AMERICAN.

WIRED FROM WASHINGTON.

WASHINGTON, 29.—A large number of complaints of wrong doing on the part of pension agents were sent to District Attorney Corkhill yesterday. Every section of the country was represented. In many of the more important cases the number of claims as filed in the pension office were not given, and it is therefore impossible to complete the case from the files.

Col. Corkhill says in sending him information, it is very important to give the pension office the numbers of the claims.

Total receipts from the postal service for the fiscal year ended June 30th, $15,568,693; expenditures, $12,818,760; surplus, $2,089,993.

To secure uniformity in the examination of teas imported into the United States at ports on the northern, northeastern and northwestern frontiers, the Secretary of the Treasury directed that samples be forwarded by the Collector of any port on said frontiers east of Detroit to the Collector of Customs at New York; at Detroit and ports west thereof, but east of the Rocky Mountains, to the Collector of Customs at Chicago; and any such port further west to the Collector of Customs at San Francisco. On receipt of the samples, they will be examined by the proper officer and the result of the examination reported to the Collector at the port of importation.

Commodore John Lee Davis, on duty with the light-house board, will succeed Admiral Crosby in command of the Asiatic station.

B. Welch of this city has been suspended from practice as a pension attorney, for making false representations as to the rights of claimants under the pension laws.

On November 18th the Interior Department will adopt the 75th meridian time as local time at Washington.

It is probable Secretary Teller will recommend the establishment of an Indian industrial training school at Sitka, Alaska, and common schools at other parts in the Territory.

Commander F. A. Coot of the U. S. Navy, has been appointed lighthouse inspector of the Eleventh district, headquarters at Detroit.

Depravity and Disaster.

INDIANAPOLIS, Ind., 28.—Clifton A. Terrell, who committed extensive pension frauds at Indianapolis, has been pardoned from the penitentiary at Michigan City by President Arthur.

St. Paul, 28.—A special says that Dave Steinback, formerly of Todd County, was murdered a day or two ago by a man named Saulley and wife. The trouble arose out of an old grudge, and while the men were fighting the woman drove the tine of a pitchfork into Steinback's brain. Both murderers are arrested.

Port Jarvis, N. Y., 29.—Much excitement prevails in Pike County, Pa., on account of the murder of Annie C. Cheever. When found the young woman was dead, with a bullet hole near her heart; and her left breast riddled with fine shot.

Chicago, 28.—On the 23d inst. D. B. Vermillie was arrested, charged with embezzling $3,000 from the funds of the Weems Stone Company. At the same time, General Wm. Meyers brought an action for slander against him for alleged statements to the effect that Meyers had been guilty of indiscretion with his wife. Subsequently Vermillie made an explicit denial of the truth of these allegations, and it was generally understood that the suits would be withdrawn and the matter end. A special from St. Paul, however, says, Vermillie on Saturday filed a bill for divorce, in which he alleges long continued and persistent criminal intimacy between Mrs. Vermillie and Gen. Meyers in St. Paul, Chicago, New York, the continent of Europe, and elsewhere. Wm. Meyers was Quarter-master General of the Department of Dakota until about a year ago. The proceedings have created considerable excitement here, where all the parties are known in the best circles.

Baltimore, 28.—An unsuccessful attempt was made by resurrectionists to steal the body of Mrs. David Moses, a fat woman, from its grave at Mount Olivet Cemetery, on Saturday night. Eight shots were fired by attendants placed to watch the grave without effect.

New Haven, 28.—Two carriage factories of Plainsville, Conn., valued at $80,000, were swept away by fire yesterday.

Boston, 28.—A suicide occurred at West Newton yesterday, the cause probably of mental aberration. The victim, Mabel Stone, aged 17, was an adopted daughter of Joseph Stone, retired banker and broker, and a pupil in the high school. Mabel threw herself on a bed and shot herself dead with a pistol.

Cincinnati, 29.—Heavy rains here last night and this afternoon. The Ohio river has been rising rapidly.

A storm in Bourbon County, Ky., yesterday, blew down Bedford's tobacco barn and a storehouse on J. O. Clay's farm, killing a family of four negroes.

