LAST NIGHT'S DISPATCHES.

CONGRESSIONAL.

SENATE.

Cox offered a preamble and resolutions setting forth that there had been dangerous departures in the administration from the original federal system, and declaring that there ought to be a return to such system; rejected 85 to 84, not a two-thirds affirmative.

Sherman, from the committee on private land claims reported adversely to the claim of T. Dowling, to a portion of Goat Island.

Ramsey, from the committee on the post office, submitted an amendment intended to be added to the postal appropriation bill, directing the Postmaster General to contract with the Webb line of steamers for an extension of the existing mail service between San Francisco and Honolulu, and from the latter port to New Zealand and Australia, touching at Navigator's Island, thirteen round trips yearly, for $125,000.

The Vice President announced as the special committee to investigate the charges against Pomeroy, Messrs. Frelinghuysen, Buckingham, Alcorn, Thurman and Vickers.

The Senate resumed consideration of the bill to provide for the distribution of the Geneva award, the question being on the proposition of Sherman to strike out the clause discriminating against insurance companies, which, after debate, was lost. A number of other amendments were offered and rejected, and the bill passed, 30 to 19. Adjourned.

HOUSE.

WASHINGTON, 10.—Under a call of the States a large number of bills were introduced and referred.

Butler, of Mass., moved to suspend the rules, to adopt a resolution instructing the appropriation committee to include in the miscellaneous appropriation bill, the bill reported from the judiciary committee to adjust the salaries of U. S. officials. Butler wanted to submit remarks in favor of the bill, but Dawes and others expressing an intention of speaking in opposition the debate was objected to and the vote taken, and Butler's motion was lost, 85 to 120

The Speaker appointed Dawes and Beck tellers on the part of the House to count the electoral vote on Wednesday next. Adjourned.

EASTERN.

WASHINGTON.—The Senate committee on elections have submitted their preliminary report on Louisiana matters to the Senate. The report is that neither the Greeley or Grant electors were legally elected, that the committee are not prepared to report whether or not Louisiana has a legal state government. A resolution was passed by the Senate appointing a committee to consider the testimony transmitted by the House, affecting certain senators, with leave to sit during the sessions of the Senate.

ROCHESTER, N. Y. 10.—T. Parsons a well known politician, died this morning.

NEW YORK, 10.—The funeral ceremonies of the late Vicar General Storrs took place at St. Patrick's Cathedral. The church was draped in black, and was crowded in every part. A pontificial high mass, with Mozart's grand requiem was celebrated by Archbishop McClosky. The funeral sermon was preached by bishops Coughlin and Kelley.

The surrogate of Westchester, to-day, admitted the Greeley will of 1871 to probate.

The *Evening Post* says a rumor was in circulation at a late hour this afternoon, that Thurlow Weed had suddenly died, but upon enquiry it was assertained that he was in his usual health this morning.

Two jurors were obtained to-day in the Scannel murder case.

Private advices from Aspinwall say that the steamer *Henry Chauncey* did not leave there till the 3rd instant and will not arrive here until the 12th or 13th.

BOSTON, 10.—The Senate has fixed March 11 for the election of Wilson's successor.

ST. LOUIS.—The widow of the late John J. Crittenden, of Kentucky, died here yesterday.

TITUSVILLE, PA. — At Brady's Bend an accommodation train was thrown to-day from the track. Two cars loaded with oil, and the passenger car, were thrown into Scrub Grass Creek. The passenger car sunk, with how many victims is not known. Two bodies have been recovered so far.

CANADA.

QUEBEC.—The Quebec cabinet has adjourned. It is understood that Quinet will be premier instead of Chauveau, and that solicitor general Irvine will become attorney general. Chapleau will be appointed solicitor general. Dr. Tarton will become commissioner of crown lands.

WESTERN.

SAN FRANCISCO, 10.—The Irish convention, to arrange for the celebration of St. Patrick's day, is not altogether harmonious in its action. The election of Supervisor Barrett as grand marshal has caused much dissatisfaction, and one set of delegates withdrew from the convention on account of it. A correspondent is published scoring Barrett for his course in the Goat Island matter, and his vote to retain Harris as superintendent of the industrial school. Father Gibney was elected orator of the day.

The *Nevada* from Australia, is now thirteen days over due, and no tidings of her yet.

The reported shooting affair between Coghlan and the car conductor proves to be a hoax.

Reports furnished by a former prominent official of Oregon credit the Modoc Indians with 153 massacres of white people, from 1846 to 1861. In some instances they were allied with the Pit River Indians and some of their depredations extended to the mountain passe south of Yreka.

