THE SAME OF THE PARTY OF THE PA MINING, BUSINESS AND STOCKS.

CON. MERCUR WAS WEAKER

Opening Sale Made on the Exchange at \$3.05,

TESORA WAS VERY STRONG.

Martha Washington Sags Again - Ajax Was Firm-Yankee Con. Weak-West Morning Glory Softer.

The extremely wet weather seems to have had a depressing effect on the Mining Exchange business today. The trading was confined almost entirely to medium and low priced stocks. The sales amounted to 42,900 shares but the selling value was only \$9,425,62. Con. Mercur was very weak from some unexplained cause. Sales were made as low as \$3.05 at the outset though a stiffening up to \$3.08 was recorded on the closing sale. Ajax opened at \$1.30 and closed at \$1.324. Lower Mammoth dropped 100 at \$4.37, while May Day was a little firmer at 83. Star Con. weakened to 56%. Tesora displayed much strength because of the new strike. The first sale was made at \$2 but as the earring became general among the

brokers, the stock moved up to 87% with an offer of 89 being made at the close. Martha Washington again depressed those who bought in at 45 by sagging from 20 to 17, though it reacted to 18% on the closing sale. West Morning Glory sold down to 3½. Manhattan let go 4,000 at 1½ while Ben Butler was traded in at 10. South Swansea was practically unchanged at 66, while Sac-South Swansea was ramento participated at 40. Dalton & Lark found a market for 500 shares at

Rheumatism is conceded to have its origin in a poisoned condition of the blood and to be most successfully treated by HERBINE, which acts upon the liver, kidneys and other blood purifying organs, thereby divesting the system of the offending agents. Price, 50 cents, Z. C. M. I.

OIL! OIL!! OIL!!!

The Piedmont Oil Co, owns 160 acres adjoining the original wells near Pled-mont, Wyoming, and have placed a limited number of shares of the 200,000 treasury stock on the market at 5 cents per share. Now is the time to buy in on the ground floor. Call upon or ad-dress the Ives Real Estate Co., Ogden. Utah, for further particulars. Maps, views and samples of oil on exhibition at their office.

"THE CREAT SALT LAKE PRESENT AND PAST."

By James E. Talmage, PH. D. F. R. S. E., F. G. S., professor of geology, University of Utah, a book of 116 pages, beautifully illustrated. The first complete and authentic work on the re-nowned saline sea. Price 25 cents, postage prepaid. For sale by the Des-eret News and all news dealers. Autobiography of Capt. James S. Brown, 520 pages, bound in cloth. Price \$2.00; for sale at the Deseret News.

Special terms to agents.

BIG STRIKE IN TESORA OF TINTIC

Main Ore Chute Encountered Yesterday on 375 Level.

THE ORE IS HIGH GRADE.

Option Secured on Jesse Knight's Properties by David Evans-Anent Grand Central Option.

The main ore chute of the Tesora has been encountered on the 375 level. Such was the substance of a letter received today at the office of the Bingham Copper & Gold company from Superintendent Creighton. The strike was made yesterday and Supt. Creighton considers it the most important made in the district for a number of months. Manager McVickie was very much pleased when the news reached him this morning.

The Tesora has been opening up very nicely of late, but the present strike proves the continuity of the ore proves the continuity of the ore bodies and means much for the mine. The ore is said to be fine looking stuff, closely resembling the 25 per cent ore found on the upper levels. It was not known until recently that in drifting northeast from the shaft on the 375 level the management had not reached the main ledge. The northeast drift was started some time ago but after going about 30 feet from the shaft the water flow was found to be so heavy that the management decided to run into the footwall and through the country rock; tapping the vein about 100 feet farther ahead. This work was done and what was thought to be the main ledge was encountered some time ago. A little drifting convinced the superintendent that a side issure had been encountered. Some more crosscutting was done to the more crosscutting was done to the west and the ledge was apparently encountered. After doing considerable drifting, surveys were made and it was again decided that the main ledge had not been reached. Yesterday's disclosure proved this to be correct, for after crosscutting another 15 feet.

BONDED TO DAVID EVANS.

for, after crosscutting another 15 feet

Supt. Creighton encountered the big chute from the 325 level. With this

splendid showing on the 375 and the

new mill nearing completion, it will not

be surprising if Tesora stock is quoted

at \$1.25 a share before many weeks. The outlook is certainly very encour-

Jesse Knight Gives an Option on All His Holdings at Knightsville. Jesse Knight of Provo has given an

option on all his holdings at Knights-ville. This was learned today from a Tintle arrival who heard Mr. Knight make the statement to the people Knightsville last Sunday. The opti Knightsville last Sunday. The option has been given in favor of David Evans of this city. When seen today Mr. Evans said he did not care to discuss the matter, though it was implied that the information was correct. The deal includes the Uncle Sam, the portion of the Humbug and Humbug No. 2 not sold to the Franklin Syndicate, with the Cyrus Oliver, Salvador, Denver and Inez claims. The deal also takes in the Richmond-Anaconda, which is just now opening up to nicely. The exact price is not stated, but it is said on very good authority, to be close to \$400,000. The date of the expiration of the option was not learned, but a prominent mining man who to know all the particulars, says that there is a strong probability of the whole group passing to wealthy eastern capitalists in the near future.

