

## MINISTER CRANE SUDDENLY RECALLED

Secy Knox Wants to Discuss Certain Phases of the Eastern Situation With Him.

## TRADE WITH CHINA NOT GOOD

Chinese Are Not Buying Much From Foreigners, So Reports Consul General Bertholz of Canton.

San Francisco, Oct. 3.—Charles H. Crane, newly appointed minister from the United States to Peking, was recalled to Washington tonight by a telegram from Secy. Knox. Mr. and Mrs. Crane were to have sailed on the transport Thomas tomorrow for the Orient.

Mr. Crane stated tonight that the

telegraph merely requested his return to the capital, as "there were certain phases of the eastern situation with which the secretary of state did not think I was fully acquainted."

"I will return to Washington day after tomorrow," said Mr. Crane, when he was asked as to the recall, while seated at a banquet given in his honor by the Chinese chamber of commerce. "I am starting over one day in order to attend a banquet at which President Taft will be present. I expect to sail for the Orient on the steamer Korea, which sails Oct. 26."

Mr. Crane declared that he did not know what matters the secretary of state desired to discuss with him.

"I did not see Mr. Knox before I left Washington," he said. "He was not in the city. I suppose that something has arisen or been called to his attention which he thinks I should know before I go to my post. I do not know what it may be."

## TRADE WITH CHINA POOR

Washington, Oct. 3.—America is not the only country that is not building up a thriving trade in China. The Chinese are buying from no foreigners in great quantities.

That is the view taken by Consul General Leo Bertholz of Canton.

American travelers in China, after calling attention to its immense resources and great population, attribute the scant trade with America to lack of enterprise on the part of the American merchants and manufacturers, but tourists from England and Germany are

making similar complaints regarding the trade of their own countries, says Consul General Bertholz.

"Spurred on then, as all the countries are by keen rivalry, the lack of results must be attributed to something else than lack of enterprise and energy," says Mr. Bertholz. "In view of the fact that China has been following the same old customs for several thousand years," he says, "she cannot be expected to cast them aside in a day."

It is stated that the demand for machinery in China will increase, as the country's standard of civilization rises, but there is little doubt that the demand will be met by the ability of the Chinese to copy, with the aid of foreign engineers any model, Germany and England practically control the Chinese market. The introduction of machinery into China, no doubt will be met with some opposition, owing to the fact that it will throw a large number of people out of employment as most of the work is now done by hand.

## STREET AND INTERURBAN RAILWAY ASSOCIATION

Denver, Colo., Oct. 3.—Twenty-nine hundred names were affixed to the records of the American Street and Interurban Railway Association, now holding its twenty-eighth annual convention in this city, during registration of delegates yesterday.

If the policy declared yesterday continues, news of the doings of the several branches of the organization, as well as of the parent body, will be scarce for all the meetings will be executive and information concerning discussions and action taken is withheld from the public.

At 5 o'clock this afternoon the American association, the parent body, begins its sessions, the feature being the annual address of President J. F. Shaw of Boston. The claim agents' association will hold two sessions, the Transportation and Traffic association one session, and the Engineers' association one session.

Politics of the associations is beginning to attract the attention of the delegates. It is asserted by many that President Shaw may have another term as head of the organization if he declares it. Unless he should express a wish favorably to such a move, Arthur W. Brady of Indianapolis, first vice president, will likely be honored with advancement to the presidency.

The \$100,000 exhibit of heavy machinery, street cars, and appliances is the center of attraction and daily thousands view the display, which is housed in a temporary structure adjoining the Auditorium.

## CONDITIONS IN LIBERIA

Washington, Oct. 3.—Additional interest is lent to a report on conditions in Liberia, made by Consul Solomon Berliner, of Tenerife, Canary Islands, by reason of the recent visit of the American consul to the commission from the United States.

In the opinion of Consul Berliner, many difficulties stand in the way of commercial development in Liberia. Some of these he cites, among them: Restrictions placed upon foreigners—no real estate can be owned by foreigners; had communications; disturbed state of the interior; backward state of the inhabitants; limited ports of entry and smuggling on the coast.

## MOTHER JUMPED OUT OF FIRE ON TO AWNING

New York, Oct. 3.—While the tenement in which she lived at Far Rockaway, L. I., was burning brightly before daylight today, Mrs. Philip McGee wrapped a sheet about her body and leaped from a third-story window on to a first story awning, from which she and the baby slid into the outstretched arms of several militiamen who had told her to make the jump. The fire destroyed three of the frame buildings, causing an estimated damage of \$40,000.

## NUTRITION OF IMPRISONED SUFFRAGETTES

London, Oct. 3.—The nutrition of the daily-dieted suffragettes now in Birmingham jail, will interests Keir Hardie, who again last night held up business in the house of commons in order to secure himself that the "tooth, throat and other parts of the body" of the women had suffered no injury through their voluntary abstinence from meat.

Mr. Masterman, parliamentary secretary of the house of commons, quoted the declarations of the prison doctors that the health of the prisoners is good. Only one of the women prisoners adheres to a preference for fasting by tube, though some of the others are being fed with soups or feeding cups.

