

CUBAN NAVAL STATIONS TREATY

Read and Referred to Committee On Foreign Relations.

UNITED STATES TO PAY RENT

Two Thousand Dollars Annually So Long as They Are Occupied—Re-Minutes Claim to Isle of Pines.

Havana, July 4.—The United States naval stations treaty and the Isle of Pines treaty were today read in the senate and referred to the committee on foreign relations without comment. The text of both treaties is brief and simple, the naval stations treaty containing seven articles and the Isle of Pines treaty four articles. The ratifications of both were required to be exchanged at Washington within seven months.

In the naval stations treaty the United States agrees to pay \$2,000 annual rental as long as it occupies the stations. Article 1 provides that Cuba is to acquire forthwith all private and other realty within the required areas, the United States agreeing to furnish the money necessary for the purchase of private properties, such sums to be advanced by the United States.

Article 2 requires the United States to mark the boundaries of the station areas by permanent fences or other inclosures.

Under article 3 the United States agrees to prevent the establishment of commercial, industrial or other enterprises within the areas.

Article 4 says fugitives from justice who are amenable to Cuban law and who take refuge within the areas of the naval stations shall be delivered to the Cuban authorities on demand, and fugitives charged with crimes and misdemeanors committed within the areas who are amenable to the law of the United States shall be delivered to the United States authorities from Cuban territory.

According to article 5, materials, all kinds of merchandise, stores and munitions of war imported into the areas for exclusive use and consumption therein shall not be subject to customs duties or other charges, and the vessels carrying the same shall not pay port tonnage or other fees unless they discharge outside the limits of the areas. It is agreed that no material, merchandise, stores or munitions are to be transported from the areas into Cuban territory.

Article 6 enacts that, except as above provided, vessels entering or leaving the bays of Guanahama and Bahia Honda shall be subject exclusively to Cuban laws and Cuban authorities, and the United States agrees to place no obstacle in the way of such vessels or departures excepting in case of war.

In the Isle of Pines treaty the United States relinquishes to Cuba all claim or title to the Isle of Pines, which has been made by virtue of the treaty of Paris. Article 2 says this relinquishment is in consideration of the grants of coaling and naval stations hereafter made to the United States by Cuba. Article 3 says citizens of the United States who at the time of exchange of ratifications of this treaty are residing or holding property in the Isle of Pines shall suffer no diminution of the rights and privileges acquired prior to the date of exchange of the said ratifications. They may remain there or may remove therefrom, retaining in either case all their rights and property, including the right to sell or dispose of such property or its proceeds and also the right to carry on their industry, commerce and professions, being subject to the laws thereof to such laws as are applicable to other foreigners.

MANCHURIAN QUESTION.

Secy. Hay and Count Cassini Hold Conference on It.

Washington, July 4.—If the American government has been made acquainted with the latest phase of the Manchurian dispatch, as indicated in the Chinese dispatch, the officials have succeeded in keeping that fact from the public. Owing to the late hour at which the dispatch was received here, it was impossible to obtain any information from state department officials on the subject.

There have been conferences recently between Secy. Hay and Count Cassini, the Russian ambassador, regarding Manchuria. Some indications have appeared that the Russian government had found it possible to shape her policy respecting Manchuria so that it might be more acceptable to the United States. But the recent official statement regarding the presentation to the Russian government of the Jewish petition indicated that the administration felt that Russia had sought to induce China to join in breaking the pledged faith of all the powers as to the open door in Manchuria, and so has acted adversely to American interests.

While the United States has contended for the open door in Manchuria, its policy in dealing with China has been to act independently of the powers, but frequently along the same lines. It is quite possible that our government has been sounded as to its attitude on the subject of the Anglo-Japanese note, and it is also within the bounds of possibility that the testing powers may have the moral support of the United States.

Issue an Address on Same to the Country.

IT IS TEMPERATE IN TONE.

