PROVO ATHLETES MEET THE VARSITY

12

First Dual Meet of the Season Occurring This Afternoon at Cummings Field.

MANY NEW MEN ARE ENTERED

Prospects Consequently Appear Good For the Development of New Stars For Big State Contest.

This afternoon at Cummings field the interest in the dual meet between the University and Provo is more marked than at preliminary dual meets of previous years, for the reason that both schools are looking auxiously at the field of dark horses.

Swapp is not entered, and the Univer sity is depending in many events of promising youngsters, when it hopes to shape up well for the Colorado conference meet.

The Provo hoys came in this morning over the Rio Grande, and rested until time for the meet, while a number of rooters who accompanied them, spread about over the city to enjoy themselves. The list of official entries is as follows:

TRACK EVENTS.

120-yard hurdle-U. of U., Parke and Hunt; B. Y. U., Murdock, Holdaway and Love.

899-yard run-U. of U., Pitt, Neilson and Breeden; B. Y. U., Stalling, Holdaway and Love.

and Love. 100-yard dash-U. of U., Moore. Parke end Whitney; E. Y. U., J. Christensen, Evans and Chamberlain. Mile run-U. of U., Scott, Robinson and Balley; B. Y. U., King, H. Christensen, and Powell, 400-yard dash-U. of U., Brown, Swapp and Judd.; B. Y. U., Stallings, Holdaway and Skousen.

and Judd.; B. Y. U., Stailings, Holdaway and Skousen. 229-yard dash-U. of U., Moore, Parke and F. Bennion; B. Y. U., Christensen, Evans and Hall 229-yard hurdle-U. of U., Brown, Neil-son and Huntsman; B. Y. U., Murdock and Rose. Mile relay-U, of U., Pitt, Swapp, Judd, Brown; B. Y. U., as yet undeelded, but will pick four men from the following: Holdaway, Stallings, Skousen, Allred, Chamberlain and Van Wagener.

FIELD EVENTS.

High jump-U. of U., Hedges, Swapp and Hunt; B. Y. U., Baird and Heoline. Shot put-U. of U., Bennion, Swapp and Brown; H. Y. U., H. Peterson and J. Pe-terson.

Brown; R. Y. U., H. Peterson and J. P. terson. Hammer throw-U. of U., E. Bennion, Russell and Swapp; B. Y. U., H. Peter-son and J. Peterson. Broad jump-U. of U., Hunt. Swapp and Russell; B. Y. U., Baird and Henline. Pole vault-U. of U., Russell, E. Ben-nion and Anderson; B. Y. U., H. Peter-son, Ashcraft and Watkins. The following officials have been se-lected: James Wade, eleck of the course. Timers, D. A. Callahan. Sidney Bam-berger, G. Hedges, Judges of the finish. Professor Ryidalch. Will Ray, Dr. Will Ellerbeck. Field judges, Kart Höpkins. Professor Hickman, Dr. Joe Anderson. Reforee, R. D. Burtner.

Professor Hickman, Dr. Joe Anderson. Referee, R. D. Burtner. Three places are to count in all the events but the hurdles and relay. In the former two places will count and in the latter only one.

COACH FOR HAMILTON.

Utica, N. Y., May 4.-The football de-partment of Hamilton college has secured the services of Morris Halliday, better known as Sam Halliday, to coach the football team next fall. Halliday played halfback on Cornell's varsity last fall. He will take charge of the squad Sept. 10

AMMER GRADE BALL.

Heart Like a Clock The pulsation of the heart

marks the passage of the blood through the veins, just as the ticking of a clock indicates the flight of moments of time. Palpitation, fluttering or irregular action reveals the fact that the heart is running downand unless strengthened, is liable to stop at any time under some weakening influence, such as excitement, over-work, or intense mental or physical strain. To regulate the heart action, you should take Dr. Miles' Heart Cure when any symptoms of a weak heart is apparent. It has no equal.

is apparent. It has no equal. "Sometime ago I had a very severe pain around my heart, and most of the time I had a heavy beating or throbbing of the heart. It would beat so that when I hay down at night it would sound like a small clock in bed with me. I could count the ticking. With every little exercise, or walking I felt like my heart would give out, and I would be no tired I would have to lie down and rest. I suffered quite a while in this way, then I concluded to try Dr. Miles' Heart Cure. I had not taken it long until i began to feel easier, and so continued, and the med-iche entirely cured mo. I am very grateful for the great god I received from Dr. Miles' Heart Cure." JOSEPH BROADHEAD. Findiay, Illinois.

