MINING, BUSINESS AND STOCKS

OPEN BOARD CALL SAVES THE DAY

Brisk Business Sends Totals to Figures More Than Satisfying.

TINTICS ARE IN DEMAND.

Park City Offerings Suffer During Trading in Local Mining Stock Exchange This Morning.

The open board call saved the day this morning in the local mining stock exchange. It did more than this it made this foremon one of the best sessions seen for some time. The handsome total of 19,200 shares transferred with a selling valuation of \$27,475.75 was recorded. Of this the open board contributed 14,700 shares with a selling valuation of \$23,450.25. The Tintics were, as usual good sellers and yesterday afternoon's climb by Lower Mammoth was continued today. The strength of the stock is due to reported good showings in the nine. This stock opened this morning on the regular call at \$2,20 and closed on the open board at \$2,25. Sales involved from 100 to 2,400 shares each, one sale involving the big number being made at the commencement of the open board call. May Day was another Tintic in demand and sold at 30 ½. Evidently the consolidation of these two properties looks good to buyers. Uncle Sam is strong.

Daly Judge and Wabash were the

birons,
Daly Judge and Wabash were the two Park City stocks taking a hand in the game. The former dropped 20 points during the open board run. Wabash droped 3 points, The showing made by the open board this morning would be gratifying at any time of the year and coming during spring when things are usually quiet, is unusually pleasing. The forenoon sales, totals and closing quotations follow:

BALAKLALA COPPER

Makes Detailed Statement in Applying For Place on New York Exchange. In applying for the quotation of its tock in the unlisted department of the New York stock exchange, the Balakla-

New York stock exchange, the Balakla-la Copper company states that its to-tal authorized capital stock is \$6,000,-1000 divided into 600,000 shares of \$10 par-value, Of this amount \$4,444.770 has been fully issued, fully paid and is non-assessable. Fifty per cent has been paid on \$805,230 and when the full amount thereon is paid the same will be issued and will be non-assessable. The company was incorporated on Feb. 24. 1906, under the laws of Mains. The application states that no pool exists in the stock.

the stock.

The company owns the entire capital stock of the Balakiala Consolidated Copper company. The application further says: The property of that company is situated approximately 270 miles north of San Francisco Bay, in the Flat Creek mining district, Shasta county, Cal., and three (3) miles from Coram Station, on the Southern Pacific railroad. There are 72 mining claims aggregating 1,49.7 acres in the mineral zone, exclusive of the aerial tramway, smelter site and town of Coram. Titles to all this mining ground are vested in the Balakiala Consolidated Copper Co., by patents issued by the United States of America.

of America,
"The surface is well timbered with ex-cellent pine, and there is an abundant supply of water. Active development of the sulphide ore, began in the spring of the sulphide ore, began in the spring of 1902, shows that the country rock is meta-rhyolite, and that the ore bodies are quite flat, with a dip to the north, and are displaced by a series of stepdown faults, from the south to the north; the ore is a heavy iron sulphide carrying gold, silver and copper. The property covers 2,040 feet on the strike of the lode. Out of this distance 1,100 feet have been developed by various tunnels and drill holes. An ore body 900 feet long on the strike and varying in thickness from 20 to 60 feet has been developed. The actual total ore in sight on the said company's property is 2,200,000 tons, with a heavy additional estimate formage.

"Up to April 1, 1907, the average assay of this ore ran 2 7-10 per cent copper, with about 40 cents gold and one owner

with about 40 cents gold and one ounce silver.

The mine is well equipped with boarding house, bunk house, dwelling houses, office building, machine shop, blacksmith shop, power house, air compressors and with electric haulage system in the Weil Tunnel. The mine is being connected with the smelter by an aerial tramway now nearly completed, 16,130 feet in length, of a capacity of 75 tons per bour. A smelter of a capacity of 900 to 1,000 tons per day is being built at Coram, on the Southern Pacific railroad, and will be completed in August or September, 1907. This consists of three blast furnaces and one reverberatory. The company owns the town site of Coram. There has ben expended in entire ground, development and tunnel construction about \$500,000. The Balaklaia Consolidated Copper company has a mortgage indebtedness of \$1,500,000 first mortgage gold bonds, due by sevies from July 1, 1907, to July 1, 1910."

