ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory:

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN WM MURDOCK,
Administrator of said Estate.

Salt Lake City,
Oct. 25th, 1879. d 27, 10, 9 to 25, 11, 9

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, cheaper than any other Watchmaker's in Salt Lake City.

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ASMUSSEN,

Per J. NEILSEN, Manager.

Lake City, Sept dtm

For You,

Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

EASTERN.

SPECULATION.

The Most Remarkable day on Record.

NEW YORK, 12.—To-day was the most remarkable one for activity and buoyancy in the history of the stock exchange. Excitement was at fever heat throughout, and in many cases not only were the highest prices of the year made but the highest were attained. The dealings, which were on an enormous scale, were well distributed and taxed severely the capacity of the stock telegraph instruments to report them, and orders poured in so continuously from all parts of the country that the brokers in many instances experienced considerable difficulty in executing them. Nearly the entire list participated in the activity, and many stocks heretofore quiet became prominent in dealings.

The large and increasing traffic of the railroads consequent upon the general revival of business throughout the country of course had much to do with the condition of affairs to-day, but in a number of instances there were special causes at work to put up this or that stock. The greatest advance was in Nashville, Chattanooga and St. Louis, which sold up from 69¾ to 83, closing at 79¾ on the statement that the president of the company has quietly bought a controlling interest in the Western and Atlantic which runs from Chattanooga to Atlanta, and is regarded as the key to the Southern railroad system. One of the principal features of the market was the larger transactions is Erie, chiefly in common stock which rose 2¼ per cent, the preferred advantage to 6 per cent. The upward movement of these stocks also in the bonds is based upon the large and increasing traffic of the country and the general improvement in the condition of the property. The earnings for October were over $200,000 greater than those of the same month last year, which was one of the heaviest months for business in the history of the road. Again, the Erie Company owns a large amount of C. C. C. & I. Railroad stock which has recently advanced greatly in value and now represents an asset of over $1,000,000. The advance in granger and coal shares continued and they rose 1 to 2¼ per cent., the coal stocks being favorably affected by the announcement of a general advance of 50 cents in the price of coal to take effect Dec. 1st. The telegraph shares which have been inactive for some time took a sudden upward turn, W. U. advancing 4¼ and A. & P. Telegraph 3¾ per cent. with subsequent reaction of 1½ per cent each. The cause was attributed to the enormous business of the Western Union and its leased lines, growing out of the great activity of the trade markets and the greatly increased speculation in stocks and grain.

In the miscellaneous share list, Chesapeake and Ohio was first preferred and showed the most improvement, advancing 6¾ per cent. to 29½, purchases of stock being induced by the report that the company had contracted to extend its southern line from Huntington to Lexington and also for a re-extension to Cincinnati. In final dealings a buoyant tone prevailed, and the market closed at an advance for the day ranging from 1 to 10 per cent. St. Paul and Sioux City common closed at 42½, preferred at 73. Pullman Palace Car stock sold up to 108 @ 109, against 100 a few days since.

In addition to the influences mentioned above, a further impetus was given to the advancing market by the reports that ten millions more bonds will soon be purchased for the government sinking fund. These reports were probably based upon the fact that for the first ten business days of Nov. the customs and internal revenue receipts have aggregated over one million dollars a day average and the receipts from customs alone for the first nine days of this month averaged about $625,000 a day. This will result in a large surplus of revenue for the current month, and its prospective continuation, which may be looked upon as assured, will enable the Secretary of the Treasury to purchase more of the six per cent. bonds early next month. In the meantime, however, at the rate of stocks of all speculative descriptions are going up, it will not take long to use up the surplus ten million dollars thrown into the market by the recent purchase. Substantial brokers are requiring substantial margins, and some have lost accounts because of the refusal to carry stocks on five per cent. deposit.

The Central Pacific paid into the Treasury to-day, at Washington, $220,000 on account of the sinking fund.

The transactions to-day reached the enormous amount of 624,000 shares.

New Trial Ordered.

The Court of Appeals has ordered a new trial in the case of the New York Guaranty and Indemnity Company et al, against Andrew J. Roberts, Valentine Gleason and others confined in Ludlow Street Jail since 1875, pending the action of the courts in a civil suit to recover $75,000 for money obtained by forging railroads bonds on which $300,000 was procured. When the crime was detected in 1873, it created a sensation in Wall Street. Nearly a million dollars worth of forged bonds of the Buffalo, New York and Erie and New York Central were thrown upon the market and many firms were defrauded.

Republican Gains.

