

WHY DID DENEEEN VISIT WHITE HOUSE?

Secy. Loeb Denies That the Purpose Was to Further Secretary Taft's Boom.

OTHERS TO MAKE PILGRIMAGE.

Among Them Will be Chairman Younkum of the Rock Island, Pres. Mellen of the New York & Hartford.

Washington, March 17.—Secy. Loeb tonight denied published statements that the White House conference, in which Gov. Charles E. Deneen and Atty. Gen. Stead participated, was for the purpose of promoting the candidacy of Secy. Taft for the presidency. The story originated, it is said, from the fact that Secy. Taft and his brother, Charles P. Taft of Cincinnati, called at the executive office while the president was in conference with the Illinois officials, and were introduced to the president by the president's request to discuss "certain questions," the nature of which he declined to disclose. After the conference the governor called on Secretary Taft and later took a train for Chicago. Neither the governor nor Mr. Stead would make any statement regarding their interview with the president, but only on admitting that nothing had been agreed upon that would require immediate action.

Gov. Deneen gave the newspaper men to understand that he expected the president to make a statement about the interview, but none was given out at the White House. It was explained there that the arrangement with the governor for his visit to Washington had been made before the recent flurry in Wall Street. R. B. Younkum, chairman of the board of directors of the Chicago, Rock Island & Pacific railroad, who conferred with President Roosevelt last week on the railroad situation, will visit the White House again this week. Mr. Younkum, who has announced himself unreservedly in favor of close cooperation between the railroad and the federal government, again will urge the president to issue a reassuring statement outlining his attitude toward the railroad.

President Charles S. Mellen of the New York, New Haven & Hartford railroad will call on the president Tuesday afternoon and it is still the belief in official circles that the other three railroad presidents, with whom J. Pierpont Morgan requested the president to discuss the railroad situation, will come to Washington this week. President Mellen has made it plain to a cabinet officer with whom he has communicated, that he will visit the White House as an individual and will not undertake to represent Messrs. McCrea, Newman and Huggitt, or the railroad corporations generally. As yet none of the other three presidents has asked Mr. Roosevelt to receive them, though it is believed some word may be received from Mr. Huggitt tomorrow.

GOV. DENEEN RETICENT.
Chicago, March 17.—Gov. Charles Deneen returned tonight from Washington, where he conferred with President Roosevelt. He was not at liberty, he said, to discuss the specific matters taken up at the conference, which, he asserted, was "interesting" and "ranged over a variety of subjects."
Gov. Deneen did not deny that the interview had much to do with the railroad situation in Illinois and the Mississippi valley, but made it plain that anything further on the subject would have to come from the White House.

SEVENTY-FIVE MEN KILLED IN A GERMAN COAL MINE.
Forbach, Germany, March 16.—An explosion of fire-damp in an underground shaft of the coal mine at Kienarschein, near here, at 10 o'clock last night, resulted in the death of 75 men and the injury of 12 others. Six of the miners who were in the shaft at the time of the explosion are still missing. One dead and seventeen others escaped into adjoining galleries.
Two hundred and ten men went into the mine at 5 o'clock last evening, and about midnight the news was spread of a deadly disaster that a terrible disaster had occurred.
Almost the whole population of the coal-mining district gathered about the shaft, among them the families of the men below. Rain began to fall heavily, and, during the night, a girl was witnessed as the bodies were brought up and laid out under a blaze of electric light.
Many of the bodies were so disfigured that they were scarcely recognizable. The work of burying the injured men and the bodies of the dead was very slow, the galleries being choked with wreckage.
The mine belongs to the DeWendels, one of the richest mining families of Alsace-Lorraine.
As the work of rescue progressed it was seen that the disaster was more serious than the first reports indicated. Up to a late hour tonight 5 dead men and 12 men dangerously wounded had been brought to the surface while 40 men still were missing. All the missing

COLDS CURED

Munyon's Cold Cure relieves the head, throat and lungs almost immediately. Checks fevers, stops discharges of the nose, takes away all aches and pains caused by colds. It cures grip and obnoxious coughs and prevents pneumonia. Sold by all druggists, 25c.

