FROM THE FOUR WINDS. The hottest campaign is predicted for Ohio in October. Seven thousand birds have been snared in two long island counties this winter. All the colored gentlemen are opposed to the proposed restoration of the duty on wool. The cost of the German army now reaches \$116,000,000, and is met with most difficulty. A railroad official states that nearly 50,000 northern tourists are now in Florida hotels. Secretary Lincoln resembles his father in personal appearance only from the nose up. In 1882 the emigrants from England to the Australasian colonies were 37,000; in 1883, 31,000. Brooklyn is to have a fire patrol, the members to be selected from the receipts in that city. A gentleman, who refuses to disclose his name, has given Yale College \$60,000 for a dormitory. Senator Brown, of Georgia, is giving employment to nearly 1,000 men in his Georgia iron works. Charles Welch has promised to work seven years for a hillside farmer in order to marry his daughter. The manufacture of perfumes from local ground flowers is becoming an extensive industry in Florida. A pottery has been established at the Kaunakia mill in Hawaii, Fla., conducted by expert workmen. It is several centuries since Italy has taken part in polar expeditions. The new steamship 'Yves' is to be sent out. The Knoxville, Tennessee, Car Wheel Company are running their wheel foundry extra time to fill heavy orders. Three thousand yards of cloth and one hundred blankets are manufactured in the New Brunfels, Texas, mills weekly. During the last ten years the French-speaking population of Canada has increased at a much greater rate than the English. A Maine girl, who is a graduate of Vassar College, has built a porch and reshingled her father's house just for the fun of it. The compilers of the Australian census report that Australia could furnish 450,000 men from 20 to 40, capable of bearing arms. There will be no 'plumed knight' oratory for Blaine in the convention, says the World. Bob Ingersoll is for Judge Gresham this year. Ex-Governor Pierpont, of West Virginia, has offered to resign his state to cease stamping each other and shun in to wallopp the democracy. Ewing Isbell, of Warren County, Ky., was born on the 4th of July, and his wife was born on the 4th of July, and their only child was born on Christmas. 'Payne and Eaton' is the ticket paper nominates for the democrats. The order is wrong. Payne generally comes off Eaton, not before—Norwich Bulletin. The white republicans of Fulton County (Georgia), propose to go to the big house. Mike—Why, that old President is the ticket of the convention calls that no colored men need apply. Pat—And who is it lives there, Mike, the big house? Mike—Why, that old President is the ticket of the convention calls that no colored men need apply. Never send a boy to college. It is a very dangerous road for any boy who has not an appetite for study, or a moral earnestness which takes the place of appetite—Christian Union. There is a bill before the Connecticut legislature making it a criminal offense for telegraph or telephone companies to place poles, wires, etc., without the consent of adjoining proprietors.