BIKE GAME DYING.

Permiscuous Betting Has Killed the Sport in Australia and Europe.

Sport in Australia and Europe. Joe Folger of Brooklyn, N. Y., arrived in the city yesterday and will join the local bike riding squad. He reports rid-ing in the east as at a standstill. Recent passengers from Australia bring the same reports, and declare that the bet-ting habit so disgusted people generally with the bike riding game that it lost re-spectability and patronage. Therefore, it died, and released its star men to come back to Salt Lake. This city, is seems, is to be the center of the bike racing business this summer, somewhat by de-fault, the game having killed itself in all other quarters of the globe.

Score:

BIG FIRE A BOOST FOR AUTOMOBILE.

Pays a Thousand Dollars a Day For Machines to Carry Officers and Messages Through City Streets.

It is the business of the daily newspapers to tell of carthquakes while the buildings are still on the totter, and of fires while the bricks are still hot. The bricks of 'Frisco are now cool, and Thursday afternoon workmen were busy throwing ties down Market street and stringing big steel rails over them, that Southern Pacific engines might haut away, the debris in carloads.

In the situation on the coast, the news values are now in the new 'Frisco and not in the old, and they will deal with vooden sheds where wholesale stores are once again accumulating, of property values on Filimore street, where the new center of the city is located, and of the distribution of coin through big enter-prises, that will once again make possible a big and prosperous Pacific coast com-munity

distribution of com income big the prises that the prosperous racine coast com-munity. The other point of view is that of the saturday edition, or the weekly magazine, and here may be recorded what the 'r.s. co fire meant to the world, instead of to 'Frisco, and what heroes are to be cle-vated in the glorified hurs of the blood red conflagration. "From this viewpoint the magazine liter-ature of the fire, and the later book pub-lications will be written, and if in their final aggregate they do justice to the great crisis, they will throw out into bold relief the picture of Funston honk-ing his way along like a flash in a great automobile. The geese that cackled and saved Rome, when the invaders came near have life more claim to glory than has been sacredly theirs all these centuries, than has the automobile for its work in this great crisis. I venture the sugges-tion that San Francisco councils will deal gently with the machine next time they meet to talk it over. "For they saw it flying from danger point to danger point, carrying rapidly from wrecked buildings to buildings to be wrecked, the store of dynamite with its crew of experts, or hurrying over hot bricks with Red Cross flags affutter, to give it clear passage through the guards, and carrying relief where felief was most urgently needed. They saw the men who stilled the panic-their mayor, and their ex-mayor, who was his bitter enemy, side by should be at once, and with them they saw Funston, who had driven terror into the heart of every hooligan, and who saved the city from the great calamity of a drunken orgy, and a free play of the brutish passions that rise in soulless men, when their innermost natures are sudden-ly summoned to a personal command.

ALL OTHER MEANS FAILED.

ALL OTHER MEANS FAILED. These things were caught on the fly while they saw their trolley wires twisted and torn among their erumbled build-ings, and their street cars burned at rest in their last retreats, where the tracks ended on the waterfront, their horses give out for want of food, and from overwork, and the commanders of the city scattered beyond all hope of telephones and tele-graphic communications. It was a great day for the automobile and the machine "made good" in its opportunity to be classed among the vital elements in the asy for the automobie and the machine "made good" in its opportunity to be elassed among the vital elements in the control of the San Francisco situation. People here, I have heard, laughed a litle, when Mayor Schmitz sent an appeal to the country to send automobile parts, as urgent as his appeal for bread, but those on the grounds knew that in the

CONTÁGIOUS BLOOD POISON THE WORST DISEASE IN THE WORLD

Contagious Blood Poison is the worst disease in the world; not only those who contract it suffer, but the awful taint is often transmitted to innocent offspring whose lives are blighted and bodies diseased because the virus of Contagious Blood Poison has been allowed to remain in the family

virus of Contagious Blood Poison has been allowed to remain in the family blood. The first sign of this disease is usually a little pimple or blister, then a red rash breaks out, the mouth and throat ulcerate, the hair comes out, copper colored spots appear on the limbs, back and breast; and as the disease more thoroughly pollutes the blood, sores and ulcers form and if Sol Allen Ave., St. Le 's, Mo.

