GENERAL GRANT'S TESTIMONY IN THE FISH CASE.

More of the Manitoba Trouble. WINNIPEG, 25.-The detachment of militia that started last night arrived at Quappelle station at noon to-day, here they are quartered in an emigrant shed to await the arrival of the remainder of the force, which will leave for the front to-morrow afternoon, under command of Gen. Middleton. It is re-ported that the cause of the hurried movement last night was a fear of an In Jian outbreak at Regins and Broad-view. Lieut. Gov. Dewdney went with the detachment to Quappelle, and after conference with the Indians at Broadview, reports them quiet, but demanding more supplies. Chief Piepot is is still surky. Nothing is heard from Irving's troops since last night, and some uncasiness is felt concerning the purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the mul-titudes of low test, short weight, alum or safety of communication with Buck Lake and Prince Albert. This is still cut off, so that no word can be received of the movement of the half-breeds at phosphate powders.

Fear is felt that any messenger who may have been sent fell into the hands of the rebels. A dispatch to the Hudson Bay Company from Fort Edmonton says the French half-breeds are holding secret meetings, and unless the trouble can be immediately quenched, a general outbreak may be expected. The half-breeds are threatening. A dispatch from Quappelle says Major Crozier, with 215 nen, at last accounts was strongly fortified at Fort Carlton, it is thought his intention is to hold on BRINCKERHOFF, TURNER & CO., Manufacturers of and Dealers in COTTON SAIL DUCK, "Woodberry," Druid Mills, POLIMENUS" and other favorite brands, all for the arrival of Col. Runners from Riel's camp are out in different Indian bands, COTTON CANVASS of all numbers-14 to 150 nones wide, for Deck, Car, Trunk and Asgon Coverings, Machine Aprons and ifluencing the chiefs to join Riel. As yet there are no re-ports of blood being shed. The set-tlers are somewhat excited, but feel sure the government will protect them. Dispatches along the various points on the railway say the settlers are arranging for defense two companies, one of cavalry and one of infantry, at Gal-garry, ready to take the field. The government has ordered all the teams t can get for the west to-morrow. The balance of the Ninetleth go west tomorrow with the artillery. The gov-ernment has taken control of the wires, and no information can be had. Col. larric says Riel has caused more trou-

the cause of the troubles, and what action the government had taken. ac Our Goods are kept by Z. C. M. I., and its Branch Stores. Sir John McDonald said the situation stood very much as before. No infor-mation could be got until to-morrow. The force commanded by Col. Irvine, and the body at Carlton under Capt. Crozier, as soon as they unite will number 250 men. There are 100 men of the Ninetcenth Regiment now at Quappelle ready to proceed if necessary in the lirection of South Saskatchewan. They can be followed by the remainder of the regiment-200 men-and half a battery of artillery. He has to-day re-ceived a dispatch from Lieut. Governor Dewdney, who had seen a number lof Indians on the reserve at Broadview, who were said to be excited and ready to join Riel. The Indians were very indignant at the circulation of these reports, and commanded the Lieutenant Covernor to assure the "Great

Mother" that they remained loyal to her person and government. Sir John said: "We are quite unaware of the proximate cause of the half-breed movement under Riel. Riel came into the country, invited by them, some time ago. The government believe he came for the purpose of extorting money from the public purse. It fact, the government heard, during last summer, intimations that if we gave him money (\$5,000 was mentioned) he would depart in peace. Of course, the government could not entertain such a proposition for money, and he has been there exerting the half-breeds and atthem the country all belongs to them,

He reviewed the conduct of the government since Riel's return to Canada, and in stern terms condemned their failure to deal with the grievances of the half-breeds and other settlers in the Northwest. The govcrament had been wanting in their duty in withholding information from Parliament. He reminded the House o Sir John A. These are troops the government asked the permission of the United States to transport through to the scene of the Riel rebellion in the northwest territory.

NEW YORK, 26 .- In the trial of ex-President. Fish of the Marine Bank, Gen. Grant's adviser. There were also present Col. Fred Grant, U. S. Grant, Jr., and W. A. Purrington. It was about 4 30 when counsel arrived at the house. The General had just returned from his drive through the park. He took a reclining position in an arm chair, and to cause the reserve forces and such put his feet upon another chair as the lawyers began their questioning. It was agreed between counsel that the

He told all he knew about the firm of Grant & Ward, even to the circumstances of his entering the firm. Once or twice witness was asked if he was tired, but each time he answered he was not.

When the examination was concluded a short chat took place between the General and the lawyers. In the course of it, Gen. Smith remarked he thought the patient was looking quite well.
"Well," said Gen. Grant in reply,
somewhat slowly and seriously. "I somewhat slowly and seriously, know I am a very sick man." The particulars of the testimony will

be first made known when the evidence is read in court to-morrow.
