TO PROVIDE WORK.

Councilmen Hardy's Sidewalk Gravelling Proposition.

NECESSITY FOR PROMPT ACTION.

Some Work Unquestionable Now and Drainage Canal Construction Out of the Question.

The question of furnishing labor for unemployed workmen has now come to the front in such a way that is troubling the members of the City Council most seriously. Among those who have ways and means and plans to offer in this end is Councilman L. G. Hardy.

He gave his views to a NEWS representative last evening, saying that he would gratefully embody them in a resolution or ordinance for the consideration of the City Council at its meeting tonight. Mr. Hardy said: "I feel that the time has come when we must act. The situation is critical. There are several ways in which it can be relieved. Our duty is to relieve it. There are hundreds of unemployed men in our city today. There are hundreds of impassable sidewalks. There are mountains of the best gravel right at our doors. Now then, my idea is that the Council should require a sidewalk gravelled on that or whatever portion of the city where better walks are needed—and that is almost everywhere outside of the paved portions—and then give work to honest men. The walks need not be covered the full width. That would probably be too expensive, but they could be gravelled, say four feet wide, which would not be a burden on the property-owner and would give work to every unemployed man and team in the city for the next six weeks, a period when they need it most.

"This proposition, says Mr. Hardy, can be acted upon without any delay and need not work at once. Prompt and speedy relief can not be had in sewer work, neither can the proposed drainage canal in the lake be economically or advantageously constructed at this time of the year. The distance to haul the stone to work out of the city each morning and back each evening would be too great and transportation facilities are not of the question, while sleeping in tents on the 1st of May, with prices for labor as they are now, would be out of the question. Neither of these things can be thought of at present."

Such are Mr. Hardy's views on the labor situation and he hopes he will be able to persuade his colleagues to his way of thinking in the matter of setting men to work forthwith. To meet the expenses which would thus be incurred he would have the Council levy a small special tax and in the event that it was defeated make payment from the general fund.

Police and Fire Board.

The fire and police commissioners met in regular session last night and among other things decided to increase the salary of the clerk from $60 per month to $65, notwithstanding the Council fixed the remuneration at the former figure. It is pretty evident that some salary saving rules of the municipality will arise that action a throne for a flagging retrenchment sail at an early date. But it is generally agreed by all concerned with the facts in the case that a competent clerk could not be had for $60.

The appointment by the Council of $75 per month in favor of ex-Deputy Sergeant McKenty was referred back to that body with the information that he had been dead since December last.

Chief Pratt notified the board of the appointments of J. J. Hickey as special policeman, vice Gay, Graham I.

The application of ex-Detective Walker for similar authority was denied on recommendation of the chief.

Fourteen bills were referred and claims allowed amounting to $1,000, after which the board went into an executive session.

Company A Elects Officers.

Infantry Company A, First Regiment, met in the Brigham Young Trust company's building on Commercial street last night and elected a first lieutenant, in the person of William Webb, who was clearly second Sergeant. The new commissioned officer succeeds Lieutenant Weber's promotion to A. W. Dilley, after which congratulations and commending War Stories ably indulged in.

Y. L. M. I. A. Notice.

The Y. L. M. I. A. officers' meeting will be held at the residence of Mrs. M. Y. Dougall on next Saturday, March 2nd, at 12 m. A full attendance is desired. An exhibition of needlework to all interested. Please notify George in time and give of notice.

Making Athletes Out of Them.

Prof. Corbett, of the Salt Lake Athletic club, is out demonstrating ability to evolve athletes out of the ordinary weak-kneed young men of the period. The exercises, the results of which Dep are got by the weight pulley system, while a little severe and exacting, are never to violent a strain upon, and after a brief course of training six or eight subjects by the methods in the gymnasium, several exhibitions are announced for the near future and contestants in the Salt Lake Y. M. C. A will be among others invited to try for the honors which seem to be in progress.

Across the seas and around the world are the praises of Dr. Price's Cream Baking Powder. Highest awards wherever tested. Best of all.

Weather Bureau Data.

SALT LAKE CITY, Feb. 25, 1895.

The chief of the weather bureau directs the publication of the following data, compiled from the record of observations for the month of March, 1894, at this station for a period of twenty-one years.

It is believed that the data thus set forth will prove of interest to the public, as well as the special district, relating as they do to the average and extreme conditions of the more important meteorological elements and the range over which these extremes are to be looked to keep during and corresponding months.

Temperature—Mean and normal temperature, in degrees. The warmest March was that of 1878, with an average of 46 degrees. The coldest March was that of 1875, with an average of 31 degrees. The highest temperature during any March was 72 degrees on several days, the last occurrence being on March 31, 1878. The lowest temperature during any March was zero, on March 1, 1888. Average date on which first "morning" frost occurred (in autumn): August 31st.

