TRUTH AND LIBERTY.

10 PAGES-LAST EDITION.

WEDNESDAY, JULY 25, 1906. SALT LAKE CITY, UTAH.

FIFTY-SIXTH YEAR.

Russia Alone is Bolstering up Her Bonds on the Berlin and Paris Bourses.

STILL SUPPRESSING PAPERS.

Up to Present no Indications of A General Uprising of The Peasantry.

Const Heyden, Prince Looff and M. Stakovich Issue Address Appealing To People to Submit Quietly.

Pt Petersburg, July 25 .- No word of the military disorders is now permitted to be published.

Discussing the financial situation, the Rech today says that the quotations of Russian securities here and abroad are not a true barometer. The paper says that a financial crash is impending, as the government is resorting to Count Witte's system, by which millions are used in Berlin and Paris as well as in St. Petersburg to bolster up Russian bonds. This is the only indirect reference made by the press to the parliamentary appeal to the country to cut off the government's supplies by refaming to pay taxes.

In the provinces the suppression of newspapers and the arrest of agitators continues unabated. Up to the present time there is no evidence of the general uprising of the peasantry, but news travels slowly in the country. The only sudden growth of disorder among the reasants thus far reported is at Kos-troms, 200 miles northeast of Moscow. A recrudescence of the revolution is also reported in the Baltic provinces near Domitrovsk.

In Orel province the peasants on the crown estates are reported to be in ruption

The refusal of the authorities to send troops to save the estate of Baron Fredericks, aide de camp to the em-Predericks, aide de camp to the em-peror, 40 miles from the capital, which was plundered by peasants yesterday seems to indicate that until the danger is passed it is the intention of the war office to keep the troops concentrated in the cities and protect the lines of com-munication between here and Moscow and St. Petersburg and the frontier, so that in the event of serious troubles in the serve becoming auparent troops can the army becoming apparent troops can retire on St. Petersburg, where the last stand will be made.

Count Heyden, Prince Lvoff and M. Stakovich, the three members of parlia-ment who refused to sign the parlia-mentary address to the country, issued at Viborg July 23, today issued a sep-nrate address, appealing to the people to quietly submit to the imperial decree dissolving parliament and to pre-pare for the elections of members to the new parliament. The address points out that the emperor acted within his constitutional rights under the fundamental law and says that the signers of the address in offering this advice act from the profound conviction that would be a crime in the midst of present dangers to attempt to shake power of the sovereign. After firmly setting forth the views of the signers of the address regarding the tolution of the agrarian and other ques. tions and their dissent from the gov-emment program which made co-operation between parliament and the minstry impossible, the address says the emperor only exercised his legal preregative in submitting the issue again to the people to decide whether the iews of parliament actually coincided with the sentiment of the nation. then appeals to the people to prove by their calmness that they are fitted for self-government, at the same time to show the monarch by representatives whom "they consciously elect," what they desire, and adjures them not to attempt to use force, which would be criminal madness, as it surely would provoke severe measures. The government," the address adds, 'is compelled to maintain the integ-rity of the state and the safety of the Resistance with ltizens at any price. force not only means an enormous number of fruitless sacrifices, but will also bring Holy Russia to final economto and political ruin."

turned into what he thought was his doorway on Fifty-fifth place. He pro-duced his key and thrust it into the keyaddeed his key and thrust it into the key-hole of flat No. 1. Inside the flat Mr, and Mrs. Norton, who belong there, were preparing for bed. Mrs. Norton heard the scraping of the key in the lock. Not long ago burglars entered the locuse and Mr. Norton frightened them away by shooting through the Goor. Mrs. Nor-ton jumped to the conclusion that an-other attemnt was being made to rob other attempt was being made to rob the house and called her husband's at-

tention to the scraping sound. Mr. Norton found his revolver and went to the door. The board of trade man inserted his own key in the lock from the inside and quickly pulled the door partly open, sticking his revolver in the face

and quickly pulled the door partly open sticking his revolver in the face of Mr. Wolfstein, "Don't fry to run or Fill shoot," commanded Mr. Norton, Mr. Wolfstein's mind began to work actively and presumed that he himself was being held up by a burglar who was robbing his house. He started to run. Mr. Norton fired and a bullet en-tered Wolfstein's left side, inflicting a deep fiesh wound. When Mr. Norton bent over the prost ate figure of the ticket broker he became apprised of his mistake. his mistake. He was not arrested.

