

# SPECIAL BUSINESS NOTICES.

MISS ROSE BAIN will appear as "Lady Margaret Oliphant," and Mr. W. Gill as "Dr. Fairlie," in the great Scotch play of "Madge of Elvanhoe," at the Theatre to-night.

To read the new advertisement of Z. C. M. J., you will find that the stock of Gentlemen's Furnishings, French Cassimeres, and New and Boys' ready-made clothing, Remnants, etc., lately arrived by the clothing department, will be offered off at very low figures. This is a splendid chance for merchants and others. Call at the wholesale dry goods department, examine the stock, and sell yourselves.

GRASS CREEK COAL, from Old Church Bed, is only sold by Angus M. Cannon, east of Sierra Nevada Lumber Yard. d66&w1

The Brooklyn Argus says that the first thought on a cold morning, is "God help the poor." To judge from appearance, the second thought is a determination not to meddle with the intentions of Providence.

JAMES OSTERMANN respectfully informs his friends that he has opened a Grocery and Provision Store, five doors below the Wasatch Drug Store, East Temple Street, where they can find a choice stock at lowest rates. d63

BENEFIT of Miss Rose Bain and Mr. Willie Gill at the Theatre to-morrow night.

The Sierra Nevada Lumber Association call attention to their large and varied stock of lumber, shingles, mouldings, shingles, doors, blinds, lath, wood pumps, and water pipes, at wholesale and retail. Read their new advt. and go and see their stock on hand.

ONE thousand Dollars is offered by Dr. C. W. Higgins for any cancer that returns after his treatment with one of his vegetable cancerous plasters. There is no danger in applying these plasters, as they only destroy the cancer and the cancerous matter that is in the blood; they will restore health and happiness to those that are afflicted with that dread disease, cancer. Dr. H. makes a specialty of chronic diseases. He has performed some wonderful cures since he commenced his practice in this city. He is receiving testimonials every day from patients that have been cured by his new mod. of treating chronic diseases. Afflicted, call and see for yourselves. Office one door north of the Walker House. Consultation free.

The report that Mr. Samuel Wilkeson said that the Teacher Titian scandal would "knock the life of Christ higher than a kite" is not accurate. What he really said was, that it would knock it to the devil.

OVERSHOES, Rubber Boots, etc., sold, heated and repaired at the Workmen's Co-op., 90 Main St. d62

NOTICE.—T. G. M. Smith, custom boot and shoemaker, respectfully informs his numerous friends that he has removed from First South Street to first door south of J. McDonald's and second door north of Stevens & Co., East Temple St. He thanks them for past favors and solicits a continuance of their patronage. d61

GRAND MATINEE on Saturday at the Theatre.

ADOLPH HAUSERACH, practical watchmaker, has removed next door to Thomson and Lyneberg's, First South Street. d61

CHAMBER'S ENCYCLOPEDIA.—Messrs. J. B. Lippincott & Co., of Philadelphia, announce that, by a recent purchase, they have become the sole proprietors of the American Revised Edition of "Chamber's Encyclopedia," and are thereby enabled to offer the work at much lower rates than hitherto. In the course of its recent thorough revision, the American edition was edited with the special view of supplying the wants of American readers. It also possesses a special attraction in containing a series of over seventy-five full-page engravings not contained in any other edition. d50

A wicked boy, upon whose shoulders his mother was expressing her resentment with both slippers, felt too hot to cry, and kept up his courage by repeating to himself, "Two soles that beat as one."

BEST live Geese Feathers at 80 cents a pound, and all kinds of Fancy Brackets very cheap at Dinwiddie's.

PURE OLIVE OIL.—Constantly on hand the genuine article directly imported from France, for sale by Louis A. Bertrand, at his residence, half a block west from the Valley House and three doors from the Utah Hotel, and by Mr. Risser, watchmaker, opposite the Herald Office, price from fifty cents to two dollars, according to the size of the bottles.

As a Frenchman, I do testify that my olive oil is the very best in the market. ds

UNIVERSITY LIBRARY AND READING ROOM, University Building, FREE.

Open every evening from 6 till 10.

