

How Good Food may Turn to Poison. Commissioner Yerkes Issues Departmental Regulations Controlling its Manufacture. LAW EFFECTIVE JAN. 1, 1907.

Prohibit will be a competitor With Denaturing Oil, Gasoline and Coal.

Washington, Oct. 7.—Mr. Yerkes, commissioner of internal revenue, with the approval of the secretary of the treasury, today issued the departmental regulations controlling the making of denatured alcohol, the handling of the same and its use.

These regulations follow and render effective a law enacted by Congress at the last session, which provides for the withdrawal from bond, tax free, of denatured alcohol when the same is rendered unfit for beverage or liquid medicinal use by the addition of suitable denaturing materials and for the denaturing of alcohol in the arts and industries, and for fuel, light and other industrial uses.

The law becomes effective Jan. 1, 1907. This legislation is in harmony with similar enactments adopted by nearly all the states.

Mr. Yerkes said:

"The prime object to be attained by this type of legislation is to furnish, for the domestic uses, and also for the medicinal purposes, heat, light and power, and to prevent the use of denatured alcohol for beverage or liquid medicinal purposes. This is a denatured alcohol which will be a competitor with denatured alcohol, gasoline and coal, and will be the products of their own industry."

"In preparing the regulations it was essential to adopt rules that would prohibit as far as possible the reversion of the denatured alcohol to its original condition for beverage and medicinal purposes."

"To secure these ends it will be necessary to use articles for denaturing purposes and also use such ingredients as are most difficult to separate from pure alcohol by chemical or other processes."

"The determining on the denaturing agents to be used the cost of the same is of great moment, for to render this legislation of practical use and to make it necessary for the denatured product to pass into the hands of the consumer at as low a price as can be secured."

"Under the regulations now issued, alcohol of 190 degrees proof is free from the tax of \$1.50 per wine gallon after being denatured by the use of either some general denaturing material or some special material adapted especially to the use of certain manufacturing industries. There will, therefore, be two classes of denatured alcohol; first, that which is completely denatured, which will be used for general consumption, and second, specially denatured, in which the material denatured is designated, and with limitations as to the use of this class, confining it to the special manufacturing industry for which it is prepared."

GOOD GOVERNMENT LEAGUE OF CUBA

Movement Regarded as Pointing To More Complete Control By Americans.

Havana, Oct. 7.—The preliminaries of an organization called the Good Government league of Cuba were begun this afternoon at a meeting of Americans, Cubans and others, at which resolutions were passed to the effect that the purpose of the association should be the "promoting by all legitimate means the establishment and maintenance of a permanent, stable and lawful government, competent to administer justice, insure domestic tranquility, promote the general welfare and insure the blessings of liberty to all the inhabitants of the island."

It was declared that the league intended to adopt whatever means to this end were deemed wisest by a majority of the membership, which is intended to be representative of all nationalities and sections, and not to be committed to any line of action until it is decided what is most conducive to the objects named. While there was no expression to that effect, the movement generally toward some more definite degree of American control or oversight in Cuban affairs than is vouchsafed by the Platt amendment.

At a secret meeting held here this afternoon the National Liberals discussed informally the reorganization of their party. Almost all the late conspirators of the revolution were present. A general tone of satisfaction with the situation prevailed, and there was manifest a desire to co-operate and cultivate the most friendly relations with the provisional government. The league has planned a mass meeting to be held Oct. 14, in honor of what they consider the victory of the party leaders and the revolutionary managers. Messrs. Taft and Bacon have been invited to attend this meeting, but if the commissioners leave here on Saturday the Liberals say they will gladly hold the demonstration before that day.

DOVIE'S MEXICAN PLAN

Abandoned in Obedience to Command Given in a Vision.

Celago, Oct. 7.—John Alexander Dowie's plan for a Mexican colony was abandoned in obedience to a command received by Dowie in a vision that came to him last Friday night, and that lasted five hours, according to an announcement made today by Deacon Arrington, one of Dowie's followers, who has remained loyal to the prophet. Dowie, who is now in England, said, "I was relinquished for another that contemplates the raising of \$1,000,000 in Chicago for the purpose of restoring Dowie's power and prestige. The announcement was made in a small church in Chicago. All preparation for Dowie's departure for Mexico had been completed, when in a vision, accompanied by a blinding white light, the glory of which could not be described, the 'first apostle' declares he saw the Master and heard His voice. He was commanded, he said, to give up the Mexican project and seek the glory of Zion elsewhere. Dowie then commissioned Deacon Arrington to come to Chicago and raise \$1,000,000 'for God and Zion.'"

SCARED MAN KILLS A DRUNKEN MAN.

Sacramento, Cal., Oct. 7.—Early this morning when Obed Herold was going home from a whisky party he saw a man standing by a tree near the corner of Tenth and G streets. He says he stopped and asked the man what he was doing. The man, who he said was Herold, drew a revolver and fired at the man, who did not move. Directly he fired again, and the man pitched forward on his face, with a bullet in his forehead. He died two hours later in the receiving hospital.

