

FIFTY-FIRST YEAR

HARRIMAN HOLDS
UNION PACIFIC.Big Battle Between Financial Giants of Wall
Street for Supremacy and Overthrow
of Gould's Railroad Plans.

New York, May 2.—The Commercial Advertiser says: Friends of E. H. Harriman assert with much confidence that the syndicate of which he is head has not lost control of the Union Pacific railroad. This claim is significant, because persons closely identified with the Harriman syndicate have repeatedly declared within the past three days that they could not tell anyone about the situation.

The confidence manifested by Mr. Harriman's friends today is based largely on the supposition that in the competitive buying of last Tuesday the Gould and Harriman interests secured enough of the Union Pacific shares to restore their holdings to the majority.

Discussing the Union Pacific situation, the Mail and Express has the following: From the current tremendous market movement in Union Pacific and Atchafalaya advances occurring in each today it became clear that a fight is going on between great money interests over the establishment of trans-continental systems.

It now appears that this fight centers around the plans of George J. Gould and E. H. Harriman to establish a vast net work of roads from the Atlantic to the Pacific ocean, and William K. Vanderbilt and the Pennsylvania railroad people, seeing what was up, have made up their minds to frustrate them.

With the Gould and Harriman people on the one hand, are said to be Kuhn, Loeb & company, who are identified with the Union Pacific management, while Mr. Morgan is believed to have lent his influence to the Vanderbilt and Pennsylvania forces.

The Rockefeller, who are identified with Mr. Gould in the southwestern deal are said to have stood aloof from the Union Pacific incident, and to have done nothing which could be criticized by Mr. Morgan, with whom they are associated in many affairs.

BILL PURPOSELY DELAYED.

Prorogation Will be Accompanied by
a Strongly Worded Declaration
of the Ministry.

Berlin, May 2.—The chancellor, Count von Buelow, reported personally to Emperor William yesterday and complained of the intentional delaying of the canal bill by the majority in the diet.

The government thereupon gave up further negotiations. The resignation of Dr. von Miquel, the finance minister, is now considered likely to be presented in the immediate future. The diet will be closed before Whitsuntide, but it will not be dissolved, nor will there be an appeal on the subject to the country by means of a new election.

Official publications regarding the above are expected tonight. Emperor William and the Prussian cabinet adhere to their intention to build the canal.

The correspondent of the Associated Press understands that the purpose of tomorrow's joint session of the diet and house of lords is to close the session by expressing Emperor William's displeasure at the failure of the canal bill in committee.

Interest in Stock Market Shifts from
Union Pacific.

New York, May 2.—The sensational interest in the stock market today shifted from the recent favorites to Atlantic, although very active interest continues in Union Pacific. The erratic movement of the latter stock and its tendency to reaction prompted the speculators to turn to some new field.

Atlantic was strong from the opening and held firm during the early reaction. The market was private and became decidedly weak. About the middle of the session the movement became wild in much the same way as that of the Union Pacific yesterday and Atlantic was forced up by wide strides and by the taking of long strides of 1000 lots up to 6,000 share lots to about 8, a rise of nearly 12 points over last night.

There was no news to account for the price of Atlantic, but it was supposed to be a result of the plan of the Atlantic to build a trans-continental project of offset the Burlington deal. The rest of the market was comparatively quiet today.
