GILLET'S DOUBLE EXTRACTS, The best in use, and for sale everywhere. d251 2m

IMPORTANT TO THE TRAVELING PUBLIC.—It is the duty of all persons about to start on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the last two years the road has been put in admirable condition, and almost the entire line has been relaid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers are always sure of making East connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Port Wayne & Chicago, Kankakee River and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City. A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stenpet, General Passenger Agent, Chicago. d454

PRICE OF GOLD.

Corrected daily by Deseret National Bank.
SALT LAKE CITY, October 5, 1875.
Buying at \$1.15; selling at \$1.17 1/2.

EVENING NEWS.
Tuesday, October 5, 1875.

Local and Other Matters.
THERMOMETER 73 degrees F in the shade at 1 p.m. today. Fine.

SEMI-ANNUAL CONFERENCE.
The Forty-Fifth Semi-Annual Conference of the Church of Jesus Christ of Latter Day Saints will convene in the New Tabernacle tomorrow, the 6th day of October, at 10 a.m.

People from distant parts of the Territory are flocking in for the purpose of attending the meetings, and everything seems to indicate that the gathering will be very large, and an exceedingly interesting and instructive time may be expected.

Out on Bonds—Dan Torvey and Henry Jenkins, charged with cattle stealing, are out on \$300 bonds each.

Will Close—The public will please remember that the Twelfth Ward Meat Market will be closed during Conference hours.

Theatre—The Theatre will be open to-morrow night. Programme—"Husband to Order," Vivian's entertainment, and "Solon Shingle."

Information Wanted—Mrs. Nancy Smith enquired regarding her brother, James Rices, supposed to be in this Territory. Her address is Martinsburg, Keokuk Co., Iowa.

Arrested Again—William Woolsey, cousin to "Dick," alias "Bill" Woolsey, was arrested last night, on a charge of stealing some stock, the owner of which has made affidavit against him.

Lots of Them—There are now sixteen prisoners in the jail of Salt Lake County, nearly all of whom are under commitment to await trial in the District Court.

A plan for a break among them was discovered in its incipency and nipped in the bud, the other night.

Z. C. M. I.—A meeting of the stockholders of Z. C. M. I. was held in the Old Tabernacle, at 2 o'clock this afternoon, when the following officers were elected:

Brigham Young, President; Theodore McKean, Vice-President; Wm. H. Hooper, H. S. Eldredge, H. B. Clawson, David Day, David O. Calder, Aurelius Miner and Christopher Layton, Directors; and Thomas G. Webber, Secretary.

Train Wrecked—The C.P. train, due here this morning at 8:40, Ogden time, did not reach this city till about three o'clock this afternoon. The cause of the detention of the passenger train is the wreck of a tea train some time during last night at Seco, about seven miles west of Keeton. The accident occurred through a broken rail. So far as we have learned, no person was injured, but the residence of those who knew prevents our giving all the facts at present. **Ogden Junction, Oct. 4.**

Big Turnip—Mel Bagley, of the Salinas City (Cal.) Index, makes affidavit, "that about two weeks ago he saw, growing on the Seaside ranch, about sixty-five miles below Monterey, a turnip which measured five feet two inches in circumference. Another grew by its side which was as large as a common tub. The land upon which this big vegetable grew is near the Hot Springs, and is warm and moist all the year round. So says the San Jose Mercury.

Can any of our Utah farmers beat this five feet turnip?

Home Made Hats—This morning our reporter visited the hat factory of the Eighth Ward Industrial Association, where he found Brother Sheldermine engaged in manufacturing good, substantial felt hats, for gentlemen's wear. Some of the specimens, some black and others drab, are of really good quality, of respectable appearance, and of such material as will endure better than the generality of imported hats. Brother S. has also been turning out some ladies' felt hats, which, when neatly trimmed, in which condition they can be seen at the store of Sister Rumell, look quite handsome.

An Escape—As the prisoners were being brought out of the city jail this morning, to go to work, one of them, named Joseph Reynolds, struck out on the full run, making splendid time, with one of the prison guard in pursuit. A stern chase is proverbially a long one, and so it was in this instance. The race was eastward, and when the pursuer, with the pursued still on ahead of him, reached Fuller's Hill, on the east bench, he was overtaken by jailer Hyde, in a buggy, who took him up and continued the chase, when the fugitive was soon overtaken, secured and conducted back to the jail.

Departure of the Presidential Party—At 4 o'clock yesterday afternoon President Grant and party left this city for Denver. On their way to the depot they called for a few minutes at the paternal residence of Hon. W. Jennings. A large crowd of people assembled at the depot at the hour named, and greeted his Excellency and companions with a hearty cheer. Delegate Cannon and other gentlemen of the City Council committee, private citizens, ladies and gentlemen, accompanied the party to Ogden.

Shortly after starting, the presidential party, including the President himself, left their own car and entered that occupied by

the municipal committee and their friends, and spent the time with them on the way to Ogden in pleasant and sociable conversation. The universal expression of the members of the party, the President included, was one of unalloyed pleasure with their visit to Salt Lake City, and the ladies especially regretted that their stay had been necessarily so short.