Pittsburg, 29.—A terrible disaster occurred near Brooks Tunnel, on the Baltimore & Ohio railroad, yesterday morning about 9 o'clock, resulting in the instant killing of five men. The railroad company have been strengthening and widening the tunnel, and some distance outside a magazine had been established in which was stored 1,200 pounds of dynamite, to be used for blasting. About the hour named a freight had just passed through the tunnel and was side-tracked to allow the passenger train, overdue, to pass. Four of the crew walked back to the vicinity of the magazine and were in conversation with the watchman, when the people living in the vicinity were startled by a terrible concussion. Houses for 15 miles around were shaken to the foundation, and windows for a distance of seven miles were shattered. Horror-stricken the people ran from their houses, and upon investigation it was found that the dynamite had exploded with fearful effect, everything in the vicinity gave evidence of the terrific force of the explosion; trees were uprooted, huge rocks torn asunder, and the telegraph poles for half a mile prostrated. Nothing remained of the magazine, while the men who were present were missing portions of their bodies, legs and arms, were picked up a mile distant, but they were so badly disfigured as to be unrecognizable. The names of only three victims are known. They were engineer Geo. Reynolds, breakman Tice, and watchman Hammond. The cause of the explosion is enshrouded in mystery, and as the five men who might have thrown some light on the affair are dead, it is probable it will never be known. Not far from the accident a gun was found, and it is supposed one of the victims shot it, the concussion causing the dynamite to explode. An inquest of the coroner was held, and a verdict of accidental death rendered. Great excitement prevails here, and hundreds have gone to the scene of the disaster.

Charleston, S. C., 29.—Fifteen hundred bales of cotton burned this morning at the South Carolina Railway yards here. All the cotton was for New York.

Mobile, Ala., 29.—On Sunday afternoon the steam tug *Eddie* exploded her boiler four miles from Fort Morgan, Mobile Bay. The boat sank immediately, with Captain John Carney, Mate Andrews and the colored fireman. The engineer and cook were picked up. The latter died while on the way to Fort Morgan. The former is painfully wounded.

New Orleans, 29.—*Times Democrat* Waterproof special: A cyclone passed over Catahoula and Tensas parishes this morning. The first place it struck was James Bouman's plantation on Tensas River; three houses were blown down, four negroes wounded. The next place was D. D. Miller's Highland plantation; one house lifted from its foundation and carried about half a mile into the woods; a negro church turned half around; Tim Thomas (colored), arm broken, his wife and another woman and two children hurt badly. The cyclone then visited D. Stone's Pecan plantation; a barn and two houses were blown down. The next place was H. Moses & Co's. Helena plantation, roof of overseer's house carried away, eight cabins demolished; three persons badly hurt; seven or eight slightly; Mrs. Bowman's house, Catahoula parish, blown down. She escaped, but her three children have not been found. Three houses on W. C. Young's place, three on Watson's, and three on the Parmenter place were demolished.

Jackson, Mich., 29.—Henry C. Champlin suicided by wrapping a barbed wire around his neck and suspending himself in a sitting posture from the top of the fence.

Galveston, 29.—*News* Sherman special: It is reported to day that the town of Gordonsville is totally destroyed by a fire that started in a drug store which had been set on fire after being robbed. Insurance unknown.

Cincinnati, 29.—*Commercial Gazette*, Paris, Ky.: Two cyclones, very destructive, occurred here in the last 18 hours. The first demolished a house and killed four negro inmates. The second, sweeping west to east, at 2 this morning, caused destruction of property but no loss of life. In Paris a very great number of buildings were damaged, and also throughout its path in the county.

Scranton, Pa., 29.—An explosion of firedamp is reported from Pennsylvania Coal Shaft No. 7, three miles from Pittston. Thirty men were in the mine; five are badly burned, one dead. The fate of the others is unknown.

Later.—Thomas and James Gallagher, brothers, were brought out dead, burned almost to a crisp. Six others were seriously burned and injured; three will probably die, having inhaled "after-damp." There were thirty-five men in the part of the mine where the explosion occurred; the balance escaped through the mule way. The force of the explosion tore down the brattices and props, and tore the gates apart, lifting the men up bodily, and hurling some a distance of 20 and 30 feet.

Chicago, 29.—Culver, Page, Hoyne & Co., have failed. Beyond this none of the parties in interest would talk. The immediate cause of the trouble seems to be the fact that Culver, the moneyed man of the firm, had his capital invested in mines and an insurance company. It is asserted that he has just sold one of his mines to an English syndicate for $400,000, and it is believed the transfer is for the purpose of tiding over the difficulty until the sale can be realized on. The assets are roughly estimated at $325,000; liabilities are believed to reach $500,000. Confession of judgment was entered to-day by W. G. Dunham against the firm for $5,000.

