OUR DISTINGUISHED VISITORS.

On the occasion of the visit, yesterday morning, of the committee from the City Council, consisting of Aldermen Richards, Lawrence and Burton, to welcome Mr. Seward and party to Salt Lake, a brief allusion to which appeared in our columns of yesterday, the following remarks were made by Mr. RICHARDS:

"In the temporary absence of his Honor, the Mayor, we have been requested to express to you in behalf of the Municipality and citizens of Salt Lake City, the pleasure they feel upon the occasion of your visit to our mountain home, and to bid you a most cordial welcome.

We cannot introduce you to many of those exhibitions which in the older cities of the East interest the traveler, where wealth, art and science are combined to afford all that can be desired; but we can introduce you to the edifices and homes which our industry has created, to the variety of trees that shade our side walks and beautify our streets, to our gardens and orchards that yield us their delicious fruits and to the waving fields of grain that now cover our land, and all these tokens of our industry, and our success in converting the desert into fruitful fields. These may interest the sojourner for a time when he considers that less than twenty-two years have produced all that you now behold that is pleasant to look upon.

Our labors have been in view, not only of making comfortable homes for the citizens, but a place of rest for the weary traveler; for you will well remember that while only three or four short days are required to reach us from the East by the Great National Highway which has been built, the most of us settled here when it required as many months of weary travel to perform the journey. We now extend to you, and our numerous visitors, the attractions of a quiet, orderly and well regulated city and an hospitable community.

We trust that your stay with us, however brief or protracted, will be pleasant and agreeable to you, and that you will be enabled to form such acquaintances and enjoy such associations as will permit you in your future life to cherish kindly feelings towards us and ever to have a kindly word for Utah.

Again we bid you and your companions in travel a hearty welcome to our midst, and pray that your future may be a prosperous and happy one."

Mr. Seward, in reply, expressed his thanks for the kind reception and cordial recognition he had met with, which he believed to be sincere, and said he anticipated much satisfaction in his visit.

At 2 p.m., carriages furnished by the committee, conveyed the party through the principal streets of the city, to the west side of Jordan river, to the most slightly portions of the 17th and 20th Wards, to the City Hall where a number of our citizens were introduced, and fruits, cakes and wines were partaken of, and thence to the Bath House, returning by way of the Union Square, which was designated to be the terminus of the Central Utah Railroad.

THE SENECA LAST NIGHT.
Last night, at a somewhat late hour, Captain Croxall's brass band serenaded ex-Secretary Seward and party at the Townsend House. The evening was clear and beautiful, and a large number of people, numbering from five to eight hundred, assembled in anticipation of a speech from Mr. Seward.

After the playing of "Hail Columbia" and the "Allanade Quickest" by the band, Mr. SEWARD appeared, in response to calls from the crowd, and being introduced by Alderman Richards, said:

"Fellow Citizens, it would be impossible for me to speak so as to be heard by so large an audience as this; and were it otherwise proper, the circumstances under which I am traveling through the country forbid me from engaging in any kind of discussion of public or political affairs. They do not forbid me, however, acknowledging the hospitality and kindness which have been shown me by my fellow citizens. That is all I can do, and I do it with a free, kind and good heart. I thank you for the hospitality you have shown me since I came to your city. I thank you for your attendance to-night, and I pray God that the great marvel which I witness here may result in establishing a good civilization in the heart of the American Continent; and be a sign, token and assurance to mankind in every nation of the earth that it cannot fail, if it be prosecuted by industry and virtue, in advancing the welfare of the whole human race.

Accept my thanks, once more, for this kind greeting and permit me to bid you a cordial good night."

The band played "Thou art Gone from my Gaze" when, in response to vociferous calls, Mr. F. W. SEWARD was introduced by Alderman Richards, and said:

"Fellow Citizens, I thank you heartily

for this kind greeting. It has given me much pleasure to visit a region of country of which I have heard so much, and in which, in common with all my fellow countrymen, I have taken so deep an interest. Even the brief glance that we have already been able to bestow upon it assures us of its wealth, of the greatness of its agricultural resources, and of its rich future.

I join with you in your congratulations over the completion of the Pacific Road. Remote as you have hitherto been, both from the Atlantic and Pacific Coast, you are now brought in close connection with each of them. It is not easy to estimate the value of the benefits which that road is destined to confer upon you, upon our country and upon the world; nor is it easy to estimate the value of the guaranty it gives of prosperity to our States and of the perpetuity of our Union.