Munyon's Rheumatism Cure seldom fails to relieve in one or three hours, and cures in a few days. Price, 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach trouble. Price, 25c.

Munyon's Cough Cure prevents pneumonia and breaks up a cold in a few hours, stops coughs, night sweats, asthma, soreness and speedsily heals the lungs. Price, 25c.

Munyon's Kidney Cure speedsily cures catarrh in the back, kidneys and all forms of kidney disease. Price, 25c.

Munyon's Headache Cure stops headache in three minutes. Price, 25c.

Munyon's Nerve Cure cures all the symptoms of nervous exhaustion. Price, 25c.

have been given up as dead, as they undoubtedly were, buried under falling wreckage. Of the wounded, two were killed, and the doctors think that only one of the remaining 11 will recover.

The DeWendels' brother-in-law, given \$25,000 to relieve the immediate necessities of the afflicted families.

FOR WOMEN'S EYE
Of priceless value to women, especially mothers, are Cuticura Soap and Ointment.

When You Buy Vogeler's
Seeds you buy the very best, but be sure they are Vogeler's.

A SHOOTING AFFRAY.

Officer Cuts Off Prince's Ear, and Later Shoots Him.

St. Petersburg, March 17.—A shooting affray took place tonight in the dining hall of the Grand Hotel d'Europe between Prince Nikolai, a marshal of the nobility from Kutais, and Capt. Kosloff of the East Siberia army corps. In the midst of a spirited argument regarding the autonomy of the Caucasus, Prince Nikolai made a disparaging remark about Russian military prestige. Thereupon Capt. Kosloff drew his saber and cut off the prince's ear. Reaching into his pocket, the prince pulled a revolver and fired, the bullets penetrating the neck and breast of the captain. A surgeon sewed on the prince's severed ear. Capt. Kosloff's wounds are dangerous.

RAMMED A TORPEDOBOAT.
Algeria, France, March 17.—During the maneuvers last night without lights the torpedo-boat destroyer Epee rammed the last named vessel, killing two men and mortally injuring another. The Epee was rammed by the torpedo-boat, where she was beached.

HAILSTORM KILLS STOCK.
El Paso, Tex., March 17.—A fearful hailstorm has devastated the Chisos district in Hidalgo, Mexico. Large numbers of sheep, horses and cattle were killed.

THE SKULD LOST.

Her Crew Evidently Had Abandoned Norwegian Steamer.

New York, March 17.—The loss at sea of the Norwegian steamer Skuld, while bound from Philadelphia to Rotterdam, was reported today by the officers of the steamer Bona of the Hamburg-American line, which arrived today from Hamburg. The Bona, sighted the Skuld lying on her beam end in latitude 41.14 north and longitude 54.10 east, about 150 miles south of the island of Miguelon, on March 13. Her crew had evidently abandoned her, and it was believed by the Bona's officers that they were taken off by some vessel which sighted her before the Bona. It is believed that the Skuld was upset during one of the heavy gales reported by the steamers during the last two weeks. As she is a freight steamer running on no line, but picking up freights wherever they offer, it is believed that she carried no passengers.

The position of the derelict is in the pathway of the transatlantic liners, and is regarded as dangerous to the steamers crossing the ocean.

The Skuld was of 1,132 tons, was 265 feet in length, hailed from Tromsberg, Norway, and was owned by Otto Thoresen.

ADVICE TO IRISHMEN.

John Dillon Advises Them to Sit at the Feet of Botha and Delany.

