# DESERET EVENING NEWS.

TRUTH AND LIBERTY FRIDAY, OCTOBER 31, 1902. SALT LAKE CITY, UTAH.

### FIFTY-SECOND YEAR

Great Austrian Surgeon Here.

Prof. Lorenz Welcomed by Local Members of the Profession-Talks Interestingly to the Deseret News-His Method of Treating Hip Dislocations-Demonstrations At Holy Cross Hospital-Likes the City and the West.

ceptions to this as to every rule, and one exception was a Viennese young lady aged 23, who was successfully op-erated upon. The older the child the longer the treatment, as a general pro-position, and the more extended the position, and the more extended the preparation for operation. Dr. Mueller said there had been cases where the work was done in from one to five min-utes. He stated that the Armour case was originally a double dislocation, but one of the femurs had been got back into place by a Chicago surgeon, while the other defied treatment, and which resulted in the call for medicai assistance from Vienna. PROF LORENZ'S METHON

Prof.Lorenz's method of treatment Ilustrated by the following detailed ac-ount of one of the Denver operations: "The first thing we must do is to lengthen the muscles of the leg," he

"He took hold and pulled. His as-sistants held the body of the child firmly. He pulled and worked, giving easy deft touches and carefully estimating the strength of the muscles in order that nothing should break. As he pulled he kneaded the hip with his fingers and watched carefully the location of the hip bone. He worked the leg gradually upward into the air, then pushed th foot down toward the head. It tool many manipulations and he worked pa tiently, getting the leg over a little far ther each time. At last he had the foot down beside the head, and the child was then in the position of an ac-robat who touches his head with his

Dr. Lorenz then turned the child and started to bend the leg the other way to touch the head around under t'e that are supposed to offer the best in-ducements and most lucrative returns. It is certain that the house of Bishop back. This was not so easy. He bore hown gently but firmly, using the l g bone as a lever. Then he bent the leg Walter J. Beatle of the Seventeenth ward is so regarded for Mr. Burglar last night visited it for the fifth time backward from the knee joint down. At last he got the muscles and tendons so lengthened that he thought it was safe to begin working the bone into the deformed socket.

To do this he took a wedge-shaped block, with the sharp point round d and padded, placed the hip overit and under the walls of the new Church university, opposite the Temple block began twisting and manipulating. He with a thug who poked a gun in his face. Later the police listened to his troubles but could do nothing for him. Today the department heard the comworked the bones about, apparently in danger of breaking the child's frame every minute and yet doing it with such

every minute and yet doing it with such careful estimation of the limit as to fail just short of breaking. "Now I think if we pull the leg out here," he said, taking hold of the foot and lower leg. "we can fit it in." He pulled first, then he pushed and twisted. In a minute the head of the hlp bone found its socket and slipped in with a uittle jumn that sent the flesh with a little jump that sent the flesh quivering in every direction. You could see the thing done so plainly that eve-rybody was electrified. There were

see the initial doctrified. There were shouts of "good." and hearty applause. "Now we will see about the stability of this operation." said the professor. "If we bend the leg back nearly to its normal position and it stays, it is good. "This is tolerable, this is tolerable," he said, bending the leg inch by inch, back towards the other one. "This is tolerable, this is tolerable," he re-peated, moving more slowly while everybody held his breath. When the leg was nearly back the hip bone jumped out of the socket with the same quiver of the flesh with which it had entered. There were involuntary gasps and groans of disappointment from all over the audience.

a daring attempt to burglarize the residence of Bishop Walter J. Beatie, state bank examiner, at 55 north West from all over the audience. "We must do it again." said Dr. Lo-Temple street. Mrs. Beatle had been away from home for a short time and remembers securely locking the door

"We must do if again, said Di. Los renz, we did not have the muscles stretched sufficiently. He repeated his manipulations, but with the use of more strength. It looked as if he were tearing the frail body of the child to pleces. The mother shuddered and pleces. The mother shuddered and

# A Shining Mark For Burglars.

Residence of Bishop Walter Beatie Raided for the Fifth Time—Big Gun Did Not Keep Intruders Away—Bold and Bungling Act—Street Holdup and Diamond Robbery.

