

DESERET EVENING NEWS

GIBBON SENDS FOR
REVENUE STAMPS

WEATHER REPORT.

Today's record at the local office of the weather bureau for 24 hours ending 6 a. m.

Barometer reading at 6 a. m., 25.83 inches. Temperature at 6 a. m., 33; maximum temperature, 32; minimum temperature, 37; mean temperature, 44, which is 1 degree above normal.

Total excess of daily mean temperature since the first of the month, 49 degrees.

Accumulated excess of daily mean temperature since January 1st, 275 degrees.

Total precipitation since first of month, 1.40 inch, which is .46 inch above the normal.

Accumulated excess in precipitation since January 1st, .46 inch.

FORECASTS TILL 6 P. M. SUNDAY.

Local forecast for Salt Lake City and vicinity:

Fair tonight and Sunday; continued warm.

Forecast for Utah, made at San Francisco:

Fair tonight and Sunday; warmer.

WEATHER CONDITIONS.

Pressure has fallen quite decidedly over the northern portion of the western half of the country, but no well defined storm center has yet made its appearance within the area reporting. The crest of the area of high pressure extends from the lower Mississippi valley northward to the great basin.

No precipitation has fallen. It is warmer over the Dakotas and Minnesota.

L. H. MURDOCH, Section Director.

TODAY'S TEMPERATURE.

10 a. m., 48; 12 noon, 58; 2 p. m., 62; 3 p. m., 63.

LOCAL BRIEFS.

An interesting literary and musical entertainment will be given this evening at All Hallows college by the faculty and students of the institution.

By the terms of a warranty deed filed in the county recorder's office, William Langston and wife have conveyed to Rachel L. Lewis, consideration \$5,000, all of block 1, and part of block 2, in Langston Park subdivision, northwest of the city.

The Polk's Directory Publishing concern has issued a good many neat and complete directories in its time; but none has made its appearance in Salt Lake which is handsomer or better than the one that came from press and bindery and was put into circulation this week. It is a compendium of up to date information that will be thoroughly appreciated by every subscriber.

It is expected by the local W. C. T. U. that Miss Florence Mercutt, sister of Miss Mercutt, the Australian lady who secured here some time ago, and Mrs. Dr. Seabrook, president of the Woman's Press club of Philadelphia, will be here early next month. Preparations are being made by the W. C. T. U. to properly entertain the ladies and to give them a reception during their visit to Salt Lake.

The subpoena issued in the Jordan water case a few days ago by V. G. Benham, who was wanted to testify in behalf of the Jordan narrows power plant, was returned to court by Deputy Sheriff Cummock yesterday afternoon. The witness had been out of town on business, so it is reported ever since the subpoena has been issued, and as the case was closed last evening as far as taking testimony is concerned, the paper was filed without service. It is stated that Mr. Benham was called away on business, and left knowing nothing concerning the fact that he was wanted as a witness in the case, and that he did not purposely try to avoid service of the subpoena.

J. Willis Baer of Boston, secretary of the United Societies of Christian Endeavor, who it was expected would be here next month to address the convention of the Utah State societies, has had to cancel all his western engagements for this spring and cannot come. However the Rev. Dr. D. N. Beach of the First Congregational church of Denver has kindly consented to be here and as he is known to many of the delegates who attended the convention last year, and is much thought of by them, a warm welcome will be accorded the announcement that he will address the convention which holds meetings on the 26th, 27th and 28th of April.

HIS HEAD BADLY CUT.

Man Seeks Assistance at Smith's Drug Store Early This Morning.

C. F. Carlton, who claims to be an employee of the Salt Lake Bottling company, staggered into Smith's drug store at an early hour this morning, with blood streaming from an ugly cut above his left eye.

The man seemed to be dazed by his injury—and something else—and was unable to make any satisfactory explanation. Dr. Giesy attended to the man's injuries, and he went on his way.

PREPARING FOR CONFERENCE BUSINESS.

Business men generally anticipate a very favorable conference trade, and all are putting themselves in shape to meet it. The railroad's reduced rates commence to go into effect on April 2nd and will be extended till April 12th, for remote points, which will give country customers ample opportunity to attend to their purchases before and after the regular conference sessions, which begin April 5th, and will probably end April 7th.

and, all was driven completely through the car in which he was, and when the car had quieted down somewhat he found that he had escaped with a bruised knee.

Hughes Denies Report.

