FLOATING FRAGMENTS.

General H. P. Eldridge and wife have gone to Soda Springs.

We have Frank Leslie's Popular Monthly from J. E. Barry & Co., who have all the latest periodicals on sale.

The following gentlemen came from Chicago last evening: Capt. W. O. Child, Mr. Fred Turner and Dr. Ormsby.

Three prisoners were brought up from Beaver to-day, by a deputy U. S. Marshal, and placed in the penitentiary.

Bishop O. P. Whitney returned yesterday from a visit to Northern Utah. He enjoyed his out and is in excellent health.

The Brigham Young Academy of Logan is in successful operation, having commenced the present academic year a week ago last Monday.

Mrs. Pitkin and daughter, who have been on a visit to relatives and friends in England, arrived at New York on Sunday, with the company of emigrating Saints, on their way home.

Quite a large number of people came to town yesterday from a distance to hear the lecture of Rev. Henry Ward Beecher, among them Messrs. Anderson and Hall of the Ogden Herald.

We have suffered a good deal from the heat lately, but the second-hand man who announces that he "has left off clothes of every description" is carrying the cooling process beyond all decency.

A new game of burglars has broken loose on the town. Citizens in the residence portion should look to their doors and windows. Revolvers should be cleaned and tried and new cartridges put in.—Denver Tribune.

LOCAL AND OTHER MATTERS.

High Council.—Members of the High Council are requested to meet in the Social Hall on Friday evening, September 14th, at 7 o'clock p. m.

Wm. W. Taylor, Clerk.

Death of Sister Pitkin.—We learn that the wife of Bishop Geo. O. Pitkin, of Millville, died a few days ago. The funeral services were held at the meeting house in that town on Thursday last week. The speakers were Elder O. G. Ormsby, Bishop O. P. Whitney, Apostle Moses Thatcher and Pres. W. B. Preston. Deceased leaves a large family of young children.

That Lost Lad.—A week or two since we stated by request of Mrs. Rasmussen, of Brighton Ward, that her son John, aged about 13 years; had strayed from his home and could nowhere be found. The anxious parent was desirous of gaining a clue to his whereabouts. He has turned up at last after an absence from home of a month. His relatives are requested to call on Marshal Phillips, at the City Hall, where the lad can be found.

Last Offices.—The funeral services over the remains of Sister Elizabeth Knight Johnson were conducted at the family residence at 11 o'clock to-day, Bishop Thomas Taylor presiding. The speakers were Bishop Taylor, President A. M. Cannon, Elder George B. Wallace, President Willard Woodruff, and Bishop Edward Hunter. The assemblage was quite large, and many mourners accompanied the body to the cemetery.

During the services some beautiful verses composed for the occasion by Sister E. H. Woodmansee were read.

Reported Tin Discovery.—Mr. E. D. Ridd informs us of a discovery of ore in the vicinity of Fillmore, Millard County, which he assures us is a brown oxide of tin, with traces of silver. He estimates the proportion of tin at 80 per cent., considers it of great value and well worthy the attention of capitalists. If Mr. Ridd's ideas are correct, it is certainly a very important discovery. The deposit is said to be of immense extent.

Salt Lake Fash.—At the Esael are two very interesting pieces of still life painting by Mr. Martin Lars of this city. The subjects are a half dozen very beautiful apples, arranged on a platter, and alongside of them is a table knife lying ready to pare and slice the delicious fruit, and some potatoes, an onion and a sprig of parsley.

Of course they are very commonplace articles, but Mr. Lars has made them very attractive in his own way. He has recently done work in this line, which is really a surprise to his friends, who did not expect him to pass beyond the mere decorative works which he has been accustomed to produce. Mr. Lars is to be congratulated.

An Extensive Trip.—To-day we had the pleasure of meeting Miss Louie Wells, who, in company with Mrs. Belle Sears, returned recently from a somewhat extended visit to the Eastern States, upon which they were absent from home nine weeks. Leaving here on the 10th of July, the two lady tourists proceeded to St. Louis, and from thence successively to Nauvoo, Cleveland, Erie, Chicago, Niagara, Massachusetts, New York, around the Sound, to Baltimore, to Philadelphia, Washington, Kansas City and Atchison. They saw every thing of special note on their line of travel that was really worth seeing, and were everywhere treated with the greatest courtesy, and in all places where it became known they were from Salt Lake City, they became the chief centre of attraction. The weather was mild and pleasant, and to say the travelers enjoyed their pleasure trip, when they concluded to return home, and turned their faces this way, they became impatient to be once more among their friends, in the city they love all the more on account of their temporary absence from it. In all their wanderings they found no place so desirable, as a whole, as Utah.

