducting Instructor Holmes' algebra classes, and George C. Riser is looking after the track team.

Yesterday afternoon Dr. Bradford took his classes in metallurgy to visit the copper plant north of the city.

There was no issue of the University Chronicle this week.

Stanley Jonsson was in Provo Tuesday and Wednesday on business connected with the "extravaganza" to be given in the Provo Opera house next Saturday evening. The railroad has arranged for a special excursion to Provo that day. The "extravaganza" company will take a baseball nine with them and the L. D. S. U. basketball team will also accompany the party. A baseball game will be played with the Provo nine and the L. D. S. boys will line up with the B. Y. A. team. The B. Y. A. will entertain the visitors with a grand ball.

On Tuesday and Wednesday President Kingsbury, Supt. A. C. Nelson, Principal George A. Eaton conducted an examination for entrance to West Point Military academy. Walter Drake Brown, of Ogden, received the highest per cent. The alternates are A. R. Trauers, A. G. Dyer and Harry Bero. The vacancy at West Point is due to the graduation of Charles Telford. Mr. Telford was a former University student.

Principal Prosser, of the Bonneville school, and Mrs. Prosser, of the West Side High school, visited the university on Thursday.

On Wednesday William R. Calderwood Ernest Van Cott, Harold Van Cott and Lyman J. Skoen Jr., all former university graduates, were granted certificates to practise medicine in Utah.

Last night the Sophomores gave a ball in the museum building.

## SALT LAKE CITY SCHOOLS

The unsettled condition of affairs in the schools has deprived the teachers of much of the pleasure they might otherwise have enjoyed during this vacation. A general spirit of dissatisfaction has prevailed among the teachers who feel that a vacation at this time was most inopportune.

A passenger on one of the suburban streetcar lines might think that most of the principals of the city who live in that direction have gone in for agricultural pursuits most earnestly. Mr. Barton can be seen hoeing, Mr. Folsom nailing shingles on a new house, Mr. Keeler with a broken hoe, Mr. Bradford planting, Miss Quail through beating carpets, and so on down to Watervio; the teachers can be seen tilling in their yards.

Misses Katherine and Nancy Moffett will spend the summer at Atlantic City, N. J.

Miss Estelle Engleman returns from California to take her place in the Lowell.

Miss Rudy of the Hamilton spent her vacation in Tooele, Utah.

Mr. Wetzel has spent the week outlining music courses.

Mr. Nelson, principal of the Fremont, spent part of the week in Ogden.

Miss Beatrice Wilkinson of the Hamilton eighth grade entertained the teachers and friends most delightfully at her home on Monday.

Mrs. Edward Dorman, nee Mary Da-

vis, formerly of the Webster, will soon join her husband in Los Angeles, Cal. where they will make their future home.

Next Wednesday being Arbor day will be a holiday.

Alfred Siegel of the Lowell left Thursday with his parents for Washington, D. C.

Mrs. Nebeker, formerly Miss Hadger, now of Mammoth, is visiting her parents in the city.

State Supt. Nelson, City Supt. Christensen, Miss Pollock and Mr. Wetzel went to Mantle Friday to attend the County Institute where they addressed the county teachers.

Mrs. Smith, nee Farnes, of the

MISS EFFIE RIDDLE.

A Successful Teacher in the Primary Department of the Emerson.

Twelfth school spent several days in the city, her home is in Logan.

Miss Katherine McKensie will spend the summer in California.

Mr. Keeler's usually active matrimonial bureau seems to be running as successfully as usual this season. Dams Rumor has it that Cupid has ensnared several from among his charming corps of teachers at the Webster.

Miss Anna L. Coshett will have a summer sewing school during the vacation for girls.

Mr. Wetzel will conduct a reading and music class in Sanpete county after the school closes.

Supervisor Samuel Doxey will leave for Germany as soon as the schools close, where he will acquaint himself with the most advanced methods of teaching manual training in that land where it has proved to be such a success.

Miss Hortense Evans, Mr. John Evans and Miss Louise Burke of Brigham City have been visiting Mr. and Mrs. Parson the past week.

Mr. and Mrs. Prosser visited the university on Thursday.

We are glad to be able to report a great improvement in the condition of Mrs. Alice Wall, mother of Miss Katherine Wall of the Lincoln. Mrs. Wall is still at Holy Cross hospital.

## L. D. S. UNIVERSITY.

Elder J. A. McRae, president of the Colorado mission, was a visitor this week and spoke in a very entertaining and effective manner at devotional exercises on Wednesday.

On Thursday morning Miss Annie Spokes delighted the school assembly by singing in rich contralto voice, two beautiful solos, "Calvary" and "Never Again with You."

Principal Haug of the Academy at Paris, and Instructors Jarvis and Miss Reynolds of the B. Y. A. were visitors this week and severally addressed the school assembly in brief and pointed speeches.

The basketball team went to Cedar City yesterday for a meet with the Branch Normal. It will play at Cedar City tonight, returning in time for school on Monday.