LAND SINKS.

Thirty-Seven Acres Disappear at Long Lake, Wisconsin.

Chicago, July 25 .- A dispatch to the Tribune from Sheboygan, Wis., says Thirty-seven acres of cultivated land on the border of Long lake in Fond du Lac county, sank yesterday, and are now covered with deep water. The The sinkage is supposed to be due to a slight carthquake shock. Farmers in the neighborhood are alarmed and afraid to go near to investigate.

"BLACK HAND" LETTERS.

St. Louis Police Arrest Man Believed

To Have Written Many.

St. Louis, July 25.—A little memoran-dum book containing the names of many prominent and wealthy St. Louis citizens was found by the police in the pocket of Louis Suhrheinrich allas "Johann Hoppe," who was arrested last night following an attempt to extort a training of \$200 from Max. Thereas payment of \$500 from Mrs. Theresa Bernero, a wealthy Italian widow, un-der the threat by letter of death, and signed "black hund." Mrs. Bernero re-ceived the threatening letter yesterday and turned it over to the police. It closely resembles the letters received by David R. Francis demanding \$5,000 under threat of death. The police have begun a rigid investigation to ascertain if Suhrhelnrich is one of an organized band to extort money.

DISCONTENT AT TEHERAN ASSUMES SERIOUS PHASE.

Teheran, Persia, July 25.-Political discontent here is again assuming a serious phase. People are loudly de-manding the dismissal of the grand manding the dismissal of the grand vizier, the return of the mullahs and a codification of the laws. The mullahs who recently left the great mosque are now assembled at Kum, a great shiah place of pilgrim-age. There are now over 5,000 refu-gees under the protection of the Brit-the hereiton here.

CLOUDBURST DESTROYS CHURCH

Chambery, France, July 25 - A cloudburst accompanied by lightning, today destroyed the church of Les Chavan-nes, about 35 miles from here. The lightning melted the church bells into solid mass. A number of persons were injured

The storm caused an enormous amount of damage along the Franco-Italian border. Rallway traffic by way of Mont Cenis is interrupted.

FIRE IN KIRKLIN, IND.

Kirklin, Ind., July 25 .- Fire early today almost entirely destroyed the bus-iness section of this town. After 20 buildings and 15 business houses had been burned several frame buildings lu the path of the fiames were blown up to end the destruction by fire. Loss, \$75,000.

THREE PEOPLE SHOT

By Jealous Italian Who Was Trying

To Kill His Sweetheart. New York, July 25.—Prompted by lealous rage, Salvatore Deve, 25 years la fired four shots at Theresa Lodito in vest One Hundredth street today. Miss Lodito escaped uninjured, hree pedestrians were struck by flying bullets, two of them being seriously ounded. The wounded are:

Abraham Neffsky, 21 years old, shot the left side.

Cologero Farace, 40, shot in the right

Elizabeth Deegan, 23, shot in the left

The shooting occurred on the side-rusy was the motive for the attack

CASTELLANE DIVORCE.

Hearing of Case Fixed Definitely for Oct. 17 or 24.

Paris, July 25.—The court has defi-itely decided that the hearing of the ult of Countess Anna de Castellane gainst her husband, Count Boni, for ivorce shall be heard Oct. 17 or Oct. f the parties are not ready on the date mentioned. The hearing of the suits of the count's creditors in which they are seeking to hold the countess liable for the obligations in-curred by the count, fixed the same days.

RIVAL COMPANY TEARS UP TRACK IN CLEVELAND.

Cleveland, July 25 .- The Municipal Traction company, recently organized to construct and operate a number of street car lines in this city on a three ent fare basis, began a war on the Cleveland Electric Railway company oday by suddenly putting a force of 00 men at work tearing up the tracks of the latter company in Fulton street. Mayor Johnson, who is credited with being interested in the railway, was personally on the ground as was also Kohle and a large of officers. Within a short time more than a quarter of a mile of track had been torn up. Officials of the Cleveland Electric Railway company said they would apply for an injunction at once.

Train Crew in Manager's Office This Afternoon to Answer for Yesterday's Accident.

FIXING THE RESPONSIBILITY.

Has Only Been Determined That The Outgoing Train Crew Was In no Wise to Blame.