GRAND CENTRAL OPTION.

Said to Depend on the Developments

in the King William. It was learned today that the fate of the Grand Central deal depends not on Mr. Duncan McVichle's report, but on the developments in the mine during the next four weeks. In a conversa-tion with a "News" reporter today W. S. McCornick said that development work is being vigorously prosecuted in the King William claim under Mr. Mc-Vichte's direction. If the work dis-closes the body of ore expected the option will be taken up, but unless something more important is developed than has thus far been exposed it is extremely unlikely that the deal will go through. From other sources it is learned that the work in the King William has not thus far disclosed the riches expected. An important change is expected, however, between now and June 1st.

A SERIOUS SITUATION.

Several Thousand Men Thrown Out of Work in Butte.

Helena, Mont., May 3.—The East Helena smelter has been closed for an indefinite period. All hope of com-promise has been abandoned. Directly and indirectly 2,000 men are affected.

The coal mines of the Northern Pacific at Red Lodge, employing 500 men, and those of Senator Clark at Bridger with a force of 500 men, closed down last night because of strike agitation by outsiders.

SHIPS HIGH GRADE MATTE.

The Initial Shipment Made by the

Bingham Company Today. The initial lot of high grade copper matter from the Bingham company's smelter was sampled yesterday at the Taylor-Brunton sampler on its way to the Highland Boy smelter, where it will be reduced to bullion in the comwhere it pany's convertors. At the outset the Bingham company turned out a 15 per cent copper matte which it sold to the American Smelting company for a few weeks. It was found that it could be more profitably handled at the High-land Boy smelter providing the matte was made in a more concentrated form.

This is now being done and the matte going forward new carries from 31 to 33 per cent copper besides excellent gold values. The total value of the matte runs from \$125 to \$140 per ton. Superintendent Nutting says there is about 1,000 or 1,200 tons of this matte now on hand which is valued at \$125,000

Examining Mines Near Kanosh. Special Correspondence. Kanosh, Utah, May 1.—Four Boston gentlemen, interested in the mining prospects just east of Kanosh, were here a few days since. They could not make as thorough an examination of the country as they desired owing to the depth of snow, But they appeared to be well satisfied with the prospect of developing a good mine there in the near future. Among the visitors were Judge Millar, and Doctor Hughes, Their

claims are in the vicinity of what appear to be some old Spanish mine work-

Oil Field Extends into Utah.

The Denver Times says the oil field discovered in the western part of Rio Blanco Co., Col., extends over in-to Utah, and bids fair to creat as great excitement in that section as the Beau-mont fields of Texas: A large number of oil springs have been found in the vicinity of Rangely, from one of which two barrels of lubricating oil was skimmed in one day and oil men from California and Pennsylvania are coming into the country in large numbers. In the vicinity of Rangely and in Stinking Water basin more than 100 quarter sections of land have been located and new locations are being made daily. The nearest station to the oil fields is Riffe, on the Denver & Rio Grande rail-road, about 60 miles southeast from

Star Con. Assays.

Two cars of ore were marketed today from the Star Con, of Tintic. The controls showed the presence of 36.2 per cent lead, 10.2 ounces silver and .04 ounces gold per ton. Two more cars of ore reached town from the mine to-

MINING NOTES.

The Mammoth of Tintic had two cars of ore on the market today. The Yankee Con. of Tintic reached the market today with a car of ore. Two cars of ore were on the market today from the Grand Central of Tintic. The slump in Yankee Con, and Martha Washington has been dis-astrous to a number of people. The contract for grading a road to the Louise S. at Bingham has been let

to the Bingham Coal & Lumber com-Simon Guggenheim of the American smeiter trust announces that more attention will be given to the treatment of low grade ores than has been done

A dividend of \$1,000 has been declared by the South Godiva on money derived from the use of some of its surface as a dumping ground by the Yankee Con

Halcyon Prospect of Indefinite Prices Vanishes.

GREAT PRESSURE TO SELL.

Stocks Went Tumbling-Those Highest Went Lowest-There Were Some Rallies Near Close.