Prof. N. T. Porter, principal of the Branch Normal school was a visitor last week. He gave the regular lesson in President Paul's class in pedagogy, and his instructions were much appreciated.

President J. H. Paul went to Mantle yesterday, where he is to speak before the combined teachers' institutes of Sanpete and Sevier counties. He will deliver a public lecture also and expects to return on Monday.

Another student of the department of telegraphy has taken a position this week. Lee Johnston, who has been

## THIN PEOPLE

want to get fat and fat people want to get thin—human nature. If you are fat don't take Scott's Emulsion. It will make you gain flesh. If you are thin Scott's Emulsion is just what you need.

It is one of the greatest flesh producers known. Not temporary gains but healthy, solid flesh that will fill out the body where it is needed.

There's nothing better than Scott's Emulsion for weakness and wasting.

We'll send you a sample free upon request.

SCOTT & BOWNE, 405 Pearl Street, New York.

studying telegraphy since October, has taken a position as assistant station agent at Idaho Falls. He passed the required examinations for the service in Pocatello last Monday, and went to work on Tuesday. He will receive a good salary, and writes to express his appreciation of the quality of the instruction he received here. This is an additional demonstration of the error of those who think that telegraphy can not be learned as quickly and as thoroughly in a good school as in the telegraph office itself.

A field for the use of the track team has been secured through the consideration of President Bishop Wm. B. Preston. At the rear of the business college, in the center of the block, there is a vacant lot about six by eight rods in dimensions. Around this ground a racing track is being laid out, and in the center of it a place for pole-vaulting, jumping, etc. A house which stands in the center, will be used for apparatus rooms. The field is only a few rods from the school buildings. Many students have been at work this year helping to prepare the field for athletic practice.

The class in glee singing has been practicing a delightful song in honor of our society of lady students. This organization is called "The Columbine." The Columbine girls elect their own officers, give programs, have special lec-

tures, and act as the reception committee at school functions. One of the stanzas of the new song, which is sung to the tune, "The Tale of the Bumblebee," is as follows:

Bright as the sunshine and pure as the dew,  
Star of all the flowers when you beamed  
on our view,  
Queen of our hearts, how the swift moments flew!

We're lonely now without you, and we long for you.

The chorus is to the melody of "In the Haytime Time," and runs as follows:

In my schoolboy time, when the Columbine,  
With its fair ones stole this heart of mine,  
Then their eyes of blue and their dark eyes true  
Led me captive to the Columbine.

Another of the glee songs is in honor of the Rho Beta Pi society, an organization composed exclusively of accredited made students of high standing, who are admitted by vote of the members and the endorsement of the faculty of instructors. This society represents the institution in debate and oratorical contests, and is organized as a court for the trial of students charged with violation of school regulations.

BRIGHAM YOUNG ACADEMY

Provo—Prof. Swenson is building an addition of several rooms to his home on Fourth North street.

Prof. Nelson is booked to lecture before the joint session of the Sanpete and Sevier County Teachers' associations, to be held in Mantle on Friday and Saturday of this week.

Scarcely a baker's dozen of students remained in the city during the spring vacation. Most of them went to conference, where they were joined by parents or friends.

Prof. E. S. Hinckley had one week's enforced vacation, owing to the fact that his home was quarantined for scarlet fever. The family is now convalescent.

Prof. Partridge has sold his residence on First East, and is preparing to build a new, up-to-date house elsewhere in the city. He spent one day in Salt Lake City this week, inspecting heating plants.

President McRae of the Colorado mission spent a day in the school last week, with the special purpose of getting a reinforcement to his present corps of missionaries.

Miss Talmage and Miss Schramm, of the academy training school, will present exercises before the joint Teachers' associations of Sanpete and Sevier counties, to be held in Mantle next Friday and Saturday.

A letter from the student body of the L. D. S. U., disavowing, and apologizing for, certain acts by students of that school during the recent college meet, was read last Thursday morning before the school, and a committee was appointed to make an appropriate reply.

President Cluff's avocation is horticulture. He has one of the finest fruit farms in Utah valley. He spent the latter part of conference week on Provo bench, directing and assisting in the grafting, pruning, and spraying of his trees.

Messrs. Jonassen and Buckle of the U. of U. spent two days in Provo this week arranging for the production by university students of an operatic extravaganza in the theater on the night of the 18th inst. The Salt Lake visitors will probably be entertained on the afternoon of that day by a dancing matinee at the academy gymnasium.

Everybody in Provo is cleaning lawns and yards, and trimming trees and shrubbery. That is to say, everybody male—including professors in very professional costumes. Experts of female is house cleaning, and giving orders to everybody male respecting carpets, gloves, wallpaper, etc.

Prof. Hyrum Beckstead, of the class of '97, and now engaged in the department of physics in the U. of U., got leave of absence to attend his brother

## Given Away Monday

And All the Week.
