HARMONY IN CITY COUNCIL

Solons by Unanimous Vote Select T. S. Browning as President.

SUGGESTIONS OF MINISTERS.

For the Relief of Distress Among Unemployed in Junction City—Weber County Affairs.

Ogden, Jan. 7.—T. Samuel Browning is president of the Ogden city council. The city fathers got together last evening and put their personal desires away on party lines, and decided on Mr. Browning for the place.

After the effort yesterday immediately after noon to decide on a president and two votes were taken and the matter could not be decided. It was fully expected that a deadlock would continue for some time, and last evening quite a large number of gentlemen assembled at the city hall to witness the "fun," but in that respect all were disappointed, after waiting for an hour while the councilmen caucussed together in the mayor's office, the solons with a smile on their countenances filed out of the office to the council chamber.

Mr. Browning was made president pro tem. On assuming the president's chair he said the business to come before the meeting was the selecting of a president. Councilman Thomas placed in nomination T. S. Browning, and on motion of Mr. Dana the rules were suspended and the nomination was made unanimous. Mr. Browning thanked the gentlemen for the honor bestowed upon him and an adjournment was taken until next Monday night.

It is now believed that the deadlock which might have existed is a thing of the past and that Mayor Browning and the council will now be able to get together on all the appointive offices, and in the future work harmoniously together for the best interests of the city.

Yesterday afternoon the councilmen and a few friends were the guests of Mayor Brewer at the Utah Hot Springs.

MUNICIPAL WOOD YARD.

Ministers Suggest How City Can Relieve Distress.

Ogden, Jan. 7.—The Ogden Ministerial association held its first meeting yesterday for this year. Besides considering various church matters, the following resolutions were unanimously adopted:

"It being set forth that there are many unemployed in Ogden and that there is much distress as a consequence, and as it has been suggested by some that the association of Ogden churches and ministers should take some action looking toward relief, we recommend:

"That the mayor of the city instruct the police to make a thorough investigation as to the number of the unfortunate ones and if the alleged conditions really exist, we suggest:

"First—That as the suffering is largely due to the saloons and gambling houses, which have received a large share of the earnings of these men, and as the city receives a large sum from the said institutions, the responsibility for the conditions belongs there rather than upon us.

"Second—That part of the revenue thus derived should be used for the establishment of a municipal wood yard, where enough employment may be secured to insure food and lodging, the support of which will be met in part by the sale of wood to private parties.

"Third—That the supervision of the woodyard be vested in the police department of the city."