Chicago, March 16.—A special to the Chronicle from Davenport, Iowa, says: General Manager E. E. Hughes of the Des Moines, Rock Island and Northwestern railroad has issued an official statement in denial of the report that the road has been bought by the Burlington. He states that negotiations are under way looking to operating connections with the Milwaukee and "Q," which, if consummated, would secure the new Kansas City "cut-off" of the former road. Through trains would then run via the branch to Chicago and St. Paul from Davenport over the Burlington.

SPIKE AND RAIL.

General Manager Bancroft and General Superintendent Calvin of the Short Line are out on the road.

The Denver & Rio Grande today is shipping seventeen cars of cattle from Bryce and three cars of sheep from Ogden east.

S. A. Hutchinson, excursion agent for the Overland route, is in town. He reports the outlook for tourist business to Yellowstone Park this season to be exceedingly bright.

F. L. Parriott has been appointed chief dispatcher of the San Pedro, Los Angeles & Salt Lake railway, this morning, "that before the end of another week, we will have our articles of incorporation filed in this city. The papers have had to be sent to directors in several different States to secure their signatures, but all should be back here within a week."

There exists a very strong reason why the new railroad should exercise haste in the filing of its papers. Under the law just passed by the Legislature, increasing the tax on corporations for filing their articles, the S. P. L. A. & S. L. would have to pay \$4,000 more than it would if its papers were filed before the date on which the new law takes effect, which will be immediately upon approval of the Governor, and he must act within ten days from Thursday last. Mr. Gibson said with a smile that they would naturally do this to meet the new law.

The total tax which the road will be called upon to pay, even if its filing is made within the time stated, is \$3,750. If it goes over the date, it will be \$12,750. The larger part of the sum, of course, goes to the United States, \$1,250 being for revenue stamps, 5 cents for each \$100 of the paid-up capital of \$2,500,000, and \$5,000 going to the government for the stamps on the trust deed, which is to be filed here. Mr. Gibson states that he has sent east already for stamps of large denomination to meet the \$5,000 payment.

BIG CONTRACTS.

W. H. Kilpatrick Goes West to Figure on Southern Pacific Work.

The Union Pacific proposes to extend its policy of straight tracks and high speed over the Southern Pacific. With this object in view some mammoth contracts are to be let in the near future which will have the effect of bringing San Francisco considerably nearer to Salt Lake as far as time is concerned. The cut-off policy which has been such a feature in Wyoming on the Union Pacific main line, will be instituted to an extent that will put all previous efforts in the shade.

With the object in view of looking over the proposed improvements, W. H. Kilpatrick, chief of the Union Pacific, Kilpatrick Bros. & Collins, who held the main contract for the work on the Wyoming division, passed through Ogden last night to go over the Southern Pacific to look at the ground prior to closing a huge contract.

In speaking of the proposed changes which are to be instituted one who has stood high with the Kilpatrick firm says in an interview on the Union Pacific main line, will be instituted to an extent that will put all previous efforts in the shade.

"I understand that all work along the Union Pacific, including that at Echo, except what is nearing completion, will be abandoned and the whole strength of the construction department thrown on the Southern Pacific cut-off system."

"And it's needed out there. You never saw such a line anywhere as that has been. Five or six times as fast and for curves and grades that mean changing the Union Pacific wasn't a marker. I wasn't on that line a day that some freight train wasn't in the ditch by reason of the wretched condition of the road."

"I understand that the reason for the rush in the new cut-off system west of Ogden, and the same may be said of the improvements made on the Wyoming division, is the necessity of being in shape to compete with the Santa Fe in time between the Missouri river and the coast, without which this line will lose a large part of its passenger traffic."

The management here had this in mind all along and does not propose that any other company shall outdo them, in speed, equipment or anything else."

COMING TO SALT LAKE.

Missouri Pacific, it is said, Will Purchase the Rio Grande Western.

Chicago, March 15.—The Times-Herald tomorrow will say: "Events of the past few weeks have made it certain that the Missouri Pacific is shortly to be made the nucleus of a new system of the Southwest. With the Missouri Pacific as the nucleus, a system will be built up and put under one management, extending from Buffalo to New Orleans, El Paso and Salt Lake. Such is the plan which is being worked out by the Gould family, and it is equal to the boldest scheme projected by the late Jay Gould."

"The latest evidence in this respect is the announcement that the Goulds have acquired control of the Denver & Rio Grande and will soon have the Rio Grande Western. It is also understood that the Missouri Pacific now has control of the Missouri, Kansas & Texas, which extends to St. Louis, via Parsons and Dallas, to Galveston, and that the extension from St. Louis to Paris and southwest to Oklahoma will soon be acquired by the Goulds."