St. Louis, 29.—The *Post-Dispatch* in a very late edition, has a special from Austin, Texas, stating that intense excitement prevailed all last night and to-day in consequence of a telegram received by Governor Ireland that 500 negroes are under arms in Gonse, Milan County, stating that an outbreak is momentarily expected, and asking for immediate help. In view of the fact that the late decision in the civil rights case is creating very bad feeling among the negroes in various parts of the State, and that outbreaks have been looked for, Governor Ireland immediately issued a proclamation calling the militia to arms. Two companies mustered here at once, and before midnight last night over 1,000 men at Houston, Galveston and other places responded to the call, and were ready to march at a moment's notice. These troops are still waiting orders at 2 o'clock this afternoon. The precise nature of the trouble at Ganse can't be ascertained, but there seems to be no doubt that a disturbance of some kind is in progress, and Governor Ireland has ordered the special military to be ready for immediate use.

Political Points.

NEW YORK, 29.—Tammany has presented to the Mayor the case of Police Commissioner Matthews, who in a speech in a public hall said himself and two other Commissioners would use their influence to secure the election of the Irving Hall candidate.

The evening papers say all efforts to close the breech between Tammany and the other two factions were abandoned Saturday. From this day till the evening of election the policy will be every man for himself in the broadest national sense. The Tammany canvass is being pushed forward with positive desperation.

FOREIGN.

British Briefs.

LONDON, 29.—A warrant has been issued for the arrest of the sub-manager of the Preston Banking Company at Preston, on a charge of embezzling £10,000.

The *Standard* denies Gladstone is going to Cannes.

General Items.

Lyons, 29.—Anarchists exploded an infernal machine at the entrance of a large cafe here to day. No person was injured.

Berlin, 29.—It is reported General Steinmann received four challenges. He fought the second duel last Friday, and received a bullet in his shoulder. The troops are confined in the barracks every night in readiness for any further disturbance.

Ermsleben, 29.—Since the outbreak of trichinosis over 400 persons have been attacked; 18 died.

Posen, 29.—The *Gazette* announces a great private council, at which all the Governor Generals of the province will be present. It will be held at St. Petersburg about the beginning of December, for the purpose of elaborating new constitutional measures.

Athens, 29.—The river Salembris, in Thessaly, overflowed its banks, causing widespread devastation. One hundred houses have been destroyed and several lives lost.

Larissa and villages in its vicinity are surrounded by water. Communication with the flooded district is much delayed. Railways are greatly damaged.

Hong Kong, 29.—Defences at Canton are being actively pushed forward. Large quantities of arms and ammunition were conveyed to that city yesterday in Chinese gunboats.

An immediate attack on Chinese ports is not generally expected, but it seems inevitable that hostilities will eventually extend to China.

Advices from the interior show that political excitement is spreading. The authority of the Imperial government is much weakened in many districts. A wave of anti-foreign feeling is passing over the country.

Paris, 29.—*Gaulois* says in view of the contingency of war between France and China, several French ironclads have been ordered put in readiness to reinforce the French squadron in Chinese waters.

In the International Labor Conference, Henry Broadhurst, member of the British Parliament, was elected honorary member of the conference. Addressing the meeting, he said he hoped the delegates would adopt practical resolutions. He pointed out the importance of workmen of all nations being in constant communication with each other. He said the trades unions in England were making slow but sure progress, and that the workmen on the continent might rely on English support. At the evening session 100 delegates were present. Several French Speakers urged the workmen not to abandon the field of politics, which they maintained, afforded the only means for struggling against capital.

BRIEF TELEGRAMS.

Jacksonville, Ills., 28.—A resolution passed the city Council enjoining the "Jesse James troupe" from performing in this city to-morrow night.

Lima via Galveston, 29.—An official telegram from Mollendo says: "We learn Arequipa surrendered without a battle; Montenero fled. Ygleisias has been proclaimed President."

San Francisco, 29.—Respecting the probable request of the Forestry Commission to have Congress give to California and Nevada land bordering Lake Tahoe to be preserved as a pleasure resort, the Central Pacific Railroad Company, who own it, say they will exchange it for other land if Congress is willing to donate it to the public.

San Francisco, 28.—Dr. Leonard Stegnejar, who was commissioned by the Smithsonian Institute to go to Behring's Island and find a skeleton of the "Northern Manatee," or sea-cow, arrived in town to day on the steamer *St. Pavl*, from the Arctic with an excellent specimen. Steller, scientist of Behring's second expedition, wrecked in 1741, was the first to see and describe a living specimen. Dr. Stegnejer says his skeleton is the same as that of the animal described by Steller, and is, he belives, the only one in this country. He has also seventeen skulls of the same animal.

