But the trouble with it seems to be the standard objection, viz., the long under sweep of the fender elbow which is liable to strike headless people standing near, and break their necks. When not in use, the fender folds up against the back of the vestibule.

Arrest of Man in Case Headed Off The Wedding Ceremony.

SET FOR TOMORROW NIGHT.

Prospective Groom Wanted in Iowa For Grand Larceny—Hooker Is The Man's Name.

The arrest of Leland Albert Hooker, in this city, about 5 o'clock yesterday afternoon by Sheriff Abbott of Davis county, on two charges of grand larceny committed in Iowa, put a decided damper upon the rosy-hued love affair of that young man and a well known young lady of Bountiful, and it is very probable that the wedding festivities which were arranged for tomorrow night at the young lady's home will have to be postponed for some time, if not forever.

Perhaps the trouble would not have developed, and the wedding would have taken place on scheduled time, had it not been for the willingness of Hooker to have his character investigated in the neighborhood from which he came. The parents of the young lady very naturally wanted to know something about the past history of their intended son-in-law before giving their unconditional consent to the marriage, so they were told by Hooker to write back to his Minnesota home and find out about him.

His instructions were followed out by the parents but the result was far different from what was expected by the young man. The answer came back that Hooker had a wife in Iowa, whom he had deserted, and that he had been in the penitentiary. In addition to that, a telegram was received by Sheriff Abbott from an Iowa sheriff, near the Minnesota line which reads as follows: "Hold Hooker, wanted in Iowa on two charges of grand larceny. Stole a team at Nora Springs and a horse and saddle at Meltonville."

Hooker came to Utah about a year ago and landed in Bountiful, where he met and became infatuated with a young lady of a prominent family. He represented himself as a widower, saying that his wife had been dead three years. Everything was lovely with the young lovers, and the date of the marriage was set for Oct. 30. The inquiry made by the parents of the young lady in the above startling developments.

The prisoner claims that it is his twin brother Albert C. Hooker who is wanted for horse stealing and that he can establish his innocence without any difficulty. This brother, he says, is rather a tough character and he knows that he cannot be convicted of a crime. He says his twin brother is in this city.

Sheriff Abbott took Hooker to Farmington this morning and will hold him there until the Iowa or Michigan authorities come for him.

Mr. Yeager stated that he had just completed driving a well yesterday noon and was ready to move his machinery to another locality. Last night someone maliciously broke open his cool-box and scattered the tools all around the neighborhood and then used a sledge hammer on the engine and other machinery and damaged it to the extent of about \$50.

The matter was being investigated at once by the sheriff, in the meantime Mr. Yeager is offering a reward of \$50 for the arrest and conviction of the guilty party.

## IN FEAR OF BEING BURIED ALIVE

D. C. Leavitt, No. 221 East Twelfth street, who slept for three months and who was recently awakened, is now able to be out on the streets.

The case of Mr. Leavitt has attracted attention all over the country. In a way his condition for three months after April 26 resembled that of persons who were thought to be dead, but who really heard and knew what was going on, and understood the torture of being prepared for the grave while still alive.

Mr. Leavitt would fall into one of his sleeps of several days' and nights' duration, and although unable to arouse himself or speak, and apparently unconscious, would hear the talk by his bedside. He knew that the physicians told his wife that his case was hopeless, and that even if he recovered something he would be an imbecile, and he would not want to live in that condition. His condition, so far as he himself felt, was that of a man so weary that he could not keep his eyes open.

But even when aroused he could not express the terror which afflicted him. Upon being shaken and called sharply he could speak, but always in a monotonous, almost incoherent way. He was tired, he replied instinctively to questions and goes to sleep again.

The final theory that the principal cause in the back of the neck had undergone a stricture, producing possible congestion of blood in the head, explains the condition of sleep. As soon as he came out of the state of catatonia he would be able to speak.

His first thought was of his wife, whose form had shown plainly the signs she had kept. Tears sprang into his eyes and he said: "Dear now you must rest."—Kansas City (Mo.) correspondence New York American and Journal.

## JAPANESE FIREWORKS.

Again the barriers bent with the weight of villagers, delighted to share the joys of Eden. Angry pinwheels whizzed upon their stalks, fiery serpents quivered and hissed through the grass, and the rockets shot high in air, followed by admiring "oh's" of the children. Guests swarmed in blankets, like moving mummies, patrolled the veranda, between acts, struggling against the keen mountain air. Curtains and footlights were a problem to stage management. The former caught on the ropes, or slipped off the stage, and the latter extinguished themselves in darkness, at every thrilling moment. If they were not already endangering the curtains. In any other land than Japan, these same stage effects would have burned themselves out a dozen times.

Japanese art was revealed in variety, and the vaudeville act appeared in the gallery gods. The grotesque and the comic vied with the graceful dance, as rowdies and highwaymen played high jinks, with swords that flashed as in deadly breath. Baggy breeches and cloudy turbans gave dramatic effect to the flashing sabres. Wee tots in tattered hats of ragged fringe, performed their monkey antics. The President repeated the old story of "The Suitor Sought," and it was a question of two-to-one, as each coy maiden played her wiles, and the baggy breeches and cloudy turbans gave dramatic effect to the flashing sabres.