The burglar, the footpad, the safe-, stairs uttered no warning cry, and even blower, the man who steals on a large when the police were telephoned for he when the police were telephoned for h gave no signal but let his pal work or scale and the fellow who picks pockets feeling perhaps that they had nothing and pilfers from the poor is still at to fear from the police. Whether they thought this or not, it is certain they work in Salt Lake. He appears to like did not fear capture for the man up stairs kept right on working to open the city and its people just as much as do the people themselves, and like the box. He could easily have taken the box under his arm and walked off them he apparently proposes to remain; and for the same reason-that it is a with it, but why he did not do so is a good place to get along. By reason of mystery his protracted sojourn he gets ac-

Of course when the police arrived they found nothing but a crowd of exquainted with the houses of cltizens cited people. After learning that an attempted burglary had been made and that the burglar secured nothing. they returned to the station evidently satisfied

YEOMAN'S FIGHT FOR LIFE.

and displayed the utmost nerve and M. J. Yeoman of 142 north East Tem bungling work while an outlook part-ner watched proceedings from the side-walk. The story of how it was done ple street had a hand-to-hand fight with a daring holdup at 6:30 o'clock last evening on East Temple street just in follows below. Less than an hour before M. J. Yeoman had the fight of his life front of the new L. D. S. university buildings. The gentleman was walking toward his home when at the point mentioned a man stepped from behind a tree and, pointing a revolver at Yeo-man, said: "You had better throw up your hands."

"Why, what for?" asked Yeoman plaint of O. Lockman, a San Francisco traveling man who had been touched "Why, what for?" asked Yeoman. "I say throw up your hands," re-peated the holdup. But Mr. Yeoman had no notion of doing anything of the kind. He made a jump at the would-be robber and, seizing the gun, the two engaged in a terrific struggle for pos-session of the weapon. The tide of batat one of the hotels for a diamond pin that he valued at \$100. Simultaneous with the narration of his woes came the confession of Thomas Butler, a young man who went to Christensen's dancing academy last night, to come session of the weapon. The tide of bat-tle was turning in favor of Yeoman out later in the evening, minus his over-coat and a number of articles that were in the pockets. These are a few of the happenings of last night, particuwhen, suddenly the electric lights were turned on in the streets. This unlooked for event apparently took all the nerve out of the holdup and he quickly changed his tactics. With a wrench he broke away from Yeoman and made his escape behind the L. D. S. universi-ty buildings. He took his gun with lars of which were necessarily obtained from sources not connected with the department on account of the new polloy of never telling anything to the

Yeoman at once made for the police station and reported the affair to De-tective Gillespie, and gave the police a Robber Found the Family Strong description of the thug. He described the man as being about 25 years of age, Box but Failed to Break it Open. At 7:30 o'clock last evening there was of medium size, smooth face and wore a light short coat. The fellow was armed with a nickelplated revolver. The police are searching for him.

#### LOST HIS DIAMOND.

O, Lockman, a traveling man who lately arrived from Sna Francisco, re-port 5, to the police today that he had lost a diamond worth about \$100. How he lost it, or where he does not know

the mine but returned to the hotel to Molineux the mine but returned to the hotel to irok after correspondence. The Manville shaft is 460 feet deep The conditions at this colliery are claimed to be the worst in the Scranton region, the veins averaging less than three feet in thickness and there be-ing barely room enough for miners to stand up. The mine has been in opera-tion 22 years and is built in the old style, that is, the breaker is directly over the shaft instead of being 200 feet away from the mouth of the open-ing as the law now requires.

SEVEN LAMPSOF ARCHITECTURE

First Witness Called for the Defense-Crowd That Thronged Morgan Buys the Manuscript for Twenty-fire Thousand.

