

## TAFT PRAISES PREST. ROOSEVELT

Under Him Republican Party Has  
Not Flattered in Determination  
To Meet Situation.

A GREAT MORAL AWAKENING.

Popular Demand That Law Breakers,  
No Matter How Wealthy,  
Shall be Punished.

Kansas City, Feb. 10.—Wm. H. Taft, secretary of war, was given a memorable ovation by 15,000 people in Convention hall tonight, when he was the guest of honor and principal speaker at the most elaborate banquet ever attempted in this city, given by the Association of Young Republicans of Missouri and attended by 1,200 persons many of whom came from Nebraska, Kansas, Oklahoma and distant Missouri cities. The demonstration, which began at 7 o'clock, was a triumph for the great chief executive, who when he rose to speak has never been surpassed by the welcome given any public man in the history of this city. Each of the 1,200 banqueters paid \$2.50 for the privilege of attending, but the public and long before the speaking began standing room in the hall was at a premium.

### DEFENDS PARTY.

Secy. Taft's speech was a general defense of the Republican party and especially of the policies brought to the fore by the administration of Theodore Roosevelt. In eulogizing Lincoln the speaker said that Lincoln was a party man "as all men must be who expect to leave their individual impressions upon the political character of the nation," the president's late message to Congress, the secretary said:

"The message contains an answer to the charges made that the administration is responsible for the industrial depression and the sharpness and emphasis with which this unfounded attack is met, have heartened the great body of the people as a bugle call to renewed support of the policies of the administration."

Secy. Taft referred to abuses practiced by corporations and declared that a conviction has seized the people that there were many engaged in the management of corporate wealth who regarded the statutes as dead letters and themselves as a privileged class. "We were passing into a regime of irresponsible plutocracy," said he. "During the last four years there has been a great moral awakening to this danger among the people and a popular demand that the law-breakers—no matter how wealthy or how high or powerful their position—shall be made to suffer. Under the leadership of Theodore Roosevelt the Republican party has not faltered in its determination to meet the requirements of this situation and to enact such legislation as may be necessary to bring to a close this period of illegitimate corporate immunity."

"There are those who have been members of the Republican party who differ with Mr. Roosevelt in respect to the proper course to be followed in stamping out these abuses of corporate wealth. The great bulk of the Republican party, however, stands solidly at his back in the work which he and the representatives of the party in Congress are doing."

Secy. Taft spoke of the recent

### FOR CONSUMPTIVES

Concentrated Oil of Pine from the  
Camps also Furnishes a Sure Cure  
for Coughs and Colds.

A renowned Philadelphia doctor famous for his pine forest cures has recently given to his fellow physicians a new and probably the most valuable of pine products. It is known to the profession as Concentrated oil of pine. In speaking of this oil a well known local physician declared it is without an equal for the speedy relief of acute colds and coughs and all manner of throat and lung trouble. The original formula used and now generally prescribed is as follows:

"One-half ounce of Concentrated oil of pine; two ounces of glycerine; half pint of good pure whiskey; mix thoroughly and use in doses of a tea spoonful to a tablespoonful every four hours, shaking the bottle well each time."

In inquiring at one of the leading drug stores it was found that the concentrated oil of pine is put up only in one way and that is in half ounce bottles each enclosed in a tin screw top case which protects it from heat and light. The oils sold in bulk and patent medicine imitations sold as oil of pine frequently put out in wooden boxes which produce nausea and kidney trouble.

panthe and of President Roosevelt's special message to Congress. "The message contains an answer to the charges made that the administration is responsible for the industrial depression which has followed," said the secretary, "and the sharpness and emphasis with which this unfounded attack is met, have heartened the great body of the people as a bugle call to renewed support of the policies of the administration."

"From beginning to end the message shows his earnest desire to protect the honest business man and the honest laborer, and to secure to them the possibility of living under the equal administration of the law."

In concluding Secy. Taft said: "Vigorous action and measures to stamp out existing abuses and effect reforms are necessary to vindicate society as at present constituted. Otherwise we must yield to those who seek to introduce a new order of things on a socialist basis."

The Republican party follows the administration on this social and moral reform—approves its attitude in favor of vested rights of maintaining the power of the courts, of rendering more equal by legislation the basis of dealing between employer and employee, of strengthening the regulative power over railroads and other interstate corporations, and of prosecuting these law-breakers who continue to defy public opinion. Roosevelt leads his party as Lincoln led his—as McKinley led his—to meet the new issues presented, to arm our present civilization and fit it with a bold front to resist the attacks of socialism, and to transmit to the coming generations unharmed the great institution of civil liberty inherited from our fathers."