GRAY BUILDING, SPOT for sale, 2nd Ward. Apply at this office. d54

A finely dressed young lady slipped and fell over the post-office, and the boot-black who assisted her to her feet, inquired, "Did you break any bones, madam?" "No, I guess not," she replied, "but I'm just as good as if I had broken a dozen of 'em."—Detroit Press.

REASONS WHY.—The reasons why Dr. Price's True Flavoring Extracts, Lemon, Vanilla, etc., are superior to all others is because they are prepared from the choicest selected fruits and aromatics, without coloring or poisonous oils, that all the flavoring principles are retained unchanged by chemical action, highly concentrated, requiring less to flavor than there is no deception in bottles as they hold one-half more than those sold for the same size. That they are in every particular like his celebrated Cream Baking Powder—perfect.

BE WISE IN TIME.—Consumption is a disease that the victims seldom believe in until too late. It is one of the surest symptoms of the malady, for the patient to insist that the cough "amounts to nothing"—that there is no danger. Beware of this fatal incredulity.

Stop the cough before it reaches a fatal point, with that most wonderful of all pulmonary, Hale's Honey of Honey and Tar. Even when half the lungs are gone it may save the other half and prolong life.

PIKE'S TOOTH-ACHE DROPS.—Cure in one minute.

Don't Hack, Hack, Cough, Cough!

Cough is a symptom by which various diseased conditions of the throat, bronchial tubes and lungs manifest themselves. But whether it arises from the irritation produced in the throat and larynx by taking cold, from an attack of Bronchitis, from incipient Consumption, or from various other causes, nothing will allay it more speedily or cure it more permanently than Dr. Price's Golden Medical Discovery. It does not matter whether it be a recent attack, or a lingering cough, the Discovery is in either case equally well adapted for its relief and permanent cure. It acts, in fact, it will cure a cough in one-half the time necessary to cure it with any other medicine, and it does not by drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. No time should be lost in commencing the use of a proper medicine for the relief of a cough, for unless this course is pursued, serious and dangerous disease of the lungs is liable to result. Golden Medical Discovery is sold by all dealers in medicines.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road has been put in an admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d64

PRICE OF GOLD. Corrected daily by Federal National Bank. SALT LAKE CITY, February 11, 1875. Buying at \$112; selling at \$114.

## EVENING NEWS.

Thursday, Feb. 11, 1875.

### Local and Other Matters.

Thermometer 49 degrees F. in the shade at 1 p.m. today. Fine.

Petition for Pardon.—A petition for pardon to Governor Axtell, for the pardon of George M. Norton, recently convicted of shooting with intent to kill Dr. Bremer, is being numerously signed.

Lectures.—C. B. Savage to-night, at the 20th Ward School-house, on "Spectral Analysis."

B. J. Beer, at the Tenth Ward school house on the "Manners, Customs, Religious and Domestic Habits of the Kalmuck Tartars."

Missionary Appointments for Sunday evening, Feb. 14.—

Second Ward—Elder Ralph Harrison.

Fourth—Elder W. A. McMaster.

Eighth—Elder M. A. Shipp.

Tenth—Elder J. P. Freeze.

Twelfth—Elder N. E. Felt.

Sixteenth—Elder E. A. Woolley.

Twentieth—Elder J. B. Maiben.

Do. (Upper District)—Elder G. J. Thomas.

That Beating Case.—Yesterday evening there was an examination of the charge against Daniel Campbell, for beating and bruising Earl W. Moore, at Dinwiddie's, last Sunday. The evidence showed that Mr. Campbell did the beating, but it also disclosed the fact that Mr. Moore had called him a "liar," thus tending toward provocation. Mr. Campbell was fined \$25.

Severe Accident.—About three o'clock yesterday afternoon a man, named John Smith, resident of the 11th Ward, met with a bad accident. While engaged in digging a well, nearly opposite the Catholic church, a piece of rock fell from the top, striking him on the head and cutting a large ugly gash. The wound was sewed up by a surgeon, and Mr. Smith is doing as well as could be expected, considering the severe character of the wound.

