Situation in Pekin-Russian Force Reported Lost-Tien Tsin is in Grave Danger.

[Early Dispatches.] Berlin, July 7 .- The firm of Meichers & Co. of Shanghai telegraphs to Bre-

men under date of July 6th: "We have reason to believe that all the foreigners in Pekin have perished. The rebellion is spreading in north China. The foreigners at Tien Tsin must quit that city, as fresh Chinese attacks are expected. The disturbances are increasing in Shan Tung. We see at present no occasion for apprehensions in the Yang-Tse territory or at Shanghai, as the viceroys of Wu Chang and Nankin do not recognize the present source of power at Pekin.'

FREE HAND TO JAPAN.

London, July 7, 2:40 a. m .- The Russlan government announces that it will give Japan a free hand to apply mill-tary force in China. The terms of this consent are summarized in the sub-joined dispatch from St. Petersburg, under date of July 6th, under inquiry from the Japanese cabinet regarding the dispatch of Japanese troops to China to render aid to the foreigners in Pekin. The Russian government declared on May 27th that it left the Japanese government full liberty of ac-tion in this connection, as the Tokio cabinet expressed its readiness to act in full screenent with the site act in full agreement with the other pow-

ALL FOREIGNERS KILLED.

The most dreadful rumors continue to come from within the city of Pekin. There are so many stories afloat that it is hopeless to try to trace any of them to their source. Without any degree of definiteness, the report of-ten reiterated is, that "people have been killed," "foreigners have been killed."

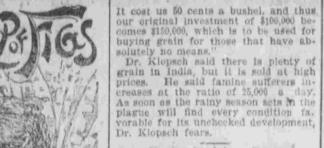

Your correspondent considers the re-ports to be very doubtful, that is, if what the Chinese mean to convey is that all the foreigners in Pekin have that all the foreigners in Freigh have been slain. These reports may refer solely to the killing of Von Ketteler. The refugees from Teng-Chau-Fu have arrived here. All Auditors.

Following the address of Apostle Lyman in the afternoon program of the Old Folks at Lagoon yesterday William H. Foster sang in fine style the old favorite "Bring Back the Old Folks." President Angus M. Cannon next ad-

George Margetts sang a couple of humorous selections, after which Simor Bamberger, the proprietor of the resort, made a short address, during which he stated that he had lived in the great west for upwards of thirty years, great west for upwards of thirty years, and had never before been called by his right title, namely that of Elder. He had never associated with a better or more hospitable people than the in-habitants of this State, and were he a millionaire he would never wish to re-side outside of Zion. Collides With A. W. Smith and Both Go Down-"Devil Catcher" Beats the Swede's Motor.

RACES WERE BOTH

Last evening's bloycle races at the Salt Palace was an occasion for cheers, groans and shudders. The crowd was a good one both in point of numbers and temperament; quick to forget a deficiency and applaud vigorously that which was good. The big event of the evening was the race of the motor-cycles, Chap-man's "Devil Catcher," and Lawson's "Red Devil." The race was five miles and was as pretty and inspiring a sight as ever beheld at the saucer. At var-lous stages of the race the crowd grew frantic with joy and yelled and yelled and yelled. Both machines behaved nicely and the race ended without an accident

CHAPMAN'S MOTOR WINS.

From the crack of the starter's plstol the face was exciting. A flying start was made and Iver lawson and Chapman soon took the lead of Vaughn and Gust Lawson, who were engineering the "Terrible's" machine. They maintained this position for the first mile when the Swede's motor made a pretty spurt and shot ahead of the other. Thus it was until the third mile, the crowd cheering wild-ly. Chapman and Iver led them for an-other mile but Gust and Vaueba acaia other mile, but Gust and Vaughn again got the lead and gained a quarter of a lap. Everybody thought the race was Gust and Vaughn's, but a pleasant surprise awaited them. Political considera. tions that were thought to have been influencing the action of the powers are thus laid aside for a moment, at least, the governments supposed to have the clearest purpose respecting China's future. Japan's sending of troops can have little bearing on the fate of the foreigners in Pekin.

RUTHLESS THIRST FOR BLOOD.

Details of further horrors in Pekin are gathered by correspondents at Shanghai from Chinese sources, especially of the slaughter in the Chinese and Tartar city of thousands of native Christians, so that the capital reeks with carnage. The ruthless thirst for blood is spreading in all the northern provinces; and wherever there are na-tive Christians the scenes enacted in the capital are reproduced in miniature. From these provinces nothing further comes regarding the legation forces, except a repetition that they are all dead. The correspondents aver that if the Chinese officials in Shanghai wished to throw light on the scale state of sc to throw light on the real state of af-fairs in the capital, they could do so, and, therefore, the worst reports are accepted as true.

Prince Tuan's coup d'etat is described by the Shanghai correspondent of the Daily Mail as a sequence to the grand council of ministers, at which Yung Lua advocated the suppression of the Box-ers promptly. The dowager empress ers promptly. The dowager empress save her whole support to Yung Lua and a scene of disorder ensued. Prince Tuan passionately intervened, backed by Kand Yih. They rushed from the council and their partisans raised the cry. "Down with the foreigners." The effect was electrical. The eunuchs, palace officials of all corts and most of palace officials of all sorts and most of the populace took up the cause of Prince Tuan and his agents immediately put the emperor and the dowager empress under restraint.

Press messages are fer: in number and are as untrustworthy as all Chinese news has been during the last fortnight. The London public pays little attention to sensational headlines in the news-papers covering alleged details of an appalling massacre. It is compelled to fear the worst, but knows that Chinese accounts of what has taken place are of no value. Many of the best informed men believe that the fate of the lega-tions will be like the mystery of the death of Gordon, a story that will be told by hundreds of rumor mongers

without a single authentic detail The most alarming dispatch received on the continent is from a German commercial house at Shanghal, stating that all the foreigners in Pekin had perished; that the rebellion was spreading in the north and that disturbances were increasing in Shan Tun. The action of the American govern-

ment in maintaining independence of European concert or coalition is fully justified if continental reports respect ing the dissensions of the powers are accurate. Mr. Broderick has admitted that Japan was strongly urged by Great Britain to intervene with a large force and while he denies that any power has offered objections, he asserts that negotiations over the latter are still in progress.

EUROIPEAN COMPLICATIONS ARISE.

There are persistent rumors on the continent that Japan will not be al-lowed a free hand in time to secure the security of the legations, and that complications have already arisen. The German ambassador lost his life not on account of his position, but be-cause he was a foreigner. He ventured out alone while the hideous cries 'kill the foreign devils' were being shouted from every corner.