The transfer agents are the Windsor Trust Co., in New York, and the Federal trust Co., in Boston. The registrar in New York is the Trust Co. of America and in Boston the First National eral trust Co., in Boston. The registrar in New York is the Trust Co. of America and in Boston the First National bank. The officers of the company are Clarence K. McCornick, president; N. Adams Eghert, vice president and secretary, and T. M. T. Raborg, treasurer. The officers and directors and in addition Edgar L. Newhouse and George A. Bairl are members of the board. The principal office is at No. 281 St. John's street. Portland, Mc., with branch office at No. 25 Broad street, New York city.

BIG RUN MAINTAINED.

Ore Opening in Nevada Hills Faster Than Carried Away.

One hundred and sixty tons of ore went out from the Nevada Hills this week, the number of teams that passed through Red Rock canyon running as high as 11 in one day says the Fairview News.

And still the great pile of sacked highgrade is undiminished. There are seven erackerjack ore sorters constantly employed in the ore houses now, and as the addition to the ore house at

and as the addition to the ore house at tunnel No. 5 is completed, more gridinons and more sorters will be put on. The improved ore house will be twice as large as formerly. So large are the ore bodies now that one uniner in the stope and three in the drifts are gaining on the rest of the force employed in getting the preduct out of the way. Out of the 35 men employed there, only a dozen are working in the ore. A number of shoots that connect up the different levels, in solid ore that waits to be broken down, are mute and conand as the addition to the ore house at different levels, in solid ore that wates to be broken down, are mute and con-stant evidence of the pressing need for transportation. An average of 13 tons per day of ore running \$150 per ton at

the smelter is being to gossip.

High Prices to Continue-Calumet-

Heela Posts Big Dividend. James A. Pollock & Co., bankers and rokers, furnish the following, received over their private wire, this afterand over their private whether the atter-mont. Boston News Bureau says: The United Metal Selling company which handles the output of the Amalgamat-ed and affiliated mines. Phelps Dodge and company and other large produc-iers report no change in copper quota-lons. The United Metal Selling com-many continues to quote electrolytic. tions. The United Metal Scieng com-pany continues to quote electrolytic at 25c. There have been reports that concessions would be made when-large producers entered the market for supplies for delivery in the third quarter of the year, but so far there have been no intimations on the part of large producers of an impending of large producers of an impending change in quotations. H. H. Rogers. John D. Ryan and E. B. Thayer of the Amalgamated Copper company are not in the city. High prices for copper for the rest of the year are practically

assured.

Blabee.—An ore body ranging from 16 to 18 per cent capper has been found on the Helvetia property and the vein has been raded for 1.646 feet without a break. The ore body at the first or 160 foot level, is said to be 60 feet wide at least. The 290 foot level cross-cut is in one for a distance of about 15 feet. The ore is oxide and currity, with shace and rative repost. cuprite, with glance and native copper averaging 19 per cent. Boston wires.—Calumet and Hecla declared \$29 dividend.

LAGOON TRAIN TIME TABLE.

MILL IS RUNNING

Begins Grinding Today on Utah Apex and Utah Development Ores.

TRIAL MOST SATISFACTORY.

Bins Are Stuffed With Rock and Mines Have no End of Stuff

Waiting.

The Markham Gulen mill is today being put into active commission. The plant has been under trial run for the past week but commencing today acual service begins and while there will be no "touching of an electric button; speeches or music," the event is of great importance. The trial run has demonstrated that the mill equipment is going to work Aplendidly for no hitch has occurred since the machinery was started in motion. The operation, so far, has been smoother than expected in fact. pected in fact.

MINES NEEDED PLANT.

The Utah Apex and Utah Development properties will use the mill jointly and each has an immense tonnage ready for attention. The Utah Apex, alone has 6,000 tons of good ore piled up in the mill blus. The ore produced from both mines, while not identical is enough alike to stand for treatment is enough alike to stand for treatment in the single mill. This has a capacity of 200 tons per day and will be worked close to this figure. Concentration is the treatment planned. The ore carries lead, silver and copper and tests have proved that these values will be saved in good shape. The Utah Apex has been shipping 100 tons of high grade copper ore daily for a long time and from this the company has been getting \$15 per ton. In addition to this eight cars or so of high grade lead has been shipping direct to the smelters every month. This property has been carning between \$1,500 and \$2,000 per day.

day.

