ORDERS REPORTERS EXCLUDED.

His Meetings Are Becoming Scenes of
Disorder, Police Being Unable to
Cope With Crowd.

New York, Oct. 21.—Dowie called for prayers at the early meeting in Madison Square Gardens today for his followers who are ill. At least 43 are said to be unable to leave their boarding houses on account of sickness. The conditions in the garden have been called to the attention of the board of health, and officers paid an official visit to Dowie's "army" early today and will do all possible to preserve sanitary conditions in the Zion headquarters. Another healing meeting was in order today. During his address today Dowie announced that he had received donations from New York merchants ranging from \$200 to \$5,000.

"Just to show that I am in favor of the Christian merchant princes of this city," said Dowie, "I will announce the money which has come to me this morning alone. These sums are from men unknown to me, but who evidently believe I am right. One sent me a check for \$5,000; another a check for \$1,000; another for \$1,500; and another gave me \$200. These contributions were unasked. They were accompanied by the kindest words."

During Dowie's sermon a number of students marched out in squads. Dr. Dowie was forced to stop, and after he began again, he was interrupted by a college yell from outside the garden ending with the slogan, "Dowie Dowie, Dowie." They are like most of the students I know," he said, "their brains are in their feet."

At this a well dressed man got up and as he was leaving Dr. Dowie shouted to him:

"You are not commonly decent."

For the first time today Dowie ordered reporters excluded, and those who were seated at the reporters' table were escorted to the door on Mr. Dowie's orders to his guards to "clear the tainted vipers out of here. Be careful how you handle them, not to get any of their filth on you. Now, get out, you mean dogs, you yellow scoundrels of the press. We will have no more of you in here. I am paying for this place, you bars. This is my building. Hurry up, guards. The sight of them disgusts me. Don't waste any restoration talk on the dars. It is useless. They have sold their souls to the devil. I never hope to convert a reporter. They would be backsliders."

A squad of inspectors from the health department invaded Madison Square Garden today and ordered sweeping changes in the methods of quartering the Zion guards and a part of the "host" of 4,000 there. An order was posted that only a certain number of persons could sleep in each room, and that there must be better ventilation. The inspectors also visited the kitchens and watched the preparation of the meals. The fact that 43 members of Dowie's followers whom he brought here were sick today, led the health department to take action, so Commissioner Lederle said.

out the wildest disorder prevailed and the police, 400 strong, were for a time utterly unable to cope with the mad rush of the crowd. Men and women were knocked down and trampled on and many narrowly escaped death in the crush.

Several times Inspector Walsh sent in calls for extra reserves, and it was not until the meeting was suddenly terminated by Dowie shortly after 9 o'clock that anything could be done with the crowd.

In the surging of the throng Grace George, the actress, who was on her way to a theater where she was playing, was swept off her feet and trampled on and her clothing badly torn. She accused the police of handling her roughly.

Mrs. William J. Buckley of Newark, N. J., was caught in the crush and fell fainting to the street. She was badly bruised. Inspector Walsh was near the woman when she fell and with the aid of 15 policemen he rescued and carried her to safety.

William A. Brady, the theater manager and husband of Grace George; Lorenzo Winter, a broker, and Channing Pollock, a press agent, were arrested on charges of disorderly conduct.

The crowd blocked all traffic in Madison Square, Twenty-sixth and Twenty-seventh streets for more than an hour and could not be dispersed until con-

POLICE HAVE HARD TIME.

New York, Oct. 21.—Thirty-one thousand people, according to the estimates of the police, tried to get into Madison Square Garden to see John Alexander Dowie. About one-third that number had secured admission when at 8 o'clock the doors were closed. When the other 20,000 found themselves shut

vinced that the meeting inside the garden had ended.

Within the great hall the scene was comparatively tame. There were one or two slight demonstrations from a body of 1,000 Columbia students. One of the students and another man in a gallery were arrested early in the evening for disturbing a religious meeting.

