

DESERET EVENING NEWS.

THURSDAY, AUGUST 10, 1922.

THE DESERET NEWS CO.

WEDNESDAY, AUGUST 10, 1922.

GOULD TO BE REMOVED.

The annual which has arisen over the conduct of Justice Gould is likely to continue and draw public attention to that individual and the charges against him. In the City Council, Gould is being censured for the following report from the Police Committee was presented and adopted by the Council:

"We, your Committee on Police, submit the following for your action in the matter of Police Justice Gould: That no action can be taken against Gould on the ground of his being a member of the City Council, and that his conduct was against the honor and dignity of his high and responsible position and was open to censure."

J. H. WILSON,
J. A. FULTON,
J. J. MORRIS.

It might reasonably be expected that an officer having any sense of propriety, who had been so severely censured after a close investigation, would be sensitive as well as sensible enough to tender his resignation at once. But Justice Gould seems determined to hang on to the place and its emoluments as long as possible. In this he is supported by his appropriately chosen attorney, O. W. FOWLER. The "Liberal" club, with that impudence which is one of his chief characteristics, so it appears from reports of the proceedings, persisted in addressing the Council on behalf of his client in spite of the objections of several members. He ought to be taught a needed lesson, and no doubt would have been if the Council had not contained so many members of the faction which he manipulates. He has no right to address the Council except by unanimous consent.

A resolution was offered for the removal of Justice Gould as City Justice of the Peace and the substitution of another Justice to fill the place. But this went over for the written opinion of the City Attorney. There was no need for this delay, for that functionary submitted on the spot the power of the Council to make the change. Every member of the Council might understand this for himself by simply reading the following, in Session Book of Chapter XXIV, Laws of Utah 1922:

"Sec. 4. In all cases where more than one Justice of the Peace, the City Justice of such city may, by resolution, designate one of such Justices to act for such city as large, and such City Council may designate the place where such Justice shall transact the business pertaining to his office, and any act of the first or second class may, by ordinance or resolution, fix a salary for such Justice as designated, which such salary shall be in lieu of all fees and other compensation."

This power to "designate" is conferred upon the City Council. The Mayor has no part or lot in the matter. He has a voice, however, in the passage of an ordinance or resolution involving the expenditure of money. But the question of salary is not connected with the resolution to designate a Justice to act in Justice's place, therefore the right of the Council is clear. It can displace Justice Gould as the City or Police Justice, and he would then remain in the office of simple Justice of the Peace to which he was elected.

According to the resolution adopted by the Council, he is unfit to be retained by that body as Police Justice. When removed from that position the public can manifest their appreciation of his suitability by taking or refraining from taking action before him.

Under the Amendments to the Charter of Incorporated Cities, of 1915, however, the City Council has the power to remove "all officers of the city for misconduct." If the resolution, adopted by the Council, means what it says, that body will allow itself to be inconsistent. If it does not take steps for the removal of this officer, for the misconduct reported by the Police Committee, the Council owes it to the public to exercise its powers for the public protection, and it will be a disgrace to that body if it refrains from discharging its whole duty in this matter.

We trust that no attempt at building on the part of the "Liberal" bow, whose goal ought, if it does not exceed, that of the "Conservative" faction, will have the effect of its parodying the "Liberal" members of the Council, that they will either go back on their resolution of censure or render it abortive by retaining in office a person whom they have virtually branded as unfit. There should be no meddling and no delay.

THE SEWAGE QUESTION.

NOTHING seems to have been done by the City Council on Tuesday evening in regard to the sewage question. The city council is engaged in an equally unavailing session, viewing it from a moral standpoint, and therefore perhaps could not reach this material subject matter. There are other reasons in which they can afford to be so slow in action, and perhaps they may even be content with leaving it to the sewerage committee. When they take up the sewerage question, the dumping of sewage into the river Jordan will not be permitted long without something more than a verbal protest from the public. Those who are more particularly interested will be glad to take the matter into their own hands, and it is to be hoped that they will do so.

from the public. Those who are more particularly interested will be glad to take the matter into their own hands, and it is to be hoped that they will do so.

A WORD FROM NEW ZEALAND.

We have been privileged to receive a letter recently received from the President of the Australian Migrants. He states that friends in the United States have been sending him letters and that he is very glad to hear from them. He is a very kind and generous man, and his letter is a very pleasant surprise.

CHICAGO SATISFIED.

The Chicago Fair, which is now in progress, is being well received by the Chicago people. The fair is a very successful one, and the Chicago people are very satisfied with it. The fair is a very good one, and the Chicago people are very satisfied with it.

RUSSIAN AGGRESSIVENESS.