Herbert S. Hadley, attorney-general of Missouri, responded to the toast, "We Have Put Our Hand to the Plow."

Mr. Hadley said that in any great crisis of American history there had been found a man equal to the demand of the occasion and the necessities of the work. "William McKinley," he said, "gave us a return of prosperity, an era of good feeling and the successful prosecution of two wars. But when in the mad rush for wealth and gain wrong standards of success were established in our commercial life, when men reckoned only with the end and not with the means; when illegality, cunning, fraud and force were regarded as justifiable measures to success; when, in short, we were in danger of becoming a people of barter and of sale, then it was that there came Theodore Roosevelt. Never before in the history of the world has one man so impressed the force of his personality and the force of his principles upon the life and thought of a great people as has this modern apostle and prophet of righteousness."

"And now that he has blazed the

pathway along which we must travel, we need a leader who will continue his work because his heart is in the work; who will have the courage to do right when it is popular to do wrong; who is brave enough and strong enough to refuse to make terms with politicians, and the voters of such, who will add the conservatism and experience of the judge to the experience and aggressiveness of the executive; who realizes that our trade and commerce should be large, but who also realizes that our trade and commerce must be honest and lawful; who has shown that he can successfully direct the prosecution of the greatest public work of the country and negotiate with fairness and satisfaction treaties affecting the lives and happiness of millions of people; who knows, as no other man knows, the conditions and necessities of our dependent races and who has a heart that feels for their deficiencies and their hopes. One, in short who is able and willing to successfully carry forward the great work and destiny of the Republican party."

"Such a man and such a leader the Republicans of Missouri believe, and, believing, they should not hesitate to say, the American people will find in the trusted friend of William McKinley and Theodore Roosevelt—the secretary of war and also the secretary of peace, our honored guest tonight, William H. Taft of Ohio."

Mr. Hadley declared that with the exception of 1864, never before had there been greater need that the Republican party should stand firm and true to its principles and its policies than the present.

"For the present and the future," said he, "a continuation of the principles and policies of the Roosevelt administration is necessary, not only for party success, but also for the maintenance of our institutions and the protection of the liberties of the American people."

He concluded: "We have started in on this work, and we must not falter. We have started down the road and we must not stop. We have put our hands to the plow and we must not turn back, for unto us it is declared in holy writ, 'no man, having put his hand to the plow and looking back, is fit for the kingdom of God.'"

### KEEPING OPEN HOUSE.

Everybody is welcome when we feel good; and we feel that way only when our digestive organs are working properly. Dr. King's New Life Pills regulate the action of stomach, liver and bowels so perfectly one can't help feeling good when he uses these pills. 25c at Z. C. M. I. Drug Dept., 112 and 114 South Main Street.

### SAFETY OF EMPLOYEES.

San Francisco, Feb. 10.—Against the theory of law that a railroad company must use reasonable diligence in securing the safety of its employees was enunciated by the United States circuit court of appeals today with Circuit Judges Gilbert, Ross and Morrow on the bench.

The case was that of George Sonnenberg, Jr., whose attorney appeared from the decision of the trial court, which held that the Southern Pacific company was not responsible for the bank of an excavation caving in and breaking Sonnenberg's leg.

Judge Morrow wrote the opinion of the appellate court and reversed the judgment of the circuit court, with instructions to grant a new trial.

### NO MONEY FOR BALLOONS.

Washington, Feb. 10.—The desire of the signal corps of the army for an increased appropriation to be used in ballooning tests is not to be fulfilled this year, according to Chairman Hull of the house committee on military affairs. President Roosevelt vetoed this matter up with Mr. Hull today, his suggestion that the committee make an investigation into the subject of army ballooning with a view to an increased appropriation.

On leaving the White House, Mr. Hull incidentally said that a new balloon had been invented by some wealthy

## Kinetic Energy

Kinetic is a good word. It means "power to make things go." A fat bank account, a rock on the edge of a hill, a barrel of gunpowder, and SCOTT'S EMULSION all contain "kinetic energy," so the professor tells us.

Power is stored up in

## Scott's Emulsion

This force let loose in the system of the consumptive gives him the strength to take on new flesh. It is a powerful flesh-producer.

All Druggists: 50c. and \$1.00.

and prominent New York men, the claim of which was that it could be navigated 60 miles an hour without reference to the wind. It is understood that it was the intention of the inventors to give the government the benefit of this balloon without cost.

### NEGRO LYNCHED.

Mob Overpowered Deputies and Company of Militia.

