INTERNAL MALADIES.

"I began to think my troubles would end only with my life."

Pain and sickness know no ranks or social station. The daughter of a patrician family hedged about with every luxury and safe-guard, may suffer misery just as intense as that which afflicts the poor.

MISS MARSHALL SUFFERED FROM Nervousness, Depression, Headache, Irritability, and Women's weakness.

HER LETTER:

"When I was eighteen years old I contracted inflammatory rheumatism, and it had a very bad effect upon my health. I became nervous and irritable, and I am often sorry now when I think how much my family had to hear from me. The pains were in my limbs, but I also had internal trouble, which caused me great suffering. We tried many medicines, both for the rheumatism and the special weakness, but they did not seem to do any good, and I began to think medicines were of no use; that my sufferings would end only with my life. I did not expect any cure of my ailments until I began to use Paine's Celery Compound, but only took it because my father made me do it. It is less than a week I had changed my condition. The weakness which had made me an invalid was first relieved by the Compound. Then gradually the rheumatism was taken out of my system. I will not say that it was a sudden cure. It took some time to conquer the rheumatism. I am thankful that my ailments were relieved so quickly, or I might have had a permanent cure in treating my rheumatism. I can now testify, however, that the rheumatism and my other trouble have been completely cured by your wonderful Paine's Celery Compound."

WHO ARE THE DEAD STRANGERS. Yesterday's "News" stated that men traveling across the desert often find death en route and now comes news of the finding of the bodies of three men on the line between the terminus of the San Pedro and California and it is generally believed that they are Ogden people.

There are no less than three men from Ogden who left for those parts recently and since then have been slain as to their whereabouts. The names of the men are Phillip Geiger, William Hancock and George Holberg. Geiger has a wife and child in this city and Hancock formerly worked for H. P. McCordie, the restaurant man. The three men left on Jan. 1 for the end of the Clark road, and three days later letters were received from them stating that they were starting across the desert for Needles, Cal. Hancock had some affairs here that were left in the hands of a friend to close up, and which would have furnished him some money. This friend, Mr. McCordie, wrote to him at Needles, sending his letter Jan. 5. The letter called for an immediate reply, but none has been received.
