

TRUE SECRET OF MADSON'S POWER

A Beauty Doctor Says it Lay in His Great Capacity for Telling Such Wonderful Lies.

SHE CAUSED HIS ARREST.

Declares Young Men Would Succeed Wonderfully Well in Love Affairs If They Would Adopt His Style.

San Jose, Cal., July 11.—Christian C. Johnson, or John Madson, who is said to be married to at least a dozen women and to have courted as many more, is in the county jail here and declares that he will plead guilty to the charge of bigamy when his case is called, probably tomorrow.

Johnson was brought here yesterday from San Francisco that he might be proceeded in this county where Mrs. Josephine Amelia Tretheway of Stockton, Cal., whom he married two months ago, swore out a complaint against him.

In the same court and before the same justice of the peace by whom he was married to Mrs. Tretheway Johnson was arraigned late yesterday afternoon and held to answer for trial in the superior court. The man of many wives, scattered from New York to the Pacific coast, declared that he wanted to plead guilty to the charge of bigamy, but was told that he could not do so until his case is called in the superior court tomorrow.

Johnson vehemently repeated his denial today that he ever went under the name of Madson or that he was married to more than two women—Mrs. Tretheway of Stockton and Mrs. Henrietta Leopold of San Francisco. He married the former five days after Mrs. Leopold became his wife. The speaking of Johnson's love-making, Miss Minnie Cather, a young beauty doctor, who was instrumental in causing his arrest by the San Francisco police, said:

"Young men would succeed wonderfully well in their love affairs if they would adopt his style."

"What was his style or method that attracted women to him?"

"He told such wonderful lies," declared the young woman.

"THE LAST SPIKE."

Hill's Famous Picture May Leave San Francisco for the East.

San Francisco, July 11.—This famous painting, "The Last Spike," which pictures the scene at the driving of the last spike that marked the completion of the Central Pacific railroad and its junction with the Union Pacific, is in danger of being lost to San Francisco.

The painting is now in the museum at Golden Gate Park, but John Washington, son-in-law of the late Thomas Hill, the artist, is negotiating for the sale of the picture to an eastern man for \$10,000.

An effort is being made to arouse the people of San Francisco to raise \$10,000 in order to save the painting for this city. This effort has the endorsement, it is said, of the millionaire descendants of the railroad builders whose

Should the effort to preserve the picture to San Francisco fail, the descendants of the men who built the first transcontinental road will endeavor to procure the picture for themselves. To that end they have begun negotiations with the estate of the late artist. MORALS IN HAWAII.

Bp. H. B. Restarick Says They Are Such as to Stagger One. Honolulu, July 2.—via San Francisco, July 11.—In his annual address at the St. Andrews Episcopal church last Sunday, Bishop Henry B. Restarick made some remarks concerning moral conditions here which have been the occasion of considerable comment. The bishop urged that the convocation appoint a special committee to investigate the moral conditions and social service, and said: "There are moral conditions in the islands which, when they are known, tend to more than two women—Mrs. Tretheway of Stockton and Mrs. Henrietta Leopold of San Francisco. He married the former five days after Mrs. Leopold became his wife. The speaking of Johnson's love-making, Miss Minnie Cather, a young beauty doctor, who was instrumental in causing his arrest by the San Francisco police, said: 'Young men would succeed wonderfully well in their love affairs if they would adopt his style.' TAFT PAYS TRIBUTE TO GOVERNMENT CIVIL EMPLOYEES

Washington, July 11.—In assisting today to lay the cornerstone of a church which has for a part of its equipment a gymnasium, a swimming pool, bowling alleys and club rooms, President Taft paid a tribute to the civil employees of the government. "As I understand the plan of this church," said the president, "is to make religion a part of the life of those who are members of it. It is to make the church so attractive that those who are members of it shall regard religion as a necessary part of life." "It was well," the president said, "that the church was established in Washington, the seat of the government. He said he did not mean the president and the cabinet, nor the senate, nor the house of representatives. 'There is something,' he said, 'that goes to make up this government as a machine that continues to operate when the president goes to the seacoast and the senate and house go home, and when the members of the cabinet disappear. And that is the government of the civil servants—trained civil servants who know how things ought to be done. 'They are willing for a reasonable compensation, sometimes much too low, to give out what is best of them to carrying on this government in an honest, effective way—men who are philosophers enough to know that by the enjoyment of a small salary they can get more happiness out of life in seeing their families grow than by aspiring to be millionaires and plutocrats.'"

DEATH FOLLOWS DAY OF FESTIVITY

Three People Killed by Explosion Of a Bomb During a Postponed Celebration.

SEVERAL SEVERELY INJURED.

Pieces of Pipe Flew In All Directions—Windows in Church and Near-by Houses Were Shattered.

Kansas City, July 11.—Three people were instantly killed by the explosion of a bomb during a postponed celebration of St. John's day by the parishioners of the Holy Rosary Catholic church here tonight. Two policemen were knocked down and stunned. Another man, sitting in a window several hundred feet away, was so badly injured that he is not expected to recover. Many others received minor injuries from the flying fragments of the bomb. The explosion occurred in a vacant lot opposite the church, where the pyrotechnical part of the celebration was being held. Hundreds of people were crowded in the lot.

THE DEAD. Antonio Grassie, who was in charge of touching off fireworks. A negro and negroess, who were bystanders. The explosion followed a day of festivity. The fireworks in the early part of the program had been displayed without mishap, and almost every Italian in the city was congregated in and about the lot. Grassie had constructed a bomb by filling a section of gas pipe with powder and plugging up one end. He had been warned to place it on the ground before firing it, but neglected to do so. The crowd surged around him as he knelt to light the fuse, and before he could regain his feet the explosion occurred.

Pieces of pipe flew in all directions. A panic followed as the crowd strove to get away. The policemen who were stunned and knocked down had been detailed to the place to preserve order. Some one telephoned the police station and ambulances soon arrived to care for the injured. It was considered remarkable that many others were not killed. The explosion blew out windows in the church and in nearby houses.