New York, Oct. 31.-It is reported cables the Tribune's London correspondent, that J. Pierpont Morgan has lought the manuscript of Ruskin's "Seven Lamps of Architecture" for \$25,000.

#### Christian Scientist Indicted.

New York, Oct. 31 .- Mr. and Mrs. J. F. Quimby and John C. Lathrop, a Christian Science healer, gave bonds a \$2,000 today for their appearance for

rial were indicted yesterday at They White Plains for manslaughter in the second degree, being charged with having caused the death of Esther Quimby, seven years of age, by neglecting to provide medical attendance.

#### Rioters Sent to Prison.

Paterson, N. J., Oct. 31.-Rudolph Grossman and William McQueen were centenced today to five years in state's prison for rioting and malicious mischief at the time of the strike in this tions to aid in preserving order. In his opening address, which occucity last June. Appeals were taken and the prisoners filed new bonds in \$17,000

#### ANDREWS ON FOOTBALL.

Chancellor Say it and the Devil Go Hand in Hand.

Lincoln, Neb., Oct. 31.-Chancellor E. package Benj, Andrews has told the students

of the University of Nebraska that he feared football enthusiasm and the devil sometimes went hand in hand. Such a condition apparently, he said, followed the celebration in Lincoln of Nebraska's victory over Minnesota, when students captured a street car and partly dismantled it. That was the devil's work. The chancellor declared it would have been far better had the team been defeated than to have such an exilibition.

## LIPTON MUCH INTERESTED.

#### in Steps Taken to Build a New Cup Defender.

London, Oct. 31 .- Sir Thomas Lipton ead with keen interest the Associated Press' announcement of the steps taken to build a new defender for the Amrica's cup and immediately telegraphed its gist to William Fife, the yacht deligner. When Sir Thomas went over he names of those composing the

the names of those composing the A dervan syndicate, he said: "Well, that is certainly formidable and it looks like business." He added jokingly: "The first thing 1 do today will be to He added jokingly: "The first thing I do today will be to see how my balance stands at the bank."

the Knickerbocker club took no official action on this complaint. The witness spoke to Cornish directly about the matter once or twice.

Regarding the reports that work on the new Shamrock was commenced be-fore the challenge was sent, Sir Thomas said:

"I wish to say most emphatically that

New York, Oct. 31 .- The defense ; the pened today in the trial of Roland B. Molineux, charged with the murder o Mrs. Katherine J. Adams, the first witness being the accused man. This marked a departure from the course of Molineux's lawyers at the first triat when the defense offered no evidence at all. The crowd which thronged the crim-

### PROF. LORENZ AND HIS ASSISTANT, DR. MUELLER.

Adolph Lorenz, and his able assistant, Dr. Fritz Mueller, arrived this morning, on the first section of No. 5 over the Rio Grande. They were accompanied by Dr. J. W. King of Helna, and were met by Dr. S. C. Baldwin of this city at Helper, and escorted to Salt Lake. At the city station they were met by Drs. Jones, Niles, Mayo and Hoyt of this city, and Dr. N. Rosentranz of San Francisco; the latter representing the medical profession at that great center, and having come on to extend a formal welcome to the distinguished surgeon and escort him and his assistant to San Francisco.

#### WELCOMED BY THE GOVERNOR.

Gov. Wells, who was on the platform, waiting to go south on a political er-rand, was introduced to the professor and his assistant, Dr. Mueller, and extended a very pleasant welcome to the State of Utah. Carriages were in waiting, and the party were taken to the Knutsford hotel, where the distinguished surgeons registered from Vienna, Austria, and were given quarters. Dr. Baldwin has official charge of the visitors while here, and drove them around town to visit the various places of in-terest until 12:30 p. m., when Dr. Niles handsomely entertained the following visiting and local medical men, at well spread luncheon at the Alta club, Dr. Niles presiding at the table: Profs. Lorenz and Mueller of Vienna; Di. King of Helena, and Drs. Baldwin, La Motte, Lewis and J. S. Richards of this There were special and attractive table decorations.