New York, May 3 .- The effect of

drawing in credits on an over extended speculation was shown by a slump in the stock market this afternoon. In the effort to liquidate prices broke violently throughout the list with largest effect naturally in those stocks in which the mad rush to buy had centered for the last few days. As the last candidate for this kind of favor. Atchison led the van. During this morning there was a halcyon prospect of indefinite prices in this stock and hordes of speculators were using all the money they could borrow to buy the stock on a margin. The way in which Atchison and other stocks mounted skyward relieved the apprehension remaining from the rather reactionary tendency of yesterday's market, and confidence came back to the speculators that the flurry was over and it was time to renew the tactics of buy, buy, buy. In consequence such new prices were made this morning as 90% for Atchison, 182% for St. Paul, 114% for Baltimore & Ohio, 115 for Missouri Pacific, the same for Northern Pacific, 186% for Rock Island, and so on

for other active and prominent stocks. Then began calling of loans and those who had been borrowing all the dollars of credit they could command to buy stocks on a margain began to grow exceedingly uneasy. As prices melted away, their nervousness grew to alarm and they began to order stocks sold in a hurry. The new demand had relaxed, as the reaction began to give promise that buyers might get much lower prices. The professional bears lent po-tential aid to the downward movement On the floor of the exchange there was great excitement and brokers, feeling nervous with the long strain of the great bull movement, found them-selves in the midst of a new form of excitement. Any willing to buy stocks were almost torn to pieces, where a few hours before all the pressure was on the

As for the outside speculators there were not enough messengers available and the telephone service was inadequate for a time to get their selling or

ders to the exchange.

The proportions of the slump are in-The proportions of the slump are indicated by the following principal declines: Atchison, 9%; St. Paul. 9%; Rock Island. 8%; Northern Pacific, 8; B. & O., 7%; Union Pacific, 7%; Missouri preferred, 5%; New York Central, 6; Illinois Central, 5; Wabash preferred, 5%; Sugar, 4; Atchison preferred, 4; Kansas & Texas preferred, 4%, and practically all other stocks between 1 and 4 points.

A rebound which followed was most equally violent. The bears had been so long without any opportunity profits in the recent market that their eagerness to cover and take quick profits at the declines caused some frantic buying. The rally reached 4% in Union Pacific, 4½ in Atchison and St. Paul, 4 in B. & O. and Northern Pacific, 3% in Rock Island, 314 in Missouri Pacific, 3 in Manhatta nand from 1 to 3 points in many other stocks. The excitement abated considerably after the rally, but prices wavered in an uncertain manner, declining in some cases again to within a fraction of the low-The tone continued very feverish until the close.

Today's dealings on the exchange were second in magnitude only to Tuesday last, when more than 3,314,000 shares changed hands, Today's sales were 2,936,000 shares.

PANIC IN CORN MARKET.

5.65; granulated, 5.55.

Price Fluctuations Were the Most; Violent in

Many Yesar. In a Few Minutes Went from 55 to

58 Cents - Phillips Shows Shorts No Mercy.

Chicago, May 3 .- A panic, the first real one since Phillips cornered the market, occurred among shorts in May corn on the Board of Trade today Price fluctuations were the most violent in years. Having seen their losses grow heavier and heavier with each succeeding day for some time, traders who had guaranteed to deliver May corn to Phillips made frantic efforts to get it. The price went from 55 to 58 cents, 41/2 cents higher than yesterday's close, in a few minuts after the ses-sion began. Shorts surrounded the bull leader, and almost begged for corn. He was repeatedly called from the pit by men who wanted to settle privately, but he told them they had disregarded his offer to sell to them at 48c., and now they would have to bid in the open market to him. When reminded that he himself and the "open market" were synonymous, Phillips let out 600,000 bushels at prices ranging between 57 and 58 cents. He said it was only a drop in the bucket compared with the quantity still held by him, but it netted him a profit of about \$100,000 or approximately 17 cents per bushel. This action created intense excitement. It was thought for a moment that chief was about to unload and the market broke to 53 without a check. The drop disposed of a number of scalping longs who had been clinging to Phillips' speculative coattail. Under 57 cents, however, Phillips sold nothing. In consequence prices reacted sharply to 561/2, when traders realized that the end of the corner was by no means at hand.

LONDON WOOL MARKET.

London, May 2,-At the wool auction sales today a superior selection con-sisting of 14,907 bales was offered. A good demand prevailed and competition was spirited. The bulk of the offerings sold at full rates. Several good easy parcels were taken for America. Crossbreds were in large supply and firm, the home trade being the chief buyer, Continental bidders increased their buying again today. Prices declined \(\frac{1}{4}\tilde{6}\) \(\frac{1}{2}\tilde{0}\) and several lots were with-

TEACHERS.

Dr. Talmage's new book, "The Great Salt Lake, Present and Past," should be in the hands of every educator. The amount of information it contains reamount to the great saline sea, makes it lating to the great saline sea, makes it an invaluable work for reference as study.
