Salt Lake City, June 8th, 1887.
By carefully examining Deland's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from Atum, Starch, Flour, Bone Ash, Ammonia and White Earth; and that it consists essentially of Cream of Tartar and Bit Creamans Socia. The Baking Powder examined I purchased at Barnes & Days, in this city.

took place in a saloon on State Street Two men named Edward Snyder and Charles Moran, both under the influ-ence of liquor, became engaged in a wordy war on some pattry subject, and wordy war on some pattry subject, and the proprietor of the saloon started to eject them. Walking towards the door Soyder jumped at Moran, plunging a knife into his side between the second and third ribs. Moran fell and Soyder, jumping over his body, made his escape. Dr. F. H. Morton was called to attend the wounded man, and did everything in his power to alleviate his sufferings. The wound is three inches long and penetrates to the lung. The doctor says there is no hope of the man recovering. Snyder was captured at the Denver & Rio Grande depot and is now in jail. When told that his victim would die he expressed himself as glad of the result.

A terrible accident occurred at the

A terrible accident occurred at the Goldsmith mine this morning, resulting in three men being killed. The unfortunate men are Atwater Lawrence (Protier-in-law of George Tong), Fritz Dell and James Reegins. The men were going down to work at 7 o'clock this morning. A bucket and wire rope are used at the Goldsmith finstead of the usual cage, and the men were going cown in the bucket. The depth of the shaft is 220 ft. Engineer Hoar thinks they must have been within 50 or 60 feet of the bottom when he noticed the rope slacken. At the same time he felt the twang and tratiche strain was removed from the engine. Instantly after he heard the crash as the bucket with its human freight siruck the bottom of the shaft.
