Alturas, Cal., Feb. 27.-The most remarkable criminal trial in the history of California was ended today when the jury in the case of James W. Brown brought in a verdict of acquittal. Two ballots were taken. On the first one juror was for conviction and one voted blank!

Shortly after 1 o'clock on the morning of May 31 last, four men and a boy were lynched from the two bridges which span the Pitt river at Lookout in Modoc county. The men banged by the lynchers were Calvin Hall, an old man 74 years of age; his halfbreed gons, Jim and Frank Hall; Dan Yantis, a white man, and Martin Wilson, a 15-year-old Indian boy.

The victims of the mob were held as prisoners at Myers' hotel in Lookout

pending their preliminary hearing for petty larceny. The county officials showed no disosition whatever to trace the authors

if the outrage Atty.-Gen. Tirey L. Ford sent Asst. Atty. Charles L. Post and De-puty Atty.-Gen. Geo. Sturtevant to Algras to work up the case for the state. he Modoc county peace officials did cerything in their power to frustrate est and Sturtevant in their mission cording them no assistance whatso er in their investigation.

The grand jury was in session when len. Post and his assistant arrived at Alturas and the inquiry into the Lookfruitful channels that the grand jury found indictments against Deputy constable James W. Brown, Bob Leventon and Isom Eades.

Petitions, numerously signed were sent to Dist. Atty. Honner, request-ing a dismissal of the indictments against the accused men, and that official addressed a communication to Atty.-Gen. Ford requesting permission o dismiss the indictments. torney-general, in a scathing reply, severely rebuked the district attorney and the officials of Modoc county for the great laxity displayed by them in cution of the lynchers and expressed his determination to bring the guilty parties to justice.

After the indictment of Brown, Eades and Bob Leventon, the grand jury met from time to time and continued their inqury into the lynching. Practically vas subpoenaed to appear before that

n the second day of January of this year, John Hutton, who had appeared before the grand jury, and who had confessed to Asst. Atty.-Gen. Post. In his confession, Hutton im-plicated Claude Morris, Isom Eades, ames W. Brown, Robert L. Leventon, J. Potter, A. L. Colburt, William J. McDaniels, Henry Knox, Louis Pol-manter, Jervis Kresge, Sam Parks, E. S. Trowbridge, Orrin Trowbridge, Fred. Roberts, Harry Roberts, J. R. Myers, (justice of the peace, Lookout town-ship), R. I. Nichols, Joseph W. Leven-

ton and Claude Marcus.

A few days after Hutton made his confession Claude Morris made a full breast of his complicity in the lynch-ing to Gen. Post. On the strength of these confessions, which in the main details were corroborative of each other, the grand jury returned indictments against the men named, with the exption of the last eight mentioned. A NEW OIL KING.

The discovery of oil near Columbia Texas, in an entirely new field, situated about 150 miles west of the Beaumont oil district, has caused intense excitement throughout the state. Thomas Wardell has arrived here direct from the new well. He says it is a genuine gusher and is flowing at least 38,000 barrels of oil per day. It was not completed when the oil stream burst forth and it is thought that had it been well cleaned and baled the flow it been well cleaned and baled the flow would amount to twice the present output, as it is an eight-inch hole, oil has not yet been tested, but it has the appearance of being of the same character as the Beaumont oil.

Former Governor J. S. Hogg, who owns a one-eighth interest in the new well, is also here after a three months' absence in New York. He is in re-ceipt of telegrams confirming Wardell's statement as to the amount of the flow

Mr. Hogg is enthusiastic over the rich strike. It means that he is one of the richest men in the country, as he owns n fee simple 270 acres of the 400 acre comprising the elevation of which this oil is found. Mr. Hogg said that he had sold land in the Beaumont oil field for \$300,000 per acre, and he con idered the new oil land which he holds just as valuable. At this rate the discovery near Columbia means an increase of Mr. Hogg's wealth to the extent of more than \$80,000,000. This is exclusive of 14,000 acres on which Mr. Hogg and associates have a lease adjoining the new well. Mr. Hogg says that this discovery is of much greater importance than the Beaumont oil discovery. The new field is only miles from the deep water port of Velasco. Mr. Hogg denied the published reports that he had disposed of any of his interests in the Beaumon! oil field to the Standard Oil company, He said he had sold a part of his in terests there to English capitalists for

Wade Postpones Signing for Match With Jack Clifford.