Louisville, Ky., July 3.—The closing day's session of the Afro-American Episcopal council was marked chiefly by the presentation of resolutions embodying an address to the country at large on the race problem. The address, on the whole, is temperate in tone. After its adoption the convention adjourned sine die. The address, in part, is as follows:

"We recognize with pleasure the friendly relation that has all along existed between the best people of the white race and our own, and we sincerely desire that nothing may be permitted to intervene to mar this relation. MARRIED MAN; SINGLE WOMAN

Play a "Joke" That is Clearly a Serious Public Offense.

WHAT TO BE DONE ABOUT IT

J. H. Evers, a Civil Engineer of This City, and Miss Grace Hyde, Principals in the Escapade.

The shameless escapade of J. H. Evers, a civil engineer residing at 1371 Ninth East street, and Miss Grace Hyde, who formerly resided in Spring City, Sanpete county, is the cause of the former being placed in rather a serious position, which may result in his arrest for forging the name of the county clerk of Wasatch county to a marriage certificate and placing the official seal of the county thereon. Evers is a married man and has a wife and five children residing at the above address in this city.

Miss Hyde, who is only 20 years of age, accompanied Evers to Provo several days ago and they registered at the Green hotel as man and wife. The Provo papers on Tuesday, as well as the Deseret News, made the announcement that Evers and wife were stopping at the hotel and that they would leave for Denver that evening. The legitimate wife of Evers made her husband's conduct, saying that he had eloped with Miss Hyde.

It seems that the couple, instead of going to Denver, returned to this city on Thursday evening when Sheriff Emery was returning from Elginham he saw Evers on the train and immediately placed him under arrest. He was taken to the county jail, but later, at his own request, he was taken to his home to see his wife. He made a sufficient excuse to her and she requested the sheriff to release him upon his own recognizance, which was done.

A marriage certificate was taken from Evers which contains his name and that of Miss Hyde. The certificate is signed "M. Anderson" and is dated the 1st of June, 1903. The official seal of the county clerk, and contains the names of the county clerk, two witnesses and the official seal of Wasatch county. County Attorney Westervelt and Sheriff Emery are endeavoring to locate the alleged Evers whose name is signed to the certificate but have been unsuccessful, and it is believed that the name is fictitious. How Evers managed to get possession of the seal of Wasatch county long enough to put it upon the marriage certificate is not known.

The officials here have communicated with the Wasatch county officials in regard to whether or not they wish to prosecute Evers for forgery, and it is expected that a reply will be received today. Evers claims that the whole matter is a joke, and at the same time the forged marriage certificate and the fact that he and Miss Hyde went to Provo together and registered at a hotel under the name of man and wife, and that he and she were together much like a joke to the officials, and he may have a rather serious time in explaining away all these incriminating circumstances. He has not yet been arrested.

A SANTIAGO HERO RECOMMENDS PE-RU-NA.

Commodore Nicholson of Our Navy Recommends Pe-ru-na.--- Other Prominent Men Testify.

LUCIEN YOUNG.

LUCIEN YOUNG, Commander of the U.S. Navy Gunboat "Hiet," during the battle of Santiago, was specially mentioned by Admiral Sampson for his gallantry. He writes from Washington, D.C.: "The curative qualities of Peru-na as a cure for catarrh have been fully established by the use of the same most successfully by many of my acquaintances, and I can recommend anyone so afflicted to try it."—Lucien Young.

Commodore Somerville Nicholson of the United States navy, in a letter from 1837 R street, Northwest, Washington, D.C., says:

"Your Peru-na has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities, and I unhesitatingly recommend it to all persons suffering from that complaint."—S. Nicholson.

The highest men in our nation have given Peru-na a strong endorsement.

Men of all classes and stations are equally represented.

The above testimonials are only specimens of the many thousand letters received touching the merits of Peru-na as a catarrhal tonic. No more useful remedy to tone up the system has ever been devised by the medical profession.
