DESERET EVENING NEWS SATURDAY JULY 13 1907

Deseret News Quotations of

Prices of Sugar Stocks.

New York, July 9.—Colonel William C. Greene, President of the Green Gold-Silver company, is now on a tour of in-spection of the copmany's properties in Mexico. He has written to the main-office of the company in this city con-cerning the progress he has found. "The principal mining operations of worth of ore in sight in the colorado. Others say that these figures are only half an estimate. The remarkable thing about this mine is the richness of its ore and the condition in which "The principal mining operations of the Green Gold-Silver company," he of its one and the condition in which it presents itself, there being scarcely no waste, and the ore as it is mined can be shoveled into the cars and holst-ed to the surface, cutting mining ex-penses down to a minimum when the value of the ore is considered. The

writes, "are being pushed at the Navidad Concheno Mine, with a force of about 800 men including about 25 Americans. It has added 40 stamps more to its 70 stamp mil, so as to inthe canacity to 500 tons daily. crease the capacity to 500 tons daily. Later this will be increased to .000 and eventually to 1.500 tons ever 24 hours. "Great activity and improvement is the order of the day in the camp. The 4 new stamps are to be in within 90 days. The management is hesitating between putting in an all slimes treat-ment nhant or a examide plant. The

 Since first date above given we have constantly advised those able to hold their stocks, not to sell; and those wish-ing to invest in stocks named, to buy as we belleved the stocks would be sure to rise. This advice's good NOW.. If able to hold, do not sell your stocks. If you wish to buy good dilvdend paying stocks that will yield a fair rate (not less than 7 per cent per annum), and that are bound to rise in market value, send us orders to buy for you stock in Idaho and Western Idaho Sugar Companies. After July 18th, 197, these and the Utah Sugar Company are to be combined and after that date, ask for preferred stock in UTAH-IDAHO SUGAR COMPANY.

transfer of the control of the American to Jesse Knight. Mr. Schmidt was one of the largest owners in the American. Frank P. Swindler of Salt Lake was visiting the Opex and Eagle & Bhe Bell properties this week. At the Opex the new shaft is down about 650 feet. and Mr. Swindler is highly pleased with the showing at this depth. "Tin-tic is certainly booming" said he. "and from the present outlook the district has just began to grow." The gentle-man took a trip around the mountain and expressed alt what was going on in different parts of the district. J. P. Turner, who has for some time

different parts of the district. J. P. Turner, who has for some time been superintendent of the Star Cons. mine, expects to go to Nevada, where a splendid position awaits him, just as soon as the Black Jack takes over the affairs of the former company. The Beck Tunnel will distribute an-other \$40,000 on the 20th of this month. which will bring its total dividends up to \$615,000. According to those who have been underground recently, the mine never locked better than it does at present.

SUCCESS COMPANY SUED.

Stockholder Seeks Courts to Recover Shares Which Have Become Valuable

Because the Success Mining company Because the Success Mining company has refused to transfer to her 10,000 shares of stock in said company which she bought at execution sale, M. Rudeli has filed an action in the dis-trict court against the company to compel it to transfer the stock to her upon the order issued out of Justice of the Pence Dana T. Smith's court when the sale of the stock was made by the constable, Thomas Fowler. The stock was the property of P. D. White against whom plaintiff secured a judgment in the justice court. That the stock is worth fighting for is very evident from the fact that the

That the stock is worth fighting for is very evident from the fact that the Success company has been absorbed by the Colorado Mining company and 265 shares of stock of the latter has been issued for every 1,000 shares of the former company and that Colorado stock is now worth about \$8 per share. Plaintiff alleges that she presented the stock for transfer so that she might re-ceive 2,650 shares of stock in the Colo-rado company pursuant to the arreeceive 2,650 shares of stock in the Colo-rado company pursuant to the agree-ment of consolidation but that the de-fendant company refused to make the transfer. She asks that it be compelled to transfer the stock and issue the Colorado stock in its stead and also that she recover \$5,300 which has been paid in dividends on said stock since the consolidation.

RECEIVER FOR KING CON.