Precipitation (rain and melted snow)—Average amount for the month, 1.01 inches; average number of days with .01 or more, 10. The greatest monthly precipitation was 3.28 inches, in 1886. The least monthly precipitation was .18 inches, in 1875. The greatest amount of precipitation recorded in any 24 consecutive hours was 1.17 inches on March 31st, 1874. The greatest amount of snowfall recorded in any 24 consecutive hours (the record is for the entire storm) was 8 inches on March 25th, 1884.

Clouds and Weather—Average number of clear days, 11. Average number of cloudy days, 9. Average number of partly cloudy days, 11.

Wind—The prevailing winds have been from the northwest. The highest velocity of the wind during any March was 41 miles, on March 7, 1877.

THE CITY'S POPULATION.

According to the Salt Lake County Board of Equalization It Is 47,983.

The Salt Lake county bureau of statistics under the direction of Colonel George D. Pyper has just finished the census enumeration of this city, showing the total population to be several thousand less than was generally supposed.

Still there has been an increase of 8,137 or about 17 per cent as compared with the Federal census of 1890. The work just completed has been done on a basis of births, sick, weeks and months and the statisticians declare that it is as nearly correct as human calculation can make it. The census of 1890 was defective in 1,000 and this one nevertheless gives the following purposes:

There is some interesting incidental data in connection with or in addition to the figures given above. For instance it is shown that there are 10,000 males in the city to the number of 10,000 that there are 7,000 young persons who have attained their majority who are unmarried; that 8,375 are males and 9,743 females; that there are 21,984 children of persons under 21 years of age, 10,807 of them males and 11,177 females. That there are foreign born and 10,402 native. The negro population is not 240 nor the Mongolian 132, an increase falling off in these races during the last four years.

Suggestions on Fruit Growing.

SALT LAKE CITY,
Feb. 25, 1895.

Editor Deseret News:

I would like to make a few suggestions to your valuable columns, if it would not be trespassing too much, on the cultivation of fruit trees, as there seems to be a growing interest manifested on the Territory on the movement of various fruit trees. It is true that we should be with a good scientific practical system of fruit growing. The best of fancy soil, and everything that is needed for fruit bearing. But I do not say to try there is not a good deal of fruit in the valleys of Utah. Utah was noted for her fruit, and it is not yet established. But it is to be done very easily. But it is to be done very easily. But it is to be done very easily. But it is to be done very easily. But it is to be done very easily.

Now then, I have a few words to say to our fellow citizens, that is to say, to a very few people, for those who are diligently engaged in fruit growing. Irrigation is wanted a few to be used to the watering of trees. It is one thing to water the fruit of the soil. As for spraying or cultivation, it is one thing to call against the wind in my estimation besides being a poisonous and dangerous [illegible]

Yours respectfully,
WM. J. YARD.

PITY THE POOR INDIANS.

Possibility of David Hay Being Appointed a Special Commissioner.

The signature of President Cleveland, says Sunday's Denver *News*, to the Ute removal bill makes it possible for the eastern portion to be thrown open early in April. The bill requires that a period of six months must elapse, after the individual members of the tribe have given their consent, before the land can be thrown open to settlement. The matter is now in the hands of the secretary of the Interior, Indian Agent Date Day is in the city, but has received no notice as to the course that will be pursued. It is expected, however, that he will receive a special commission to visit the reservation and take the votes of the Indians. Family Agent Day may be named for the work. The area to be thrown open is 3,687 miles in all.

Corrigan's Funeral.

The funeral of James Corrigan, who committed suicide on Saturday night last, was last night to take place from Hanks's undertaking parlors at 4 o'clock this afternoon. Interment to be at Mt. Olivet.

All other baking powders are Dr. Price's are in some way adulterated. It is perfectly pure.

A DUTY NEGLECTED.

Probate Judges and County Courts, Here's Business for You.

Our last Legislature passed an act entitled "Fruit Trees and Fruit" delegating certain powers to and making certain things incumbent upon, the probate judges and county courts of all counties where fruit trees are grown.

The first thing under this act, I desire to call attention to, is the annual examination of the probate judge, provided for in section 3. This examination should have been passed, and later than February 1st, and it is now time has been more than the winter is over. This may have been an oversight, it may be carelessness or possibly ignorance of law in this point, but it may be due to indifference, or all of which is a deplorable neglect of duty. By virtue of my office as well as in behalf of the fruit interest I am sure, I desire to say to each probate judge living within the scope of this law, to see that examination at the annual session is made. It will not be a burden to you, but it does your neighbors and the public at large.

Second—I want to direct the attention of the county courts to section 4 of the act. It is simply a matter of business. You are to appoint three persons from each county, but it does your neighbors and the public at large.

Third—I want to direct the attention of the county courts to section 5 of the act. It is simply a matter of business. You are to appoint three persons from each county, but it does your neighbors and the public at large.
