Fankfert, Germany, April 25.-One of the most destructive explosions on recerd occurred this evening at the electrochemical works near Greisheim, where smokeless powder, is manufactured. Most of the bollers exploded, causing fearful less of life the number of vie-Unis being placed at 200. The noise was so tremendous that it was heard at great distances, including Frankfort and Mayence.

Lincoln, Neb., April 25 .- In a statement given publicity tonight, W. J. Bryan says, in effect, that he has no intention of seeking a third nomination for the presidency. Mr. Bryan's aunouncement is in answer to an article in an eastern paper speculating on his future plans as a political leader. Mr. Bryan said:

"I am not planning for another presidential nomination, for if I were would not be editing a paper; if 1 become a candidate again it will be because it seems necessary for the advancement of the principles to which I adhere, and that does not now seem robable. I shall, however, continue take an active interest in politics or several years yet, if I live, and can e relied upon to support those who, candidates, advocate Democratio rinciples and who can be trusted to ce them if elected.

"I have no enemies to punish, no matter what any one may have said of the ticket of 1896 or in '1900; that man becomes my friend the moment he scepts democratic principles. Neither have I any disposition to reward po-liteal friends at the expense of our cause. No matter what a man may have done in a state of the s have done or said for the ticket in 1896 r in 1900, that man becomes an opponent the moment he turns against Democratic principles. Political batlies are fought not in the past or the future, but in the present. The herefore cannot be recalled and the hereafter cannot be anticipated, but the now is all-important."

CONCER DEFENDS THE MISSIONARIES

San Francisco, Cal., April 26 .- In reference to the accusations of looting made against missionaries, United States Minister Conger, who arrived, here last night, makes the following

The Americans have a larger no per of missionaries out there than any other nation, and I am frank to say that under the circumstances there are very few things which the missionaries have done to the the the missionaries have done, if any, for which there need be any spology whatever. The states of their looting are false, to my knowl-

Every woman in the country ught to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external lini-ment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken intern-ally are apt to do. It is to be rubbed into the abdomen to soften

and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other disconforts of pregnancy. A druggist of Macon, Ga., says

"I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it.'

A prominent lady of Lam-berton, Ark., writes: "With my fust six children 1 was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."
