Regular Shipments Now Being Taken From Old South Workings,

Regular shipments are now being taken out of the old workings of the Iron Blossom mine from what is known as shaft No. 1. A report from Tintic says that some excellent ore is being taken out at the 500 foot level. The face of the ore is being followed northward and indications are that it will make into the silver-lead ore in the No. 3 workings of the Colorado-Sloux vein which is 3,500 feet away. Should ore be found to exist , during

Provisions were quiet but firm. Good

One can imagine a witness giving evi-dence in court, while the soul machine records his emotions on a screen before the jury; and the conclusion will be drawn that that witness would be in-clined to tell the truth, rather than ex-cursions of the galvonometer wave." **BLIND BEES ARE BEST.** That blind bees make the best honey is a discovery announced at the Maryland School for the Blind. Report says that the statement aroused intense interest among the inmates of the institution and gave many of them great encouragement. "Our bee keeper," said one of the teachers in the school, "has discov-reed a breed of blind bees that make the best honey on earth, and we've got the first installment. The bees, having through generations lost their sight, have so keenly developed the senses of smell and taste that they are able unerringly to pick out the sweets; flowers,"—New York Trib-une.