the trouble is not checked the finger nails drop off, and the soft bones of the nose and head are destroyed. S. S. S. goes down into the

blood and forces out every particle of the poison and makes a complete and lasting cure. As soon as the sy tem gets under the influence of the remedy the symptoms begin to pass away, and when the cure is complete PURELY VEGETABLE. the patient is left in perfect health. So thoroughly doer J. S. S. rid the system of the virus that no signs of the disease are ever seen in af or years, and posterity

is born with a rich, pure blood supply. Book with complete instructions for home treatment and any medical advice desired will e given without charge. THE SWIFT SPECIFIC CO., ATLANTA, CA.

the local representative of a prominent poolroom man. On the surface, the case involved is a simple one. A het of 35 was made some time ago at one of the local tracks by a client of the attorney and under the pro-visions of the racing law a losing wager can be recovered by civil action. This case has gradually worked its way up to the supreme court, and the attorney's rep-resentative sail yesterday that the men for whom subpoenas were issued would be called upon to testify as to the existence of gambling at the track, with the idea of securing a favorable decision in the higher, courts.

MEMBERSHIP CARDS.

Admission Fees to Fights in New York Take on a New Name.

Take on a New Name. New York, May 5.—Boxing bouts in New York are legal as held by the Twentieth Century Athletic chib Thursday, night, ac-cording to a decision yesterday by Magis-trate Pool. 'As a test the police arrested two local righters following the evening's bouts, in which the heavyweights. Marvin Hart of Louisville, Ky., and Mike Schreek of Chirage, were the leading attraction. The magistrate declared that as those who saw the fights were able to get in only after purchasing cards of member-ship in the club the law had not been vio-iated.

FIGHT A DRAW.

Spokane, Wash. May 4-Maurice Thompson of Butte and "Kid" Scaler of Spokane, fought 20 fast rounds, to a draw tonight, in the Spokane Athletic club asium. They weighed in at 131 gymn unds

Los Angeles, Cal., May 4.—The Pacific Athletic club anonunces that the Nelson-Hererra fight will take place in this city May 25. The men will fight for a \$20,00 purse. All forfeits have been posted, in-cluding \$5,000 by the club.

as ingent as his appear for bread, our those on the grounds knew that in the first critical days the autocars were more life-giving than even bread, and had as much to do as any other one element in making for the wonderful triumph of calmness and law and regulations, with which the funetal services of "dear old 'Frisco" were conducted.

RENTALS ARE BIG.

RENTALS ARE BIG. The government is now paying \$1,090 a day for rental of automobiles. The police chief uses them on his daily round of in-specting tottering buildings, while all the reads leading out of 'Frisco are thronged with them carrying people and their household goods to new locations. When the troops took possession of Market street their first military instructions were to impress all automobiles, and this was the first instance in America at least, where automobiles were impressed by the military, under the provisions of martial law. One autocar, still on duty, has a builet hole through the tonneau, where Major Tilden was shot dead by an ex-cited guard, who had ordered the car to stop.

Chicago Batteries-Liefleld, Karger, Peitz and Gibson, Brown and Kling, Two-base hits-Karger, Evers. Home runs-Kling and Snake River valley, from Sugar City. The valley is fifteen miles wide by thirty miles long, and is sur-

rounded by picturesque timber covered mountains, from which flow beautiful streams of clear water sufficent to irrigate the whole valley and still have a surplus to turn down to the people living in the lower country. The valley slopes to the center from either side, dipping slightly to the north, in the center of which flows the Teton River. There are nine prosperous little settlements in the valley, the center of which is Driggs. This is the center of attraction and is building up very fast.

of the State of Wyoming, lying 35 miles East of the

Business property has gone up 125 per cent within the last six months, but is still cheap. Timber is close and of easy access. In these mountains are found the Red pine, White pine, Bird Eye, Balsam and Mahogany, etc. It just takes a good day's work to get a good load of wood to your door, in most any part of this valley. Building material is very cheap here, rough lumber is worth \$12 per thousand feet at the mill. Finishing lumber ranges from \$15 to \$20 per thousand ft., though we are in need of carpenters to work it up. There are large quantities of splendid building stone and lime rock. The demand for lime indicates that there will be a large industry worked up in converting this lime stone into merchandisable lime.