Injured Not so Seriously Hurt as at First Supposed-Louisiana Doctor Improving.

The exact cause of the head-on collision on the Saltair railroad at Ewing's siding yesterday afternoon is still undetermined. The officials of the company were too busy yesterday afternoon and evening clearing the tracks and restoring traffic, as well as in handling the immense crowd with a crippled schedule, to investigate fully into the responsibility for the wreck.

This afternoon, however, Manager J E. Langford has summoned to the company's office Engineer William Bult, Conductor Jos. Cahoon, and all other members of the crew on the incoming train, which failed to take the

switch, and approached it at apparent-ly a high rate of speed, as the air brakes refused to work. The outgoing train, it has been well established, was not responsible in any way for the collision, us it had arrived at the siding and was standing still waiting for the incoming train to take the switch. It had the right of way on the main line. as ordinarily the incoming train ar-rives at the switch first and is on the siding when the outgoing train reaches the siding, for which it usually does not stop.

A "LUCKY" ACCIDENT.

That more people were no tinjuea was a subject for general discussion today, and congratulations were expressed on all sides that the accident resulted so luckily for the pleasure seeking throngs, many more of whom might easily have been injured in a collision of the kind that occurred. Of the four who were hurt, all are resting well today, and none of the injuries will prove fatal. Dr. J. V. Bonnette or Pollock, La., a visitor in Salt Lake, was the most seriously hurt, and R was found on a close medical examination, at the L. D. 8, hospital that no bones were broken. He is badly bruised, and is remaining in bed today, but he will soon be able to leave the hospital. He spent a good night. Mrs. H. A. Reever while Reeves is at his work with a patch skin missing from his forehead, where he was cut. Miss Edith Reeves, whose hand was caught between two seats, carries her hand in a bandage, but otherwise is not suffering from her experfences.

TONE OF PARIS BOURSE.

Paris, July 25 .- The tone of the bourse today was much improved, Russians steadily advancing, though considerable mount of the purchases are understood to be the result of an agreement of the principal holders to sustain the market by active buying. The prevailing view is that he dangers of a serious outbreak in Russia have been averted.

BOURSE IS STRONGER.

St. Petersburg, July 25 .- The indecision of the proletariat organizations in regard to the proposed general strike, and the superficial success of the government's coup d'etat, produced a more confident feeling on the Bourse today. All issues rose with govern-ment securities improving one to three points; imperial is closing at 69% and 58 at 82. The improvement was aided the government, whose bankers were active in pushing up prices.

COL. SALAMATOFF MURDERED.

Warsaw, July 25 .- Col. Salamatoff, of the gendarmeric, was stabbed to death here today. The assassin escaped. Salamatoff, who was assistant to the hief of gendarmes of the province of Warsaw, had been active in the repressive measures. He was walking on Mokotowska street at about noon, when he was attacked by two men who stabbed him several times and then, as colonel sank down dying, walked quickly away in different directions. sithout the spectators trying to stop them.

MISTAKEN FOR BURGLAR.

Flat Occupant Shoots a Neighboring Occupant for a Titlef.

Chicago, Ili, July 25.-While mak-ing a mistake not uncommon to resi-tents of flat buildings, Joseph Wolfttein, was the victim of another ake inst night. He was mistaken for burglar and shot by E. D. Norton, a number of the board of trade. Mr. Volfstein was not fatally hurt but the manner of his shooting was curious, Mr. Norton and Mr. Woifstein havo fais in the same building in Fifty fifth Place and South Park avenue. The

DREADNAUGHT AND AMERICAN SHIPS COMPARED

Washington, July 25 .--- The publication of the "white book" in London giving some information concerning the main features of the large English battleship Dreadnaught has caused some discussion among naval officers, but the facts made public were already known by the officers of the navy who are interested in naval architecture. There is no great enthusiasm among many of the naval officers in regard to the con-struction of a ship which will equal Dreadnaught as a sea fighting the machine. It is pointed out that the United States now has under construction two ships, the Michigan and South Carolina, which are equal to the Dreadnaught in broadside battle. These two ships can fire eight 12-inch guns on either side, and that is all that can be. done by the Dreadnaught. The latter, however, could fire six 12-inch guns dead ahead, whereas the Michigan and South Carolina could fire but four. is pointed out, however, that very little fighting is done head on and that the effective fighting of a battleship her broadside. Another difference between the latest types of the Ameri-can and English bottleships is that in adside action all of the 12-inch guns

of the American ships can be utilized while two of the 12-inch guns of the English ships must be inactive. The advantage of the English ship is greater speed, but she has disadvantages in a larger target surface. Naval officers generally seem to think that there is

gan and South Carolina.

very little difference in the effective-

NOT OFFERED TO STICKNEY.