Rowdiness and Dishonesty.—A citizen of the 20th Ward informs us that he has been annoyed lately by the wanton acts of mischievous youths, who occasionally lift the gate of his premises from its hinges and carry away leaving it as some distance off. He has also recently had a dozen chickens, of superior kinds, stolen from his hen-coop. We hear of similar complaints from other parties, and we believe the best way to cure the perpetrators of these pranks is their disgrace.

able proclivity in the direction indicated, is to take highest measures for their discovery, and when found to have them arrested and punished, as the law directs. We have almost arrived at the conclusion that they can hardly be advised or shamed out of such practices.

Notice.—The members of the High Council are requested to meet at the City Hall, to-morrow morning, February 12th, at 10 a.m. GEO. E. WALLACE.

The Muirbridge Trial.—Read the article on our last page concerning the Muirbridge trial. It is intensely interesting, and reads a powerful moral lesson to seducers.

The Celebrated Tennessee Ague Cure.—One-fourth oz. quinine, 1 oz. gentian root, 1 oz. columba root, 1 oz. sarsaparilla root, 1 oz. rhubarb, 1 oz. aloes, 1 oz. cloves. Put in one quart good whiskey, and commence seven hours before time for chills. Take a dessert spoonful every hour until past chills time, then take three doses per day for seven days, and repeat on the 14th, 21st and 28th days. Take an antiseptic pill on the first, third and fifth doses. Ex.

Extension of Facilities.—The encouragement which has been received by the Workingmen's Co-operative Association has been such that they have come to the conclusion that, to meet the increasing demand of business, they must extend their facilities, and have consequently determined to increase their capital stock from \$10,000 to \$25,000.

At the meeting of stockholders, held on Tuesday, mentioned in yesterday's News, it was unanimously agreed not to draw out the dividend of 25 per cent. for the preceding ten months, but to leave it in the concern to be added to the capital stock.

Coal.—We understand that today Mr. Jarman made arrangements with Mr. G. M. Makin and Mr. E. Braman, coal prospectors, whereby the claim discovered by him, about two years ago, will now be pushed forward. The two gentlemen named are assisted by Mr. Smith, from the coal fields of Penn., who expresses a hopeful opinion of the prospect, being sanguine of success. The mine is now well stored with provisions and tools, and the gentlemen named are prepared to push the work ahead, determined that if the coal is there they will find it. A new prospect has been located a lower level than before, as the shaft on which Mr. Jarman has hitherto had the work done is said to be decomposed coal, fire and water having rendered it useless.

We hope that coal will be reached in this instance, it being much more gratifying to record that the genuine carboniferous article has been found, than that there are apparently good prospects of reaching it.

Theatre.—The entertainment last evening, "Bull on Board," and "Box and Cox," was a spirited and lively one, and afforded great amusement to the audience.

This evening Miss Rose Bain makes her first appearance, as "Lady Margaret Oliphant," in the great five act Scotch play of "Madge of Elvanhoe," with Miss Cogswell as "Agnes Murray," Mr. W. Gill as "Dr. Fairlie," Mr. Lind as "Sir Malcolm Oliphant," Mr. Foster as "Earl Strathairn," Mr. Marden as "Colonel Strang." Act 1.—At Elvanhoe. The arrest.

Act 2.—Mrs. Malcolm's retreat. The proposal.

Act 3.—The camp at Tay Strath. The meeting.

Act 4.—The ground of the Lodge. The defiance.

Act 5.—The General's Questions. The ladies turned.

During the evening the Orchestra will perform "Chosenest Polonaise," by O. Apitius; also F. Budik's "Isabella Galop."

On Friday evening a special for the benefit of Miss Rose Bain and Mr. Willie Gill.

An Ugly Customer.—This morning a big, loose-jointed, dirty looking specimen of the genus homo entered the establishment of the Workingmen's Co-operative Association and asked for a pair of old boots. While the parties in the store were hunting for the articles asked for, the fellow picked up a shoe-knife, commenced flourishing it around, declared the proprietors of the establishment were a lot of blood and thunder men, and was "going to show 'em how he felt."

