WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

**CHICAGO, ROCK ISLAND & PACIFIC R. R.**  
IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST.

He main line runs from Chicago to Council Bluffs, Omaha, St. Louis, Kansas City, Denver, Salt Lake City, and Los Angeles. Branches run to St. Paul, Minneapolis, St. Cloud, Duluth, Superior, and other points in the Northwest. The line is the shortest, most direct, and most comfortable route between the East and the West. It is the only line that runs through the heart of the continent, and it is the only line that has a through car service between the East and the West.

**INNO AND UNO.**  
Inno and Uno are two little boys who always are ready to fight. Because each will boast that he knows the most, and the other one cannot be right. Inno and Uno went into the woods. Quite certain of knowing the way: "I am right! You are wrong!" They said, going along. And they didn't get out till next day! Inno and Uno rose up with the lark. To spring into the woods. They entangled their lines, and brought nothing home to the cook! Inno and Uno went out on the lake, and oh, they got dreadfully wet! While discussion prevailed. They carefully enjoyed the weather. And the boat they were in was upset! Though each is entitled to his opinion, they need not be foolishly strong. And to quarrel and fight. Over what we think right. In "You know," and "I know," quite wrong! — Josephine Pollard; St. Nicholas for January.

tic too," and the "big boys" and girls did likewise in the evening. On New Year's eve our Nephew Amos, who is a dramatic artist, furnished us with a drama entitled "Wenlock of Wenlock" and a laughable farce "That Blessed Baby," which were very creditably rendered. Messrs. C. Haynes, F. Tessler, R. C. Blackett, F. F. Hudson, J. Gadd, J. Black, E. W. Chappell and T. Parker, Misses E. A. Udall, G. A. Knowles, C. Webb and Mrs. C. Haynes, playing the characters. On New Year's Day there was a matinee for the children, and a crowded house on New Year's night. This was gotten up for the purpose of defraying an indebtedness on the variety. The company worked very hard, and we cannot say too much in their praise. On New Year's morning we held our first meeting, the meeting was crowded, and we enjoyed one of the finest fellowship meetings it has been my privilege to attend. The character of the evening was a Christmas weather, plenty of "beautiful" good for nothing, and a pleasant prospect for plenty of water, for which we are very thankful. Wishing you a "Happy New Year," with peace and prosperity, Your friend, NED.

### Wei De Meyer's CATARRH

Box 100, U. T., Dec. 29th, 1879.

Editors Deseret News:

It doubtless will be interesting to many of your readers to hear from Grouse Creek. From letters received here many have an idea that Grouse Creek is an uninviting place, and that those who come here stay a night or two and see but a small portion thereof, then write as though they knew about this part of the country, and that they had seen the whole of it. The majority (if not the whole) of the settlers are satisfied with their lot here, and are determined to persevere in making themselves good homes, the material for which exists here in abundance, plenty of good land, wood for fuel, building material, and a fine clay, and an excellent prospect for plenty of water the coming year. Many suppose that the water was an entire failure the past season, but such was not the case. True, the water of the east fork of the creek was short but I know of no crop thereon that received less than two irrigations while the west fork had all the water that was required. The amount of small grain raised here was as follows: Wheat, 1,800 bushels, barley 3,200 bushels, oats 822 bushels, making a total of 5,822 bushels; while Park Valley raised but 555 bushels in all. The grain of both places was threshed by the same machine. From present appearances by the blessing of God, we shall fully double that amount the coming season. Our townsite on the East Fork is being built up, and should our population increase, we can extend our borders. We have no meadow land on this fork only as we make it by purpose, while on the west fork the West Fork is an abundance of grass land. The hills around afford abundance of excellent feed for our stock, which will be much improved by the present abundant snow. We have weekday and Sunday schools established, which are well attended. We have also organized a Y. M. C. A. Berj. F. Cooke, president; Philip Packard and Wm. C. Betteledge, counselors; Wm. P. Packard, secretary and treasurer. We hold our meetings on Sunday evenings, have good attendance and much interest manifested therein. The health of the people has been and still is, with but very few exceptions, most excellent; births numerous, deaths very rare. Ever praying for the welfare of Zion, I am, your brother in the gospel, B. F. COOKE.