St. Paul, July 25 .-- With reference to the story that President Stickney, of the Chicago-Great Western railway, had been or would be offered a place on the interstate commence commission, Mr. Stickney said today "I have not been offered such a position.

A man who is very close to Mr. Stickney, when asked if he thought Mr. Stickney would accept a position on the commission if it was tendered to him, said:

"Of course Mr. Stickney alone can answer that definitely, but I do not think he would acept such an appoint-

MINING ENGINEERS.

London, July 25 .- A general meeting of the members of the American institute of mining engineers was held here today uder the presidency of Robert W. Hunt, of Chicago, president of the

American institute. Many members of the British iron and steel institute also attended. In his address Mr. Hunt surveyed the progress achieved by metallurgy in America. A. Ladd Colby of Ney York, read a paper on comparison of American and

hereafter, and entertains his friends by many droll speeches. With Mr. Cannon were Senator Boies Penrose of Pennsylvania, Representa tives James Sherman of Utica, chairman of the Republican congressional campaign committee, Loudenslager New Jersey, W. S. Cocks of Nassau county, and William M. Calder of Brooklyn, whose friends, George H. Greennea and Frank Arnold accompanied the party, which went early the evening in automobiles to Sea Gate. At the Atlantic Yacht club house they

were the guests of Mr. Calder at dinner, and then rode to Coney Island. Mr. Cannon and his companions first headed for the scene of a thrilling melodrama. Their guide started through a private gate with the visitors to get in ahead of a crowd at the ticket booth, but Mr. Cannon stopped him.

"No," he said, "I am one of the people. Let us take our turn with the rest," and he cheerfully walted till his turn came to pass through the gate. The deep volced youth who tells the tale of a train robbery before the curtain rises, interested Mr. Cannon by his rounded periods, and when he wound up with "The wages of sin is death," Mr. Cannon remarked on the death. truth of the words and settled back to see the bandits do their work. When the speaker and his party shot

ness of the Dreadnaught and the Michithe chutes, Mr. Cannon held on to his hat with a death-grip and once ashore exclaimed. "That loosened me up. No let's see

the whole thing." He had his picture taken and exacted from the photographer a promise to make one alive and then destroy the plate. Whirling down the mountain torrent of the Devil's gorge, Mr. Canthrew dignity aside, and catching hold of Mr. Penrose, who is a big man,

said: "You have got to be responsible for my safety this trip. You are big enough to keep this ship on even keel. and I am going to stick by you to the last

After visiting other places Mr. Can-non announced that he thought Coney Island the finest place for the masses to enjoy themselves he had ever seen and that he would make it his business to tell everybody he met during his campaigning trip this fail to go Coney Island. 10

MARTIAL LAW IN MOSCOW.

The Massing of Troops in That City Continnes, Moscow, July 25 .- The massing reops in this city continues. The radi-

ating railroad lines are carefully guardparatively quiet today. About 70 Jews have been arrested on suspicion of beed and the whole city is under martial-law. In addition to the regular troops guarding Nicholas station, the terminus of the line connecting Moscow and St. Petersburg, a machine gun detachment

is on duty there. EARTHQUAKE SUFFERERS.

Red Cross Officials Believe Belief

Funds Are Ample.

Washington, July 25 .- Through state department the American Red Cross has sent a dispatch to the Japat ese government asking that no fur-ther contributions be made by the Japanese to the San Francisco relief fund. This action was taken by the Red Cross officials because they believe all the funds necessary for the relief of California earthquake sufferers can be rais-

Mayor Johnson said the action was taken because the Cleveland Electric Rallway company refused or neglected to comply ith a council resolution requiring it to take up its tracks in ulton street and remove them to the east side of the street.

The mayor intimated that he would not obey an injunction if one was is-seed and said that as a result he might be in jati before night.

Suproquently the mayor stated that he tracks were being removed by city employes under the supervision of the board of public service and not by the Municipal Traction company, as had at first been generally believed.