Charity commenced at the point of the knife, at the same time examining the weapon he held in his hand. His next operation was to take off one of his boots and carve it up with a knife, at the same time uttering force ejaculations. The police were sent for and the fellow was arrested and taken to the City Jail by justice Allen, Burt and Ringwood. Justice Ayer fined him \$25. On being asked where he came from, he said the "Coastal Pacific Railroad," also that his home was wherever he stopped, his occupation whatever he could get to do, and his name Abraham B. Clark. He is evidently not altogether composed mental.

By Telegraph.

New York, 11.—Among the important changes made in the management of the A. & P. Telegraph company, under the direction of General Robert, the newly appointed president, is the division of the company into two departments to be called respectively, the "Atlantic" and "Pacific" divisions.

This is deemed necessary in order to facilitate the company's rapidly increasing business. Mr. E. D. L.

Sweet, late executive manager in New York, who was recently elected second vice-president, has been appointed to take charge of the Pacific division, with his headquarters in this city. No other changes in the company's officers will be made at present. A number of merchants and members of the press in this and other cities, to-day, witnessed a trial of the automatic system of telegraphing at the offices of the A. & P. Co., 188 Broadway. The wires were connected between the New York and Washington offices, and the invention thoroughly tested. The trial, which lasted one hour, proved highly satisfactory, and was pronounced a success in every respect. Five hundred words per minute were transmitted, the total number of words sent amounting to 30,000 in the hour occupied in the trial. The automatic system has been used during the past week between Washington and Boston, and between New York and Buffalo, in sending and receiving the press reports of the recent fair association, and has given entire satisfaction, the quantity of matter transmitted being nearly doubled, and the time consumed greatly lessened. The A. & P. Co. lines are to be equipped throughout with automatic machinery at the earliest possible moment, which will give the company facilities for the transmission of several times greater than that of any competing co., to any point, besides decreasing, by one half, the cost of the labor. The A. & P. Co. are now the exclusive owners of Edison's quadruplex patents, by which four messages are transmitted over one wire at the same time. It is also expected that within ten days the company will have completed its operations as a carrier of automatic messages, and that it will be able to send between New York and Washington, or two hundred words between New York and Buffalo.

Who Owns the Water.

A decision of much practical interest just now, touching water rights, is incorporated in the second volume of Sawyer's Circuit Court Reports, now going through the press. Water rights have assumed an importance in this State never known before. Every running stream and every spring presents a fertile field, and life is made and operates back up, as far as possible, all the springs and head-waters of small streams on government land, and indeed, the key to the situation. The smallest subdivisions of forty acres would often suffice. A spring of water then would practically hold ten thousand acres of public land. Nobody wanted land without water.

Heretofore, mining interests have largely shaped water rights. The system which prevailed was a liberal one for the miner, because the water in the mining districts had little value except as it might be turned to account by mining men. Without water they could do nothing, and water was not sold for millions of gold. But water has become now more valuable for agricultural uses in California than it is for mining purposes, although in latter view it is still of great importance.

The case decided by the Federal Circuit Court was on a suit brought by the Union Mining and Milling Company against Ferris and others for diverting the waters of the Carson river. The plaintiff had acquired title to a tract of land on the river, and had constructed a dam, race and mill for reducing ore. Prior to that time the plaintiff had been a tenant of the defendant, and had constructed a dam, race and mill for reducing ore. The defendant entered upon a portion of public land about twenty miles above the point where the plaintiff had erected a dam, and conducted it on to his land by means of a ditch, for irrigating purposes. The right of the water in the east fork of the river, and conducted it on to his land by means of a ditch, for irrigating purposes. The right of the water in the east fork of the river, and conducted it on to his land by means of a ditch, for irrigating purposes.

The court, in deciding the case, held that the water in the Carson river is a public right, and that the plaintiff's right to the water in the east fork of the river, and conducted it on to his land by means of a ditch, for irrigating purposes.

The court, in deciding the case, held that the water in the Carson river is a public right, and that the plaintiff's right to the water in the east fork of the river, and conducted it on to his land by means of a ditch, for irrigating purposes.
