Keene Would Not Suit.

NEW YORK, 28.—Jim Keene recently applied for membership in the Newport club, and was blackballed. The *Commercial* says it does not appear that Keene did anything to offend anybody. He pays his debts, which is perhaps more than can be said of some members of the Newport club. He makes money and that puts him on par with men whose sole distinction is their money. We don't suppose Keene will die of a broken heart because the Newport club denies him the privilege of putting his legs under its mahogany.

Chinese Language at Harvard.

A full dressed Chinaman and servant called on the Mayor to-day, and presented credentials showing the first to be Kee Hung Wa, just from Shanghai, where he was engaged by the United States Consul in behalf of Harvard College, to teach Chinese for three years at $200 a month, and expenses to this country paid.

Heirs to $28,000.

The third and last hearing was yesterday had before the Surrogate of Westchester County for the purpose of taking additional testimony as to identify Patrick Donohue, Ann Donohue and Maria Carroll, the brother and sisters of Philip Donohue, who died in San Francisco, leaving them heirs to property valued at $28,000. A man named Patrick McCarth, who has known the brother and sisters ever since they first went to Westchester County, testified positively to their identity. The case was then closed. The Surrogate said he would send the testimony to the Probate Court of San Francisco. The legatees are poor hard-working persons.

The Bennett-Smith Trial.

Counsel for Cove Bennett and Mrs. Smith, whose new trial occurs in September, is alleged to have new testimony which he refuses to disclose. Judge Knap, who tried Mrs. Smith and Bennett when they were convicted, is in Colorado.

Hendricks Tucked Away.

Hendricks has been in New York nearly a fortnight, and has seen neither Tilden nor Kelly, nor any other leading democrat. This strange solitude will enable him to return to Indiana with the valuable conviction he is snugly tucked away on the political shelf.

Gold Brought.

The steamship *Canada* brought $1,200,000 in gold bars to-day.

Baptist Opinion of Kalloch.

PHILADELPHIA, 28. — The *National Baptist* says of Kalloch: Personally, we have nothing favorable to say. We have no doubt of the extent of his abilities and power of leadership, but we do not believe him to be a good man. Our opinions is the tendency of his recent teachings has been disorganizing and demoralizing, yet he had the right to say his say, offensive as his say is. If he violated any law, he was amenable to law, and not to the hand of violence."

Yellow Fever Notes.

MEMPHIS, 28.—The Howard Association to-day assigned twenty nurses to duty.

Ed. Keating, keeper of the Court Square for many years, died of the fever to-night at 8 o'clock. More cases are reported this afternoon. Two additional deaths occurred.

The thermometer to-day ranged from 65 to 83.

New Orleans, 28.—Miss Ida Berseon, aged 18, was taken sick with the fever August 25, on Third Street, No. 207 Constance Street quarter. Her brother, aged four and a half years, died July 31st of the fever.

The condition of General Hood and daughter is reported favorable.

Of the six cases of yellow fever reported yesterday from the quarantine station on the bark *Black Prince*, from Havana, three died last night. Others are getting along well.

WESTERN.

Lucky Baldwin Indicted.

SAN FRANCISCO, 28.—The United States grand jury has found an indictment against E. J. Baldwin, for violating the internal revenue laws, by refilling old packages with spirits without cancelling the revenue stamps thereon, and selling the same at his store in Los Angeles County. He is also charged with failing to make proper entries in his books as required by law.

One Good Effect of the Sutro Tunnel.

A stronger feeling in the northern mines of the Comstock is attributed to the fact that the water has been practically mastered by the assistance of the Sutro Tunnel. The new north drift of the tunnel is being vigorously pushed.

Kalloch's Present Condition.

Physicians still report Dr. Kalloch improving, but as yet he cannot be considered out of danger. Medical gentlemen say more or less pus has formed, and is still forming around the bullet, and there is no way for escape, as the hole from the surface is already blocked. It is feared that if no outlet is found for it by natural or other channels, inflammation and blood poisoning will ensue. At present the most unfavorable symptom in his case is the feeling of sickness at the stomach every evening at about six o'clock. Mr. Kalloch fears it is produced by agitation to his nerves by the presence of the physicians at about that time, and they have accordingly decided to see him only in the forenoon. It is also thought it may result from over nourishment.