There is no room for doubt that Russia has received her aggressive policy. This means the reversion of the "Eastern Question," which has already produced centuries of bloody wars. Doubts entertained by the success of Mr. Gladstone, whose foreign policy, when he is in power, is comparatively passive. The Russian "Bear" imagines he can tread on the tail of the British "Lion" with impunity. We have already pointed out the fact that the Bear has renewed his encroachments in the Pacific region, which is contiguous to British India. It was also published a few days ago that a conspiracy, in which the Russian government was fully staked to a party, had been discovered. This party was to assassinate Prince Ferdinand of Bulgaria. At the close of the last Russo-Turkish war the Bear was forced, by the European powers, much against his will, to agree to the preservation of the freedom and neutrality of Bulgaria, which is a very important strategic point. One of his aims is to control that country. This is not practicable while Prince Ferdinand is at the head of the Bulgarian government. Now comes the rebellion of the Russian tribes against the power of the Russian government. This is a very serious situation, and it is one which the Russian government is not prepared to handle.

DISQUALIFICATIONS OF MARRIED WOMEN.

In many of the larger cities of this country school boards have adopted regulations disqualifying women as a teacher in the public schools immediately after she is married. (Kansas) that is to say, a married woman is disqualified from being a teacher in the public schools. This is a very serious situation, and it is one which the school boards are not prepared to handle.

ABOLISHING FEIGURES.

Mr. Henry Anderson delivered a masterpiece lecture at the University of Chicago, in the course of which he presented to his audience the following astonishing calculations. We have not tested them in detail for the purpose of ascertaining whether they are correct, but as they are so, as Mr. Anderson has put them in the form of a lecture, they are very interesting. These figures not only convey a lesson to the student, but also convey a lesson to the public. They are very interesting, and they are very important.

JOHNSTON ISLAND.

JOHNSTON ISLAND, the little speck in the South Pacific, has been the scene of a very interesting event. A very large ship, the "Albatross," has been sighted near the island. The ship is a very large one, and it is a very interesting sight. The ship is a very large one, and it is a very interesting sight.

from the public. Those who are more particularly interested will be glad to take the matter into their own hands, and it is to be hoped that they will do so.

LIQUOR IN COLORED.

Prohibition is not in the United States within the past half century has attained popularity as a political issue. The first edition of this book, however, is now exhausted, and the public appetite for its contents has only just been satisfied. In its second edition, the book is now being reprinted, and it is hoped that it will be as popular as the first.

NOTES AND COMMENTS.

The House (Frederic) yesterday morning, a sample of time or powder exploded in Salt Lake City the other day, wrecking every thing in the neighborhood and shaking the whole town, and a deaf old woman who lived a couple of blocks away, was killed. The explosion was a very serious one, and it is a very interesting event. The explosion was a very serious one, and it is a very interesting event.

AN EXCHANGE SAYS.

A young lady having read a very long paper at a missionary meeting, the minister gave her the hymn, "Hallelujah, be done," and then wondered why everybody should be so quiet. The minister was a very kind and generous man, and his letter is a very pleasant surprise. The minister was a very kind and generous man, and his letter is a very pleasant surprise.

THE SILENT MAN IN NEW ENGLAND.

J. P. Le Mansie, who recently celebrated his 100th anniversary, was born on the 10th of January 1822. When fifteen years old he came to this country, and he has since been a very successful man. He is a very kind and generous man, and his letter is a very pleasant surprise. He is a very kind and generous man, and his letter is a very pleasant surprise.

AN ASHLEY AMERICAN POET.

In the Canyon, on the Colorado, several miles south of the southern Pacific Railway in Arizona, is an ancient American Poet of singular construction. It has been for a long time a stronghold of the Indian, and it is a very interesting sight. The poet is a very large one, and it is a very interesting sight. The poet is a very large one, and it is a very interesting sight.

THE PHILADELPHIA RECORD.

The fatal weather of the position of the earthquake at Homestead is that their taste is warped, not simply against capital as represented by Carnegie & Co., but against all other labor. They have accepted a monopoly of the right to work at Homestead. This was folly. No monopoly could be so right to be maintained. And the moment they undertook to maintain it by violence their cause was lost. To submit their corporation would be fatal to all industrial progress and a denial of the most obvious rights.

THE PHILADELPHIA RECORD.

It is estimated that there are more than one billion of dollars invested in breweries in this country. If this money was invested in mills and factories, in farms and stores, how many wheels of industry it would set in motion! How many human beings it would employ! And how many human beings it would provide for! This is a very serious situation, and it is one which the government is not prepared to handle.

THE PHILADELPHIA RECORD.

The former or chairman, one of the most prominent of the Utah-Liberal Union, has been elected to the position of chairman of the Utah-Liberal Union. He is a very kind and generous man, and his letter is a very pleasant surprise. He is a very kind and generous man, and his letter is a very pleasant surprise.

THE PHILADELPHIA RECORD.

The Utah-Liberal Union has been elected to the position of chairman of the Utah-Liberal Union. He is a very kind and generous man, and his letter is a very pleasant surprise. He is a very kind and generous man, and his letter is a very pleasant surprise.

from the public. Those who are more particularly interested will be glad to take the matter into their own hands, and it is to be hoped that they will do so.