Brookhaven, Miss., Feb. 10.—Ell Pigot, a negro who criminally assaulted Miss Wooten in this county a few weeks ago, was taken from the custody of a Jackson military company and a posse of deputies and hanged early today. The military company was overpowered by a mob of over 2,000 persons. A number of shots were fired and two members of the mob were wounded.

THIS MAY INTEREST YOU.  
No one is immune from kidney trouble, so just remember that Dr. King's New Life Pills will cure the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine. E. J. Hill Drug Co., "Never Substituted."

### TWO ATTEMPTS TO WRECK OREGON SHORT LINE TRAIN

Butte, Mont., Feb. 10.—After two attempts to wreck two Oregon Short Line express trains last night, train wreckers succeeded in derailing a freight. Three suspects are in custody. All three attempts were made at a lonely spot near Silver Bow Junction. The dastards bungled, however, as the ties heaped upon the track were not braced and were easily swept aside.

The northbound express from Salt Lake, pulling out of Silver Bow last night, hit a pile of ties. The engine remained on the rails. A few moments later, the southbound train hit another bunch of beams. An hour later, a southbound freight was derailed by a switch flung while the train was passing over it. Pat Gordon was caught in the vicinity and arrested. W. G. Williams, who was stealing a ride, was also held. Either of these men might have swung the switch. They deny all knowledge of the crime. Williams says he is from Reno, Nev.

### FRANCE AND AMERICA.

Arbitration Treaty for Settlement of Disputes is Signed.

Washington, Feb. 10.—Secy. Root and Ambassador Jusserand today signed a treaty providing for the arbitration of any issue that may arise between France and America.

The treaty will have to be submitted to the American senate, and to the French executive before it can become effective. Meanwhile its provisions are withheld from publication. It is understood, however, that the treaty is drawn in accordance with the recommendation at the late Hague conference, which, finding it impossible to draw a general arbitration treaty that could receive the assent and support of all the great powers, adopted a resolution recommending that all the powers undertake to make special arrangements between themselves for the settlement of disputes by arbitration. The present convention is believed to be in terms similar to that prepared by Secy. Olney and Lord Pauncefote looking to the arbitration of possible disputes between America and Great Britain, which convention failed of approval by the United States senate.

### HAWAIIAN LAND LAWS.

Washington, Feb. 10.—Judge F. M. Hatch, of the territory of Hawaii, spoke before the house committee on territories today and urged a favorable report on the bill amending the Hawaiian land laws. He declared that his people greatly desired that the public lands be disposed of to settlers instead of being leased to sugar growers. He declared that some leases had been made covering 30 year of time.

### NEW CABINET APPROVED.

The Hague, Feb. 10.—Queen Wilhelmina has approved the new cabinet under the premiership of Deputy Heemskerk. The last cabinet resigned Dec. 25, as a result of its defeat on the army estimates. Jonker H. De-marees Van Swinderen minister of the Netherlands to Washington, becomes foreign minister in the new cabinet.

### SNOW IN SOUTH CAROLINA.

Spartanburg, S. C., Feb. 10.—Spartanburg is buried under seven inches of snow, the heaviest snowfall in many years having occurred last night and today. The weather is the coldest of the winter, 22 degrees above zero.

### KING EDWARD HAS COLD.

London, Feb. 10.—King Edward went to Brighton today for a change of air. His majesty has suffered considerably from a sore throat recently, and this trouble has entailed sleepless nights. Sir Felix Semon, physician extraordinary to the king, has been in attendance on his majesty.

### TO PUNISH AFHDI TRIBE.

Calcutta, Feb. 10.—The Indian government has decided to send immediately two brigades of troops under Maj.-Gen. Sir James Willers into the Bazaar valley on the northwestern frontier to punish the Zakkakhela, a powerful tribe of snipers, who have been raiding villages in that territory and ambushing members of the mounted police.

At Rawal Pindi, where the troops of the two brigades are mobilizing for the expedition, there is great activity. It is said the movement will be a surprise to the disorderly natives.

### ALL COPPER REDUCED.

New York, Feb. 10.—At the metal exchange today all grades of copper were reduced 1/4 of a cent per pound in the bid and 1/2 cent in the ask price, making Lake 13 1/2 at 12 1/2; Electrolytic, 13 1/2 at 12 1/2, and casting 13 1/2.

### UNION PLUMBERS STRIKE.

St. Louis, Feb. 10.—About 500 union plumbers employed by members of the Master Plumbers' association, went on strike today because of a reduction in wages.

### COMFORT AND APPEARANCE

Discomfort and distress is often caused by improperly adjusted eyeglasses. The appearance is often injured by the "wet" of the frame. We properly adjust all our glasses. J. H. KNICKERBOCKER, O. D., Practical Optician. 143 Main St.