Charles E. Smith, of the *Albany Journal*, telegraphs the official returns now coming in show small, but almost uniform republican gains. With the changes thus far recorded, our footings give Hastings 957. Carr loses considerably in Monroe County, but gains enough elsewhere to make up. Wendell's net gains thus far are over his estimated majority yesterday about 380. Both appear to be safe by about 2,000.

Stolen Silverware.

A box of silverware, werth about $2,000, was found by the police this evening in front of No. 486, Greenwich street, in a tenement known familiarly as "Rotten Row." Several suspicous looking men ran away from the box at the approach of the officers. It was marked W. W. Totten, Nashville, Tenn., evidently for shipment, and no doubt had been stolen from some express wagon.

Charged with Forgery.

John E. Kubely, book-keeper for Henry Clausen, Jr., brewer, has been arrested charged with forgery. About $12,000 worth of forged notes and checks upon Clausen have come to light, and it is not known how many more are in circulation.

Artesian Wells.

WASHINGTON, 12.—Among the questions to which the commissioner of agriculture has recently been giving his attention, is that of the redemption of comparatively arid table lands which stretch along the eastern base of the Rocky Mountains from our northern to the southern border. The subject is considered very important, involving as it does the recovery of a tract of country equal to one-fifth of the productive area of the United States. Where it has been possible to subject the land to irrigation, astonishing agricultural richness has been found, and at present the facilities for irrigation by means of mountain streams extend no further than from 40 to 50 miles from the base of the range. With the problem of irrigation solved, these plains would be rated among the richest agricultural regions of the country. As preliminary to practical tests, the commissioner has engaged the service of Brisbin Walker, late editor of the *Republic*, to proceed to Colorado and report upon the possibilities of artificial irrigation, especially with reference to artesian wells, which in those sections where mountain streams are not available, seem to be the only possible source of supply for irrigating purposes. There are now some 5,000 artesian wells in successful operation, and experiments made by French engineers in the Great Sahara Desert, indicate that the plan is feasible. At some of the wells sunk by M. Jus, water was obtained at a depth of only 300 or 400 feet and the discharge was equal to 1,100 gallons per minute. There is every reason why similar results should be obtained in the strata underlying the table lands of Colorado. Mr. Walker, by his training capacity for close observation will be able to make an intelligent study of the situation. This report will be looked for with interest.

Peace Negotiations.

Secretary Schurz has received the following telegram from Special Agent Adams, written at Los Pinos Agency, Nov. 10th, and forwarded *via* Lake City: Arrived here yesterday and immediately proceeded to Chief Ouray's house, where I met about 20 of the chiefs and head men of the White River Utes, who had come in obedience to Ouray's orders. The others are expected. The camp of these Indians is about 50 miles distant, on the Gunnison River. Nothing is changed in the situation here. Chief Ouray is positive that when satisfied of the guilt of the Indians, he will have power enough to arrest and hold them.

Bullion Purchases.

The Treasury Department, to-day, purchased 365,000 ounces of fine silver for the Philadelphia and San Francisco Mints.

Five hundred and fifty-one thousand ounces of standard gold bullion, being a portion of that received from Europe, was to-day ordered by the Treasury Department from the assay office in New York to the Philadelphia mint for coinage. The value of the bullion was about $10,000,000.

The Director of the Mints said to-day: That until further orders, the coinage of gold by the United States mints will be confined to eagles and half-eagles.

No Look-Out.

PHILADELPHIA, 12.—At the investigation to day of the cause of collision between the steamer *Champion* and the ship *Octavia*, it was ascertained there was no look-out on the *Champion*. It was customary to take the man off the look-out for other work.

Pennsylvania Vote.

HARRISBURG, 12.—Returns from every county in the State give the total vote for State Treasurer as follows: Butler, republican, 280,153; Barr, democrat, 221,815; Sutton, greenback, 27,207; Richardson, prohibition, 3,239.

Into the Abyss.

WATERTOWN, N. Y., 12.—Two unknown persons in a row boat went over Wood's Falls on Black River, two miles below this city this afternoon. From appearance, it is thought they intended suicide.

Minnesota Returns.

ST. PAUL, 12.—Official returns from the State now completed will give Pillsbury, who was badly scratched, 15,000 majority, and the rest of the republican State ticket 20,000.

Confession.

COOPERSTOWN, N. Y., 12.—Buell, who is to be hanged on Friday for the murder of Catherine Richards, has confessed his crime.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 12.—The story sent from Vienna on the 10th inst., of the marching of a force of Montenegrins on Gusinje, and the slaughter of Albanian Musselmens is unfounded.

