THE EVENING NEWS.

Wednesday, - - - March 29, 1871.

PRICE OF GOLD.

Quotations Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, March 29, 1871.

Buying at $1.08; Selling at $1.11.

LOCAL AND OTHER MATTERS.

THEATRICAL.—Last night there was another splendid performance at the Theatre in the presentation of "Lady Audley's Secret." Miss Evans, in the title role, furnished an additional claim to be ranked among first-class artistes. She was well supported by Messrs. Waldron, Power, Margetts and Thorne and Mesdames Bowring and Clawson. The only drawback was the slim attendandance, a proof that the theatre-goers of this city are doing themselves an injustice, for they have had very few opportunities either here or anywhere else of seeing so accomplished an actress as Miss Rose Evans; and the entertainments this week, with the combination of Miss Evans and Messrs. Waldron and Power are of unusual excellence.

To-night the beautiful play of "Ingomar," will be presented, Miss Evans appearing as "Parthania," Mr. Waldron as "Ingomar," Mr. Power as the "Timarch of Massilia," Mr. Margetts as "Polydor." Other characters by the strength of the Company.

The performance this evening will conclude with the farce, "The Dutchman's Ghost," in which the character of "Hans Barth" will be sustained by Mr. Harris, who is specially excellent when personating an Americanized Teuton.

One very noticeable improvement now being effected at the Theatre, is the promptitude with which the performances are conducted. The overture commences precisely at six or seven minutes before eight o'clock, and immediately on its termination the curtain rings up, and, from first to last, business is the order of the evening.

This is an improvement which the public will certainly appreciate, and for which the Stage manager, Mr. Harris, deserves a good share of credit.

WANTED—A Paper-carrier. Apply immediately at this Office.

UTAH A MARKET FOR NEVADA WOOL.—The Reese River *Reveille* of the 24th, says that the production of wool will be carried on in future, in Nevada, on a large scale, and in view of the erection of numerous woolen mills in Utah, it recommends the wool producers of Nevada to send their wool to the Utah market, saying that they may go further and fare worse than by doing so.

"FOUND DEAD."—On the morning of the 24th inst., a miner named Allen was found dead on the bar about a mile below the town of Blackfoot, Ms. When last seen alive,—on the Sunday evening previous, he was under the influence of liquor, and it is supposed that he laid do wn and was chilled to death.

SCHOOL FESTIVAL.—Yesterd ay evening there was an exhibition of the 2nd Ward Day School, which has been under the superintendence of Miss Cook and Miss Celestia Young during the Winter.

Songs, recitations and a dramatic representation occupied the commencement, which was followed by dancing for young and old to a late hour. The hall was very tastefully decorated with beautiful transparencies and mottoes, by Dan Weggeland, and festooned with evergreens.

The whole of the proceedings reflected great credit on all concerned; the utmost harmony pervaded the crowded assemblage.

TERRITORIAL ITEMS.—The following items were received by Deseret Telegraph Line, after going to press yesterday afternoon:

BRIGHAM CITY, 28.

Our co-operative woolen factory is in full operation,—carding machines, spinner looms, etc., all working splendidly. Machinery purchased of Davis & Furber, manufacturers, Andover, Mass.

ST. GEORGE, 28.

This place, yesterday afternoon was visited by a very severe wind storm. The roofs were blown off several houses, and some large shade trees torn up by the roots. Large numbers of telegraph poles were blown down between here and Washington. Two men have been out all day repairing the damage.

The following news was received by Deseret Telegraph to-day.

PROVO, 29.

This place was visited with a very heavy wind-storm, commencing about half-past 12 this morning, and lasting about one hour; it terminated in a slight sprinkle of snow. The weather is very cold. No particular damage has been heard of. The mining fever has somewhat died away, and there is no excitement except over a rich silver ledge at the mouth of Spanish Fork Kanyon, showing better indications of coal than silver.

A mining district has been organized at Santaquin, and the whole face of the mountain from Santaquin to Payson has been staked off and claimed, the discoverers claiming that the ledges are rich in silver and copper. A few citizens of this city are deeply interested therein.

Good reports come from the Tintic mines; they are paying better than at first expected, so say the owners; but we do not see much of the rich results as yet.

The woolen factory is progressing and the machinery is arriving. The superintendent feels buoyant that the building will be ready by the time the machinery is ready to be put in running order.

The small grain is mostly sowed, the farmers wanting a little rain to start the crops. All is very quiet, not even a "drunk" to be found.

OGDEN, 29.

The company owning the "Magnolia" have again commenced work on the ledge, they have contracted for digging a tunnel of fifty feet, at seven dollars per foot. The ledge is owned by Messrs. Childs & Higginbotham and others, who are determined to give it a fair trial. The boulder rock assays gold, pyrites, iron, copper and silver, and will pay for crushing now, so mineral judges say. The "Mammoth" turns out light colored granite mixed with soft quartz, assaying from $80 to $250 per ton in silver. The "Red Cloud" is cropping out, but the owners are doubtful about finding the real ledge or vein, as the discoveries already made are said to indicate that the claim has been thrown up by a volcanic eruption.

A meeting of the shareholders, President, Directors, etc., of the 1st, 2nd and 3rd Ward stores, was held in Child's Hall, yesterday, and effected a consolidation into two stores, comprising dry goods, drugs, etc., electing a new President and Directors, etc. The weather was quite stormy last night, and the wind loud and wintry; this morning there are two inches of snow.

A CURE FOR RHEUMATISM, READ IT.—The Ogden *Junction*, of Saturday, says:

"A few days ago Mr. H. B. Forbes, of this city, was bathing his leg before the fire with alcohol, being afflicted with rheumatism, when the stove door flew open, the flames caught the spirit, and Mr. Forbes' leg was severely burned. His brother, seeing the flames, threw a blanket round him and prevented further injury. Dr. Woodworth is attending the invalid, who is progressing favorably. Since the accident he has felt no more of the rheumatism."

On the "rheumatic" subject a correspondent of the *Western Rural* offers the following, which may be worth remembering and trying by those afflicted:

"In the spring and summer of 1866, my wife was so afflicted with it that she could not use her right arm and was unable to rise up in bed. We tried many liniments, recipes and medicines, but to no purpose. * * * One day an old German veterinary surgeon told us to take equal parts of the best oil of juniper and spirits of turpentine, and apply it to the parts affected. I did so, and in a few days the rheumatism had entirely disappeared and my wife was well. A few weeks later, while at a picnic, she caught cold and was soon as low as ever. Again did we apply everything we could get, galvanic batteries, and all. We got the above recipe filled, both the oil and spirits being as clear as pure water, and in a few days she was again well and has remained so for over two years. Always be sure to use only the best quality of oil and spirits."

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week.

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (all the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satin wood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely from the operator, permitting her seat in a natural and healthy position. In nearly other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machine drive their Shuttle a race, thus causing great wear, and requiring oil, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, can be readily and easily managed by those who *utterly fail on other Machines.*

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machine. These old and well-tried Sewing Machines are applicable to all kinds of heavy and fine manufacturing in *Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but *solicit their Great Merits to recommend them.* We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they are hourly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but be sure and buy without you examine the Singer.

We Guarantee every Machine we sell, & give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE

Is the only Practical one in the World.
