

# MINING, BUSINESS AND STOCKS.

## PRODUCED NO SENSATIONS.

Business on 'Change is Small, Prices Practically Unchanged.

## LOWER MAMMOTH WEAKER.

Engle and Blue Bell Stationary—Four Aces Wanted—Sunbeam is Traded In.

## TODAY'S METALS:

SILVER 59  
LEAD \$4.40  
CASTING COPPER 15 1/2

The exchange call was productive of nothing striking today. The volume of business fell below that of yesterday, while prices are not materially changed. Mammoth sold at \$2.77 1/2 and Lower Mammoth was traded in at 34. Daisy hung around 14 while Engle and Blue Bell responded at \$1.50. Four Aces stiffened to 7 and Hercules was traded in up to 1 cent. Swansea participated at \$3.85 and a future on South Swansea went at \$1.18. Sacramento went at 2 1/4, Sunbeam at 6 1/2 and Yankee Consolidated at 12. Geyserdropped 200 at 25. Quotations were posted as follows:

## RAID ON THE INDUSTRIALS

It Was Followed by Noteworthy Losses, Especially in Iron and Steel Group.

Pinch of Sugar-Call Money Firm—Live Stock Lower—Produce Quiet.

New York, Dec. 7.—The upward movement of prices developed yesterday afternoon was continued at the opening today. Gains except in sugar did not exceed a fraction. Industrial specialties showed rather wider advances than the railroads. Round amounts of sugar and Brooklyn transit were offered until they had declined a point. Support was then offered and losses were recovered. A determined raid on the industrials dislodged many stop loss orders, which developed continental tobacco 2 1/2 and American 3. Other industrials were then assaulted and noteworthy losses followed, especially in iron and steel group. The railways ran off in sympathy but there was no official offering in that department. Bonds were dull and steady.

The pressure against the market relaxed in the last hour after the bears covered. Efforts were made with some success to bid up prices of the railroads. Union Pacific rose above last night's level. Railroads in some of the industrials reached a point and over. The close was quite active but irregular at mixed net changes.

### SUGAR.

Sugar—Raw—Steady, refined steady.

### MONEY AND BONDS.

Money on call firm at 70; prime mercantile paper, 5 1/2 per cent.

Sterling exchange steady with actual business in bankers' bills at 43 1/2 per cent for demand and 43 1/2 per cent for sixty days; posted rates, 47 1/2 and 48 1/2; commercial bills 43 1/2.

Silver certificates, 98 1/2 per cent. Bar silver, 59. American gold, 47 1/2. Government bonds easier; 2s reg., 4 1/2; 3s reg., 1.00 1/2; do coupon, 1.00 1/2; 4s reg., 1.33 1/2; do coupon, 1.33 1/2; 4 1/2s reg., 1.12 1/2; do coupon, 1.12 1/2; 5s reg., 1.12 1/2; do coupon, 1.12 1/2.

### CHICAGO MARKETS.

#### LIVE STOCK.

#### AD CHICAGO.

Denver, Dec. 7.—Cattle—Receipts 700. Market steady. Beef steers 3.50 to 4.50; cows 2.50 to 4.50; feeders, freight paid to river, 2.50 to 4.50; bulls, stags, etc., 2.00 to 3.50. Hogs—Receipts 900. Market steady. Light packers 3.75 to 3.80; mixed and heavy 3.50 to 3.85. Sheep—Receipts 250. Market unchanged.

#### REVIEW OF WOOL MARKET.

Boston, Dec. 6.—The American Wool and Cotton Reporter will say tomorrow: "There has been a very noticeable lull in business during the past week, the volume of transactions being less than one-half of that reported during the preceding week. This quieter condition of affairs is not unwelcome to the trade, as it gives them a chance to catch up on deliveries. The strength of the situation is in no wise weakened, owing to the continued firmness and hardening tendency of values abroad, which enable wool to be exported at a profit in case it is not wanted here. The market is in a very irregular condition and quotations on several grades are largely nominal. Holders' ideas as to the values of wool vary and some lots are held far above the market. "The sales of the week in Boston amounted to 6,472,200 pounds domestic and 348,000 pounds foreign, making a total of 6,820,200 pounds against a total of 6,315,000 pounds for the previous week, and a total of 3,537,000 pounds for the corresponding week last year. "Sales since January 1, 1899, amounted to 32,933,738 pounds, against 12,496,519 pounds last year at this time."

#### LONDON WOOL MARKET.

London, Dec. 6.—There was the usual attendance at the wool auction sales today. The offerings, which consisted of 10,522 bales, included a fine lot of Geelong, Queensland and New South Wales new clip merinos. The American buyers and continental representatives secured the bulk of the merinos at 20 per cent 35 shillings series, excepting the medium greasy, which realized an advance of 15 per cent. Fine-haired greasy was taken by American buyers at 25 per cent advance over the last series.