DISTRESSING ACCIDENT.

A LITTLE BOY FATALLY BOILED.

We learn from H. A. Lewis, of Georgetown, Bear Lake County, of a very distressing and fatal accident that occurred there on Thursday last. Mrs. Bacon, wife of Frank Bacon, and her daughter were engaged doing the family washing. While attending to this labor a large bucket was filled from the wash-bowl with boiling water and left standing on the floor for a moment. A little two-year old son of Brother and Sister Bacon's happened to be playing in the room, and unfortunately fell backward into the bucket and was most fearfully scalded. He lingered in great suffering for the space of about twenty hours, at the end of which time death came to his relief. Much sympathy is felt for the family, who are almost distracted over the sad affair.

A BRUTAL FELLOW.

A YOUNG MAN ATTEMPTS TO OUBRAGE A YOUNG GIRL.

This morning Frank Pitman, about twenty years of age, was before Justice Spiers on a very grave charge. It appears that he is a night waiter at the White House, and on Sunday night he took the chamber maid, a young Scandinavian girl, about eighteen, for a walk. The two wandered into the Eighteenth Ward, and when they reached a point near the front of the premises of Mr. Daniel L. Daniels, Pitman made a criminal assault upon the girl with the intention to commit a rape. The girl resisted, and the two were observed, while struggling, by Mrs. Daniels, who drew the attention of her husband to them. By this time the young ruffian had pulled his intended victim away from the gate, where the struggle first began, and threw her upon the ground in an exhausted condition. At this juncture Mr. Daniels interfered, and Pitman desisted.

Yesterday the girl Anderson made complaint against the young scoundrel, and he was arrested. When the affidavit, which charges him with assault with intent to commit a rape, was read to him, the accused pleaded guilty, but on the court advising him to weigh the matter well before coming to a conclusion, he withdrew the plea of guilty and entered one of not guilty and waived examination. In default of bonds of \$200, he was committed to jail to await the action of the grand jury. The victim of the brutal assault bears the marks of violence on her person, her arms and wrists being bruised and discolored, and she is in a state of nervous prostration.

The young fellow who committed the outrageous youthful in appearance, of medium height and slender build. He is beardless and light hair, with a head of singular shape, sloping abruptly upwards to the crown, which stands up almost in the form of a peak. He appeared to be quite indifferent about the affair, and manifested no nervousness.

The Music Classes.—In connection with Monday evening's examination of Brother Stephens' pupils it is only just to the first singing class and their teacher to state that, through want of time, the portion of the examination showing their ability in advance of the other classes had to be omitted. The examination only extended to the fourth step, while they were prepared to advance to the sixth at least. These would have included reading from notes in all the keys, sharp and flat, accidental or half steps and copying a tune by hearing it sung. They had prepared a song entitled "Happy New Year" (in four sharps), which they had learned without assistance, since their last school. They were also to read a song (in two flats), at eight, entitled "Calvary Has Fallen," while various time exercises had to be omitted. They were continued at the regular school yesterday afternoon, when there was a thorough examination of the class of whom their teacher is justly proud. They will shortly copy and earn from their own writing an operaetta composed by their teacher. He states that they can now read at sight pieces such as they have on previous occasions used at their concerts.

Church History in Danish.—The sixteenth and last number of "Kirken Historie," published by Elder Andrew Jensen, in the Danish language, is just out. The whole work contains the general Church history from the death of the Prophet Joseph to the early settlement of these valleys, finishing up with a complete and reliable chronology of Church history, commencing with Joseph Smith's first vision in 1820, running down to the present time. The work can be considered a continuation of "Joseph Smith's Testimony," published a few years ago by the same author, in connection with Elder John A. Brann, and they contain together about 600 pages of reading matter. We congratulate our Scandinavian friends in their thus having a complete Church history placed before them in their own language. "Kirken Historie" will be for sale by the publisher and at the Deseret News office for \$1.50 per bound copy. Copies of "Joseph Smith's Testimony" can also be had for \$2.50, and both works, if so ordered, will be bound in one volume and sold for \$3.50.