Wolverhampton, England, March 17.—Speaking at an Irish demonstration here today, John Dillon asked the young men to sit at the feet of Gen. Botha and Delany. He said the South African people had conquered their conquerors. Botha was now a minister of the crown (being premier and minister of native affairs of the Transvaal), and Irishmen might see the time when John Redmond would be premier of Ireland. He said that he believed that in the early days of the Irish policy had been vindicated.

THE DESERET NEWS.

WAR VETERANS DENOUNCE OKLAHOMA CONSTITUTION.

Washington, D. C., March 17.—The United States Spanish War Veterans, District of Columbia department, today adopted resolutions vigorously denouncing the action of the constitutional convention of Oklahoma in adopting a clause in its constitution disfranchising soldiers, sailors and marines, and characterizing such action as a direct insult to all American soldiers, sailors and marines, "who have fought in the several wars in which the country has been engaged and who have been known to defeat in any war." The resolutions invite the attention of the Commander-in-Chief, Hamilton Ward of Buffalo, to the action of the Oklahoma convention, and request him to call a meeting of the national council of administration with a view of holding the next encampment at some other place than Oklahoma City.

FEED ENDS IN DEATH.

Los Angeles, Cal., March 17.—A feud of many years' standing was settled in a North Main street saloon when J. E. Lewis, a tall, shot and killed A. P. Priester, a gambler who was armed with a knife and had started to attack his slayer.

Working Overtime.

A Chicago teacher gave a boy pupil a question in compound proportion for home work, one evening, which he proceeded to include the circumstance of "men working 15 hours a day to complete a certain job."

The next morning the unsuspecting teacher, in looking over his book of exercises, found one pupil's problem unattempted, and the following note attached to the page:

"Dear Sir, I refuse to let my sun James do his sun you give him last night as he looks to me like a sun on the 3-hour study, my sun not more than 3 hours he is welcome to do but not more. Yrs truly, Samuel Blackley."

CENTRAL AMERICA'S PEACE THREATENED

By the Quarrel That Has Arisen Between Nicaragua and Honduras.

ONE POOR MULE THE CAUSE.

Thirty-five Gallant Nicaraguan Soldiers Achieved a Victory Over It and Then The Trouble Began.

Washington, March 17.—One mule—a mule belonging to Senor Ireno Salgado—was the chief object of dispute between Nicaragua and Honduras when they began the quarrel which finally ended in the war that is threatening the peace of all Central America, according to the official communications exchanged by the ministers of foreign affairs for the two republics, copies of which communications have been received in Washington.

The controversy began when August C. Coello, the Honduran minister for foreign affairs, wrote a note to Jose D. Gomez, the Nicaraguan minister for foreign affairs, on Jan. 28, protesting against the theft of a mule from Ireno Salgado by 35 Nicaraguan cavalrymen, who had passed near the little town of Los Manos, in that republic. The taking of the mule was not denied, but Senor Gomez insisted in his letter that Salgado was not a Honduran citizen, but a Nicaraguan who had to leave that country because of the part he played in a revolution two years before.

Consequently, Nicaragua maintained that Honduras had no right to fly to the defense of Salgado's mule. This note brought a spirited reply from Honduras, the minister for foreign affairs announcing that Ireno Salgado, the Nicaraguan refugee, was living in Tegucigalpa, happily engaged in trade there, while a man by the same name, a most reputable and respected farmer, a Honduran and unquestionable citizen, lived at Los Manos at the time the mule was taken. Nicaragua replied that it was true that Col. Juan L. Rocha, who commanded a party of cavalrymen, took Salgado to Los Manos, but he did not take the mule. The mule was not taken in Honduras territory. Dispatches grew longer as the controversy waxed warmer. Other questions arose. The arbitration tribunal was opened and finally the break came when President Zelaya of Nicaragua withdrew his member of the board of arbitration and war between Honduras and Nicaragua actually began.

THE IENA EXPLOSION.

Now Believed It May Have Been Due To a Criminal Act.