"By the purchase of the Missouri Pacific will not only extend its western limit to Ogden, but will occupy the mountain passes to an extent that will make it difficult for other roads to secure a profitable footing."

The Missouri Pacific is in close relations with the Union Pacific and other properties under syndicate control, and will, therefore, be in a situation to work harmoniously west from Salt Lake City and El Paso. Mr. Gould's present trip west and inspection of railroad property is said to be the concluding preparation for the unification of this great southwestern system. This consolidation would make a system consisting of 15,816 miles."

The Wreck at Rio.

A visit to the scene of the R. G. W. freight wreck at the Rio switch on Thursday was a revelation to the average layman, who, were he placed in the position of J. L. Thompson and Charles Selby, the foremen in charge, would sit down in despair and wring his hands at the scene of chaos which met the eye. Everything went along quietly and systematically, and inside of ten hours, trains were running over the scene where the five cars loaded with dry goods, furniture, live stock and household goods had been piled up and twisted into a broken mass.

A young man named Clarence Roberts of Benedict, Kans., had a wonderful escape from death. He was in charge of a car in which there were five horses and a lot of farm machinery. When the shock came, one of the trucks of the foremost car, wheels

Merchants and all others who have anything to say to the country people should study well the best means of reaching the people in their homes before conference, no other means approaches in efficiency the Semi-Weekly "News," the great country newspaper of the intermountain section. Advertisers should remember too, that during conference all subscribers to the Semi-Weekly "News" receive the Daily free, making that issue as well, a rare advertising medium.

TO SURVEY THE UTAH LINE

Party of United States Engineers Will Determine Utah-Arizona Division.

Will Place a Series of Mile Posts for 277 Miles from Colorado to Nevada.

Within the next few days there will be a large party of United States surveyors operating on the Utah-Arizona line to determine the correct boundary line. The forerunner of the expedition arrived in Salt Lake last night from Cheyenne in the person of H. B. Carpenter, who registered at the Cullen.

The work is expected to take 100 days. The boundary has never been officially surveyed and a preliminary survey has been made of the boundary line in the past. The survey will begin at the southwest corner of the State and run east along the 37th parallel for the distance of 277 miles. In speaking regarding the work to be done Mr. Carpenter said:

"We will begin at the monument set at the southwest corner of Utah by Isaac James in 1871, and if that is not accurately located, we will move it, or down on the same meridian for the distance of 277 miles. We will survey 277 miles east on the thirty-seventh parallel of north latitude, between the thirty-second and thirty-seventh meridians west of Washington. Of this 127 miles will be through the Navajo reservation and the work will require about 100 days."

Mr. Carpenter has the contract of the survey which was let to him last October by the government for a sum of \$25,000. The survey will be by theodolite and transit turned into the office at Washington by April 1, 1902. In all there will be over twenty men in the party and their baggage will be transported on the backs of horses and wagons which will accompany the party.

In the party will be Prof. Augustus MacConnell of New York, who as astronomer will determine the parallels. He has had considerable experience in this direction, having determined the south and west boundaries of Wyoming in 1873 and 1874. In addition will be I. V. Warner, R. C. Schneider, E. B. Hinchard, Carl Snyder, C. H. Purdy, M. H. Gilchrist, L. L. Lemon, Oscar C. Clellan, all of Wyoming, and a United States examiner will also be along.

It is the intention to establish six astronomical stations along the route to be traversed and the line will be run by the surveyors from station to station, while mile posts will be set up at each mile. These posts will be the boundary monuments and will be made of iron with brass rods. They will be run upon them the number of the mile each represents on the west side the number of the parallel on the east, and the words Arizona and Utah on the south and the north sides respectively.

Mr. Gilchrist, who is in charge of the survey, has determined the south and west boundaries of Wyoming in 1873 and 1874. In addition will be I. V. Warner, R. C. Schneider, E. B. Hinchard, Carl Snyder, C. H. Purdy, M. H. Gilchrist, L. L. Lemon, Oscar C. Clellan, all of Wyoming, and a United States examiner will also be along.

NO PAIN, TRIFLING EXPENSE

A Simple Harmless Remedy for the Cure of Piles.

A person contracts a cold, pneumonia, rheumatism and pleurisy from exposure; dyspepsia and liver troubles from dietary errors and the causes of most diseases are easily traceable, but although piles and rectal troubles are as common as any of these, the cause is obscure.

Violent exertion, as in lifting, sometimes produces them and a sedentary occupation is by some supposed to be a predisposing cause, but as a rule piles and rectal troubles appear without apparent provocation.

