

A COMMON SENSE BARN.

How to build a structure suitable for housing farm stock is a question of a farm which can be solved by the application of a few simple principles. The barn should be built on a level, and the foundation should be of concrete. The walls should be of brick or stone, and the roof should be of shingles. The interior should be divided into stalls, and the stalls should be of a size to accommodate the stock. The barn should be built with a view to the future, and should be capable of being enlarged at any time.

PLAN AND ELEVATION.

A plan of a barn of this kind is shown in the accompanying illustration. It is a two-story structure, and is capable of housing a large number of head of stock. The plan is simple, and is easily constructed.

The plan is shown in the accompanying illustration. It is a two-story structure, and is capable of housing a large number of head of stock. The plan is simple, and is easily constructed.

MARGRETT BROS.

OGDEN COLLEGE.

WM. A. ORENCHAIN, A. M., PRESIDENT.

DEAR SIR:

I am more than pleased with my "Howe" Ventilating Stove, and cannot say too much in its praise. In the first place, it is the only base burner I have ever seen that is constructed on correct principles, while in heating capacity and economy of fuel it is all that you claim for it. In the fresh air which it warms and diffuses throughout the house there is a balminess of temperature which I have never found in the heat of any other stove; not even when sitting close to the stove there is any sense of oppressiveness.

Very truly yours,

WM. A. ORENCHAIN, Pres.

The "Howe" Ventilator stands today the most remarkable discovery in heating stove construction. We will cheerfully refund the price of any stove not proving Perfectly Satisfactory.

E.C. Coffin Hardware Co.

Hardware for the HOME, MILL, MECHANIC, PROGRESS BUILDING.

ALONZO YOUNG, Manager.

Central Hotel Co.,

(PROPRIETORS.)

Do You Attend Balls and Parties?

IF SO, SOCIETY DEMANDS that you should be FITTINGLY and PROPERLY DRESSED. It is our duty, as the Leading Outfitters of this section, to do all in our power to help you meet this demand. Therefore, we call your attention to this "ad." in our Superb Line of Full-Dress Evening Apparel.

First on the list is the new make of Full Dress Suits in the conventional "waist-tail" or the Prince Albert style of cut, which are equal to any and superior to many Revue Tailor-made garments, and what is of more importance, at less than half the price a Tailor would charge you.

These goods are being worn by many of our most fashionable Society gentlemen, and we have heard nothing but praise as to their merits, in both fit and make. After you have selected your suit, you need full dress shirts and shoes of which our fashionable Goods and Shoe Department have a complete variety of all that is new in their respective lines.

We especially call your attention to our line of PATENT LEATHER SHOES, embracing CLOTH and KID UPPER, in both CONGRESS and LACED. Leading makes only, and at LESS THAN SHOE STORE PRICES.