TO MEET THIS AFTERNOON

Wade Tells Montana Sports What He Will Do to Clifford-He May He Surprised.

The meeting of Wade and Clifford yesterday to sign for a boxing match mounted to another postponement, and at the instance of Wade. Clifford was ready and willing to attach his name to the articles of agreement, but the lad who has won fame and money in Montana, wanted more time, and he balked on the percentage of Manager McNamee. They spent an hour talking over the details of the proposed match, but Wade would not sign, They had previously posted a forfeit of \$25 to sign yesterday and Clifford could have justly claimed the forfeit but he lisplayed his gameness and businesslike attitude by declining to claim the forfeit. He meant just what he said when he challenged Wade and he wants a chance at him. When Wade objected to McNamee's offer of 60 per cent of the gate receipts, McNamee raised it to 65, something he claims he has never done before, and something declares he will never do again, en that concession did not cause ade to sign and he said he wanted be matter to go over until today to ive him time to ask permission of his ackers in Montana. Clifford began o squirm on the anxious seat and tried to get Wade to put up \$25 more. ut this the Montana lad refused to o. They finally agreed to sign up at o'clock today. along been claiming that Jeffries is straid to meet his man, and will post a forfeit as evidence of good faith, and the present champion does not cover after one month's time Madden will claim the championship and defend it against all comers. When Martin was in Denver he went under the name of Bob Armstrong, and in the first venture he was defeated by Mexican Pete, but on neeting him later he reversed the de cision and then went east and placed himself under the management of Tom O'Rourke and was immediately matched to meet the real Bob Armstrong. This was a mistake, as Mar-tin at that time was nothing but a green and willing fellow while Arm-strong was at the height of his career and naturally the westerner lost the fight. Billy Madden, however, recognized in Martin a coming star and took charge of him. He did little fighting for some time, but helped train Ruhlin for his fights with Sharkey, Fitzsim-mons and Jeffries, and many who have seen the two work together think that had Martin instead of Ruhlin been in the ring the result would have been dif-ferent in the first two fights and that he would have given the champion quite an argument had he been his opponent in Frisco and the public at least would have had a run for their money. While on the coast he met Fred Russell and Hank Griffin, both of whom he disposed of without much trouble and showed the California publie that he had the making of a good man in him

DID HE ACT WISELY?

Admirers of "Young Corbett" Question Wisdom of His Match.

Now that Young Corbett has signed articles to meet Terry McGovern in the ing again, many local admirers of the champion are asking one another whether he did wisely or not. On the face of it, without knowing any of th facts, it would seem as though he could have done much better by fighting some of the other good men in his class with-out picking out the hardest ones obtainable, and then again it looks as though he did a very sensible thing, as he does not have to meet McGovern before Oct. 15, and that is a long way off yet, and there is nothing in the agree-ment that will keep him from fighting between now and then, and should the unexpected happen and some one defeat the present champion, he would again have a chance to get back to the top by winning over McGovern, and looking at it from this way it would seem as though it was the very best thing that could possibly have been done by Corbett and no doubt Manager Johnny coppered a good thing when he bound McGovern to a fight regardless of what happens in the meantime.

RAISE POULTRY.

One time a rich farmer told the writer that the best time to go into stock or rain was when everybody wanted to uit. He didn't own all the land the oined him, but he did own several hun fred acres of good farming land, and held a first mortgage on a lot more, outside of this particular notion of his

Every year we see where money could have been made had we been able to see ahead. There is hardly a year that some particular farm product does not nearly double in value.

About seven years ago horses were nearly given away; right then would have been the time to buy up the best brood mares in the country. It certainly in dicates a shortage in poultry and to such an extent that the poultry raisers will be fortunate until the demand is supplied, which will take at least two years of our best efforts—M.