A question left open in the treaty of alliance between the Balkan Principalities, is the admittance of the Porte to the alliance. The appointment of a Russian General as Commander-in-Chief of the allied force is considered possible.

There is no apparent progress towards an agreement among the leaders of the Italian left. Each leader wants to enforce his own terms on the Government, and the party under pain of withdrawing their followers and leaving both to their fate. It is barely possible that the fear of seeing the right return to power, combined with many personal interests at stake, may at the last moment before Parliament assembles, bring about an accord on some general understanding.

The semi-official newspapers the *Journal De St. Petersburg* and the *Golos*, consider Beaconsfield's speech was more intended to produce an impression at home, in view of the approach of a general election, than abroad.

The *Journal de St. Petersburg* considers Beaconsfield's impressions afford a proof that the British public leans towards peace.

The *Golos* says: Beaconsfield's tone was lowered as to almost amount to a renunciation of all that he and Salisbury had previously said.

The *Nowie*, Vienna, says: Beaconsfield's silence on eastern affairs masks his failure at Constantinople.

The press generally remark upon Beaconsfield's abstention from attacking Russia, and the recent remarks of some friendly English newspapers.

Our Carriages.

Sixty years ago there were only ninety-two carriage establishments in the United States. They gave employment to 2,274 persons, producing 13,331 carriages of various kinds, amounting in value to $1,708,741. In 1850 it had increased to 1,822 establishments, employing 14,000 persons, and producing carriages to the amount of about $12,000,000. It is now estimated that there are 15,000 carriage manufacturers in the United States, who employ upward of 100,000 hands, pay out from $25,000,000 to $31,000,000 for labor annually, and produced during the past twelve months upward of 1,200,000 carriages, amounting in value to fully $125,000,000. This makes one carriage to about every 38 persons in the United States, to say nothing of sleighs of various kinds. This does not include the extensive manufacture of axles, springs, wheels, bows, joints, bolts, clips, leather, cloth, and the thousands of articles made in part that are now purchased in a partly finished state by the trade, in which many thousands of men find steady and remunerative employment.—*Ex.*

Why They Bathed in Stockings.

A seaside echo: At the bathing hour a number of young men, seated on benches, are watching the female bathers who pass down the surf. All at once two sisters issue from their bath rooms clad in the usual bathing costumes; but instead of having their legs bare, as is the rule with the French women at the seaside, these young ladies wear stockings. Astonishment of the young gentlemen in question. "Why these stockings?" "Modesty, no doubt." "No; probably because their legs are badly shaped." "Wrong again; they're afraid of crabs!" At last, after a thousand guesses, each one wilder and more improbable than the last, one of the wisest of the party goes and hunts up the old woman who acts as servant to the two sisters, who is standing in front of one of the bathhouses. "Tell me, my good woman, why do those ladies bathe in stockings?" "Oh! I'll tell you, sir; it's the first time this year that the ladies have been in the water, and consequently, you understand, their feet are dirty!"

FOUND.

A WHIP. The owner can get it by calling at this office.

FOUND

THERE are at this office two Pocket Books, one contains some pictures and other things of value to the owner. The other contains some Tithing Orders and other valuables. The owners can have them by proving property.

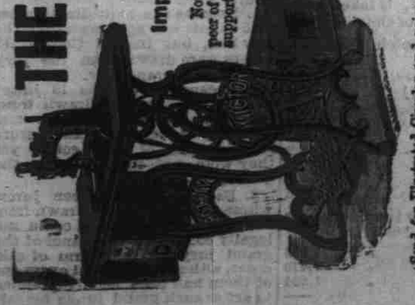
THE NEW VICTOR.

SIMPLICITY SIMPLIFIED!

Improvements September, 1878.



Notwithstanding the VICTOR has long been the peer of any Sewing Machine in the market—a fact supported by a host of volunteer witnesses—we now confidently claim for it greater simplicity, a wonderful reduction of friction and a new combination of desirable qualities. Finished, it is a beautiful specimen of mechanism, and takes rank with the highest achievements of inventive genius. Note.—We do not lease or consign Machines, therefore, have no old ones to patch up and re-varnish for our customers.

We Sell New Machines Every Time.

Send for Illustrated Circular and prices. Liberal terms to the trade. Don't buy until you have seen the Most Elegant, Simple and Easy Running Machine in the Market.—The Ever Reliable VICTOR.

VICTOR SEWING MACHINE COMPANY,
