Correspondence.
Baptizing—Traveling—More Liberty—Mormons—Work and Politics—Drunkennes—Christina Nilsson.
GUTHRIE, Oct. 1, 1878.
Editor Deseret News:
It is with great interest that I read your paper, as it comes to hand, from some of the missionaries that are scattered over the world, and, thinking that others might be of the same mind, I was induced to pen a few lines.
My health has been very good since I left home in February, nearly a year ago, and I have felt the blessing of God attending me during my absence from my mountain home. I can say that we meet with any uncommon degree of success at present, but the work of God goes steadily on. We are baptizing one here and another there every day, and we have a good prospect for the future as just as bright now as they ever were in this section of country.
I was appointed traveling Elder in this (Guthrie) Conference when I arrived here last Fall, and have been trying to fulfill my mission as fast as I have been able, mostly on foot, for I have no mule, and a good third part of Sweden, and we have had a few saints scattered over the biggest part of it, and as a result, they have been baptized. Our expenses for half year, etc., are very high, so that there is not much left for the missionaries to spend for traveling on railroads and steamships, and they have to foot it most of the time. I have a good chance of bearing my testimony to the truth of the gospel nearly everywhere we go, and the liberty is extended considerably since I was here last.
My attention was drawn to a letter (copied from an Omaha paper) in your paper that is lately come to me, and it contains a glowing account of Sweden, that had just come from America. He was telling about the fine times that were here in his country, and how he had been some particularly favored spot. I don't know that place, Bohus, where he was writing from. If I did I would give a few some information about it, and he says "they can earn from four to five kronors a day, and that they are just as good as so many dollars in America, when every body knows that a great deal of the provision they use here is imported from America, such as wheat, cheese, etc., and sold here at a good profit, besides many other articles of the necessities of life. A man who has a family has to pay here in Gotteburg, eighteen or twenty kronor per month house rent for a small room and kitchen, and very hard to get at that, on account of so many laborers coming in from the country to seek work. In walking through the city I have noticed on all the large buildings, and nearly all the small ones, a tending work is done by women. You can see them going up the ladders, with their heavy burdens of bricks, and carrying them to the fourth and fifth story, and these women are not paid much over one kronor per day. It was unusual for me to see anything of that sort in my country, but this is so common here that it doesn't seem to be anything unusual at all now.
Many hundreds of laborers here without work in each of the large cities last winter, and some of the manufacturing firms have now dismissed lots of their men, having no employment for them. So I would not advise anybody to be too hasty in following the gentleman's counsel to come over here.
I cannot say my feelings were so enthusiastically elevated when I saw my native land last fall, after an absence of thirteen years. I have an idea that they are a little higher, and I have the privilege of again beholding my adopted country. It must be admitted that there is a great deal of the beautiful in Nature surrounding us here in our land, but I can never cannot always live on the looks of things. There must be something more substantial. When in my travels through the country I have seen a lot of laborers who have to perform for such a poor and meagre living that they are able to eke out. I have noticed in my travels that they are among a people who, I am at home, that live under more favorable circumstances than the people do here.
The people here, as a general thing, are not so far sunk down in vices, such as abortion, infanticide, and the like, as they are in other large nations, but still there is considerable wickedness. Intemperance, drunkenness is very common here. I noticed a statistical report on the consumption of spirituous liquors here in Sweden, for the year 1875, which amounted to 2,214,620 kanner, or equal to nearly 17,000,000 gallons, manufactured and imported, which is pretty good for a country where there are millions of people in it. The whiskey of course is cheap here, but it amounts to quite a snug little sum of money.
The common error of life here has been a little disturbed this summer by the advent of the renowned opera singer, Mme. Christina Nilsson, who has been here for the first time since she came to America. She has been giving several concerts in some of the large cities, and she has been very successful. She has been almost frantic in seeking for a chance to hear her. Here, for instance, in this city, the tickets for her concert were sold more than a month before hand at fabulous high prices, and the people would sit outside the ticket office, some of them, from ten to fifteen hours, waiting for a chance to buy a ticket. A lot of the students in Copenhagen un hitched the horses from the carriage and pulled it themselves through the streets.
