GOT BASKETS AND ALL.

How the Worthy Poor of the Twelfth Ward Were Remembered.

Acting on the suggestion of Bishop Clawson, the ladies of the Twelfth ward Relief Society yesterday distributed to the poor of that ward baskets of choice edibles, each one containing sufficient for a right, good Christmas dinner. The baskets were arranged in the most dainty fashoin imaginable and contained a chicken, a bottle of fruit, raising, currants, rice, cheese, butter, pie, cake, an apple, an orange and tea or coffee, according to the habits of the recipient. Those who observed the Word of Wisdom and observed the word of wisdom and used neither, were given an amount of money instead, sufficient to cover the cost of this article. Plates and clean white napkins accompanied the pre-sentation, the recipient being permitted to keep all.

A moment later Ber-ger was found lying on the ground unconscious. He was apparently dead, but upon a closer examination it was found that he was uninjured, but had simply fallen in a faint from a nervous shock. He was taken to the police sta-tion and remained unconscious until tion and remained unconscious unit yesterday morning when he explained that he was subject to fainting spells. Some sufferer who will be grateful for the help my book offers. And that book tells of a way to help. Tells of a way so certain that I, as a physician, offer that help on trial. The book tells how for 39 years in hospitals and at bedsides I searched for away to cure deep-seated and difficult diseases. It tells how I perfected my prescription -Dr. Shoop's Restorative. How by scien-tific experiments I traced out the causes that bring on chronic diseases. I found invariably that where there was a weakness, the inside nerves were woak. Where there was a lack of vitality, that the vital nerves lacked power. Where weak organs were found, I al-ways found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside -the invisible nerves. This was a revelation. Then my real success began. Then I combined ingredients that would strengthen-that would vitalize these nerves. That prescription I called a restorative.

That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one in each hundred. In the extremely difficulty cases, my failures for five years were only one in each forty treated. I found cancer incurable, Can-cer is for surgery, not medicine. Then how to get this prescription to tha sick ones everywhere, was my thought. I must announce it in the public press. But, though I, will they realize the real truth of my discovery—the real power of Dr. Shoep's Restorative? Then a way came to me—like an inspiration. "I will offer it to the sick on trial," said I.