Thenceforth things were comparatively quiet until the audience had been dismissed, when a man engaged in a fight with two Zion guards because as he declared, they had treated his wife roughly.

Dowie spoke only for about 15 minutes. He announced his subject as "Divine Healing," but when the meeting closed to terminate the disturbance outside the door, he had gathered more than a dozen of the Illinois Zion and a laudation of its founder.

Will Support Grout and Forney

New York, Oct. 21.—Peace has been declared between the Democrats of Brooklyn and the Democratic organization of New York over the matter of candidates for comptroller and president of the board of aldermen.

Whether the result was brought about by the surrender of Hugh McLaughlin to McGarrett and Murphy, or through concessions from Tammany in promises of patronage, is not known, but whatever the basis of agreement may be, McLaughlin and his campaign committee will work in harmony with the Tammany committee. The only discordant note was sounded by Martin W. Littleton, candidate for borough president, who insists on maintaining the attitude of the defunct corporation name, when he declared against the nominations of Grout and Forney.

U. S. SHIPBUILDING CO.

Lewis Nixon Takes Witness Stand
And Tells What He Knows.

New York, Oct. 21.—Lewis Nixon, who from a naval constructor became builder of warships and the president of the United States Shipbuilding company, was the principal witness today at the continuation of the hearing before Examiner Henry D. Caphart as to the affairs of the defunct corporation named that the proposed expenditure of \$2,800,000 for improvements at the Bethlehem Steel works had been approved by the directors over his protest and warning that the corporation would not be able to pay the bills. He testified that he had been given shares enough to qualify but Mr. Nixon had no personal knowledge of the transaction.

Mr. Nixon testified that, by resolution of the directors passed in December last Mr. Pam was given a salary of \$18,000 a year, which was dated back to the preceding September. He testified that, beside his bonus as an underwriter and the sums paid for the Bethlehem property Mr. Schwab received a share of the promotion money, part of which he gave to Charles Gates of the brokerage firm of Harris, Gates & Co.

Samuel Untermyer, for the bondholders, endeavored to prove by the witness that during the negotiations for the purchase of the constituent plants no one looked after the interests of the shipbuilding companies but the figures and reports of J. W. Young, the promoter, were accepted.

Mr. Nixon said that no independent appraisal or investigation had been made and they disclaimed all responsibility for the negotiations and financial part of the combination plan.

It was brought out in the testimony of Mr. Nixon that misleading statements as to the personnel of the directors had been made in the prospectus issued in July, 1902, and that Young had taken the options in his name. According to Mr. Nixon, secrecy was observed in paying the money to the promoter because Young did not want them to know what was being paid for each plant. There has been much mystery over the cutting of the checks, given by the corporation.

It is possible that the explanation of Mr. Nixon will clear it away.

Charles Canda was the only other witness of the day, taking the stand before the court. He testified that the Canada Manufacturing company, for which \$1,100,000 in cash and securities was paid, had a plant at Carter, N. J., built for the manufacturing of car wheels, but that at the time of its purchase, it was turning out some experimental work in motor carriages.

He said that the plant would have been used in connection with some of the operations of the shipbuilding combination.

Charles M. Selwab and Max Pam attended the hearing today. They came to be sworn in, but retained interested listeners to all the testimony. They will testify later in the week.

THE LITTAUER CASE.

Statute of Limitations May Prevent Prosecution.

Washington, Oct. 21.—The opinion of the attorney-general in the case of Representative Lucius N. Littauer of New York, involving the charge of violation of the statute prohibiting any member of Congress from making a contract and supplying the government with goods, was received at the war department today. Littauer is a member of the firm of Littauer Bros. & Co., manufacturers of gloves, and through E. A. Lyons furnished the quartermaster's department with gloves for the army. When the report of Inspector General Garlington, who investigated the case, and the comments thereupon of Secy. Root were made public it was announced upon the face of the facts there had been a violation of the law.