Mrs. Ah Fook, a white woman married to a Chinaman, tried to commit suicide last evening by swallowing opium in large doses. Desertion by her lord was the cause assigned.

Burns, the Yates county, New York, defaulting treasurer, is still in the city prison awaiting a requisition and transportion to the East. Chief Crawley declines to send him at his own expense.

SACRAMENTO, 10.—The reported death of George Moulthrop by an accident on the California and Oregon railroad, near Redding, on Sunday morning, is denied. He telegraphs that he is not seriously hurt.

The inquest in the case of Sam'l Lewis who died on Saturday night, shows that death was the result of an overdose of chloral hydrate.

The annual report of the Los Angeles and San Pedro R. R. Co., for 1872 was filed to-day in the office of the Secretary of State; the total earnings for the year was $177,981, expenditures $115,791.

COLUSA, Cal., 10.—The weather is clear and pleasant. There have been one sixty-hundredths inches of rain the last four days, making a total of nine fifty-one hundredths inches for the season. The river has risen ten feet in the last twelve hours, and is within four feet of high water water mark.

CALISTOGA, Cal., 10.—The first stage load started for the Geysers this morning, being the earliest of the season. The travel bids fair to be the biggest of any known. The weather is very pleasant. Slight frost last night. Thermometer 55.

SAN FRANCISCO, 10.—Louis Ehrich and Jacob Cohn were arrested to-day for the violation of the U. S. revenue laws relating to stamps on matches.

The Rev. Horatio Stebbins has declined the call of the Cambridge Unitarian Church, and will remain here.

Robert Appel has commenced a suit against A. E. Head, to recover $50,000, the value of stock sold by the defendant, belonging to the Union Consolidated Mining Company.

EUROPEAN.

ROME.—*L'Opinione* says the Emperor of Austria has consented to act as arbitrator in the settlement of the Laurium mine dispute.

DUBLIN.—The trial of the Galway priests for illegal interference with the Parliamentary election opened to-day in the court of Queen's bench. Lord Chief Justice Whiteside presides.

MADRID.—In the event of the King's abdication the upper and lower chamber of the Cortes will go into joint session and continue to sit as one chamber until the throne is filled, or the future form of the government is settled. The King's disposition to quit the throne is attributed to the difference between his majesty and the ministry, which arose in November last, when the General of artillery, Don Hidalgo, was promoted to the Captain generalship of the Basque provinces. The majority of the officers in the artillery arm of the service resigned their commissions at the time, protesting against the promotion as irregular and unjustifiable; refusing to serve under the Hidalgo because he had participated in the massacre at San Gil barracks in 1866. The Hidalgo meeting much opposition finally resigned and the officers withdrew their resignations, but the ministry recently appointed him to a new and important command in the Catalonia artillery. The officers returned their protest against it, and sent in their resignations, but the ministry disregarded them, and appealing to the Cortes, they obtained a nearly unanimous vote of confidence. The king from the beginning disapproved of the promotion of the Hidalgo, and feels affronted because the cabinet compels him, through the vote of the Cortes, to acquiesce in the last appointment.

It is given out that Senor Zorilla will return to private life if the King persists in his resolve to abdicate.

The members of the Cortes belonging to the most advanced section of the republican party, held a meeting to consider what action should be taken in the crisis. About thirty persons were present. They resolved to maintain a pacific yet energetic attitude, and, if the King's determination be irrevocable, to encourage orderly manifestations in favor of the establishment of a republic.

Snow interferes with the operations against the Carlists. General Moriones, commander in chief of the army of the north, is making a forced march in hopes of overtaking General Ollo, who is at the head of 2000 insurgents, and has again entered the province of Navarre. The Carlist bands under the command of Santa Cruz, Macazaga and Iturbide, have effected a junction in the province of Guipezera.

MEXICO.

CITY OF MEXICO, FEB. 11.—The insurrection in Tebee, under Lozada, is assuming formidable proportians. Lozada, in his political manifesto, proposes a government similar to the Paris commune. His army has invaded several portions of Jalisco and Guadalajara.

UNION
SAFETY LAMP
IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.
The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.

The Lamp is strongly and well made, attractive in appearance, and something entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.
In case of accident, the Lamp falling or thrown over, by which many explosions occur, is the cause of the oil rushing to the flame. In this Lamp it is not so it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of catching fire.
The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is superior to all LAMPS that have yet come to public notice.
This Lamp can be filled from the fount, on the top of which is a screw.
This Lamp can be attached to any Chandelier or Bracket made.