The dead man was Charles W. Theiss, who was head clerk in the Postal Telegraph company's office in this city. The dead man was a political machine on Oak Park. He came back to Sacramento, stopped in a saloon until 2 o'clock and then started home. It is said he had over indulged in liquor and he is believed to have been in a dazed condition. He was shot in the head by a bullet which entered his forehead and passed through his brain.

MURDERED IN OMAHA.

Omaha, Oct. 7.—Josephine Rummelhart, aged 19 years, an employe of a shirt factory, was found in a dying condition in a vacant lot near Twenty-sixth and Dodge streets late last night. She died today without gaining consciousness. Her face had been beaten and her hair pulled out. She was found by a man who had been drinking and was taken to the hospital. The police are investigating the case.

INDEPENDENT LEAGUE PLANS.

New York, Oct. 7.—The Independence league tonight issued a statement regarding the attitude toward tickets for the legislative and judicial elections, to the effect that it will nominate an independent ticket large and indorse only certain individuals whose integrity is recognized. In regard to the judiciary, the league believes that it would be well to have the three parties united on a non-partisan ticket.

PRODUCTS OF SOIL OUR ONLY HOPE IN FUTURE.

Chicago, Oct. 6.—James J. Hill, president of the Great Northern railroad, was the principal speaker at the banquet given at the Auditorium hotel under the auspices of the Commercial association, when he declared that the development of the Northwest, and his remarks were greeted with added attention because of the great extent of the lands which he owned recently in behalf of the Great Northern railroad.

CARTERS' LITTLE LIVER PILLS

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Bile, Nausea, Drowsiness, Bad Taste in the Mouth, Costive Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

Small Pills. Small Dose. Small Price.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

For eighteen years Dr. Miles' Nerve has been my close companion. Early in married life, while raising children, my nerves became so weak that I could not sleep; had no appetite; indigestion very bad, and had such awful dizzy spells. I began using Dr. Miles' Nerve, and at once I began to improve, and soon found myself in perfect health.

MRS. S. L. YOUNG, 324 Pittsburg St., New Castle, Pa. Dr. Miles' Nerve is sold by your druggist. He will guarantee that the first bottle will benefit. If it fails, he will refund your money.

POLITICAL CONFERENCE HELD AT THE WHITE HOUSE

Washington, Oct. 7.—Representative James S. Sherman of New York, chairman of the Republican congressional committee, and Senator Penrose had a long conference with the president tonight on the political situation. Mr. Sherman was a guest of the president at dinner and discussed with the president in detail the congressional campaign throughout the country, especially the situation in New York. Later the president, Mr. Sherman and Senator Penrose conferred on the situation in Pennsylvania, particularly in the close districts.

Mr. Sherman reported to the president the important phases of the campaign and of the situation in the close districts in various states. The subject of the bondholders at the government printing office, which was brought to the attention of Mr. Sherman in New York recently by President Feeny of the bondholders' union, was considered among other matters, but it was stated that no conclusions were reached tonight in that connection.

JOHN REDMAN MILDRE ON HOME RULE QUESTION.

London, Oct. 7.—John Redmond, addressing a meeting of the Irish league at Athlone yesterday evening, declared that the subject of home rule is rooted in the soil, and all its other industries are clustered about it. He said that the subject of home rule is rooted in the soil, and all its other industries are clustered about it. He said that the subject of home rule is rooted in the soil, and all its other industries are clustered about it.

In an editorial article this morning the Tribune, London, interprets this speech as an acceptance of the plan of approaching the Irish settlement by instalments, and predicts that the government scheme does not possess the objectionable features that Mr. Redmond fears.

The Morning Post, Conservative, is of the opinion that Mr. Redmond's speech will please neither the extreme Nationalists nor the moderate Liberals. This paper says that Mr. Redmond seems to be preparing his followers to accept with as little grumbling as possible an instalment of the Nationalists demands.

PIANOS

High grade and medium, easy payment, one price plan. We have the best of the piano repairing world. Estimates on piano repairing without cost. We do repairing and tuning. Practice on the piano. PIANO CO., 52 Market St., near Postoffice.

BASEBALL OVER IN BIG LEAGUES

Pennants Both Landed in One Town for First Time in History.

Chicago, Oct. 7.—The baseball season of both major leagues for 1906 ended today with games at Chicago, St. Louis and Cincinnati. For the first time since the two big leagues have been organized both championships have come to the same city. The Chicago National league team won the first honors in that organization early. Taking the lead early in June and holding it to the end, it established a new major league record for number of games won, or the 114 games played by the team. The Chicago team won the previous best record in this respect having been held by the New York club in the same league in 1905.

AMERICANS SURPRISE ALL. In the American league, the Chicago team upset all calculations by winning the pennant. The contest was not decided until last week, the New York team being within striking distance of the leaders until Oct. 3, when a six-inning defeat at Philadelphia put them out of the running. An equally close struggle for second place was not decided until two days later, when Chicago defeated Cleveland and took away the Ohio club's last chance to overhaul New York. The fourth and fifth teams, Philadelphia and St. Louis, were within halting distance throughout the season. Philadelphia, in fact, leading the league on three separate occasions, the last time no later than Aug. 5.

BASEBALL OVER IN BIG LEAGUES

Washington and Boston were tail-enders throughout. In the National league, Chicago was the only team to lead the league on three separate occasions, the last time no later than Aug. 5.