Park City Company Gets Into Serious Finar al Entanglements.

receiver was appointed by Judge Lewis today in the district court of the property of the Silver King Con-solidated Mining company of Park City. The appointment was made upon re quest of Solon Spiro, who is plaintiff in the action and who owns 100,000 shares of the capital stock of the company. W. H. Shearman of this city was appointed as receiver and his bond was fixed by the court at \$10,000. In his complaint Mr. Spiro alleges that the capital stock of the company is \$2,500,000, divided into shares of the par value of \$5 each and that he owns 100,000 shares. He claims that the com-pany is indebted in the total sum of \$75,000, of which amount \$19,300 are due him for money advanced and for sal-W. H. Shearman of this city \$15,000, of which amount \$19,300 are due him for money advanced and for sal-ary. The value of the mining claims of the company is problematical, but it has machinery and buildings valued at \$25,000, and also has \$14,500 worth of bonds left out of an issue of \$100,000 which can probably be sold to advan-tage. tage. It is absolutely necessary, he alleges to have some one take charge of the property so that it may be operated and cared for and enable the stockh ders to get some of their money back. Judg-ment is asked for the amount due plaintiff. Upon the showing made Judge Lewis appointed a receiver for the property as stated above.

Cutler, Sr., S. S. Jones, Hugh J. Can-non and A. N. Holdway, constitute the board. The Utah company is capitalized for \$250,000 with shares of the par value of \$1 each. It is the intention to resume the develop-ment of this property in the near future and the treasury stock to be sold will probably all be subscribed by the present shareholders.

BUSINESS NOTE.

The Alaska Ice and Storage company. the latest home concern to be organized, is now actively conducting its business. The company handles natural

ness. The company handles natural ice, which it states will last longer than the other, as it is frozen harder. The list of officers in the new com-pany is as tyllows: John C Sharp, president: Matthew Noall, Dr. E. B. Isgreen, O. P. Miller, E. T. Ashton, Wm. S. Noall, Lyman R. Martineau, Isaac Hancock, Neobi L. Morris, Hugh J. Cannon, Heber S. Cutter, directors, and J. Palmer Sharp, secretary and treasurer.

value of the ore is considered. The chief difficulty experienced in market-ing the ore is getting it hauled to the railroad, which is being done by team. The Colorado is sinking another shaft, over which new machinery will be in-stalled, and when ore commences to come from two shafts this bonanza is liable to make some of the oldest and biggest mines of the state look like prospects. There is even talk now that the dividend for next month will go over 12 per cent. over 12 per cent.

The Scotia mine in West Tintic has The Scotla mine in West Tintic has every indication of being a pretty big proposition. J. H. Erickson, who is in charge of development work at the property, was in town this week en route to the mine from Salt Lake. He made an unsuccessful attempt while here to procure men to take to West Tintic to work. Mr. Erickson stated that the commence is not to the to the Tintic to work. Mr. Erickson stated that the company is not trying to ship any ore at present, and will not at-tempt to put any on the market until the railroad reaches that section, which he said would probably be this year, or early next. It is stated that the com-pany is contemplating building a mill for the h ling of its low grade ore. The formation at the Sioux Cons. is

And ship only the high grade rock. The formation at the Sioux Cons. is similar with that at the Colorado, says A. N. Holdaway, in charge of develop-ment work at this property. The Sioux Cons. lies to the south of the Colorado. The shaft is now down over 60 feet, and it is expected by the management to get the Colorado vein at a depth of 300 feet. New machinery, except the boller, is hold the management of a days feet. New machinery, except the boller, is being installed, and within 30 days the new holsing plant is expected to be working. Water that is being piped to this ground and also to the Iron King will be ready for use by that time.

Jesse Knight of Provo and Supt. John Roundy of the Colorado and Beck Tun-nel mines visited the Star Consolidated nel mines visited the star consolution mine Tuesday for the purpose of in-voicing the company's property, pre-paratory, it is stated, to the consoli-dation with the Black Jack which de-tation with the Black Jack which deparatory, it is stated, to the consoli-dation with the Black Jack, which de-tails will be attended to within the course of a few weeks. It is likely that work will be continued at both mines. On the 200 level of the Star Cons. a drift is being run out into the eastern part of the company's ground, and Mr. Roundy states that it is anx-ious to have this work go on. J. C. Jensen, the president of the East Crown Point company, says that the corporation now has about \$8,000 in the treasury, which amount has been derived from the sale of treasury stock recently put upon the market. Prep-arations are under way for the starting of development work, the claims of the company now being surveyed. The Crown Point Ming company is another late addition to the listed prop-erties of the district, the stock recently having been listed on the exchange. This is another of the Knight holdings laying to the east of the Colorado. The company has now about \$5,000 in the treasury for development purposes. An office building for the Uncle Sam and May Dey mines is being erected near the residence of the superintend-ent of the companies, in Knightsville. The repairing of the shaft at the Eu-