## DIVIDEND OF SILVER KING.

Regular Monthly Amount is Declared Today at the Park.

## LION CON. DEAL TALKED OF

Smelter-Sampler Trouble Decided—Good News from the Chicago—Placer Work in Montana.

The directors of the Silver King met today in Park City and posted the regular monthly dividend of 3 1/2 cents a share, or \$50,000. It is well known that the treasury balance of the Silver King is in a very healthy state and this fact has led to the supposition that the bonanza might hand out something in addition to the customary amount. This has not been done, it was learned this afternoon, from Secretary Lamb at the company's office, Park City. The total amount paid by the company foots up to almost two and a half millions.

### REMOVAL OF A BIG DEAL.

Said to Concern a Tintic Property and to involve \$80,000.

It was reported on what appeared very good authority today that Mr. A. E. Hyde and others of this city have in hand a proposition involving values of \$80,000. The deal, it was said, is just about consummated and the basis of the transaction is a Tintic mining property. Mr. Hyde has been devoting much of his time to the deal, and during the past few days, and could not be seen today to confirm the report, though diligent effort was made to find him.

### HORN SILVER MEETING.

Officers Elected for Coming Year—Washington Officers.

A meeting of the directors of the Horn Silver was held yesterday afternoon at which Allan C. Washington of New York was elected president; Juan M. Caballero, vice president; A. J. Harrison, secretary and treasurer; and P. T. Farnsworth, manager. The above named gentlemen, with John Sharp, T. B. Moore and Mr. Whitlock, constitute the board of directors.

A dividend, if one is declared this month, will not be posted until Mr. Washington reaches New York. A meeting was also held of the directors of the Washington-Frisco Mining company, at which Allan C. Washington was elected president; M. C. Morris, secretary and treasurer, and P. T. Farnsworth, manager.

### SEVIER COUNTY NOTES.

Expected that the Sevier County Mill Will Start Up Next Summer.

During the winter work at the Sevier mill will be conducted by Samuel Whitford. Mr. Lamoreaux recently came up to this city for the winter, but all work has not been stopped. A force of five men are steadily prosecuting development work in the face of the most promising conditions. The upper tunnel has been driven in 340 feet on a vein which has widened to 14 feet, 10 of which is said to be a new strike in chloride ore carrying gold and silver in paying quantities. In the spring the lower tunnel, which is now in 700 feet, will be pushed to the ledge which is believed to be less than 50 feet ahead. It is expected that on reaching this ledge the mill will be started on ore. Development work is being prosecuted by Barney Middlemas and Hy Hansen on the Frisco A. under a contract which will require all winter to complete.

Lynch and Crane, owners of the General O'Connor, have recently let a contract to Gus Hallett for a three hundred foot tunnel on that property. This is to tap a 7 foot vein of gold ore located by a former tunnel at greater depth.

### PLACERS IN MONTANA.

Preparing for Extensive Work in Alder Gulch Next Spring.

Thomas Beisenger is in the city from his claims near Baldy Mountain, Montana, and reports a great deal of mining activity in that district. More attention is being given at present to the placer ground in Alder Gulch and on Ruby river. The former extends from below Virginia City around towards the Baldy Mountain, while the latter heads up in the Gravelly Mountains. It is thought that the auriferous deposits of both gulch and river originally came. A great deal of ground has been lately taken up in Alder gulch as well as on Ruby river, and preparations are being made for the most extensive dredging and placer work next spring.

### AFTER THE LION CON.

Party of Boston Capitalists are Now Considering its Purchase.

A party of Boston capitalists are reported to be in the city for the purpose of securing the Lion Consolidated mine at Stockton. Two experts have lately visited the property and submitted their report, and negotiations are now being carried on regarding the price. It was expected that something would transpire this afternoon in reference to the pending deal.

### THE SAMPLER TROUBLE.

None of the Mills Check and Equal Distributions will be Made.

A decision has now been reached in the disagreement between the American Smelter company and the Day-West people, in reference to the sampler trouble. Ore from the Daisy-West has been sampled and re-sampled at the Macintosh, Conklin and Taylor-Bruntson Samplers and none of them agree. "The difference is not very great," said Mr. J. J. Daly today, "but it amounts to something in treating ore shipments like the Day-West. We have no suspicion of anything crooked."

## BEECHAM'S PILLS

cure bilious and nervous ills, sick headache, disordered liver and impaired digestion. 10 cents and 25 cents, at all drug stores.

on the part of the sampler people, but think the trouble has arisen from the machinery used in each mill. The tests are not yet satisfactory and we have decided to divide our product equally between the three samplers and hope in this way to get at the heart of the matter, as the Day-West ore is of a very uniform grade."

### APPLICATIONS FOR PATENT

Filed in the Land Office During the Week.