The good order that prevailed during the entire visit was a subject of remark.

The train went up to Ogden in one hour, and as the Presidential car parted from the Utah Central one the President and ladies accompanying stood on the rear platform of the one while the ladies and gentlemen from the city stood on the platform of the other and waved an adieu to each other with their handkerchiefs.

The escorting party soon after started on their way back to the city, by special train, and although Governor Emery had never as much as noticed the municipal authorities in his reception operations, himself and those accompanying him were invited to take seats in the car chartered by the municipal party, which they accepted, the time occupied in making the homeward trip being one hour and ten minutes.

The Irrepressible Tasker—It is now becoming somewhat of a serious conundrum as to whether there is a possibility of the law in its multifarious operations ever getting anything like a permanent clutch on that notorious character, Ben Tasker. On Saturday he was discharged from custody at Provo, there being any amount of "willing testimony" from "willing witnesses"—that's what Ben calls them, "willing witnesses"—such as "Dick" alias "Bill" Woolsey, Nels Simmons, who testified strongly for the defense.

Ben has told the officers that they could try their best, but that he would get clear every time.

James Lund was a prosecuting witness in the Provo case, but Ben treated him contemptuously, and in a speech, aimed at upon Lund as a fellow who could be hired to swear anything to get a fellow out of trouble. He had only had him a few times himself, and alluded to one instance, when he engaged him, when he was arraigned for drawing a pistol on Nathan Hansen.

After being discharged at Provo, Ben was arrested on the pious-stuffing affair previously mentioned in the News. He will have an examination before a Justice of this City, when it is probable there will be a few of Tasker's "willing witnesses" on hand.

Emigrants Arrived—The company of Saints in charge of Elder R. V. Morris, arrived in this City by the regular morning train today. The company had a prosperous journey all the way through, there being but little sickness and only one death, that of a young child.

The returned missionaries are in good health and spirits.

Big and Beautiful Apples—Bishop George Halliday was kind enough to bring into this office yesterday, from his orchard at Pleasant Grove, a quantity of magnificent specimens of apples, of the following varieties—Fall Pippin, Fall Belleflower, and Rhode Island Greening. They looked particularly handsome, when one recollected the grubby condition of the apple crop in this city.

Big Onions—Elder Arza E. Hinckley this morning presented us with two specimens of the White Spanish onion, grown by Thomas Board, on stiff silt clay, brown, bench land, well manured, at Coalville. The seed was sown very early in the season. The largest specimen, when pulled, weighed three and a half pounds, and measured twenty-three inches in circumference. The grower had many specimens of similar size. The smaller one weighed perhaps a pound less, and may be considered an average specimen.

Of the grain crop at Coalville about half wholly escaped frost, the other half being more or less frosted. The potato crop is very good, also the hay crop. There has been a fine but dry fall in that locality, and the grass is consequently rather short.

These onions are something like overgrown specimens of the human race—large but mild.

Our Country Contemporaries.
Beaver Enterprise, Sept. 30—

An eastern paper compares the outrageous speech of "that lawyer" in the Lee trial, to Samson's raid upon the Philistines. It might also have added that the destruction in both cases was caused by the same weapon—the jaw bone of an ass.

Utah County Times, Oct. 2—

Eugene Bacon, who was sentenced to three years imprisonment in the penitentiary about a year ago by the Second District Court, has been pardoned by Governor Emery. The jury who found him guilty and the citizens of Beaver petitioned the Governor for his release.

TO THE TRADE.
We desire to inform our customers that the trade in general that we are now receiving our new stock of Fall Clothing, comprising the latest styles and patterns of domestic and imported goods, manufactured by ourselves, which enables us to supply the trade at New York wholesale rates, or 15 per cent. lower than any goods of equal merit in this market.

THE FAMILY! The No. 6
Twenty-five years in successful use and still the popular Family Machine! The beauty of its work and wide range of application on all kinds of material, sewing with either cotton, silk or linen thread, and its never getting out of order, have made it the pride and joy of nearly every household.
It claims for simplicity of construction, ease of operation and management, quietness of movement and durability, are beyond controversy. Give it a trial, and you will buy no other. Thorough instructions given in its use.
NEW
production of our company. After experimenting for fifteen years to construct a machine upon the rotary hook principle, we offer to mechanics representing the above industries, this recent and improved invention, confident that it possesses qualities long sought for by them. The machine will speak for itself. An examination and trial are all that we ask.

ONE MILLION HOMES!
The attention of Shoemakers, Harness Makers, Glove and Trunk and Traveling-Bag Manufacturers, and others requiring a machine for leather work of any description, is respectfully called to this.

The No. 7.
This machine is especially designed to fill a want long felt by manufacturers of Clothing, and is constructed upon the same principle as the No. 6. It is capable of higher rate of speed than shuttle machines, is lighter running and can be regulated for work quicker than any machine heretofore used by.

TAILORS.
By a simple change of the presser foot it can be used for all kinds of Family Sewing or Dressmaking. Like the No. 6, it will speak its own language, and we solicit from the TAILORS of Salt Lake an examination of its merits.