near the residence of the superintend-ent of the companies, in Knightsville. The repairing of the shaft at the Eu-reka Hill is still going on and will be in progress for another two weeks. Supt Charlie Baker has returned from a two weeks' trip to Salt Lake. The which the company has been operating for some time, will expire the first of August, when it is then expected that the company will be able to get a bet-ter rate for the handling of its ore. August Schnift was in Provo Mon-day for the purpose of attending to some matters in connection with the

THE SIOUX CON.

President T. R. Cutler Optimistic Over Future of Mine.

Thomas R. Culler, president of the Sioux Consolidated Mining company returned last evening from a trip to the Tintic district where he went to make an inspection, not only of the Sloux Con., but the Colorado, Beck Tunnel and other mines in the east end of the district which is attracting such widespread attention at the present time

such widespread attention at the present time. President Cutler is very optimistic over the future of the Sioux Con., mine and declared that there is not the slightest doubt in his mind that the Colorado veln will be cut in the Fhoebe S. claim upon which a shaft is now being auk. At a depth of 65 feet in the shaft favorable conditions are showing and it is just possible that the ore will be encountered much sooner than it has been anticipated and it has been figured by engluers and others who have examined the ground that the veln would likely be cut somowhere around 250 feet depth. "It will probably take us 25 days yet," said Mr. Cutler, "to install our new hoisting plant and get it ready for commission. The work of putting up the gallows frame was started yesterday. The company owns some springs about three miles away and a pipe line is now being laid to bring this water over to where it will be of use. But this work is being pushed aherd rapidly. "Yees. I visited the Colorado mine and I believe it is the biggest strike ever made in Tintic. No one knows yet how big the mine really is and it may take a long time to find it out. People have not understood the east end of the Tintic district heretofore

may take a long time to find it out. People have not understood the cast end of the Tintic district heretofore and they are just beginning to find out that it is just as rich in ore as any other part of the camp. Uncle Jesse Knight has had unbounded faith in this end of the district for years and the developments made in the several producing properties in which he is interested is rapilly demonstrat-ing that he has been correct in his

ing that he has been correct in his reading of the formations." While in camp Mr. Cutler attended a meeting of shareholders of the Utah Consolidated Mining and Milling company, which owns 50 acres of pai-cnted ground situated adjoining the Sloux Consolidated which resulted in the election of the following officers and directors: Thomas R. Cutler, president; Reed Smoot, vice president; who, with Heber S. Cutler, John C.

CONCENTRATES.

E. J. Raddatz has gone to Nevada to look after matters relative to the Lane City copper property in which he is interested.

The ore and bullion settlements re-ported late yesterday by McCornick & Company were: Crude ore and con-centrate, \$210,000; base bullion, \$58,000.

Simon Bamberger, president of the Bamberger DeLamar mines at De-Lamar, Nev., returned from the south yesterday ivery well pleased with the manner in which things are tunning in camp.

W. G. Ingalls, editor of the Engineer-ing & Mining Journal of New York, is expected to reach the city this after-inoon and will visit several of the principal Utah camps before return-ing near ing east.

CHICAGO CHICAGO. Chicago, July 13.—The wheat market to-day opened active and strong. The Liv-erpool market was reported as being more than 1d higher and the reports of small yields in the southwest from harvesting operations continued to pour in. From the northwest also came dispatches de-claring that the crop in that section is looking poorly. The general demand was good and offerings were light. September wheat opened %2% higher at 94%094% sold off to 94% and then advanced to 35. Prices were firm in the corn pit and the trading was fairly active. September corn opened ½ to ½ higher at 54%054% and sold at 54%. There was a big demand for oats at the opening of the market and as of-ferings were light the market quickly became strong. September oats opened ½ to 36 higher at 38% to 33% and sold up to became strong. September oats opened 1/4 to 1/2 higher at 29% to 29% and sold up to to ½ higher at 39% to 39% and sold up to 40. The provisions market was quiet and prices were easier because of a 5 to 10-cent decline in the price of live hogs. September pork opened 7%20 cents low-er at 16.35; lard was 2% lower at 8.67%.