# The EDISON PHONOGRAPH

THE most wonderful thing about the Edison Phonograph is its versatility. It is equally good in entertaining a crowd of friends, in entertaining merely the family circle, or in helping you pass a few hours by yourself. It has just as many moods as you have. It is

equally good in rendering a plaintive ballad or lively waltz

It sings to you in your quiet moments and enlivens your lively ones. It is good, clear and perfect because Mr. Edison has made it so. The Phonograph is his crowning work and has received a great deal of his personal attention. You can safely invest your money in it on the reputation of its inventor.

The new model with the big horn is now at all dealers'. You should see and hear it, or write for a descriptive booklet.

TO BUSINESS MEN: An Edison Business Phonograph enables a stenographer to get out twice as many letters as she otherwise would. Write for booklet.

WE DESIRE GOOD, LIVE DEALERS to sell Edison Phonographs in every town where we are not now well represented. Dealers having established stores should write at once to

National Phonograph Company, 75 Lakeside Ave., Orange, N. J.

## CATARRH A SYSTEMIC BLOOD DISEASE REVIVED BY WINTER'S ICE AND SNOW

Catarrh, like some other blood diseases, is worse at certain seasons of the year. During warm, pleasant weather, when an active, out-door life may be enjoyed, sufficient exercise indulged in, and when other favorable conditions exist, some of the impurities and catarrhal poisons which produce the trouble are removed from the system through the perspiration and other avenues of bodily drainage. But when Winter comes with its snow and ice, its slush and cold, the free working of the system is interfered with, the blood becomes thick and congested, and the catarrhal matter is left to disease and corrupt the body.

The entire inner portion of the body is lined with a delicate fibre known as mucous membrane—in other words the inner skin of our bodies. This membranous tissue is a perfect network of veins, arteries and capillaries, through which it is supplied with nourishment and healthful properties from the great source of life, the blood. So long as the circulation remains pure this mucous membrane will be healthy, but when the blood becomes infected with catarrhal impurities and poisons, the tissues become diseased, and Catarrh

holds in the system. The polluted, impure condition of the blood causes irritation and inflammation of the different mucous surfaces, and the early stages of Catarrh are characterized by such symptoms as a tight, stuffy feeling in the head, watery eyes, ringing noises in the ears, constant "hawking and spitting," and often hoarseness and difficult breathing. The annoyance of even these early symptoms, together with the filthy character of the disease, makes Catarrh a dreaded and disgusting trouble, but after the blood is more thoroughly steeped in the impurity it becomes a general systemic disease, and develops into a serious disorder.

Every fibrous tissue becomes involved, the bronchial tubes are attacked, producing a chronic cough, the soft bones and cartilages of the head are diseased and sometimes destroyed, the stomach is affected, resulting in dyspepsia, and gradually the entire system is upset. But Catarrh does still greater damage if allowed to remain in the system. Frequently the kidneys and bladder are attacked, and the continual passage of impure blood through the lungs affects these vital members, and then Catarrh terminates in Consumption.

Being a deep-seated blood disease Catarrh must be treated constitutionally, for it is beyond the reach of local or surface treatment. Washes, sprays, inhalations, etc., are

perhaps cleanly, and in some cases antiseptic, and for this reason desirable; but such treatment does not reach the cause and can never cure the disease. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter, and at the same time builds up the system by its unequalled tonic effects. It goes down into the circulation and attacks the disease at its head and removes every trace of the pollution that is causing the trouble. In plain language, S. S. S. purifies the blood so that the mucous linings are all supplied with healthy, life-giving properties instead of being saturated with foul catarrhal matter. Then the inflamed and irritated membranes heal, the discharge is checked, the head noises disappear, the stomach is toned up, and all the symptoms of Catarrh pass away. If you are suffering with Catarrh begin the use of S. S. S., and by removing the cause and building up your system, rid yourself of this dangerous and far-reaching trouble. Literature about Catarrh and any medical advice desired sent free.

**S. S. S.**  
PURELY VEGETABLE

**THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.**

Gentlemen:—I suffered for a long time with a bad case of Catarrh. I had a continual headache, my blood was impure, my nose was always stopped, my breath had a sickening and disgusting odor, and I coughed incessantly. I heard of your S. S. S., and wrote to you. On your recommendation I commenced to use it, and after taking several bottles I was cured and have never since had the slightest symptoms of the disease. MRS. MARY L. WESSERMAN.  
2710 Caroline Street, St. Louis, Mo.