Tonien, March 15.—The explosion which destroyed the battleship Iena, it is now believed, may possibly have been due to a criminal act. A sailor has been arrested for having spoken in graduation at the disaster, and the commander of another warship has received a letter threatening to blow up the Iena. Naval officers are demanding that sailors affected by the anti-militarist propaganda be promptly given shore duty. The arbitration tribunal was opened and finally the break came when President Zelaya of Nicaragua withdrew his member of the board of arbitration and war between Honduras and Nicaragua actually began.

A SENSATIONAL BETROTHAL.

Vienna, March 16.—A sensational betrothal has caused a stir among the aristocracy here and at Budapest. It is that of Countess Ina, daughter of Count Paul Festetics, to Rudolph Nanyari, first violin of the Giebengberg Triangale band. The countess is 24 years old. She first saw Nanyari at a ball concert. She was engaged to Count Szegeud Szegedi, but he fell in love at first sight with the young violinist, who reciprocated her affection.

When she returned to her mother, who was living in Oldenburg, she broke off her engagement with Count Szegeud and was betrothed to Nanyari at her own house. All the apyales in Oldenburg being present.

BRYAN SAYS TRADE UNIONS HAVE DONE GREAT GOOD.

Chicago, March 16.—William Jennings Bryan, at the closing conference yesterday in connection with the industrial exhibit expressed the opinion that trade unions have done more good for society than any other organization. He said that he believed in the "unconscious" knowledge of the question, Mr. Bryan's remarks were received with much satisfaction by the audience of union men from the federation of labor, which attended the meeting.

"The unions have made some mistakes but they have accomplished more good," was the keynote of his speech. He said that he believed in the organizations of women in this connection.

"When we consider that through trade union action we have increased hours, shortened, and comfort afforded the

workingmen in greater measure," he said, "I think we have a right to say the benefits resulting from these unions cannot be over-estimated. Perhaps no class has been so effectively improved in the citizenship and general moral qualities of our people."

"The Australian ballot system, for one thing, is largely due to this country to the action of the trade unions. I do not mean for the interest taken in this reform by these organizations, which might be employing the old system of voting."

"If the labor union had never done that accomplishment, the trade unions would have been no more in this country over has been so evil in its effects on the tendency to crowd our workshops with children of tender years. It is a most destructive tendency, and one that the public conscience should protest against."

Referring to women in industry, Mr. Bryan said he believed women might accomplish as much as men through organization as unions.

LATEST PORTRAIT OF PIUS X.

The picture shown here is from the very latest photograph of the pope, taken since the rupture between the Vatican and the French civil authorities. The frequent and sometimes alarming reports of the pontiff's failing health which are current do not seem to be substantiated by the picture.

TERRIBLE EFFECTS OF DEADLY "GRIP."

PHYSICIAN ADVISES PROMPT ACTION

Richmond, Ind.—The grip epidemic has rendered two men insane, John Jones was placed in a sanitarium, also James Carter who became very violent.

Col. M. B. Boland died yesterday. This brings the fatalities up to fifty-seven in a month. A prominent physician has published a statement that influenza or grip is one of the easiest troubles to cure if taken in time but it is allowed to linger will frequently take a disastrous turn on short notice.

The treatment is very simple: stimulate the blood circulation; heat the mucous membranes and keep the bowels normal. For this he advises the use of "Concentrated" all of pine when used according to the above formula works wonders on these membranes of the nose, throat and lungs. The worst feature of "grip" is that it not only checked will lead into pneumonia and hasty consumption, as well as many other complications, frequently wrecking the nervous system.

What is the remedy? It is "Concentrated" all of pine. It is a powerful stimulant and heater for the mucous membranes and the modern product "Concentrated" all of pine when used according to the above formula works wonders on these membranes of the nose, throat and lungs. The worst feature of "grip" is that it not only checked will lead into pneumonia and hasty consumption, as well as many other complications, frequently wrecking the nervous system.