FOREIGN.

GREAT BRITAIN.

Foreign Facts.

LONDON, 28.—The *Financier* says: £178,000 of gold is expected by the steamer due at Southampton on the 1st of September. The bulk of the amount together with £100,000 recently arrived, will probably go to meet the American demand. A great deal more bullion will undoubtedly go to America. It is reported that within a comparatively brief space £2,000,000 will be sent there. Notwithstanding the recent expression of opinion to the contrary, we affirm that the shipments of bonds and iron or any other commodity, will be quite inadequate to settle for a time the enormous balance which must be accumulating on account of American food. The possible ultimate effect of this bullion will be a rise of from one to one-and-a-half per cent. The rate of discount is now quoted among brokers to four or five per cent., the rate at the Bank of England during autumn.

The farmers who sailed from Liverpool yesterday for New York, are from Northern Yorkshire and Durham. Several can command capital of £500 to 600, while others have entered into partnership, one group having raised a capital of £120.

A renewal of the floods is reported from various parts of England and Wales, and reports of the harvest are daily more deplorable. At several places there has been 30 hours of steady rain.

A Cleveland dispatch says: The shipments of iron on Wednesday included a small quantity of pig iron for America—quite a novelty in the trade.

A hundred thousand pounds was withdrawn from the Bank of England to-day to go to America.

The Russian authorities at Odessa have prepared a grand reception for Maynard, United States minister, and officers and crew of the United States steamer *Wyoming*, and ordered that the public establishments should accept no payment for expenses from the Americans. Maynard, however was obliged to leave Odessa before the principal fete took place in consequence of a meeting of the diplomatic body in Constantinople.

The foreign ambassadors in a meeting this week, discussed the project of the Porte for making foreigners liable to the law relating to the trade license. It was decided that such a change was impossible before a complete understanding had been arrived at by the ambassadors on the subject.

The Grand Duke Vladimir and Grand Duke Alexis, visited the German Emperor at Potsdam yesday.

The tone of the German official press has been less irritated against Russia in the last day or two.

Andrassy spent the whole day yesterday in the company of Bismarck.

Gambetta's plan for inducing the Council General to bring a pressure to bear on the Senate by voting resolutions favorable to the Ferry bill, having failed, he now advocates an agitation in favor of a bill among the masses.

Two hundred and forty influential Roumelian Turks have been taken prisoners in the Rhodope Mountains, charged with a conspiracy to attack Philippopolis. The affair caused great alarm at that city, as it was feared it might serve as a pretext for the entry of the Turkish troops now concentrated at Adrianople into Eastern Roumelia.

The occupation of the Sandjak of Novi Bazar by the Austrians, will take place on the 8th of September. Five thousand men will occupy Preboj, Prepolje and Tachlidja. English merchants have protested against the contemplated imposition of trade licenses.

TELEGRAPHIC NOTES.

Fitzjohn Porter has written a letter to Washington saying he is coming early next winter to urge upon Congress his restoration to the active list of the army.

The exercises attending the centenary of the battle of Newton began this evening by an address by Erastus Brooks. The Governors of New York, Pennsylvania and Vermont are here with their staffs.

The reunion of veterans from Ohio, Pennsylvania and Virginia, at Steubenville, O., is attended by Governor Bishop, Generals Garfield, Ewing, Rice, Saunders, Platt, Hickenlooper and others, who made speeches.

The operations of the Schuylkill coal region give prices for line and city trade, which shows a decline of from 20 to 35 cents per ton.

The greenbackers met in a State Convention at Utica, N. Y., to day. The speeches indicate the nomination of a straight ticket.

Rarus was sold to H. M. Whitehead, of New York, for $36,000.

Two hundred employees of the nail company of Belleville, Illinois, have struck.

SEVIER STAKE CONFERENCE.

The Quarterly Conference of Sevier Stake was held at Richfield, Saturday and Sunday, August 23d and 24th, 1879.

On the stand were—of the Stake Presidency, President Franklin Spencer and counselor A. K. Thurber; Patriarch Tarleton Lewis; all the bishops of the Stake except one, and many of their counselors; also Bishop R. N. Allred, of Chester, Sanpete, and Elder Wm. W. Burton of Ogden.