There are many pile cures and ointments which give temporary relief, and when these fail the patient, if he can afford the expense, and is willing to take the risk, has recourse to a surgical operation. But there is one remedy which gives immediate relief and the regular use of which will bring about a permanent cure and that is the well known Pyramid Pile Cure.

In long standing cases the Pyramid Pile Cure has proven to be the only cure except a dangerous and exceedingly painful surgical operation, and its advantages over any kind of operation are many, as it is painless, causes no interference with any occupation, and being in the form of a suppository is at all times convenient and ready for use.

The Pyramid Pile Cure is an effective combination of soothing oils and antiseptic acids. It contains no cocaine nor nerve destroying salts, and unlike most pile cures, contains no bichloride of mercury nor any injurious drug of any kind.

All druggists sell the Pyramid Pile Cure at 50 cents for a complete treatment of the suppositories.

A little book on cause and cure of piles will be mailed free by addressing Pyramid Drug Co., Marshall, Mich.

Apply to your grocer for the genuine.

Children often inherit feeble digestive power and colic or a more or less severe character results, when food is taken which is at all difficult to digest. WHITE'S CREAM-EMULGIFUGUE acts as a general and permanent tonic. Price, 25 cents. Z. C. M. I. Drug Dept.

MUSIC LOVERS.

All who desire information of the address, of Salt Lake's music teachers, should consult the Musicians' Directory, published on the Dramatic and Musical page of the Saturday "News."

Prof. Charles Hoffman, Tenor and Pianist. Pupil of Kullback List & Wachtel Studio 17 So. State. Pupils accepted.

NOTICE.

The following list of prices and rules will go into effect at the Sanitarium, 52 west Third South, on March 15th, 1901: Gentleman and lady with suits, 50c; Gentleman alone with suit, 50c; lady with suit, 25c; in Rear Pool, men and boys, 25c; tub baths, 25c; private plunge baths, 25c; Turkish baths, 1.00. Spectators are not allowed around the large pools except in the balcony.

J. K. SCHENCK, Manager.

ARTISTIC JOB WORK.

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, etc., etc., are unequalled by any establishment in the West.

Smurthwaite's seeds have made Utah famous at two American and one Paris exposition, winning highest prizes in all three. They carry all kinds, 132 State St., Salt Lake City.

BISHOPS.

Blank for the use of block teachers, in making yearly statistical reports, can be procured at this office, 25 cents per dozen.

THE STANDARD.

Do you have the Standard Dictionary in your library or school room? If not, you are not up to date. It is the largest, best edited, best printed, best bound, and most modern work in all respects yet issued. Only a limited number on hand. Address the Deseret News.

BOOK BINDING.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

Smurthwaite's new lawn seed makes the greenest and best soil. Smurthwaite's, 132 State St., Salt Lake City.

Royal Bread.

Everybody eats it. Nothing beats it. Look for the label and ask your grocer for it every day. Health follows.

MORE ABOUT TELEPHONES.

It does not require a large volume of business to warrant an outlay of 75c per foot for something that makes you a competitor in your line.

For that amount you can hire a measured service telephone on a metallic circuit, with long-distance equipment, allowing unlimited incoming calls, and an average of nearly 200 calls from your instrument each business day in the year.

This company furnishes measured business or professional telephones at 15 different rates, ranging from \$35 to \$75 per year, designed to meet all classes of business needs.

If you consider your telephone charges not in accord with your telephone requirements, call No. 9—your relief may be in measured service, Rocky Mt. Bell Telephone Co.

MALE HELP WANTED.

TRUSTWORTHY PERSONS TO TRAVEL for old established house of solid financial standing. Salary \$750 and expenses. No canvassing. Factory self-addressed envelope. Manager, 375 Caxton Building, Chicago.

FIRE INSURANCE.

YOUNG & HELD, FIRE INSURANCE, 202 Whittingham Block.

LIFE INSURANCE.

INSURANCE IN THE CONN. MUTUAL costs least. Write for official report and particulars. A. MacPherson, 604 Progress Bldg.

NOTICE.

ANY INFORMATION AS TO THE whereabouts of Miss Kate Turner will be gratefully received by her sister, at 250 State St. Miss D. F. Turner.

MASSAGE AND CHIROPODY.

MASSAGE AND VAPOR BATHS AT \$5.00 per month. Positive relief for all diseases. Rheumatism treatment a specialty, as practiced by Prof. J. Kallik of St. Petersburg, Russia. University treatment at \$1.00 per Mo. 97 and 98 Mercantile Bldg., take elevator.