## GEN. GRANT OFF FOR A RIDE

Chicago, Oct. 3.—Gen. Frederick Dent Grant, of the department of the lakes, and staff officers of the department, left Waukegan yesterday morning for a 90-mile horse back ride, required of officers by the war department. The party on its first ride went about 50 miles before they turned back for the night and will continue the journey today.

## PEARY EXPLORATION ZOOLOGICAL TROPHIES

New York, Oct. 3.—Among the zoological trophies brought back from the polar regions by the Peary expedition, ship Roosevelt, are several canis in which have been preserved the fish of the farthest north. From these exhibits which will be given to the American museum of natural history, it is indicated that the farther north one goes the smaller the fish become. The last fish to be found in the progress toward the north pole were scarcely more than a half inch long. Most of the long fish are of strange varieties, which the scientists will be called upon to classify.

The Roosevelt also brought back the hides and bones of a number of musk ox, walrus, narwhale, blue and silver foxes and arctic deer.

These have all been turned over to the museum of natural history where they will be mounted for exhibition.

## MONEY COMES IN BUNCHES

to A. A. Chisholme, of Trondheim, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I could not sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infalible for Stomach, Liver, Kidneys, Blood and Nerves. 50c at Z. C. M. I. Drug Dept., 112-114 So. Main St., Salt Lake City.

## FERNANDA WANNAMAKER MARRIES FRENCH COUNT

Paris, Oct. 3.—Miss Fernanda Wannamaker, daughter of Rodman Wannamaker and granddaughter of John Wannamaker, was married today to Count Arthur de Heeren, son of Count Heeren of Paris and Biarritz.

There were two ceremonies. The first was carried out in the Catholic church of St. Philippe due Role, with full orchestral accompaniment. This was followed by a Protestant marriage service, the Rev. Alfred G. Mortimer of Philadelphia, officiating.

Henry White, the American ambassador, and the Marquis del Muni, the Spanish ambassador, were witnesses.

After their honeymoon, which will be spent in Italy, the couple will take up their abode in Paris.

## JOHN MORLEY CHEMICAL LABORATORIES OPENED

Manchester, Oct. 3.—To mark the opening of the John Morley chemical laboratories presented to Victoria university of Manchester by Andrew Carnegie, Lord Morley, chancellor of the university, conferred the honorary degree of doctor of laws on Whitelaw Reid, American ambassador.

In conferring the honor Lord Morley spoke of the benefits of education but frequently was interrupted by suffragettes.

Ambassador Reid in replying expressed his pleasure at standing among the cotton mills of Lancashire, within reach and hearing of the common operatives, who in the great crisis of his country's history, although suffering threat, the weight of their sympathy and influence on the side of freedom. Their action, he said, would never be forgotten by America.

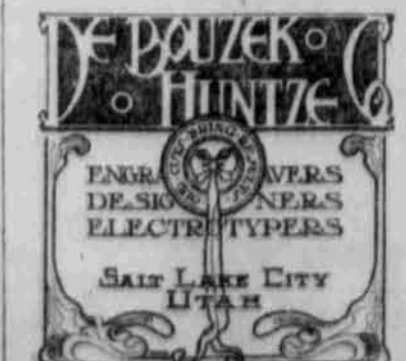

## JOE HARRIS, COW PUNCHER, KILLED BY JOE PACE

Grand Junction, Colo., Oct. 3.—Joe Harris, cowpuncher, who shot and killed Harry E. Sieber, millionaire cattleman, in 1902 near Westwater, Utah, met death yesterday in a similar manner at the hands of Joe Pace, another cowpuncher. Pace, who was one of Sieber's cowboys at the time of his employer's murder, came to avenge the shooting. Yesterday he rode into Westwater, informed the authorities he had killed Harris, and awaited the arrival of the sheriff from Moab, Utah, where he was taken into custody. Harris's body was found about three miles east of Westwater at the spot designated by Pace. His horse was grazing nearby.

## CONSOLIDATED MUSIC COMPANY'S REMODELING SALE A BIG SUCCESS

### Several Pianos Sold First Day

As predicted in the company's first announcement the prices were so extraordinary the people simply could not stay away. Notwithstanding the unsettled condition of the store, those who recognized the remarkable savings in piano prices were out early making their selections from the large stocks of high-grade instruments.

### Standard Pianos and Organs Unmercifully Cut.

While it is true that several second hand instruments are being disposed of at ridiculously low prices, the sale also includes pianos and organs from the regular lines at prices that defy competition. We hardly believe similar bargains will ever be offered again in this state—at least we hope we may never find it necessary to make such strong bids for patronage.

### Low Prices Made to Stimulate Trade Now.

Under ordinary circumstances we would not think of making such offers as we do now, even for a sale. Remodeling our entire establishment makes the store look anything but inviting, so it becomes necessary to present unusual inducements to keep up the trade. Our losses during the time of remodeling will be the public's gain.

### Pay What You Can Now—Balance Later.

The terms of payment need not enter into the question of a purchase, they are made so easy. The humblest home can now have the pleasures that a good instrument affords.