Yours very respectfully,
J. AUG. ANDERSON.

AD-RESS TO VOTERS
HEADQUARTERS PEOPLE'S TERRITORIAL CENTRAL COMMITTEE,
SALT LAKE CITY,
October 25th, 1878.
To the People of Utah:
Tuesday, November 7th, 1878, is the day fixed by law for the qualification of voters, and the day for the election of the Forty-fifth Congress of the United States. It is important that you should be present at the polls in the precincts where they reside and deposit their ballots for the man whom they desire to fill that position. George A. Cannon has been nominated as Delegate to Congress by the unanimous vote of the People's Territorial Convention, composed of representatives from every county in the Territory. He is the choice of the people. You know him, and we are therefore relieved from the necessity of enumerating his qualifications for the position. You know that in him we have a representative man who has been thoroughly identified with this country since the first year of its settlement, and who has served honorably and faithfully, and with credit to his constituents and himself, as delegate in the Forty-third and Forty-fourth Congresses.
Many voters have felt secure of the result of our elections in times past that they have been careless about voting. If it did not happen to be perfectly convenient for them to go to the polls at the proper time, they would neglect to vote, feeling quite satisfied that the men of their choice would certainly be elected. They are now coming to see that this is a mistake, and that they must exercise the elective franchise and show the nation our political strength. Besides, we have unscrupulous forces at work, who are constantly plotting to get the control of the affairs of the Territory into their hands. They call themselves "liberals." Their liberality consists of continual assaults upon the rights of the bulk of the people of the Territory, of persistent efforts to strip them of every vestige of citizenship and of the right to vote. They are attempting to get themselves into places of emolument and power. To accomplish these things they have recourse to every kind of dishonorable means. They fabricate the most atrocious lies; they circulate the most abominable slanders; they aim to destroy the reputation of an entire people; they adopt falsehood as their platform and use misrepresentation as their weapon; they denounce the "Mormons" as either "unscrupulous" or "monstrous," and "gentiles," who do not join them, they stigmatize as traitors and "Jack Mormons," through their libelous organ they whip every individual official, and endeavor to influence the people to believe that if they fear their lash and yet have too much self-respect to abuse himself, they drive him from the Territory. Professing to be "liberals," they use the most odious tyranny. While protesting hatred of the "rule of priesthood," and constantly crying out against its influence, as restrictive of the free agency of the citizen, they ostracize and place under ban every one who does not bow to their mandates.
For several years this party has sought to gain the ascendancy in Utah. No better illustration of the contempt for the rights of the people need be given than the fact that one of its candidates for Delegate to Congress, who only received five votes, contested the election of the delegate elect, who had received over 12,000 votes. The ground of contest was that he was a "liberal," and the votes he had received were "liberal" votes, while the sitting delegate was a "Mormon" and had received "Mormon" votes, and therefore he claimed the seat! Still proceeding upon the same frivolous assumption, his candidates for the same position have since that time entered upon three different contests before Congress for the seats of the delegates elect. And yet this party, with such a record, prates about its respect for law, its regard for the constitution, and the sacredness of the rights of American citizens, and the high esteem it entertains for the expression of the people's will through the ballot-box.
We have no fears that any man or woman of sense and experience will be deceived by its pretensions. But its members and its candidate would have you believe they have your welfare at heart; that if they could control the Territory you and it would prosper; that the civilizing agencies they have introduced into your midst are those which you most need. Their regard for the people of Utah is like that of Joab to Amasa, when he asked him "Art thou in health, my brother?" and took hold of him as if to kiss him, while he ran his sword into his ribs.
If any single one of the many bills which these "liberals" have framed here and sent to Congress to be introduced there had become law in the form in which it was sent, the citizens of this Territory who are Latter-day Saints would have been placed in a condition more terrible than slavery. To get these bills made into law, the candidate would have you believe they have spared neither time nor means. For years they have not allowed a session of Congress to pass without having a delegation at the Washington to urge their passage. Their most unscrupulous, adroit and rancorous members have been selected as
