GENERAL.

NEW YORK, 17.—Yesterday was considered the hottest day of the season, seven deaths from excessive heat were reported.

Apprehensions of the approach of cholera are becoming less alarming, in view of the measures which are being taken for its prevention. The opinions of the leading physicians are being sought on the subject, but in the search made yesterday, but two out of ten leading doctors were found, the others being out of town. One of these said, "We rarely escape epidemic here when it prevails in England and France. The Brooklyn authorities say there is not the least danger of cholera or yellow fever reaching that city this year, and they have made no preparations for them, beyond keeping the streets clean."

The Staten Island ferry boat *Middletown*, commenced running yesterday. After the explosion of the *Westfield* the *Middletown* was laid up for repairs, but the people believe her still unsafe, and have made complaints against the company because they have allowed the boat to be replaced on the line.

TOPEKA, 17.—Next Thursday was fixed for the execution of Mrs. Scales and young Ford, for the murder of the former's husband. At a late hour last night a message was received from the Governor commuting the sentence to imprisonment for life, and the prisoners were removed to the penitentiary at once. There is much surprise at the action of the Governor, as the Judge and jury refused to sign petitions for the commutation, and the prisoners confessed the crime, which was of an aggravated character.

PORTLAND, Oregon.—The commission sent to the Umatilla reservation failed to induce the Indians to part with their lands and remove to another reservation. On a final declaration of the chiefs on Saturday evening that they would not relinquish their right to the Umatilla reservation, the council terminated. The Indians say the former treaties have not been carried out on the part of the whites, and the lands offered were too poor to raise corn and did not suit them.

FOREIGN.

LONDON, 14.—But few arrests were made at Londonderry.

The amnesty association of Dublin have taken action condemning, as unreliable, the explanation made by the Marquis of Harrington, Chief Secretary of Ireland, as to the cause of the prevention of the meeting on the 6th, in Phoenix Park, and have also resolved to bring criminal actions against the police for committing assaults upon the people who assembled upon that occasion.

Queen Victoria is indisposed. A dispatch from Rome reports that King Victor Emanuel had a narrow escape from death while hunting wild boar.

The French government, it is reported, has requested the extradition of the Communists who have taken refuge on British soil. The reply of the English Cabinet is said to be a refusal.

The U. S. steam frigate *Franklin* and the steam sloop *Plymouth* have left for New York.

The vine disease prevails in Portugal and the wine crop is expected to be short.

VERSAILLES, 14.—The defence of Gustave Courtyer, submitted to the court-martial, is to the effect that he joined the Commune for the purpose of endeavoring to effect a pacification between its members and the Versailles authorities, and that his personal exertions saved many objects of art from destruction during the siege.

LONDON, 15.—The Scott centenary was celebrated to-day by a banquet in the great hall of the Cannon Street hotel. Hepworth Dixon occupied the chair, as president, with the Duke of Manchester, Lord Lytton and Dr. Ramsay, vice-presidents. Some 400 persons, of all or nearly all distinguished in the world of letters, were present. The toasts were much the same as at the Edinburgh celebration on the 9th. The toasts were also celebrated at the crystal palace, Sydenham, and in the various towns in Scotland.

A case of Asiatic cholera has appeared in London and creates an extraordinary sensation among the people.

A dispatch from Berlin says cholera is increasing in Konigsburg, but there are no cases as yet in Dantzic.

Contributions for the repair and com-

pletion of St. Paul's cathedral are entirely satisfactory to the proprietors of the enterprise.

A heavy thunder storm, in the west of England, has caused much damage to the crops.

COPENHAGEN, 14.—Precautionary measures have been adopted and are to be enforced by government, to prevent the introduction of cholera into the country.

Bismarck, Von Beust, and probably Andrassy, with assistant councilors from the respective departments, are going to Gastien to be present at the meeting of the Emperors. Probably important negotiations will be entered upon, on the Roumanian question.

A dispatch from Strasbourg states that disturbances have occurred there between the Prussian troops and the inhabitants. There is much animosity towards the troops, and many attacks have been made on them without the opportunity for retaliation. A number of Prussian troops became involved in a quarrel with the inhabitants, and a fight ensued, during which numbers of both parties were killed and wounded.

It is stated on authority that serious disagreements have arisen between the French and German governments with reference to the Frankfurt peace negotiation. The present difficulties are likely to lead to further complications, which may result in a suspension of the treaty of peace negotiated between the governments at Frankfurt.

OTTAWA, 15.—It is now positively asserted that the Marquis of Lorne and the Princess Louise will take up their residence here for a lengthened period. The Governor-General's residence is being prepared for their reception.

In consequence of the Washington Treaty, considerable reduction is expected to be made in the militia force.

PARIS, 15.—To-day, being the anniversary of the Assumption of the Virgin, was observed as a holiday here and at Versailles.

Advices from Paris say the city is excited, and the situation threatening. Trouble is apprehended from various sources. To-day is the fete of Napoleon the first, and the air is full of rumors that the army will revolt against the Versailles Assembly, declare McMahon Regent and demand the Empire. The people are leaving Paris in a stampede, and some believe that the Orleans scheme is ripe for a coup d'etat, being pushed by the proposition to make Thiers permanent executive, which it is feared would establish a government not monarchical. Thiers has no friends; he is hated by Republicans, Royalists and Imperialists alike. A crisis is approaching.

FLORENCE, 16.—Garibaldi is very ill, and his son Ricciotti has been summoned to his bedside at Caprera.

In Konigsberg, Prussia, on the 14th inst., sixty-two persons were attacked by cholera and twenty-two died.

Henry Meiggs, the famous American engineer and contractor in Peru, is said to be about to import 600 Chinamen from San Francisco to labor on the public works in Peru. His son is at present in New York.

A gentleman having a pony that started and broke his wife's neck, a neighbor told him that he wanted to purchase it for his wife to ride upon. "No," says the other, "I will not sell the little fellow, because I intend to marry again."

Take of gum camphor a piece about one-third the size of an egg, and evaporate it by placing it in a tin vessel, holding it over a lamp or candle, taking care that it does not ignite. The smoke will soon fill the room, and expel the mosquitoes. One night I was terribly annoyed by them, when I thought of and tried the above, after which I never saw nor heard of them that night, and next morning there was not one to be found in the room, though the window had been left open all night.

Foolish spending is the father of poverty. Do not be ashamed of work. Work for the best salary or wages you can get, but work for half price rather than be idle. Be your own master, and do not let society and fashion swallow up your individuality. Do not eat up or wear out all you can earn. Compel the selfish body to spare something for profits saved. Be stingy to your own appetite, but merciful to others' necessities. Help others, and ask not help yourself. See that you are proud, but let your pride be of the right kind. Be too proud to give up without conquering every difficulty; too proud to wear a coat you cannot buy; too proud to be in company you cannot keep up with in expense; too proud to lie or steal or cheat; too proud to be stingy.