But this is an agricultural district, which is attested by the 200,000 bushels of good grain raised in the valley in the year 1905. Fields yielded from 35 to 55 bu, per acre, and we are not intensive farmers, either. The imense stacks of alfalfa and timothy hay speaks for iteither. The imense stacks of alfal self both in quantity and quality.

In certain kinds of fruit we excel, such as currants, raspberries, gooseberries, strawberies, etc. Also, apples, cherries, pears and plums are an assured success. In flavor these varieties of fruit are not excelled by any.

The surface of this valley is covered by quite a variety of soil. In the center, running from north to south we find a gravely formation which is admirably adapted for a county road, but as you leave the main thoroughfare going east or west, the soil becomes freer from gravel until you find great bodies of it that are from three to ten feet in depth, without a stone, covered with sage brush or grassy zod. this strong land holds the moisture well and yields immense crops, Usually it is, I suppose, a sandy loam, though there are localities next the foot hills that possess a heavy black clay soil. Our swampy or pasture lands are a deep black sediment formation, covered with a heavy growth of meadow grass that makes a good quality of hay or pasturage. This country is the dairyman's paradise. Teton Valley creamery butter is much sought after, and facilities for producing splendid article are within the reach of all fanciers of the genbossy.

The altitude of this valley is 6,000 ft. above see level, and on account of the protection of the surrounding mountains, severe weather of either heat or cold is the exception and not the rule. Our summers are delightful, adverse winds are almost unknown, and when we are visited with frosts it does not spare the upper Snake River valley. Sleighing is always good in the depth of winter, though we notice the snowfall to be growing less from year to year as time goes on,

The question of water rights is a serious question with prospective settlers. As stated in the beginning we have ample water for this val-ley in the thirteen creeks that flow from that many canyons to the valley below. Some of these creeks are veritable rivers during the irriga-ting season, so swift and high that a horse cannot ford them. By By the latter end of this high water season all grain should be fully wa-tered. Most of our land needs but one watering to mature grain, and the second crop of lucern should be watering to before this high wa-ter fully subsides. Besides this a large portion of this valley sub-irrigates, so that in many places water is becoming more plentiful every year; and this seems to be the case where water was the least plentiful, so that crops never fail for the want of water.

That this valley will be a vast coal producing region some day and that not very far hence, is an assured fact. The local market is being supplied with a first class article. Bishop Potter of Sunnyside gave this coal a thorough cokeing test; he says that as a coke it cangot be surpassed at Sunnyside. This statement coming from a practical coal miner, means a great deal for this coal and this valley. just as soon as the railroad gets here these mines will begin to supply the Montana market with coke, as the distance saved in hauling coke from Utah and Wyoming will insure the speedy erection of a coking. from Utah and Wyonning will insure the speedy erection of a coking, plant. The O. S. L. Railroad company will construct a railroad into this valley just as soon as they can get men and materials together to build with. General Manager W. H. Bancroft assures us that the route will be determined just as soon as the surveyors can get into the field in the spring. Also the Chicago and Northwestern Railroad Co. are pushing their road from Landor west, and will push their line through this valley to the coast. Should this happen, values in real estate will increase 500 per cent.

in conclusion, I wish to say that we raise good wheat, rye, oats and barley, potatoes and all simit

In conclusion, I what all simi and barley, potatoes and all simi our climate is moderate, that we have the best dairying country in world, that our building material is handy and good; that our coal and limestone deposits are inexhaustable, that we have the best watered valley in the Bocky mountains; that our soil is up to the average of any in Idaho. We are right on the verge of a big boom and now is your chance to get a good home cheap. Hoping to hear from you again, we are yours.

Z. C. M. I. Saltair, Friday, May 11, Boston. May 4-Washington won its third straight game from Boston by bunching hits at the right time. Dineen was outpitched by Hughes.