Accept, gentlemen, my best wishes for your future and my hearty thanks for this greeting."

After "Champagne Charlie" by the band, Mr. Wilson, editor of the *Chicago Evening Journal*, was called for, and upon being introduced, said:

"Fellow Citizens, I do not think it is exactly fair for you to call upon me, a member of the editorial profession, to speak to you, when by taking the *Chicago Evening Journal* you could hear from me every day. However, gentlemen, I can only thank you for the hospitality that the party with which I am traveling has received in this, your beautiful city; and I can say that we are all delighted with your city and with you. Allow me to say good night."

The band played Quick March "Bull Dog," when the Hon. A. FRICK, U. S. Senator, from Auburn, N. Y., was introduced by Mr. J. M. Ellis, and said:

"Fellow Citizens, I am happy to meet with you on this occasion. It has been a great pleasure to our party to find so industrious, sober and virtuous a people here (cheers). We are gratified with the beauty of your city, and with the work of your hands, of which we have had full demonstration throughout the day. We thank you kindly for your cordial greeting to our friend, Governor Seward, with whom we have the pleasure of traveling. Good night."

The "Fairy Polka" was played when in response to loud calls of "Ellis," Mr. J. M. Ellis appeared, being introduced by Mr. Fitch. He was greeted with cheers mingled with hisses. He made a few very felicitous remarks after which the crowd dispersed.

GENERAL.

The New York *Star* announces that S. S. Conant, Managing Editor of the *Times*, will succeed Raymond as Editor-in-chief.

Resolutions have been adopted by the Pennsylvania Republican State Convention, rejoicing over the victory of '68, which secured peace to the nation, and approving of the principles of the policy of President Grant's Administration. They endorse the sentiments contained in the inaugural, repose confidence in the national administration in its endeavors to settle the difficulties with Great Britain; they approve of the rejection, by the Senate, of the treaty on the Alabama claims, and heartily sympathize with the struggling people of all nations in their efforts to obtain universal freedom and the inalienable rights of man. They endorse the administration of Governor Geary and the nomination of Judge Williams, and reiterate and affirm the adherence to the doctrine of protection.

Hartford.—Vice President Colfax was cordially welcomed by both houses of the legislature, and subsequently, after receiving visits from a large number of citizens in the Governor's room, he left for Providence.

Philadelphia.—The 112th annual commencement of the Pennsylvania University, in the departments of arts, was held to-day at the Academy; 57 students graduated.

The store of Leonard, Baker & Co., in Chester street, was damaged by fire last night; loss \$50,000, fully insured.

Washington.—The President, to-day, signed the appointment of J. H. Williams, agent of the United States, under the Convention with Mexico.

John Cochrane has been appointed collector of Internal Revenue.

Col. Whitley, chief of the Treasury Detective force, assisted by John Clavow, has made arrests in Pennsylvania, Maryland, New York, and in several of the Western States, of counterfeiters and counterfeit money, and of the plates, presses, dies and other material. About a dozen men have been arrested during the last six weeks in Indiana. A gang was arrested at Fort Wayne a few days ago, while engaged in making money. Four hundred thousand in counterfeit notes of 25 cent currency were seized, and twelve sets of steel plates of fifty cents, with dies, presses, etc. Solicitor Bailew has determined to support Col. Whitley to the fullest extent of the law in breaking up gangs of counterfeiters, whose operations ramify all over the country. Other important arrests and seizures that have been made will be given to the public in a few days, which will show a complicity among expert counterfeiters, equal to anything ever before heard of in this or any other country. A 25 cent counterfeit, just captured, is finished, and a large amount has been circulated by the gang. The late arrest of a Government officer in Western New York, who was found to be in complicity with Sims, promises developments of great importance to the secret service. It is said that Sims' friends expended \$20,000 to obtain his pardon several years ago.

Washington.—The President has declared that the restriction, preventing army officers from holding a civil office, does not apply to those on the retired list. This decision enables Sickles to accept the Spanish mission on relinquishing army pay during its occupancy. His name will be continued on

the army register. He leaves for Madrid on the 15th of July. Hale will await his arrival. There is no probability that Perry will be reappointed Secretary of Legation.

The President will, on the 10th of July, after the Virginia election, order the election in Mississippi on the 15th of September; the Texas election on the last of September or the first of October.