Conference was opened in the usual way by singing and prayer.

The first meeting was addressed by President Spencer, Counselor Thurber, Bishops A. T. Oldroyd, J. H. Wright and Geo. H. Rust.

At 2 p.m. the house was well filled, and, although the people are very busy with their harvest, the Richfield Hall was far too small to accommodate all who were assembled.

Elder W. W. Burton, in a very interesting discourse, bore testimony to the truth of this work; showed that many attempts had been made, and plans adopted to induce the witnesses to the Book of Mormon to deny their testimony, but all in vain. Referred to the advancement the world has made in astronomy and other sciences, and that the scientists of the world differ on some points. They take the honor to themselves, shutting God out altogether. But men inspired by the Almighty, could give correct information regarding these matters.

Bishop Allred related some of his experience in the Church, he having been in it at an early day. Remembered being enrolled, while young, among those who stood ready to defend the Prophet Joseph Smith and the work of God. On one occasion, the mob, 4000 strong, were coming upon about 200 of the brethren; the Lord interposed in behalf of his people — multiplied them in the eyes of their enemies—the latter were seized with fear and fled. Spoke of conspiracies which had been formed to carry out the designs of wicked men and get ambitious persons into office. The Lord inspired his servants and those evil designs were frustrated.

Bishop D. L. Harris said, among other things that he could remember some talk and letters made use of while he was a boy concerning Joseph Smith, the Book of Mormon, etc., previous to the organization of the Church. Was personally familiar with many things which transpired in the early history of this Church. He had, by invitation, attended meetings where conspiracies were formed and covenants made against the Prophet Joseph and his brother Hyrum. Heard Joseph Smith declare, earnestly and in tears, that God had revealed to him the principle of celestial marriage, and said he and his people must accept this principle or be damned. His enemies declared they would kill him if he did, and he asked, "My brethren what shall I do?" On one occasion the Prophet told him and others, "let your blood flow, suffer your heads to be severed from your bodies, rather than say a word against God or his anointed." Thought such advice was good for us to-day.

Sunday, 10 a. m.

After the usual opening exercises H. P. Miller, Stake Superintendent of Sabbath Schools, read a report of the Sabbath Schools of the Stake and stated that the condition of the schools was favorable and encouraging—much energy being manifested by superintendents and teachers.

A statistical report of the Stake was read by Bishop Joseph S. Horne.

President Spencer exhorted the Saints to take good care of their children, and teach them the principles of the Gospel, that they may become useful in the Kingdom of God. Spoke at some length about the taking care of and sale of grain, building up our co-operative institutions and encouraging home industries. Desired the people to be cautious and wise, live the lives of Saints and be faithful in the Kingdom of God.

Counselor Thurber referred to the early settling of these valleys. The "Mormons" were the first to raise the American flag on this soil—then belonging to the Mexican government, and they are yet willing to maintain and uphold the Constitution of this country. Spoke of wicked men, judges and others, who had sought to destroy this people, and who are dead and in oblivion as far as influence or good will among the people are concerned.

In the afternoon the General and Local authorities of the Church were presented by Counselor Thurber, and sustained by unanimous vote.

The meeting was addressed by Bp. Allred, Elders Burton, E. K. Hanks, and F. G. Young, Counselor Thurber and Prest. Spencer. Much valuable instruction was given, strong testimonies borne, and the people were exhorted to diligence in performing their duties, especially in the care and training of their children, which is an important work. Counselor Thurber, in his remarks enjoined upon the people the necessity of securing titles to their land, becoming legal citizens and voters, thereby placing themselves in a position to wield an influence at elections and elsewhere. Desired the Saints, especially the young, to understand that marriages performed by a magistrate, bishop or Elder, although sanctioned by law, are considered of little worth in this church, and the children born in such unions are not raised in the covenant and cannot legally claim any right to the priesthood.

During Conference excellent singing was furnished by the Richfield, Glenwood and Monroe choirs, under their respective leaders.

On Monday, the Relief Society, Y. L. M. I. Association and the Primary Association held their conference. The Y. M. M. I. A. met on Friday evening, the 22nd. At these meetings a good spirit prevailed, interesting and encouraging remarks were made and a time of rejoicing realized.