The whole matter, however, was referred to the attorney-general for a legal opinion.

The opinion of Atty.-Gen. Knox, received today, was referred by the acting secretary of war to the judge-advocate-general and will be made public by him tomorrow. The opinion was not carefully considered by the war department, but from a casual perusal it is inferred that the department of justice does not pass upon the guilt or innocence of Littauer, but decides that the time within which legal action must be taken under the statute of limitations has expired and that Littauer is not subject to prosecution by the department.

Pittsburg Banks Pool.

Pittsburg, Pa., Oct. 21.—When the announcement was made today that the Federal National bank had suspended steps were taken by local banks to form a pool to be used in case of emergency, and within a short time between \$2,000,000 and \$3,000,000 was subscribed.

The funds subscribed were designed to give aid to financial institutions should need develop. This will enable brokers to secure money readily on good collateral. The funds will be used in such other ways as occasion may require.

It is the opinion of bankers that the situation in Pittsburg is far from bad, and there is not the slightest reason for further trouble.

A MOTHER'S LOVE.

WHAT IS MORE BEAUTIFUL
THAN MOTHER LOVE?

"Who ran to help me when I fell
And would some pretty story tell,
Or kiss the place to make it well,
My mother."

A mother's worries are many. She sometimes forgets her own bodily comforts because of her overprotecting love for the child. She becomes broken down, sleepless, nervous, irritable and feels tired from morning until night. Many mothers of experience can tell you that at such a time they have been relieved, benefited and strengthened and put into proper health by taking a prescription which their mothers had told them was the only woman's tonic to be taken at such times. Dr. Pierce's Favorite Prescription has enjoyed an enviable reputation for over a third of a century. In all that time it has sold more largely in the United States than any other tonic for woman's needs, and today its sales are greater than ever. Dr. Pierce made up this prescription from roots and herbs without the use of a particle of alcohol or narcotic and for the single purpose of curing those diseases peculiar to women and when there is a lack of womanly strength to bear the burdens of maternal duty. How few women come to this critical time with adequate strength. The reason why so many women sink under the strain of motherhood is because they are unprepared. Is preparation then required for motherhood? asks the young woman. And every experienced mother answers—"Yes." "I unhesitatingly advise expectant mothers to use Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, of Mills, Va. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Favorite Prescription." For one thing it makes the baby's advent practically painless. It has in many cases reduced days of suffering to a brief few hours. It has changed a period of anxiety and struggle into a time of ease and comfort.

A DUTY WOMEN OWE THEMSELVES.

"Good actions speak louder than words," so, too, does the testimony of

many thousands of women during a third of a century speak louder than mere claims not backed by a guarantee of some kind. That is the reason why the proprietors of Dr. Pierce's Favorite Prescription are willing to offer \$500 reward for women who cannot be cured. Such a remarkable offer is founded on the long record of cures of the diseases and weaknesses peculiar to women. If there is an invalid woman, suffering from female weakness, prolapsus, or falling of womb, or from leucorrhoea, who has used Dr. Pierce's Favorite Prescription without complete success, the original proprietors and makers of that world-famed medicine would like to hear from such person—and it will be to her advantage to write them as they offer, in perfect good faith, a reward of \$500 for any case of the above maladies which they cannot cure. No other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its makers in publishing such an offer.

Miss Emma Petty, 1126 S. Olive Street, Indianapolis, Ind., Past Vice-President, Daughters of Pocomantas, Minnesota Council, also Organizer, South Baptist Church, Indianapolis, writes: "For several years I suffered with leucorrhoea, which was a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I had many medicines recommended to me and tried many, but did not get permanent relief until I took Dr. Pierce's Favorite Prescription. In two months I was much better and stronger, and in four months I was well. Have had no more disagreeable discharge, no more pain; so I have every reason to praise 'Favorite Prescription.' I consider it without an equal for ills of women."