Louisville.—The General commanding has sent a detachment of cavalry from Lebanon to Sanford, Ky., to assist the civil authorities in ridding Lincoln and adjoining counties from marauding bands infesting that section; the troops are only to be used in case the authorities are unable to suppress the disorder. The staff of officers sent by the General to the scene of trouble report that Cooch and his band of villains are a terror to law-abiding people, and are committing every species of outrage. If their reports be true that part of the State is in a terrible condition.

New York.—The *Methodist* has the returns of the vote of 576 churches on the question of lay delegations. Three hundred and seventy-six gave the affirmative and one hundred and nine the negative.

Cincinnati.—Peck, Vanhook & Co's distillery and warehouse were burned to-day, with eight hundred barrels of whisky; loss \$100,000, no insurance.

Richmond.—A fight occurred at the registration office in a lower ward this morning, in which Jos. Kelley, a prominent conservative and ward politician, was mortally wounded by the Captain of Police, with whom Kelley was remonstrating against an arrest made by the police. Two policemen were slightly wounded by Kelley, and another by a chance shot of the captain. Registration closed to-day, the whites having a majority of 300.

Boston.—The Legislature, which has been in session a hundred and seventy days, was prorogued to-night.

Washington.—The *Charleston News*, to-day, says the steam propeller *Aspinwall*, which left Charleston with dispatches for Hayti on Sunday, also carried a number of volunteers for the Cuban army, some of whom were residents of Charleston, but the larger part were non-residents who seemed to come there by appointment.

Washington, 24.—The Commissioner of Indian Affairs has received a letter dated 21st ult., from Geo. W. Dent, the Superintendent of Indian Affairs in Arizona Territory, in which he gives a sad statement of the conduct of the Indians. News of depredations come from all parts. They have made attacks on herds and wagon trains in the vicinity of Camp Verde and had killed and wounded several men and driven off stock. The same scenes had been enacted near Camp Lowell. The Indians of the Gila and Colorado rivers were quiet, being now engaged in planting. The trouble he says is owing to the temporary removal of troops from posts in the Territory.

New York.—The despatches from Minister McMahon cover from early in January, when he arrived within the lines of Lopez, down to the 21st of April. The despatches throw much new light upon affairs in that quarter. Lopez still maintains a warlike attitude and has expressed his determination to resist to the utmost.

Chicago, 25.—A Woman Suffrage Convention is being held at Aurora, near this city, in which Mrs. Livenmore and other prominent leaders in the movement, from this city, are taking part. Those interested intend to hold meetings throughout the West, and keep the matter continually agitated.

Col. Ryan, who escaped from the sheriff, was seen in New York yesterday, having failed to get off for Cuba. The steamer is still waiting him outside Sandy Hook.

Witlock and Wallace, produce dealers, suspended yesterday; their liabilities are heavy.

Four patients died at the hospital ship yesterday, of yellow fever. The quarantine officers say there is no danger of the disease spreading into the city.

An evening paper says a strong secret society has been formed, having branches in the principal cities of the Union, and carrying the country over to imperialism. The members are sworn to promote and support what is termed a free empire. It is proposed to establish an aristocracy, with executive powers in the hands of a council, with one man at the head who shall hold the position for life, to be designated "Consul of the Free Empire of the United States." The title of Consul is to be thrown away for that of Emperor as soon as public sentiment will bear the change. The man for this position has already been selected by the leaders of the movement.

Senator Abbott, of North Carolina, says things in his State are very quiet; the people, generally, are at work in that section, and are making good progress in the right direction. The crops in his State, as well as in South Carolina, Georgia and Florida, are all looking well. He speaks of corn in his own State, and of rice in the neighborhood of Savannah as particularly promising.

Some workmen, engaged on the pavement fronting Independence street, are preparing the foundation for a monument to Washington, which is to be erected on the 5th of July. The base will be surmounted by a handsome statue of Washington, presented to the city by the children attached to the public schools who, alone, contributed the expense of the monument.

New York, 25.—Marshal Barlow positively denies that any expedition left this port either on Wednesday or Thursday night, and it is his opinion that no other expedition has left here except that by the *Perit*. He has no doubt that cargoes and munitions of war have been taken to Cuba, but having no legal proof of their real destination he could not interfere *per contra*.

About three hundred Cuban filibusters, who were quartered in Cooper's Hall, Jersey City last evening, were supplied with rations, and came over to New York in small squads; they have since disappeared.

FOREIGN.

New York.—Intelligence has been received by a commercial house in this city that a rebellion has broken out at Arroyo and Porto Rico, which was deemed formidable.