3,000—J. T. McHugh of Salt Lake City, applies for a patent for the Copper Hill No. 2 and Copper Hill No. 3 lodes containing claims, situated in the West Mountain mining district.  
3,004—J. K. Freeman of Mercur, Tooele county, has applied for a patent for the Juneau No. 8, Juneau No. 5, Juneau No. 10, Juneau No. 7, Juneau No. 6, Juneau No. 5 and Juneau No. 4 mining claims, situated in Ophir mining district, Tooele county.

### WEST ARGENT ORE.

Offer of \$15.20 a Ton for Ore that has been Concentrated Heretofore.

A chunk of fine looking glaucon ore was brought to town yesterday from the West Argent at Stockton. A test has been made on some samples of ore which has hitherto been concentrated, and an offer of \$15.20 a ton has been received by the company from the smelter for all that they have of the same grade. This means quite a saving to the company as heretofore, it has been proved that silver and lead values have been lost.

### CHICAGO MINING COMPANY.

#### Superintendent Shettler Tells of What is Going On in the California Property.

Word was received today at the office of the Chicago Mining company from J. E. Shettler, superintendent of the company's property, near Nashville, El Dorado county, California, that work is being energetically pushed at the claims. At present, says Mr. Shettler, they are running on ore which makes the face of the tunnel look like a jewelry store. Free gold is seen everywhere, and in addition some very good sulphur ore is reported to have been opened up. Arrangements for building a mill are now being considered by the management.

### LAND OFFICE ENTRIES.

Mineral Entries Filed in Land Office During Week.

The following mineral entries have been filed in the land office during the week:

2,548—S. R. Milner and H. O. Milner purchase the consolidated mining claim known as the Andy and Andy No. 2 lodes situated in the West Mountain district, Salt Lake county.

2,547—La Reine Mining Company purchases the Malaga lode situated near the Tintic district.

2,548—Milan Packard and William H. Menary purchase the Brooklyn No. 2 claims situated in the Tintic district.

2,549—Milan Packard, William H. Menary and Daniel S. Dana purchase the Sunvalley lode situated near the Great Wheel River claim in the Tintic district.

### MINING NOTES.

The Alaska marketed a car of ore today.

The Mammoth marketed two cars of ore today.

Jay A. Cizek, State mine inspector, of Idaho, is in town.

Allan G. Lamson is expected home from Colorado tomorrow.

Eight cars of ore were at the sampler today from the Centennial-Eureka.

A car of ore was on the market today from the Showers Consolidated.

Three cars from the United States property at Bingham were marketed today.

John Cleghorn has arrived from Park Valley district with some fine samples of ore.

The Washington-Frisco shaft is now down 150 feet and a wider ore body is being worked into.

The Taylor-Bruntson sampler reported ten cars of ore from Tintic and three from Bingham today.

A contract for 200 feet of sinking has been let by the directors of the Alfred Reed Mining company of Alta.

Butt Brothers, the original locators of the Sunshine, have arrived from West Tintic with a sack of samples.

Work has been started up on the Copper Ranch property, near Milford, recently bonded to Ernest G. Miller by W. H. Tibbals.

Ore which runs well in silver, lead and gold is said to have been recently exposed in the Manganese group at Clifton, in Deep Creek district.

President Allan C. Washington, Manager P. T. Farnsworth and the directors of the Horn Silver, left for Tintic this afternoon to inspect the mine.

The stockholders of the Star Com. will meet this evening at the company's office to talk of the mine's financial condition.

The Geyser-Marion reported at the Redway today with a good batch of gold cyanides. The Chloride Point, sent in 700 pounds of dust which will run high in silver.

The latest assay from a lump of ore from the Brigham City State and Copper Mining Company's claims shows 67.2 per cent copper.

Assays from the Mono claims in Dry Canyon are reported to show as high as 70 per cent lead, 12 ounces silver and 5.2 per cent copper.

Colorado Springs Telegraph: Another dividend of \$48,000 has been declared by Stratton's Independence, limited, of London. According to the figures of T. A. Rickard, who is the consulting engineer of the mine, there is enough ore in sight at the present time to guarantee a like dividend every three months for the next four years. In other words, this means that there is nearly \$3,600,000 guaranteed to be in sight in the famous mine.

### LOCAL MARKETS.

December 7, 1899.

Below are wholesale buying figures on poultry, butter, eggs and cheese. Quotations are corrected semi-weekly by J. M. Christensen & Co., wholesale produce dealers.

Eggs, strictly fresh ..... \$8.25  
Spring Chickens, dressed ..... 8c to 10c  
Hens, per lb. dressed ..... 7c to 8c  
Turkeys, per lb. ..... 10c to 12c

BUTTER AND CHEESE.  
All kinds of butter is in good demand. Creamery, butter ..... 24c