San Francisco, 29.—The following is from Deadwood, Dakota: Kan Gi Shanki, better known as Crow Dog, sentenced to death last January for the murder of the celebrated Sioux Chief Spotted Tail, was granted permission to visit town unattended, and made his escape. His case is now before the U. S. Supreme Court on appeal, on the ground that he, having been tried by Indian authorities according to the treaty, was not amenable to white man's law.

San Francisco, 29.—Two Chinese cases to test the validity of Chinese government certificates were up to-day before Judge Hoffman in the United States district court. He pronounced them exceedingly embarrassing. One of them was that of a Chinaman who said he was a cigar manufacturer. The judge said Congress used the word "merchant" not "manufacturer;" that if every Chinaman who made cigars or peddled matches was classified as a merchant, the restriction act would be practically a dead letter. The second case was a boy 17 years of age whose certificate set forth that the bearer was going to San Francisco to manage the business interests of a mercantile firm, in the way of a boy laborer or merchant. It is difficult to decide, so judgment is deferred.

Chicago, 29.—The Most Rev. H. J. Riordan, newly appointed coadjutor Archbishop of San Francisco, took his departure this afternoon on the 12.15 Kansas City express, by the Burlington & Quincy railway, for his diocese.

Milwaukee, 29.—Waupun special: J. S. Hudson, Belvidere, Ills., who came here recently with his two children in search of his runaway wife, found her masquerading in male attire under the name of Frank Dubois. She was living with Gertrude Fuller, having been married to her early last spring, by the Rev. H. L. Morrison, at the home of the bride's mother. Under this name she had solicited odd jobs of painting, and was making sufficient to support them both.

New York, 28.—The Arbitration Committee of the National League American Association and Northwestern Base Ball Association met to day. Suggested amendments to several rules and by-laws will be made which will be acted upon at the next meeting of the Association.

Lebanon, Pa., 29.—A serious railroad war is in progress near here. Robert H. Coleman, owner of the new Cornwall & Lebanon railroad, put 50 men at work laying tracks upon the Cornwall ore hills, passing over the property of Wm. C. Freeman, manager of the old Cornwall railroad. While the men were at work, Freeman with 150 men charged upon them and tore up the new track for 400 yards. The Freeman party then laid the track and ran upon it a train of loaded coal cars. This morning's rain prevented the parties resuming hostilities.

Hard Times.

Men much exposed to the weather praise the great pain-cure, St. Jacobs Oil. G. W. Walling, Esq., Supt Police, New York City, and Sam'l. B. Givin, Esq., Chief of Police Philadelphia, Pa., endorse and recommend it.

A SURE RECIPE

For Fine Complexions.

Positive relief and immunity from complexional blemishes may be found in Hagan's Magnolia Balm. A delicate and harmless article. Sold by druggists everywhere.

A CLEAR HEAD.

"One year ago I was induced to try AYER'S PILLS as a remedy for Indigestion, Constipation, and Headache, from which I had long been a great sufferer. Commencing with a dose of five Pills, I found their action easy, and obtained prompt relief. In continuing their use, a single Pill taken after dinner, daily, has been all the medicine I have required. AYER'S PILLS have kept my system regular and my head clear, and benefited me more than all the medicines ever before tried. Every person similarly afflicted should know their value. 152 State St., Chicago, June 6, 1882. M. V. WATSON."

For all diseases of the stomach and bowels, try AYER'S PILLS.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists.

The Iron Manufacturing Company of Utah.

FOR THE PURPOSE OF PROMOTING the manufacture of iron, this Company has been incorporated according to law, and has purchased the plant of the late Great western Iron Company at Iron City, Iron County, U. T., together with the immense Ieh iron claims, for seven of which United States patents have been obtained. The Company also own an interest in some of the best coal claims in Iron County, for which Government title has also been obtained, the product of which is of excellent quality for the manufacture of iron and steel.

The intention is first to erect furnaces for the manufacture of pig iron. When success is attained in that, to gradually extend to other branches.

The time has come when the manufacture of iron and steel can be made profitable, and their manufacture will prepare the way for other industries. All who have the welfare of our Territory at heart are invited to subscribe for stock. The books are now open. Capital stock, $250 000. Shares one dollar each, certificates of which can be had by paying in full to the Secretary John C. Cutler, 3d Constitution Building, Salt Lake City.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

W. L. PAGE, of W. L. Page & Bro." Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numberless instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable. J. T. HAYES."

Mexia, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from *Atlanta, Ga.*, says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.