The Department of State has received despatches from General McMahon to the 21st of April, at which time he was well. His relations with Lopez were so cordial and friendly that after the great defeat of the Paraguayans, he was intrusted with the care of Lopez' family. There had been no attempt on the part of Lopez to interfere with his free communication with this Government, and whatever impediments existed are attributed to the course of the allies in declining to send or receive a flag of truce, and in firing upon that sent by the Paraguayans with McMahon's despatches.

London.—In the House of Lords, to-night, Viscount Gifford gave notice of an amendment to the Irish Church bill, relieving the Glebe houses of debt, increasing and extending the Glebelands, and granting twenty-five acres of land to each of the Catholic and Presbyterian Churches.

Another meeting of the Confederate bond holders was held here last evening, the object of the meeting being to protest against parts of Senator Sumner's speech against the Alabama claims' treaty and to petition the House of Commons against granting any compensation for such claims to the United States, unless adjudicated by an impartial tribunal on the principles of equity and international law.

Cork.—A building on a farm in this vicinity was burned last night by men disguised; there is no clue to the perpetrators.

Paris.—The Emperor visited the Camp of Chalons and made a speech to the soldiers, in which he reminded the army that this was the anniversary of the battle of Solferino. He said he was pleased to see that they had not forgotten the cause for which they fought ten years ago. He continued as follows:

"Preserve the remembrance of the battles fought by your fathers and yourselves, for our victories are the history of progress and civilization, you will thus maintain the military spirit, which is the triumph of the noble over the base, the triumph of nations, continue in the same course and you will always be worthy of so great a nation."

It is rumored that the negotiations recently renewed for a commercial con-

ference between France and Belgium are likely to fall through again.

Generals Fremont and A. L. Lee have arrived at Paris.

Florence.—The official journals state large crowds assembled in the streets of Genoa, but committed no violence, confining their demonstrations to the utterance of seditious cries, and finally dispersed without making any resistance to the police. Slight demonstrations are reported at Naples and Bergamo.

New York.—Despatches of recent date from Cuba state that a considerable number of regular Spanish soldiers have deserted to the patriots, there is also a great deal of sickness among them. The Republicans have received as much or more aid from Mexico, and other points in the way of munitions and arms than has yet been obtained from the United States.

Letters from Nova Scotia and New Brunswick say the feeling for annexation to the United States is steadily increasing.

The most important item of Cuban news is a statement by the Spanish Minister that De Rodas, the Captain General, had landed in Cuba, not in Havana, but at another port, and is first giving his attention to things in the insurgent part of the Island. His arrival has been expected some days. He also says that some of the Cuban leaders have been arrested and adds that important information will shortly be received from there.

New York, 25.—A Havana letter, dated the 15th inst., says that the 18th several anxious dispatches were sent to Spain from Generals in the field, saying they wanted men; they represented that their forces were in danger. The Spaniards at Puerto Principe and on the road to Neuviatas had suffered heavily from rebel attacks. The correspondent sends the following statement: The government has 13,000 veterans and 2,700 volunteers in the field, added to 1,685 volunteers garrisoning the principal cities, of which 900 are at Havana. The forces of the patriots number 36,000 whites and 1,900 negroes, of which about 28,000 are well armed. This force will probably increase by some 8,000 whites and negroes in a short time, should they continue to receive arms and ammunition from the States. Letana assaulted a camp consisting of families who had abandoned Puerto; the assault was in the night. Two thousand persons, old and young, men, women, and children, were butchered.

Gen. Marmal, under date of 22d, makes a report of certain operations among them on their arrival at Nipe. The expedition under Jordan, with 300 men, mostly Cubans, have even a greater amount of arms and munition than had been reported. Heavy skirmishes had taken place in the Cinco Villas district. It is reported by the Cubans that a hundred Spaniards have been killed in the conflict.

The volunteer forces have, of their own free will, given up the duty of garrisoning Moró Castle and the fortress at Cabanas will be relieved to-morrow by a naval force. They have taken this action to convince the home government that they had no idea of disobeying orders or opposing the new Captain General.

Washington.—Important intelligence has been received from the headquarters of the Cuban revolutionists in this city; the Cuban army is reported in good condition, while the opponents are suffering greatly from cholera, congestive fevers, and other diseases. Discontent is proving more destructive to the Spanish than the successful operations in the field. The commanders find a difficulty in maintaining the army organization. The feud between the regulars and the volunteers is growing more intense; all hopes of a settlement seem to be at an end.