Supposed Gang of Thieves.—A hard-looking case named Phelps was arrested the other day on a charge of committing a burglary in a tent on the depot grounds of the Denver & Rio Grande, on Sunday night, mentioned in the News of Monday. In consequence of nobody appearing against him, he was discharged. It appears that all the parties, seven or eight in number, who occupied the tent, have disappeared and gone northward, in consequence of Phelps' arrest. The police have good reasons for believing that they were a gang of thieves of the toughest description. The city is well rid of them, but our friends in the north had better keep their eyes open for the gang.

Board of Equalization.

The City Board of Equalization met at City Hall last evening at 6.30 o'clock, and heard and considered such complaints as to the assessed valuation of property and petitions for remittance of taxes as were presented. On motion it was decided that no more complaints or petitions in regard to city taxes be received by the Board, and the recorder was instructed to enter all alterations on the assessment role made by the Board and report the corrected list in two weeks for final confirmation.

A Lamentable Case.—Several days ago an old woman named Grey, was picked up from the streets by the police in a deplorable condition. One of her lower limbs is paralyzed, and her speech is seriously affected. She has been cared for in her helpless condition at the city jail, but her case was represented to the county authorities to-day, and she will probably be taken charge of under their auspices soon.

Giving Whisky to Indians.—A few days ago we noted the fact that a lodge of Indians was located near Wood's Cross, and that red men from there were in the habit of coming down to the city, procuring bad whisky and returning to camp with blood in their eyes. Yesterday the police arrested J. B. Wright, on a charge of supplying the savages with "firewater." He acted as a middle man, for a trifling consideration, for the Indians. He bought the inflammatory stuff at Whittemore's, near the U. C. Depot, and handed it to the savages. He was caught in the act of handing it over. It is only fair to Mr. Whittemore to state that he was not aware when Wright made the purchases, that the liquor was to be given to Indians.

This afternoon Wright was fined \$25, and costs amounting to \$10. Heaved him specially and particularly right.

Mr. Beecher's Lecture.—At the Salt Lake Theatre, last night, Rev. Henry Ward Beecher delivered his lecture on "The Moral Uses of Riches, Luxury and Beauty," and was listened to by a large and intelligent audience. The eminent gentleman expressed a great many lofty thoughts, uttering also numbers of ordinary and well understood ideas and truths in a manner so pleasing as to render them as attractive as if they were new. He made quite a number of statements that were broad, flat, unqualified, and in some instances incorrect. All through the lecture was a distinct evidence that Mr. Beecher's staple patrons are the rich and affluent, whose ears could not fall to be tickled with the general tenor of his theory. Two or three times his memory appeared to fail him, but with the adroitness of the experienced orator he covered up the fact from the bulk of the audience by pleasantly uttering common place maxims to be enabled to again seize the thread of his story. He is a most attractive speaker, maintaining the ordinary conversational tone through the bulk of his lecture, causing the more pathetic, and emphatic passages to stand out with all the more striking conspicuousness when he threw into them the full force of his energetic and passionate nature. Altogether the lecture was a genuine treat, as affording ample stimulus for fresh thought in the mind of the intelligent listener. As a whole, however, it was more fitfully brilliant than solidly logical, and not entirely free from a taint of sophistry.

HOW TO SECURE HEALTH.

It seems strange that any one will suffer from the many derangements brought on by an impure condition of the blood when Scott's Sarsaparilla and stilling, or Blood and Liver "Syrup" will restore perfect health to the physical system. It is, indeed, a strengthening syrup, pleasant to take, and has often proven itself to be the best Blood Purifier ever discovered, especially curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria, all Nervous disorders and Debility. Endless complaints, all diseases indicating an impure condition of the Blood, Liver, Kidneys, Stomach, etc. It corrects indigestion. A single bottle will prove to you its merits and health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

Dr. Mot's Liver Pills are the best Cathartic Regulants.