#### A POSSIBLE SUBJECT.

Further sightseeing was indulged in afterwards, and at 2 p. m. the surgeons were escorted to the Holy Cross hospi-tal for a clinical demonstration. It was the intention to present the cases of three congenital hip dislocations, one of them being that of Policeman Hilton's 13 year old girl, offered by Di. King of this city. But this morning Dr. Mueller thought the child might be But this morning too old. At 6 p. m. Dr. Baldwin will entertain Profs. Lorenz and Mueller at dinner at the Commercial club, and later at the same place there will be a reception given the visitors to which nembers of the club and of the Salt Lake Medical society are invited. visitors intend leaving for San Fran cisco tomorrow noon, and it is proposed to take them to the lake by a special train immediately after breakfast.

#### TALK TO THE DESERET NEWS.

In an interesting talk this morning with Prof. Lorenz he spoke enthusiasu-cally of the trip through the Rocky mountains, whose scenery especially at-tracted and delighted him. In fact his entire stay in the United States, he declared, had been of the most pleasurable character.

The courteous hospitalities of the medical profession which had been extended so freely everywhere, were par-ticularly gratifying, and the same were very much appreciated by himself and Dr. Mueller. Both professors stated with emphasis their pleasure with the high attainments to which surgery and medicine budgets attained by the second states of had reached in this country, Lorenz himself declared: "Were I only 10 years younger I would remain in the United States."

Prof. Lorenz further remarked his gratification with the manifest prog-less in medical science achieved in this Prof ry, an impression given by a visit to the medical colleges in Chicago and St. Louis, and from what he saw an l heard, he was free to say that it is to longer necessary for a student to limit on such operations, the reply was to to Europe to complete his medical yes, in a general way; but there are ex-

SURPRISED AT THIS COUNTRY. Dr. Mueller stated his surprise at the

number of medical colleges in th'a country. "In Austria there is only one medical school, and that is a great one, connected with the University of Vienna. There are 8,000 students at this great seat of learning and 3,000 of these are medical students." Prof. Lorenz said that he and Dr. Mueller would take more time on their return east to nspect the medical institutions at New York, Philadelphia, Baltimore, Wash-ington, St. Louis and Boston. They

turned her eyes away. Dr. Lorenz put the hip again on the block and pound-ed with the hard palm of his hand where it joins the wrist, and the dull, Upon entering the house, Mrs. Beatle heard a man walking around up stairs and a moment later heard him pounding away upon a small safety box in which she kept her jewelry and in which solid resistance sounded like a butcher pounding meat on his block.

THE BEATIE BURGLARY.

press.

was a considerable sum of money. Mrs. Beatie opened all the doors and then told her son to run to a neighbors as quickly as possible and telephone for the police. It is evident that the bur-glar upstairs heard her give the directions for he renewed his attack upon the box and tried his best to break it open. Failing to pry the lld up he took the box in his hands and began to beat it on the floor. Why he did not take the valuables box and all is more than Mrs. Beatle or any one else can under-stand. The hammering with the box was so loud that some of the neighbors heard it. Although the fellow knew that the police had been summoned, he continued his efforts as coolly and deliberately to open the box. Accord-ing to Mrs. Beatle and the neighbors, ing to Mrs. Beatle and the neighbors, the police had plenty of time to get to the place and arrest the fellow. Ind they taken the patrol wagon they could have reached the house in plenty of time. Three officers finally arrived on the scene but of course, by that time, the bird had flown. Finding that he could not break open the box, the dar-ing burglar walked downstairs, joined his partner on the outside, and to-

gether they took their departure. The robbers had undoubtedly been watching the house, and when they saw Mrs. Beatle and her little boy leave they opened the front door with a skeleton key, or picked the lock and one of them went in search of valuables while the other stood on guard outside. When Mrs. Beatle returned, the fellow down

COMMISSION'S

find out if they can. He does not even know where it was stolen from him. He stated that the broke the diamond from the pin and placed it in a emall case after leaving San Francisco intending to have it repaired when he reached Salt Lake. Yesterday when he looked for the diamond he found that it was gone. He searched and searched mut no trace of it could be found. It was gone, but how, where or when, he does not know. He concluded to report the matter to the police and enlist their aid in the recovery of th gem. The police took a description of it and will do what they can towards locating it.