Judge Ford, in common pleas court granted an injunction restraining the city and the Municipal Traction company from further interfering with the tracks of the Cleveland Electric Railway company in Fulton street. The Cleveland Electric Raliway company clared the action of the city in granting the right to tear up the tracks was a violation of its franchise rights.

The injunction was served upon Mayor Johnson personally, as he was overseeing the work of tearing up the tracks. He acknowledged the service and put the document in his pocket. but told the men to proceed with their work, and ignored the court's order. Quite a large amount of work remained to be done when the injunction was served.

HARRY THAW WILL POSITIVELY STAND TRIAL.

New York, July 25 .- Some of Harry Thaw's lawyers made it known yesterday that he would positively go to trial for killing Stanford White, and that there would be no proceedings in the criminal courts looking to an ex-amination into his mental condition. Furthermore it was said that the trial

would begin on Oc. 15. The prosecution has assured Thaw's lawyers that the district attorney will certainly not apply for a commission o examine Thaw, and that should an informal request be made by representatives of his mother for such netion it will not be acceded to. Thaw's present lawyers were hired to stave off insanity proceedings and to get a trial for their client.

From the fact that the firm retained Thew's mother is still working on the case and is gathering evidence show that Thaw is insane there has been a lot of speculation as to what move is to be made by them With the announcement yesterday that they would have no standing in criminal proceedings as counsel for Mrs. Wil-liam Thaw, there came a report that spplication would be made shortly to the oith courts for the appointment of a lunacy commission. It is even said that within a very short time applica-

tion will be made to the suprem court by the prisonor's mother, as tha

while Mrs. William Thaw would not be recognized in any criminal pro-ceedings, she would be recognized in civil proceedings of this kind and on such an application, backed up by af-fidavits of experts declaring Thay in-sane, a supreme court judge might or. der Thaw's trial before such a com-

mission. According to lawyers who have look. ed into the matter, the situation will be an entirely novel one, no such application ever having been made be-fore in the supreme court, in the case of a person who was facing trial on a criminal charge.

LONGWORTHS TO HEAR WAGNER. Hayreuth, July 28 .- Congressmen Nicholas Longworth and Mrs. Long. after automobile excursions to worth. Carlsbad, Franzanbad and Marlenbad, will return here for a four days' per-Gave, who will command the Mil-wankee when she is put into commis- lung."

AS TO THE SWITCH.

It has been the custom to depend on the crews of each train to operate this switch, rather than having a man stationed there. This accounts for the fact that the switch was not set for the in-coming train to take the siding. The train regularly should have stopped to lei a brakeman off to turn the switch before it took the siding, and then should have stopped again after return-

ing to the main track to pick up this switchman, whose duty would have been to return the switch to connect the main line. The conductor declares that he found the air working when the train start-

ed, and the possibility of the tube beming disconnected en route has been discussed. Another explanation offered is that youngsters riding on the platforms may have reached down and turned an air stop, and that the con-nection between the engine and the first car was jarred loose during the collision

WHY FEW WERE INJURED.

One reason for the small list of infured is that the incoming train was almost empty and carried a small num-ber of cars. Passengers in these cars declare that they felt a severe jolt before the principal shock. This must have come when Engineer Bult reversed his engine, after passing the siding switch, and just before whistling for Engineer Woolfgang to reverse his en-gine which was standing still on the main track. These passengers say there was no apparent evidence that the train slowed down to get under safe control at any distance back of the switch. It was late, and seemed to go ahead under full steam right up

o the switch. TRAIN CREW TO BLAME.

From the stories told by passengers and railroad men who saw the wreck, it and relificate men who saw the wreck, it is apparent that the responsibility, ap-parently, will be fixed on the errew of the incoming train. The engineer of this train states that his air brakes re-fused to work, but railroad men point out that a rule of railroading is that an engineer must bring his train under entitle the encoded of the second of the control when approaching a switch, a mile from the switch, and that had the engineer tested his air at this point ho would have still been able to stop his train, as it carried only six light cars, three open and three closed, and all of stop his them making a very light load, so far as jushing power is concerned. The brakes of the engine alone, or a revers-ed lever with sand would have brought the engine to a stop within a few hun dred yards, it is declared.

Some spectators state that an inspe tion of the train immediately after the accident, revealed the fact that the air was not coupled between the engine and the first car-