The Utah Development property just across the guich has no end of good milling ore in sight. When the mill was decided upon this property confined its development to the opening of ore bodies. As a result of this policy the mine is opened in great shape and will more than contribute its share towards supplying the new mill.

EASTERNER PLEASED. The Orem boys of this city have brought the Utah Apex and sister property up to present standard and the new mill is another feather in their caps. While J. W. Horne, managing director of the Utah Apex, was here a few days ago the mill was first started. Mr. Horne was more than satisfied with his run and the general condition of the Markham gulch properties. He went back to Boston, with all kinds of good news for stockholders in that city. It was the original intention of the company to have the mill in operation by the first of the present year but delay after delay—principally in gettle material and machinerey into camp by rail—made this impossible. As soon as consignments commenced coming in regularly work proceeded randely. ed coming in regularly work pro-

The weather in England today was fine. BOSTON.

PRODUCE.

CHICAGO.

Chicago, May 21.—Wheat was weak this morning. Weather condition over the afficted wheat fields were again favorable and the effect of this was shown in a rather sharp decline at the opening. There was an immediate recovery under demand from commission houses, but the underlying tone of the market was weak, as was evidenced by the decline which took place as soon as the commission house demand slackened. July opened 1/26% lower at 974/2698, advanced to 99% and reacted to 88%. September opened %2% lower at 98%/26%, advanced to 1.09% and reacted to 199%. December opened %2% lower at 95%/261.00, sold at 1.01% and went back to 1.09%. Rains were general this morning over the country west of the Missouri river, more predicted and temperatures in the northwest were reported higher. CHICAGO.

higher.
Carn was quiet. The opening was a lit-tic easier upon the continued favorable weather conditions in the west. Prices railled sharply with wheat and the mar-ket showed more steadiness than the major market. July opened a shade to \$474 lower at \$32523, and sold up to 539. Outs were dull but firm, the advance in wheat following the weak opening being a factor. July opened is lower to it higher at 47% 47% and advanced to 48.

Provisions were quiet but firm, following an advance in hog prices. July pork opened a cents higher at 16.35; July lard 18.35.

Wheat showed in the prices of the firm of the factor of the first point of the first point

2% higher at 9.10, and July ribs unchanged at 8.15.

Wheat showed nervousness all day, but the general tone was firm. Late in the session, when considerable profit taking caused an easier reeling. The market closed about steady, July sold as high as 991, and closed unchanged at 1985. The high point for September was 1.00% and the closes was 995, an advance of 1, December sold at 1.00% and closeed a shade lower at 1.00% and the closes was 995, an advance of 1, December sold at 1.00% and closeed a shade lower at 1.00% and closeed firm at 250% higher at 335.

Corn held strong throughout the session, July advanced to 54% and closed firm at 250% higher at 335.

Cash: Wheat-No. 2 red, 284,994; No. 3 red, 25398; No. 2 spring, 261,0372.

Corn-No. 2, hothing doing: No. 2, 549, 541, 2008.

Corn-May, 64%; July, 53%.

Oats-May, 47%; July, 48%.

Pork-May 16.20; July, 16.37%.

IDAHO LAND FRAUDS. Portland, Ors., May 28 .- An Oregon-

an special from Moscow, Ida., says: The defense had its innings in the orth Idaho land fraud cases this afternoon when the prosecution placed C. noon when the prosecution placed C. W. and E. J. Taylor, brothers, upon the witness stand. They are nephews of Jackson O'Keefe, deceased, who had he lived, would have been a co-defendant in this action. C. W. Taylor declared that at first he had a disagreement with his uncle's relatives to a disposition of his claim but that Koster refused to permit of the understanding existing because Koster said it was unlawful. The second brother said he could not remember being coached to certain questions which he answered incidental to his acquiring final proof of his to his acquiring final proof of his claims. Both men admitted that O'Keefe gave them the money to prove up with and that they committed perjury in the question of the claims. Examination of documentary evidence consumed the entire day.