TOUCHED AT CHRISTENSEN'S

Thomas Butler, a young man resid. ing at 224 west Fifth North street, re ported to the police this morning that thieves were at work at Christensen dance hall last night, and that he was out about \$23 as a result. Butler at tended a dance there last evening. When he entered the place he had on a nice dark brown overcoat which he re-moved and hung up in the dressing room. In the pockets of the coat were a scarf which keeps or did keep the cold out of his neck while taking his girl home, a couple of handkerchiefs and a pair of glaves. Butler estimates the whole to be worth at least \$23. When he looked for his coat at the conclusio of the dance he was surprised to find it gone. He reported his loss to the management but of course they could only "feel sorry" for him. He gave a description of the coat to the police and they are also searching for it.

FIRST DECISION.

what he thinks of the commission's ac

and leaves that for the detectives to not stroke of work was done the challenge was received in New York. The designs, of course, had been previously drawn up, but the builders only received the order for the yacht' construction the day the New York Yacht club was notified of my intentio to try again. Any other course would een an attempt to take fair advantage. I am not in the habit of doing that." Messrs. Fife and Watson are both likely to go to New York with the challenger.

A. J. Drexel's steam yacht Margheri ta, which was recently docked and re painted at Southampton, has been chartered by Mr. Schwab and he is likely to cruise in her in the Mediterranear for several months.

AFTERNOON SESSION.

At the afternoon session the crowd seeking admission was larger than in the morning. When Molineux took his place again the witness chair, Mr. Os-borne asked if he had read the Cornish and Barnet letters. Molineux said he was not sure that he had read them or seen the photographs of them before last Friday. He had consulted with Mr. Weeks about them and he had discussed with Mr. Weeks the question as to who could have a feeling against 'ornish and Barnet,

"Did you not suggest Harpster as being such a man?" "I think Hapster's name was men-

'Did you send for Mr. Heiles to talk

"I did. I thought he might be able to enlighten us as to any enmittes there might be in the club. I also wanted him to convince Mr. Weeks that

had no enemies in the club." Molineux said that if he had been able to think of anyone with a common hestility to Cornish and Barnet he would have notified the district attorney at once. The last time he saw Mamie Melando was in January, 1899.

He knew Robert A. Zellar and saw him last in the Toombs in August, 1899. "Did you hear Mamie Melando testify at the last trial?" asked Mr. Osborne. An objection to this question was sustained, as was a second objection when Mr. Osborne tried to get in a question regarding the statement made by Miss Melando that Molineux had interlaced crescent paper in his desk.

TESTIMONY NOT ADMISSIBLE.

"I have ruled that the testimony referred to is not admissible here," the court said, "and I do not intend that it shall be admitted if I can help it." The defendant denied that he told

Zellar to send Mamie Melando to Mr. Weeks' office and said he did not know that she had been called there. Mr. Osborne succeeded in getting all

of Mamle Melando's evidence at the last trial before the last jury. He asked: "Did you ever hear Mamie Melando say outside of the testimony she gave at the last trial, that she found six sheets of that blue crescent crested hance in your desk?" ritain patent medicine and enclosing cents in payment. This letter was ritten on the blue interlaced crescent

paper in your desk? Molineux replied "No."

Mr. Osborne incorporated in all other questions all the statements made by Miss Melando at the former trial. do, I wrote it." Molineux replied. "It is signed with my name." "Tell the jury who wrote that letter."
